

# MOYER'S PETITION WAS GRANTED.

U. S. Judge Beatty Issued Alternative Writ of Habeas Corpus, Returnable Monday.

## INDICTMENT READ TO ORCHARD

Refused to Enter Any Plea—The Court Appointed Counsel For Him.

Boise, Ida., March 15.—United States Judge Beatty granted the alternative writ of habeas corpus petitioned for by attorneys for Moyer, Haywood and Pettibone this afternoon. The writs are made returnable Monday morning, when the matter will be argued and submitted.

A stipulation was entered by the attorneys for the applicants and the state by which the prisoners will not be personally required to be present at the hearing.

The petitions for the writs contained practically the same statements as were made before the state supreme court, which on Tuesday refused to grant writs of habeas corpus.

Seven heavily armed guards, five of them bearing rifles, assisted Sheriff Jasper C. Nichols in taking Harry Orchard from the penitentiary to Caldwell. At Caldwell, Orchard was taken into the sheriff's office, where he remained until 2 o'clock this afternoon, the hour of his arraignment before Dist. Judge Frank Smith.

As the indictment was read to him he stood with clenched hands and his eyes riveted upon the floor. When asked if he had counsel he replied he had not. Asked if he desired counsel he replied in the negative. The court, however, appointed C. B. Cox and E. L. Bryant of Payette to defend him.

An adjournment was taken to give them an opportunity to confer with their client. At 4 o'clock Orchard was brought in to plead, and stated he had no plea to make. Asked if his right name was Harry Orchard, he said it was. No time was fixed for the trial.

Before the arraignment of the other accused men a stipulation had been entered into between the prosecution and Fred Miller, his former counsel, that the trial should go over the present term of the district court. Orchard was brought back tonight to the pen.

Vincent St. John, who was arrested at Burke, this state, on a charge of being implicated in the murder of former Gov. Steunenberg, is on his way to Colorado tonight, in custody of officers from that state.

At 2 o'clock this afternoon the Canyon county grand jury at Caldwell returned a no true bill against him, the case against him on which he was arrested after being released on habeas corpus yesterday, was then dismissed and he was taken down on the extradition warrant issued by Gov. Gooding. Sheriff Nichols at once turned him over to Sheriff Rutan and Deputy Meldrum of Montrose county, Colorado, and they left with him at 4:40 for Colorado.

## SNOWSLIDES BLOCK COLORADO RAILROADS.

Denver, March 15.—Special dispatches from all over the state indicate that the storm which has continued intermittently since Monday reached its most violent state today and is continuing tonight.

All reports indicate the present storm is the worst Colorado has experienced in years. The Colorado & Southern road out of Leadville is blocked by a slide which came down on Rock Slide, 10 miles from Leadville. From 10 to 40 feet of snow is reported on the continental divide near Buena Vista.

Snowslides have been running in the mountains and it is reported that two miners were probably killed by a slide near Animas Forks, in southwestern Colorado.

No other fatalities have occurred so far as known. The North Pole mine near Crested Butte, has been isolated since the first of the month, but the miners employed there are believed to be safe.

Owing to the heavy fall of snow Durango has not had a through train, with the exception of one from Farmington, since Sunday night.

Both the Rio Grande Southern and the Silverton branch of the Denver & Rio Grande are closed by slides. The tracks of the Southern above Rico for over half a mile are covered by slides.

A number of slides crossed the Silverton line and it is reported that about four miles of track are under from six to 50 feet of snow.

Little work is being done to clear either of these lines, as all of the available men have been taken to clear the tracks of the line on Cumbre hill, which is under about five feet of heavy snow.

On the Colorado Midland railroad a train from the west with 25 passengers was stalled all day in deep snow-drift, a few miles west of Leadville, but in general more trouble was experienced today by the prairie roads than by those running through the

# INTERESTING LETTER

WRITTEN BY AN OTTAWA WOMAN

Mrs. Sarah Kellogg of Denver, Color. Bearer of the Woman's Relief Corps, Sends Thanks to Mrs. Pinkham.

Mrs. Sarah Kellogg

The following letter was written by Mrs. Kellogg, of 1628 Lincoln Ave., Denver, Col., to Mrs. Pinkham, Lynn, Mass.: "Dear Mrs. Pinkham: For five years I was troubled with a tumor, which kept growing, causing me intense agony and great mental depression. I was unable to attend to my house work, and life became a burden to me. I was confined for days to my bed, lost my appetite, my courage and so on. I could not bear to think of an operation, and in my distress I tried every remedy which I thought would be of any use to me, and reading of the value of Lydia E. Pinkham's Vegetable Compound to sick women decided to give it a trial. I felt so discouraged that I had little hope of recovery, and when I began to feel better, after the second week, though I had only meant temporary relief, but to my great surprise I found that I kept gaining, while the tumor lessened in size.

"The compound continued to build up my general health and the tumor seemed to be absorbed, until, in seven months, the tumor was entirely gone and I a well woman. I am so thankful for my recovery that I ask you to publish my letter in newspapers, so other women may know of the wonderful curative powers of Lydia E. Pinkham's Vegetable Compound."

"When women are troubled with irregular or painful periods, weakness, displacement or ulceration of the female organs, that bring down, feeling, inflammation, backache, dizziness, general debility, indigestion or nervous prostration, they should remember there is one tried and true remedy, Lydia E. Pinkham's Vegetable Compound, at once removes such troubles."

"No other medicine in the world has received such widespread and unequalled endorsement. No other medicine has such a record of cures of female ills."

"Mrs. Pinkham invites all sick women to write her for advice. She is daughter-in-law of Lydia E. Pinkham and for twenty-five years under her direction and since her decease has been advising sick women free of charge. She has guided thousands to health. Address, Lynn, Mass."

"Remember that it is Lydia E. Pinkham's Vegetable Compound that is curing women, and don't allow any druggist to sell you anything else in its place."

## WALLACE, IDA., WILD WITH EXCITEMENT.

Fireman Clearing Away Ice in a Stream Strikes Big Dynamite Bomb.

## FORTUNATELY NO EXPLOSION.

Internal Machine Contained Enough Explosives to Have Killed Hundreds.

Spokane, Wash., March 15.—Following the attempt made three weeks ago to blow up the Standard mill, three miles above Wallace, Ida., a dynamite bomb, weighing six pounds, was found this morning in the ice on the south fork of the Coeur d'Alene river, back of the fire station and in the very heart of Wallace.

The finding of the internal machine, which contained enough explosive to send hundreds to their deaths, has set Wallace wild with excitement. Thinking the bomb was discovered by William Schullberg, a member of the fire department. He dealt the bomb five blows with a pick before he discovered what it was. The dynamite was frozen or Schullberg would have been blown to atoms and the fire station demolished with a fearful loss of life.

Schullberg was engaged in clearing away a pile of wood. Thinking to dislodge it, he drove his pick into it. He then hit it four or five times with the reverse end of the pick.

When he discovered that he was picking away at a bomb, Schullberg hurried to the sheriff's office.

Deputy Sheriff Hicks returned with him and together they brought the internal machine to the station. The quantity of dynamite was estimated at five pounds.

The bomb was a lead-lined cylinder 14 inches long and 2 1/2 inches in diameter. It was filled with dynamite, and was secured by a fuse or electric wire.

On one side was an opening with a flap of metal to cover it. This was the place where the fuse was to be applied. The whole thing weighed 45 pounds.

It contained over 30 pounds of dynamite and could have been set off by either a fuse or electricity.

## THE BRITISH ARMY.

Motion to Reduce it by 10,000 Promptly Rejected.

London, March 15.—In the house of commons, sitting at 10 o'clock, a motion on army estimates today, Maj. Seeley (Liberal) moved a reduction of the army by 10,000 to the statement of the secretary of state for war, Mr. Haldane, secretary for war, would not commit himself to a definite scheme, he said, until he had time to work one out.

Maj. Seeley's motion was rejected by a vote of 26 to 12. After some further discussion, in the course of which Premier Campbell-Bannerman appealed to the house of commons to have patience and allow Secy. Haldane to examine the whole intricate army problem. The premier added that the government's desire was to be as little provocative as possible whilst doing its utmost to stop the growth of expenditure without prejudicing the efficiency of the military defenses.

The division revealed the first revolt of the cabinet against the secretary of war, the majority of 56 votes in the negative being composed of Radicals and Laborites.

## POLITICAL PRISONERS SUBJECTED TO TORTURE.

St. Petersburg, March 15.—Prof. Courtenay, a member of the academy of sciences, in an open letter today describes the horrible tortures to which he asserts the political prisoners at Warsaw were subjected by Chief of Police Grewin.

He states that out of 147 cases in which prisoners are starved, and on four consecutive nights were beaten with clubs, jumped on their heads, pulled out by the roots and the soles of their feet cut with knives until they signed statements confessing their guilt.

Reports of meetings of the small landowners to select delegates to the provincial assemblies, say the attendance has been light on account of the distance the delegates have to travel. For example, at Chukhloma, province of Krestnoma, there were only 39 out of 147 delegates present.

Among the delegates almost invariably the presence of priests is notable. In the southern districts there are many German colonies. Germans have been chosen.

In the Orel districts the peasants elected two members who are now under arrest. One of them has been sentenced to exile.

## HIGHWAYMEN MAKE BIG HAUL.

Great Falls, Mont., March 15.—Killed and captured the last of the highwaymen company at the hands of highwaymen. John Peterson, a trusted employee, was carrying the money from Kalispell to the works at Toms, about nine miles distant.

Near the mill he was stopped by three men. One held the team, another held a gun at Peterson's head and the other secured the currency.

The men were disguised, but are believed to be from that locality, and who knew the customs of the company in paying his men.

## AN EXPENSIVE ESCAPE.

Knoxville, Tenn., March 15.—A compromise was effected in the federal court here today in the case of the government against J. W. Fox and his henchmen, as sheriff of Knox county.

The government sought to recover damages from Fox on account of the escape of Harvey Logan, the convicted Montana train robber, who escaped from jail here in June, 1904, while awaiting transportation to the Ohio prison.

The compromise was made on the defendant's paying into court \$5,000 and costs.

## FORGER MAKES CONFESSION.

Dayton, O., March 15.—C. S. White, the last of a gang of forgers who have worked extensively in Chicago, Omaha and St. Louis, was arrested Wednesday in Lima and confessed in this city today. He stated that checks were printed by himself and his men, identical with those used by the Illinois Steel company.

They were made out in sums of \$50 and \$5, and on pay days at the plant the men would dress as Hungarians, be in the crowd and present their checks for payment at banks or saloons near the factory.

White said he cleared up about \$50,000 before leaving Chicago.

## WALSH'S PROPERTY.

New York, March 15.—Representatives of the Chicago clearing house committee, which has charge of the affairs of John R. Walsh, the insolvent banker of that city, were in conference today with the heads of the Lake Shore & Michigan Southern Railway, the Pennsylvania railway and the Rock Island company. The conference had to do with the Walsh railroad properties, the Indiana Southern and the Chicago Southern railways.

statement was issued by any of the conferees, but it was learned that no agreement was reached, because of the terms demanded by the Chicago creditors.

In financial circles recently it was declared that Walsh's creditors had named \$25,000 as the minimum price they would take for the railroad properties. The offer of the Lake Shore-Pennsylvania-Rock Island combination is said to be near \$25,000.

The Chicago committee is expected to submit the offer of the combination to the creditors without delay. Meanwhile negotiations may be said to be at a standstill.

## PLOT TO ASSASSINATE DR. PARKHURST A HOAX.

New York, March 15.—The alleged plot to assassinate Dr. Charles H. Parkhurst was all a hoax, according to the confession made today by Lawrence Rogers, the man who told the story upon which the investigation of the alleged plot was based.

Rogers' confession was made before Magistrate Wahl, in police court, this afternoon, while he was being examined in John Doe proceedings in connection with the affair. He was promptly arrested on the motion of Dist. Atty. Jerome and held for the grand jury on a charge of perjury.

## A DEADLY EXPERIMENT.

One Man Killed and Another Probably Fatally Burned.

Williamsport, Pa., March 15.—While conducting an experiment with certain chemicals in a small shed near the Williamsport staple works today, William Burger, aged 39, the master mechanic of the plant, was killed outright by an explosion, and Charles C. Krouse, president and general manager of the concern, was so badly burned that his recovery is doubtful.

## CANNERIES IN U. S.

Washington, March 15.—A census bulletin on the preserving and canning industries in the United States for 1904 shows 2,687 establishments with a total capital of \$69,599,316, an increase in capital over 1900 of 45 per cent.

## BOMBS SEIZED.

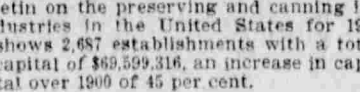

Moscow, March 15.—Gen. Ribot, the prefect of police, today issued a proclamation warning the population in view of the alarming number of troubles of his determination to suppress energetically any attempt to disturb the peace.

## LEFT MILLIONS TO SON.

Victoria, B. C., March 15.—The last will of Frank Liberator, a Knoxville millionaire, who recently killed himself at San Francisco, has been found in a safe on his claim on Eldorado creek. It was executed at Los Angeles, his home, on March 7, 1904, and leaves all the property to his fifteen-year-old son, Frank, attending school at Portland, Or.

The dead man alone had the combination of the safe and it was brought to Lewiston and broken in the presence of law officers.
