As the blood contains all the elements necessary to sustain life, it is impor-tant that it be kept free of all impurities, or it becomes a source of disease, poisoning instead of nourishing the body, and loss of health is sure to follow. Some poisons enter the blood from without, through the skin by absorption, or inoculation; others from within, as when waste products accumulate in the system and ferment, allowing disease germs to develop and be taken into the circulation. While all blood troubles have one common origin, each has some peculiarity to distinguish it from the other. Contagious Blood Poison, Scrufula, Cancer, Rheumatism, Eczema and other blood diseases can be distinguished by discase shows sooner or later on the outside and on the weakest part of the body, or where it finds the least resistance. Many mistake the Lore or outward sign for the real disease, and attempt a cure by the use of salves, liniments and other external applications. Valuable time is lost and no permanent benefit derived from such treatment. a certain sore, ulcer, eraption or inflammation oppearing on the skin. Every blood

BLOOD TROUBLES REQUIRE BLOOD REMEDIES; the poison must be completely and perma-nently eradicated — the blood reinforced, purified and cleansed, or the disease goes deeper and saps the very life. Mercury, potash and arsenic, the treatment usually prescribed in this class of diseases, are violent poisons, even when taken in small doses — never cure, but do much harm by adding another poison to the already overburdened, diseased blood.

S. S. S., Nature's own remedy, made of roots and herbs, attacks the disease in the blood, antidotes and forces out all impurities, makes weak, thin blood rich, strong and healthy, and at the same time builds up the general health. S. S. S. is the only purely vegetable blood purifier known, and the only one that can reach deep-seated blood troubles. A record of 50 years of successful cures proves it to be a reliable, unfailing specific for all blood and skin troubles.

BARBER SKIPS THE TOWN.

A man by the name of William Malson came to Ogden some time ago with his wife. He decided to open up a barber shop, and met a young man named Scott with whom he formed a partnership. They opened up their timestel tonsorial parlors near Twenty-third street on Washington Avenue. The nsorial business seemed to prosper fairly well and everything went on all right apparently, Saturday evening the busi-ness was kept open until midnight, Mai-son was left to lock up, but before he did to he must have packed up the razors, clippers and other small articles, for the next morning when Scott came to his store he found only the chairs and miture left. The police were notified the affair but have found no trace of Maison's whereabouts. His wife went with him. It is also stated that he has left several bills unpaid.

Mission Calls - Births - Funeral of Mrs. Wangsgard. Special Correspondence.

Huntsville, Weber County, April 2.-The election is over and political ex-citement is done with for a few months at least. Very little enthusiasm was manifest. CALLED ON MISSIONS.

George A. Burrows, Joseph Felt and N. P. Lotgreen departed last week for foreign missions. A. H. Sprague and wife Matilda re-ceived notice from Box B to prepare for a journey to California, there to re-main and labor as missionaries for some months to come. They will leave

in August. George M. Cannon and Andrew Jenson were visitors here last Sabbath and gave good instructions. The people have been very busy the

last few months in attending birthday parties, and many gay times have been enjoyed.

RIVERSIDE, IDAHO.

We learn that there is an excursion of homeseekers coming up from Utah to look up Snake River valley pros-pects, and we would like some of the people to stop here and examine our facilities and opportunities for making good homes on land that can be bought cheap. There are about 3,000 acres around here for sale by parties who have too much land and others who want to move away. We are on the west side of the river from Blackfoot, and have the best climate in this north-ern region. We are raising much fruit now of many kinds and fruit men think that peaches will be grown here in the near future. Our irrigating facilities are not excelled in this State. We want a shoemaker and harness niender combined; and a blacksmith. Our ward is growing finely, and we want it to continue. We have what will make a good self-supporting ward. We learn that there is an excursion hienau, Our ward is growing. We have what want it to continue. We have what will make a good self-supporting ward. We have good schools, meetings, and different organizations of the Church in different organizations of the Church in mood running order. We have put in mood running order. We have put in the self. good running order. We have put in much grain already, and can do so all this month. Today we are having as nice a rain storm as the writer ever saw, and everything is pointing to a

prosperous season. Parley Facketall's wife is improving after a severe slege of sickness. The health of the people generally is good. Any one desiring any information can obtain it by addressing Bishop G. B. Wintell, Riverside, Bingham Co., Ida-
