Local and Other Matters.

THERMOMETER 84 degrees F. in the shade at 1 p. m. to-day. Fine.

President Young and Party.—President Young and party stopped at Garrison last night. They expected to reach Nephi to-night and home to-morrow.

Being Claimed.—Most of the herd of cattle recently stolen by "Ben" Tasker have been claimed by parties living in different parts of the Territory south.

School Teacher.—Any Ward or settlement in the Territory in need of a competent school-teacher, capable of instructing pupils in the higher branches, can hear of one by communicating with this office.

The Number of Hands.—One hundred and three hands, stone-cutters and laborers, are at work on the Temple Block, and in the vicinity of forty are in the quarry.

Closed.—Superintendent Clawson announces, in an advertisement, that the various departments of Z. C. M. I. will be closed on Monday and Tuesday. Customers should remember this and act accordingly.

Still at It.—The Smith-Cottrell disagreement, connected with the Warm Springs land dispute case, goes on unabated. The latest act of the latest named party was to take the fastenings from the gates and carry them off.

Badly Hurt.—Last night as a gentleman, a resident of the 15th Ward, whose name we did not learn, was driving along the 20th Ward, the front wheels of his buggy pitched suddenly into a deep gully, throwing him out, his forehead striking the ground, cutting a deep gash across it, and he was also injured in one of his arms. The horse ran away, but was caught by a young man who happened to be near.

Badly Damaged.—The damage done to the North Temple Street stone culvert, by the City Creek high waters, is so great that most of it will have to be taken out and rebuilt. The timbers of the bridge over the stream where it crosses East Temple street are also so much damaged that they will have to be taken out and replaced by new ones. New bridges will also have to be put in at other points on the stream.

Roads and Bridges.—Messrs. Armstrong & Bagley have been engaged for some time in making the "rough places smooth" in Big Cottonwood Canyon, repairing the damage to roads and bridges done by the lately roaring, foaming stream. They have put in five bridges and got the road in such condition as to enable them to haul out their lumber from the mill. Frank says it is not much of a road yet, but they have, in his own phraseology, succeeded in "getting a hole through."

Another Sheep-Herder Shot.—Brother B. W. Driggs, of West Jordan, sends the following under date of yesterday:

"Henry Sadler, of Salt Lake City, in the employ of Bateman Bros., was accidentally shot by an Indian, last Monday evening, on White river, east of Kanab. The ball entered the hip and came out at the thigh. Brother Sadler reached here last night by train. He says the Indian felt very badly about the misfortune and proffered 'Medicine' for the wound. The injured limb, however, is in an ugly one, but, with proper care, it is thought it will not prove fatal."

"Mormonism" in Mexico.—The following is published in the San Francisco Chronicle as translated from the *Semanario Oficial*, the official organ of the government of the State of Chihuahua, published in the city of Chihuahua: "A few days ago a remarkable event attracted the attention of the public of this place. Daniel W. Jones, a prominent Mormon Apostle, had printed and distributed handbills in which he announced that he would preach a sermon on Mormonism at the Zangara Theatre. Rumors that Mr. Jones and his co-laborers would be secured (apparently) for the purpose of attending the meeting, the audience present was very large and at first complete order reigned. The preaching commenced in the

midst of profound silence, which was an evidence that the audience was interested. After a little while a few disconnected persons commenced to throw small stones and pieces of wood at where the speaker stood, but they had few imitations and were frowned down by the good judgment of the majority. The lecture was not very interesting, the audience diverting itself principally by conversing with the speaker, and the difficulties of the Spanish language. The performance concluded with a heterogeneous mixture of applause and hisses. The Mormon missionaries intend to carry on their work along the Sierra. We wish them a pleasant trip, but we cannot assure them that they will meet with the same tolerance in other places that they have in Chihuahua."

Democratic Demonstration.—Last night the stars and stripes, suspended from a rope stretched across East Temple Street, from the Watch Hotel Building to the White House, floated in the breeze and still continues to wave in token of the satisfaction of Salt Lake democrats with the recently adopted democratic presidential ticket, Tilden and Hendricks. Olsen's band was on the balcony of the first named building, performing "Yankee Doodle" and other national airs, causing a considerable crowd to collect. Towards ten o'clock the scene of operations was transferred to the front of the Walker House, where the meeting was brought somewhat into contempt by a fellow named Lascelles, who appeared to have taken too much of the ardent on board, putting himself forward in an attempt to make a speech, succeeded only in uttering a few jumbled sentences, which were scarcely audible. He said something about Utah being redeemed under a democratic administration, but if he individually didn't look like a specimen needing redemption we never saw one of that kind. The crowd, becoming impatient with his badly articulated and almost inaudible jumble, and windmill gesticulations, tried to shout him down, and derisively called for "Patsey Marley," and similar names.

After he got through there were loud calls for Tilden, who did not appear, but Mr. Burnes stepped forward and somewhat redeemed the character of the meeting by delivering a sensible and rather pointed address.

Kay's Grove.—The grove is large and beautiful, being sufficiently extensive in area to afford ample room and shade for all who may attend. It is distant about 100 rods from the Iron Works, and is approachable from that point by footmen, should any desire to go in that manner; in such case the road is via the U. N. R. track. We presume, however, a large part of the people going from the city and from distant points will go in cars of the above company, which will be kept in motion during the day. Carriages, buggies and wagons, however, can approach the grounds from the Ogden road, and by a good road thence to the grove. The grounds are well covered with a coat of clean grass; shade trees in abundance, dense in some places, and with just open spaces enough for the fireworks to make a good show. A stand for speaker, seats for invited guests, a platform for dancing, room and facilities for refreshments and amusements of various kinds, among which we noticed a new thing to us in sawing, there will be three of them, which, for want of a name, we will designate "Griffith's Rotary Swing." If our readers don't know what that is, let them go up to the grove on the Fourth and see.

The main point, however, we want to make is, that the grove is large enough, shady enough, cool enough (no mud there), and near enough to water (plenty all around) and as to dust, we don't see how the crowd of one day can raise one of Kay's Groves.—Ogden Junction, June 29.

For Fuller's Hill.—At 11 o'clock on the Fourth the Odd Fellows, Red Men, Knights of Pythias, members of the G. A. R. and their respective friends, organized in due order of procession, will march from East Temple Street, on First South Street, to Fuller's Hill, along the route to which resort the street will be sprinkled, to keep down the dust. At the Hill the time will be spent in speech-making and other exercises ordinary to such occasions.

During the evening there will be a display of fireworks.

Prevention.—During the next few days we may expect to hear of numerous disastrous accidents happening in various parts of the country, from the careless use of fireworks, fire arms, etc., in celebrating the Fourth of July. It is invariably the case at such seasons, every time they come around. Accidents hereabout, however, have been fewer at Fourth of July times of late years than heretofore, because of the stricter enforcement of the law on the subject, and that fire and other damages to persons and property may be prevented during this Centennial Fourth, it is to be hoped the City authorities will not slacken in the matter.

Horses Recovered.—The band of horses driven off, supposed by thieves, from the head of City Creek on Monday, have all been recovered. They were found in East Cañon, near the place of a man named Hard. The animals were taken to Bountiful this morning, where they are held subject to claim of the parties to whom they belong.

Theatre.—The Theatre will be open for the Fourth. The Royal Illusionists from Egyptian Hall, London, will appear on Tuesday afternoon and evening, and on Wednesday and Thursday evenings, in their mysterious and startling illusions, "La Gena Infernal," "The Flying Cage," "La Fete de les Espadas," "Cabinet and dark scenes," etc.

Mr. O. E. Hall.—The removal of Mr. O. E. Hall from the position of Superintendent of the Western Division of the Union Pacific Railroad, is announced. The reasons for the removal are not known. The public Mr. J. J. Clark, of the Ogden Division, takes the place of Mr. Hall.—Ogden Junction, June 29.
