the plan, then the city will take up the work and collect the cost from the abuiting property owner. It is the intention of the board to include all of the paved district on cach side of the street from fence to sidewalk, then between sidewalk and curb. In some districts a park will also be planted in the center of the street. The planting of a uniform grade of trees at curb lines will also be undertaken by the board, its ex-perits selecting the best trees for orna-mental purposes, taking into considera-tion hardihood in this climate. Mr. Byhower, the new superintendent of parks, is a German and before com-ing to this country reached a high point in landscape gardening. He is also well trained in engineering. CHARLESTON CREAMERY BURNS

Fine Bullding Destroyed With a Loss Of \$6,000 to \$8,000.

(Special to the "News.") Charleston, Utah, Jan. 23 .- A fire broke out in the fine building of the Charleston Creamery company early this morning and resulted in the total loss of the plant. People turned out and did all they could to save the place, but only the books and some of the butter which was in boxes was moved in time. The loss will be sev-erely felt as the plant was a fine one and only light insurance was carried, the exact amount not being obtain-able at this time. It is estimated that the loss will run between \$6,000 and \$8,000. The plant was owned entirely by local stockholders. of the butter which was in boxes was

VAUDEVILLE TROUBLES.

New York, Jan. 23.-The Vaudeville Comedy club and the "White Rats," Comedy club and the "White Rats," organizations composed of vaudeville performers, have appointed committees to confer with regard to a plan for a working agreement between the two organizations. Now that the competi-tion in the vandeville business is prac-tically ended so far as the managers are concerned, the performers are of the opinion that a great reduction in salaries will result and the two organi-zations have therefore practically agreed to combine in an effort to keep up salaries. It is stated by members of the organizations that there is no idea of a strike of performers, but that the joint committee will act as a board of arbitration to settle disputes between performers and amanagers.

Bill to be Introduced in Congress to Encourage School Boys in It.

New York, Jan. 23.—It is said that there will be introduced in Congress within a short time a bill providing for the encouragement of rifle shooting among school boys. The plan is to have the government furnish firearms and ammunition for the regular schoolboy associations, as they are now furnished to the national guard of the various states. School boys in New York state have taken great interest in target practise and the associations of school boys are constantly growing. The New York, Jan. 23 .- It is said that boys are constantly growing. The shooting is done under the direction of competent teachers and some excelof competent teachers and some exce-lent scores have resulted. President Roosevelt is much interested in the plan to make good shots of school boys, and it is said, favors the proposed bill.

AMERCAN CITIZENS SOON TO BE PERFECT.

Chicago, Jan. 28 .- A prediction that Americans are soon to be citizens of the dream of ages and that our democracy is to blossom into a "kingdom of heaven on earth" is made by Prof. W. B. Elkin of the University of Missouri. He has recorded his opinions in souri. He has recorded his opinions in the American Journal of Sociology, the January number of which was is-sued yesterday from the University of Chicago press. The prophecy is made in an article, "The Problem of Civi-lization in the Twentieth Century." The author believes that in a cen-tury the earth will become many times more fruitful, the population of the globe will increase many fold, trans-portation will be cheapened, and final-ly "a heaven and new earth will ap-pear." pear." Before arriving at these Utopian con-clusions Prof. Elkin insists that many changes must be made in the coun-try's organization. He insists: 1—That every village and city must have a public physician who must not only cure people but keep them well. 2—That the government must supply lawyers who will give legal advice free. 3-That the clergy must take a brace and quit imitating. 4—That the colleges should print and edit the newspapers. 5—That insurance should be a function of government. 6—That railroads should charge no more than one-fourth of a cent a 7-That the cook question must be solved by gigantic eating clubs. 8-That labor must keep on organizing STRUCK BY SOLDERING IRON. STRUCK BY SOLDERING IRON. New York, Jan. 23.—Dropping from the forty-second story of the new Sing-er building on lower Broadway yester-day afternoon, a red hot five-pound soldering iron landed on the head of a mason helper, who was at work on the twenty-seventh floor of the adjoining City Investing building, burning and fracturing his skull. The victim, John Boyle, 36 years of age, was taken to a hospital in a dying condition. It was not learned who dropped the Iron. Another missile, this time from a mysterious source, in the shape of a good sized steel bolt, crashed down through the skylight of the federal building yesterday, narrowly missing Asst, Postmaster Murphy as he was walking under the glass. Whence it came is still a mystery. WOMEN'S WHIST LEAGUE. New York, Jan. 21.—Detroit was select-ed as the next meeting place of the Wo-men's Whist league at a meeting of the national organization held here yesterday. The week beguning May 4 was chosen as the date. One hundred whist clubs, scattered from Maine to Texas, with an individual membership of about 3.000, are included in the organization.

PLAN FOR NEW PARKS.

Commissioners Direct Supt. Byhower

To Prepare Specifications.

New parks are being planned by the board of park commissioners, and board of park commissioners, and specifications have already been or-dered for District 1. This district comprises all of the paved district be-tween South Temple street and Second South street east from State street. Superintendent Byhower will prosent the specifications to the board within a short time and the notice of inten-tion will then be published. The ordi-nance creating the board specifies the manner in which the work on park districts is to be done. After adver-tising the notice of intention, property owners will have the same right to protest agalost the improvement as they have in paving, watermain exprotest against the improvement as they have in paving, watermain ex-tensions and other public improve-ments. If the plan is not defeated, then the work will be proscuted ac-cording to the specifications. If prop-erty owners do not of their own ac-cord have the work done according to
