

RUSSIAN PRESS COUNSEL PEACE.

Russia Would Never be a Mover
For Combination of Powers to
Exert Pressure on Japan.

WITTE'S INSTRUCTIONS DEFINITE

His Powers Are Full, and is Absolute
Master of Country that Has
Appointed Him.

St. Petersburg, Aug. 1.—The Russian press, today counsel patience for the brief interval before the meeting of the peace plenipotentiaries and dwell on the futility of attacking men of straw before it is definitely known what terms the Japanese propose.

The Russian says: "M. Witte has definite instructions as to what demands will be absolutely unacceptable and will know what course to adopt if such demands are presented. We are ignorant of the Japanese proposals, but will know what they are in a few days. Meanwhile let us wait."

Discussing the supposition that a combination of the powers might be formed to exert pressure for the modification of extortionate Japanese demands, N. Neratoff, the spokesman of the foreign office, in an interview in the Gazette, declares that however much such a proposal might be advantageous to other powers, Russia never would be the mover of such a project, as it believes that all questions connected with the settlement of the war should be decided directly between the two countries interested. China, he said, had advanced no claim to compensation for losses sustained on account of Manchuria being the theater of war, but to such claim would be equivalent to a full power of attorney, and that "in the conduct of negotiations the plenipotentiary will appear as the absolute master of the country which he represents, the trust in him." Nevertheless, M. Witte, he said, had been instructed as to maximum of concessions and if the Japanese demands exceeded those, there would be nothing to do but to break off the negotiations.

The Soviet also declares that China has not standing in the favor of the Manchurian damages and that Russia never will pay for the privilege of shedding her blood in a country to which she was called by the "Boxer" outrage.

The Chinese minister at Paris, Mr. Souei, has arrived in St. Petersburg. He had a conference with the Russian minister today with the Chinese minister to Russia, Mr. Hoo.

HAPPY TO VISIT AMERICA.
On Board Steamship Kaiser Wilhelm Der Grosse, via Wireless Telegraph Station at St. Petersburg, Mass., Aug. 2.—After a good passage across the Atlantic, M. Witte, Russian envoy to the peace conference at Portsmouth, N. H., is in perfect health.

Speaking of his approaching arrival in America, M. Witte said: "I am happy to visit America, which country I am most anxious to know. My only regret is that I cannot speak English, as I should like thoroughly to appreciate the country whose progress and development are so interesting and instructive."

"I shall also be glad to have personal intercourse with President Roosevelt, who has reached such a prominent position as a statesman, and to present him the greetings of Emperor Nicholas. It has also been stated that I am to test the ground for floating a Russian loan in America and discuss the relations between the two countries, especially regarding commercial affairs. My only mission is the negotiations for peace, but I am quite ready to express my personal opinion on questions affecting the relations between Russia and America, with a view to further strengthening the traditional friendship between the two nations."

IMPROPER USE OF MAIL.

John C. Hanley Arrested Charged With Fraud.

St. Paul, Aug. 1.—John C. Hanley, publisher of the Alliance Advocate and well known throughout the west as a leader in the farmers' alliance and other political movements, has been arrested by United States Marshal Grimshaw on a charge of using the mails in connection with a scheme to defraud.

The charge is that in advertising matter sent through the mails of the Alliance Advocate, Hanley represented that this company had acquired the property of the Montana Cattle and Horse Company, now in the hands of a receiver, which representation is claimed to be false.

The consolidated company was organized a few months ago under the laws of South Dakota with Hanley as president and a capital of \$10,000. The government claims that the new company has practically no assets, and that in order to induce investors to buy stock in the new company, the promoter pretended to have acquired the property of the old company.

The Montana company is now in the hands of a receiver who is claimed to have assets of only \$45,000, with an encumbrance in the shape of a \$17,000 mortgage. In some of the literature sent out by Hanley, it is represented that the receiver has property worth \$107,150.

Mrs. Norton recently arrived in Chicago from California. She brought her two daughters, Cecile and Marie, with her. The widow proposed to establish her marital connection with the deceased by witnesses of the marriage. The marriage is denied by the relatives charged with conspiracy.

Reno, Nev., Aug. 1.—Gold was found in paying quantities in the bed of the Truckee river today, and all afternoon hundreds of gold seekers have been at work in the river. Relations Between Louisiana and Mississippi Have Become Much Strained.

PELICAN STATE IS INVADIED.

Mississippi Soldiers Employed as Guards Have Gone Into Louisiana With Arms.

New Orleans, Aug. 1.—The relations between the states of Louisiana and Mississippi have reached an acute stage and from indications tonight it will change from interviews about the concealment of cases to a much more serious matter. From information that has come to hand, the dignity of the state of Louisiana has been offended by an armed invasion from the sister state, and this morning Gov. Blanchard communicated with the captain of the naval brigade, which has a fully equipped gunboat, with a view of sending the gunboat to the borders to protect Louisiana citizens from further indignities.

Mississippi has five armed boats patrolling the coast to prevent fishermen from breaking through the quarantine lines. These vessels are also assisted by the United States revenue cutter, Wilcox. The Mississippi boats will not allow Louisiana fishermen to enter Mississippi sound east of St. Joseph light, but from reports received here it appears that one of these patrol boats came into Lake Borgne, which is distinctly Louisiana territory, and one report says it came up to the mouth of Lake Borgne canal, which extends from the lake to the Mississippi river, a distance of only four and a half miles.

The naval brigade vessel Stranger draws too much water for service in that vicinity, but a light draft boat will be pressed, armed with a howitzer or two and manned by officers from the brigade, and will be sent to prevent further aggressions.

Some of the territory now patrolled by the Mississippi boats is now in dispute before the supreme court of the United States, both states having laid claim to it since the cession of Louisiana created an oyster commission and passed laws to protect the valuable oyster beds in that vicinity. The state board of health received official notice of the appearance of fever in three other parishes today, but as the victims are all Italians or Austrians, and outside the quarantined district in New Orleans has been established, no alarm is felt over the news.

Later developments in the controversy between Louisiana and Mississippi do not lessen the seriousness of it. Commander Hostwick of the naval brigade, already in the region, is preparing a report to the governor following their investigation, which will be continued. It is now reported that one of the Mississippi boats, the Southern, a yacht club yacht far into Lake Pontchartrain.

GUARDS CROSS STATE LINE.

Memphis, Tenn., Aug. 1.—A special to the Commercial Appeal from Baton Rouge, La., says:

A clash between the Mississippi and Louisiana authorities over quarantine regulations is imminent. A private dispatch was received in the city today stating that Mississippi soldiers engaged as guarding the quarantine line of Louisiana with arms, and that boats were patrolling the mouth of Rigolet lake and Pearl river, off the Louisiana coast, to prevent Louisiana boats from leaving.

Gov. Blanchard directed Brig-Gen. Perillat, of his staff, and Capt. J. W. Boetwick, commander of the naval brigade, to investigate and report. Gov. Blanchard also telegraphed Gov. Vardaman of Mississippi as follows:

"Have reliable information that Mississippi quarantine guards, armed, crossed over to Louisiana side at Pearl river. I do not believe this was on orders, as the thoughtless conduct merely of a few. To obviate unfavorable comment and friction, please give orders that your guards remain on their own side of the line."

Late this afternoon Gov. Blanchard received the following telegram from President Souther of the state board of health:

"A patrol boat of the state of Mississippi patrolled Lake Borgne, and after meeting fishermen from fishing in the lake, is now guarding the exit of Lake Borgne canal, preventing any boat from coming out."

"This is an unacceptable usurpation and invasion of Louisiana waters and our attorney advises me to ask you to wire proper authorities in Washington at once to intervene or to take matters in hand yourself."

Gov. Blanchard then telegraphed Gov. Vardaman of Mississippi:

"Have information that Mississippi patrols have forbidden fishermen from fishing in Lake Borgne and are now guarding exit of Lake Borgne canal, preventing boats from coming out. Is this by your orders, or those of health authorities of your state? No such state of affairs can be tolerated. You have a right to prohibit fishing boats from Mississippi shores, but not from navigating lake, sound and gulf channels which are navigable waters of the United States."

Gov. Blanchard also telegraphed President Souther that he would take prompt steps to protect Louisiana's rights.

LABOR SLUGGERS

In Chicago Maintain a Place Where They Inflict Torture.

Chicago, Aug. 1.—Apparent evidence that labor sluggers maintain in Chicago a place where systematic torture is inflicted on those who incur the displeasure of the sluggers has just come to light in the strange case of William N. Wilder. Wilder was formerly an army officer, and at the time of the recent teamsters' strike was claim agent for a Chicago package express company. He disappeared July 6, was held captive for three weeks and was then set at liberty, half starved and so dazed that he has not been able to give a coherent account of his captivity.

Wilder was found by a friend standing aimlessly about near the Union station at Canal and Adams streets, and was taken to his home at Downer's Grove. Physicians pronounced his physical and mental condition such that he may not recover. Much of the time he raves wildly, and as though still under torture. He has been kept in a room over his body a slave that he had been bound with heavy cords. Over a hundred dollars he is known to have had paid to keep him in the room.

He is a bold, outspoken fellow of 37 who gloried in his physical ability to take care of himself and defied pickets or sluggers to intimidate him.

BLINKY O'NEIL DISCHARGED.

Was Thought to be Leader of Band of Car Robbers.

Reno, Nev., Aug. 1.—Blinky O'Neil, thought to be one of the leaders of the organized band of car robbers that has been operating in California and Nevada for the past year was discharged from custody here this morning because of the fact that the officers had already held him longer than the law allows without a charge having been preferred against him. He was arrested at Truckee several weeks ago with a number of others, some of whom are now in California penitentiaries. Detective Carpenter of the Southern Pacific was to have sworn to the warrant but business in other portions of the line prevented him from appearing in time to swear to the complaint. O'Neil has a bad prison record.
