

SENATE CHANGES ON TARIFF BILL

Takes Pity on the Ladies and Reduces Excise on Open-Work Stockings.

WOOL REMAINS UNTOUCHED.

Senate Committee Leaves the Sugar Schedule as it Came from the House—Wine Advanced.

Washington, April 12.—The tariff committee on finance, which has been working on the tariff bill since its organization, today made public the amendments which it has reached a decision to recommend to the senate. Senator Aldrich reported the bill as amended to the senate when it met at 12 o'clock.

Washington, April 12.—The senate committee on finance, with all members present, met at 10 o'clock today and Chairman Aldrich presented the tariff bill as amended by the majority of the committee. Many of the revenue producing features will be reported subsequently as they are introduced into administrative features of the measure which will be adopted later.

Senator Aldrich, when requested to make a brief summary of the general character of the changes proposed by the senate finance committee of the tariff bill, furnished the following statement:

"In the main the rates in the tariff bill as reported from the senate finance committee are lower than those in the bill as it passed the house, the actual number of reductions being about three times the number of increases. Such increases as have been made have been largely rendered necessary to preserve the symmetry of the schedules. A considerable number of articles in common use have been taken from the dutiable list of the house bill and returned to the free list. The great mass of the rates reported are below those of the existing law.

SOME REDUCTIONS.

"In schedule A (the chemical schedule), the principal changes are in the nature of reductions below the house bill. One important change is in putty, distilled and uncolored oils on the free list. In schedule B (earth and stone), the rates are largely the same. In the house bill, by a change in phraseology from existing law, the duties on common earthenware, nearly all of which are reduced from 25 to 30 per cent. The committee has reduced them to the rates of the existing law. In glass and glassware the rates remain the same as in the house bill.

The senate committee restored from the dutiable list at 35 per cent a ton, a reduction of 15 cents in this schedule throughout. Nearly all the reductions have been retained by the senate committee. In addition to those made by the house the senate committee has made quite a large number of other reductions. The senate committee has retained the house rate of 15 cents on lead ore but it has been obliged to raise the rate on lead products throughout the bill to correspond with this duty on lead ore.

"Schedule D (wood and manufactures of wood): The senate has taken off the house rate of \$1 per 1,000 on rough lumber, a reduction of \$1 from the Dingley law and has retained the house rates on manufactures of wood, nearly all of which are reduced from the Dingley rates. The only important changes in the schedule made by the senate committee was the restoration of imported hardwoods to the free list.

SUGAR UNTOUCHED.

"The senate committee left the sugar schedule as it came from the house, but reduced the house rate on sugar in the biscuits and wafers from 50 to 25 per cent.

"The tobacco schedule remains unchanged. The agricultural schedule including duties on products, remains practically unchanged from existing law, but where reductions were made by the house, the senate committee has restored the Dingley rates, in response to the demands of farmers throughout the country and of the representatives of the great agricultural interests.

"Fish remains as the schedule came from the house. The senate has retained cocoa on the free list, believing an article of such general consumption, both as beverage and in all forms of chocolate should no more be made dutiable than tea or coffee. The committee felt that if it was necessary to increase revenue it could be done better on luxuries than on every day necessities of life, and have passed this policy in the construction of this bill.

SPICES FREE, WINES ADVANCED.

"The senate committee uses the same principles to spices, and has raised all of them to the free list, where they have always been. Again, on the same principle, the senate committee has increased the rates on spirits and wines, which have been reduced by the house, and will yield an additional revenue of \$3,000,000 most of which will come from the increased duty on champagne.

"In the cotton schedule there has been an extension of the specific rates to cover a class of fancy goods and novelties which are covered in the existing law by ad valorem rates.

"The senate committee has not been increased. The average rates in the cotton schedule other than the rates on fancy goods and novelties, remain the same. There is one exception to this statement, and that is the reduction from the house bill on fashionable hosiery, where the committee has recommended the restoration of the rates of the existing law. The committee contemplates a still further substitution of specific for ad valorem rates in other paragraphs of the bill.

"The law has been restored by the senate committee to the dutiable list, otherwise the schedule remains substantially as it comes from the house.

WOOL, HATE RESTORED.

"The senate committee has restored the rates in the wool schedule to the rates of the present law.

"In silk the senate committee has adopted a new schedule, replacing ad valorem with specific rates in all cases where it was possible to do so, showing a slight average reduction from the existing ad valorem.

HATE AND BONNETS.

"It would be impossible in a brief statement to review all the articles

REIGN OF TERROR IN MERO, FRANCE

Striking Button Makers Raise Particular Chaos in Other-wise Quiet Cities.

MOB IS IN VERY UGLY MOOD

Cries of "Down With the Republic" And Rocks Greet Dragons and Gendarmes on Streets.

Mero, France, April 12.—The striking button makers, whose demands for a continuance of the present wage scale have been followed by violence and disorders, have brought about a veritable reign of terror here and in the neighboring towns of Crepin and Lormaison. Two thousand soldiers under the command of Gen. Nicolas, consisting of dragons, hussars and carabiers, and 500 gendarmes under the leadership of the prefect of Oise, are today patrolling the streets of the towns and the surrounding country.

The mob is ugly and cries of "Down with the republic" are heard constantly. The soldiers are bearing the insults of the strikers, although a number of them have been injured by stones. Representatives of the general federation of labor are here from Paris and are urging the strikers to fight to a finish.

RENO MAN SHOTS HIS WIFE, THEN HIMSELF

Reno, Nev., April 12.—L. McFadden broke into his wife's hotel apartments this morning and in the presence of their two children shot her several times, and then committed suicide.

BILLY SULLIVAN, MANAGER.

Chicago, Ill., April 12.—Billy Sullivan, who is officially announced today, is the new manager of the Chicago American League club. Sullivan is a catcher and succeeds Fleider Jones as head of the team.

EARTHQUAKE SHOCKS ALARM PERUVIANS

Lima, Peru, April 12.—A severe shock was experienced at five minutes past 3 this morning. The movement was from east to west and was accompanied by subterranean rumblings. No casualties resulted. The quake was attended by a dense fog and clouds of dust. The contents of buildings were thrown down to the streets and clocks all over the city were stopped. The shock was felt also at Callao, Barranco and Chorrillos.

EXCITEMENT AT TAMPIO.

Tampico, Mex., April 12.—The more ignorant inhabitants of this place are leaving in numbers in fear of a tidal wave, which has been predicted by a wandering spiritualist. The authorities threaten to deport the disturber.

ELEVEN JURORS SECURED IN PAT CALHOUN CASE

San Francisco, Cal., April 12.—With 11 jurors finally sworn to try the case of Patrick Calhoun, the trial, up to this time confined to the process of selecting a jury, today entered upon its fourth week. Richard L. Rogers, president of the Union Iron works, who was passed temporarily as the twelfth juror after a lengthy examination last Friday will be interrogated later in the day and the result of this supplementary examination will determine whether or not the attorneys will exercise peremptory challenges for the fourth time.

By an order made at the opening of today's session, Judge Wm. P. Lawlor, indicated that he will grant the prosecution's application for a thirteenth juror, who will sit in the event that any of the others are disqualified for any reason. It was generally believed at the outset of the proceedings today, that the jury will be completed this week and that the taking of testimony will be commenced by next Monday at the latest.

Under the heading of sundries, the changes from the house bill in the schedule of minor importance. The senate committee has made reductions of 15 per cent, on an average in the specific duties on hats and bonnets, which the house had raised in some instances above the Dingley rates. The senate committee has also struck out the house paragraph in regard to the gloves and has restored the rates in the existing law.

The senate committee has also added to the sundries of the dutiable list foreign-built yatches owned by American citizens, which will be completed by a luxury which might fairly pay a duty of 35 per cent.

ART TREASURES FREE.

The free list, as reported by the senate committee in the main remains as it has in the existing law. There is one change, however, in the free list, which is of great general interest and that is the provision in regard to free art. The house wisely made paintings and sculptures more than 20 years old free and the senate committee has added to these works of art generally, including artistic antiquities more than a hundred years old.

The senate committee has taken no action as yet upon the maximum and minimum provisions or the administrative sections of the bill. It proposes to report its amendments to the house in a separate bill, and that it is a later date. It has adopted this course because it has seemed to the senate committee of the highest importance to secure important action upon the tariff and it felt confident that time could be saved by reporting the section imposing duties first, and the maximum and minimum and administrative features later.

MT. ETNA IN ERUPTION.

Naples, April 12.—Mount Etna is in eruption. A great cloud of smoke is pouring out of the crater and ashes are falling thick on the surrounding country. Considerable speculation is felt.

EUROPEAN DRAGON OF ANANIAS CLUB

Correspondent of Le Journal, Paris, Qualified to Join Roosevelt's Organization.

ALLEGED FAKE INTERVIEW.

Both Sides Are Getting Somewhat Warm Under the Collar Over a Widely Copied Article.

Paris, April 12.—Theodore Roosevelt and a correspondent of Le Journal are engaged in a controversy regarding the veracity of the correspondent. Le Journal sent its representative to Naples to see Mr. Roosevelt and subsequently the paper published a long interview with the former president, which was widely copied. Upon arrival at Port Said last Friday Mr. Roosevelt sent a cablegram to a Paris paper saying he had given no such interview. This was published together with the assertion of the correspondent that he talked half an hour with Mr. Roosevelt and that the text of the interview as given was strictly accurate. This denial coming to the eye of Mr. Roosevelt at Suez he has again cabled Paris reiterating his denial and characterizing the interview as an "impudent fabrication under a particle of foundation." He says also that he never saw the correspondent of Le Journal.

The correspondent has replied with a new affirmation of the truth of the interview and declares he is prepared to bring forth further proof of his veracity.

MISSING WITNESS TURNS UP.

Los Angeles, April 12.—Nick Oswald, the much-wanted witness before the grand jury, for whose apprehension \$1,000 reward has been offered by the district attorney, suddenly appeared this morning and presented himself at the grand jury rooms. Oswald's appearance is expected to supply the missing link in the testimony regarding alleged municipal graft involving several city officials and is expected to result in many indictments.

MATRUDE ELECTROCUTED.

Ossining, N. Y., April 12.—For the murder of his mother, Susan Carlin, in her home in Brooklyn, one year ago, Richard Carlin, aged 22 years, was electrocuted in the state prison here today.

Carlin blamed his mother for permitting him to remain in a reform institution and when he was released he purchased a revolver, went directly to his mother's home and killed her.

CLOSING HOURS OF PROSPERITY FAIR

Crowds Present Saturday Night—Manufacturers' Association Adopts Timely Resolutions.

In a blaze of light, in the presence of many prominent citizens of this city and representatives of the Real Estate association and Manufacturers' association, Prosperity fair closed at 10 o'clock Saturday night after a week's successful run. Among the notable present Saturday evening was Governor Brady of Idaho, and several members of his official staff, who expressed much pleasure at what they saw at the fair. The most popular feature of the fair was the bandstand while the ladies G. A. B. band furnished music in front of the building and on the streets. The work of dismantling the booths began this morning and the fair, which witnessed such a remarkable attendance last week, is now only a memory.

The Manufacturers' association, which held a meeting Saturday evening, adopted the following resolutions in regard to the fair:

"Members of the Manufacturers' association hereby express their gratification at the splendid reception given the Prosperity fair by the public and to thank all those who so generously contributed their assistance to make the fair a success. The most popular and sincere thanks are tendered to those who so generously donated prizes for distribution at the fair and to the following people and organizations, to whom so much of the success of the undertaking is due: The press of the city for the manner in which it has kept the affair before the public; to the Citizens' union of the city, for so generously permitting the members of the profession to furnish music at the different sessions of the affair; to the ladies G. A. B. band, the High School band, the Hawaiian Troubadours, the Hyde orchestra, the leader and members of Held's band, the State Fair association and the Salt Lake Real Estate association and their officers, James G. McDonald, Horace E. Ensign, E. F. Colburn and J. L. Perkins, in so kindly furnishing the chamber of commerce for the use of the Manufacturers' association for holding the fair; to J. Edward Taylor, state horticultural inspector, and the members of the different societies who have assisted in the undertaking and whose success has been accomplished by making known to the people of the state the different manufactured products of the commonwealth."

BEASLEY GETS THE HABIT.

Inspector of Weights and Measures Wants His Salary Boosted.

John D. Beasley, inspector of weights and measures, followed suit today by filing a petition with the city recorder asking the council to increase his salary from \$800 to \$1,200 a year. Beasley is about the fifteenth official to ask for a raise in the last two months.

After spending \$250 for beds, furniture and kitchen supplies more than the regulation called for, Dr. M. R. Stewart, health commissioner, asked the council today to allow him the extra amount. He states that this expenditure was necessary on account of the large number of swilling patients at the isolation hospital.

WILLIAM DOUGALL CALLED BY DEATH

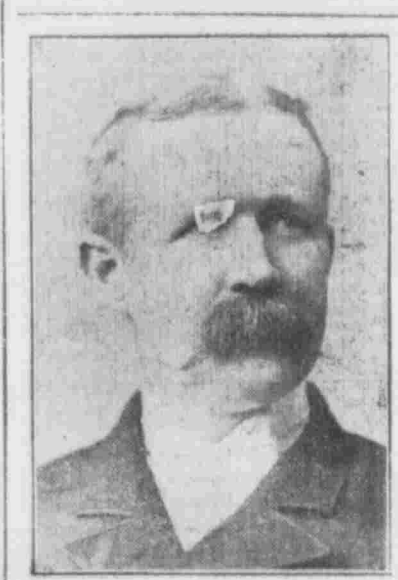

Notable Figure in Constructive Period of the State Passes To Other Side.

FUNERAL OCCURS TOMORROW.

Owing to Quarantine Prevailing at Family Home, Service Will Be Held At the Grave at 3 O'clock.

William B. Dougall, for many years prominently connected with telegraph affairs, died last night shortly after 10 o'clock, at his residence, 49 north State street. He had been ailing for many months with liver and kidney troubles and of late had been failing fast in strength and vitality.

William Dougall was of Scotch descent, but was born in Liverpool, England, May 2, 1848. The family belonged to the Church of England, and William was baptized into the Church of Jesus Christ of Latter-day Saints.

WILLIAM B. DOUGALL.

Saints when he was ten years old. Even at that tender age he possessed a remarkable testimony of the divinity of the work. He came to Utah in 1853, making his home first at Springfield, but returning to Salt Lake in 1858. Ten years later he was called to learn telegraphy by President Brigham Young, became identified with the Deseret Telegraph company, afterwards being its superintendent, which office he held up to the time of his death.

In 1888 Mr. Dougall married Miss Maria Young, a daughter of President Brigham Young, who survives him, as do three children, namely, Hugh W. Dougall, Mrs. Frank B. Platt and Mrs. Hyrum Bergstrom.

STARTS EARLY SCHOOL.

The school that finally developed into the L. D. S. university was organized by Mr. Dougall in the old Social hall. He was for many years a member of the Deseret Sunday School union and an aid of the Y. M. M. L. A. When the Salt Lake stake was organized, Mr. Dougall became one of the presidency of the high priests' quorum, a position that he held until he moved from the stake. The family resided for many years at 49 north West Temple street, now the home of President John R. Winder, and removed to 49 north State, the place of Mr. Dougall's death.

In view of the fact that a grandchild is ill with scarlet fever at the Dougall home and the family is quarantined, there will be no public funeral. The remains of Mr. Dougall will leave the residence at 3 o'clock tomorrow, and upon arrival at city cemetery services will be held in the open air. Friends are invited to assemble in front of the residence at the hour indicated.

NEW POSTMASTER AT FRISCO.

(Special to the "News.")

Washington, D. C., April 12.—Clara E. Griffiths has been appointed postmaster at Frisco, Beaver county, Utah, vice D. W. James resigned.

NEW LIQUOR MEASURE IN EFFECT TONIGHT

The liquor ordinance, which was approved five days ago by Mayor Bransford, goes into effect at 12 o'clock tonight. Under its provisions many changes will have to be made in conducting the "grog shops." The free lunch counters are being packed out—much to the disgust of the saloon "bum," and pleasure of the saloon man.

The automatic pianos and other musical instruments are also being sent to the storage houses. In some places the doors of the wine rooms and booths are being taken down and signs are being posted regulating the conduct of the customers.

Where the "dumb" waiters are being taken out some real live waiters are being employed in their places. The saloon man says that they will keep their private booth trade up if it is necessary to carry the liquor across the street to their patrons.

The restaurants will have to pay a regular liquor license to serve customers liquor with meals. This brings much joy to the saloon man. While some of the saloons are being closed, they are not barred from booths in restaurants or in private booths on the floor above saloons. The increase of the license from \$1,200 to \$1,500 a year will also go into effect tonight.

EAGLES SOLD LIQUOR.

Nasville, April 12.—The grand jury at Nashville, Tenn., today returned a true bill against the Homebrew company of the Order of Eagles for selling liquor.

CHIEF OF POLICE WILLIAM'S SCALP

Aldermanic Dignity Seems to Demand it for Overstepping His Powers.

TONIGHT MAY SEE ROW ENDED

Mayor Bransford Is Working Hard Today to End Squabble Over the Patchwork Outlet Sewer.

While the city council and the board of public works are snarling over the outlet sewer muddle, Mayor John S. Bransford is making a desperate effort at settlement before the council meets tonight. Members of the board of public works and the council have been in consultation with the chief executive this morning but so far no definite solution of the sewer problem has been reached. Several members of the council are in favor of asking for the resignation of Chairman H. H. McMillan of the board of public works for overstepping his authority, and criticizing the orders of the council. The disruption seems to be complete between the council and the board and it is probable that a riotous debate will be indulged in by the councilmen tonight.

The feud between the council and the board has broken out a number of times at the expense of the property owners. This morning the row was caused by the council authorizing the board of public works to cancel the contract with the Campbell Building company because the work was not satisfactory and the board taking steps to accept the work and release the contractor. It is estimated that it will cost several thousand dollars to complete the outlet pipe so that it will hold water. Under the contract there is about \$5,000 due to the contractor. The council proposes to hold this up until the work is completed satisfactorily, while the board expressed a desire to recommend the payment of the money and accept the work.

City Engineer Kelsey says that he will not accept the work in its present condition and stands by the plans and specifications which the board has criticized in the change.

The milk ordinance will come up tonight and it is to be passed without amendments in scheduled time. It has been under advisement for some time and is the last of a series of labor on the part of the city food inspector and the state food inspector.

The ordinance requiring the inspection of meat and the regulation of slaughter houses will also be reported upon favorably by the committee. Some of the slaughter house men object to some of the measures because they are so stringent and will probably be heard from in the matter before the ordinance is passed.

STORE IS WIPED OUT BY FIRE THIS MORNING

Provo Mercantile Company Loses Its Entire Stock and Only Walls Remain of the Building.

(Special to the "News.")

Provo, April 12.—A disastrous fire occurred here early this morning, when the store of the Provo Mercantile company, situated in the northeastern part of Provo, was entirely destroyed, nothing being saved of the goods and only the walls of the building are left standing. The goods were valued at \$10,000. The value of the building has not been learned. Insurance on goods and building, \$10,000, carried by the companies represented by W. H. Ray, of Ogden, Utah, is expected to pay for the loss.

The fire probably originated from a defective flue, though the exact cause will perhaps never be known. Manager Ernest Kimball went to the store about 3 o'clock this morning to light the fire, preparatory to early work on his books. After starting the fire he went home to breakfast. Half an hour later he received word from neighbors that the store was on fire. An alarm was turned in and the fire department responded as quickly as possible, but as the store is some distance from the center of town when the firemen arrived at the scene the blaze was too far along to check it and everything was lost.

INJURIES PROVE FATAL.

Stephen Markham, aged 35, an employee at the Knight smelter, was crushed Friday evening between two ore cars, and fatally hurt. He was hurried to this city and taken to the L. D. S. hospital, but died from his injuries shortly after arriving at the institution. The remains will be taken this evening to Spanish Fork, the home of the deceased, for interment.

NELS PAULSON IMPROVING.

Word was received this morning from the Globe L. D. S. hospital to the effect that Nels Paulson, who was shot by J. L. Malone, the former world's shot champion, passed a most restful night and his physicians say he is practically out of danger, and will recover in a short time. Malone is still in the city jail and receives numerous visitors daily. He learned that his husband was on his way to Arizona and the police sent a telegram to him, and his counsel, Judge C. B. Hill, is taking steps to secure bail for him. J. P. Paulson is the father of the wounded man, and head of the Paulson firm, is in the city, and is a constant visitor at the bedside of the wounded man. He will remain here until his brother recovers.

WOMAN STRANGELY AFFECTED.

While her husband is on his way to Globe, Ariz., Mrs. Fred M. Evans, wife of a traveling representative of the Van Camps Packing company, is in the county jail, suffering from mental trouble. She learned that her husband was on his way to Arizona and the police sent a telegram to him, and his counsel, Judge C. B. Hill, is taking steps to secure bail for him. J. P. Paulson is the father of the wounded man, and head of the Paulson firm, is in the city, and is a constant visitor at the bedside of the wounded man. He will remain here until his brother recovers.

BLUE NOTES IN MUSICIANS' SCALE

Sweet Bells of Unionized Music Are Jangling Harsh and Out of Tune.

NEW ORGANIZATION DUE.

Revolt Against the American Federation of Musicians Leads to Delegation Convention in New York.

Chicago, April 12.—The sweet bells of unionized music are jangling harsh and out of tune, it was stated here today, in connection with the announcement of pending formation of a new national organization of musicians in opposition to the American Federation of Musicians.

R. L. Starr, general secretary of the American Musicians' union, says a delegate convention of 300 representing 20,000 musicians of the American Musicians' union, the International Music and Theatrical union, the Knights of Labor Musicians and half a dozen other bodies, will meet at New York, April 25th, to form a new organization to include the United States and Canada.

According to Mr. Starr the revolt against the American Federation of Musicians which is the musical end of the American Federation of Labor, is due to what he alleges is the arbitrary conduct of union affairs by the national organization.

A rigid system of fines and regulations which makes it extremely hazardous for the orchestra or brass band of one city to play in another are among the grievances which are charged against the Federation and which the organization is designed to correct.

"Properly we are not a labor organization," said Mr. Starr. "We furnish a luxury. The difference between a good mechanic and a poor one is not great but the difference between a good musician and a poor one is as great as the poles. For us a maximum of money is made in the minimum of time. It has brought nothing but troubles so far."

GOVERNOR HASKELL DECLARED IMMUNE

Muskogee, Okla., April 12.—The statement was given out here today that Special Atty. Sylvester Rush and Diet. Atty. Greese at Tulsa, had decided to bring charges against Governor Charles N. Haskell and the six other prominent Oklahomans recently involved in the Muskogee town lot cases. This course, it was stated, had been decided upon by the attorney general, who was in the city today, following the quashing of the indictments against Haskell et al. at Tulsa Saturday last. Atty. Rush referred the matter of further action to the attorney-general.

PAYNE IS RELIEVED.

Appears in the House Today With a Serene Countenance.

Washington, April 12.—A good workable membership was present today when the house met today for the first of its semi-weekly sessions. Chairman Payne was in his accustomed place and appeared as if a great load had been lifted from his shoulders by the passage of the tariff bill.

As soon as the Journal had been approved Mr. Payne offered a resolution providing for the removal of the tariff bill to the house in order that it might be amended so as to make it plain that crude petroleum and its products should appear on the free list. After the bill passed Friday an inspection of it disclosed the facts that products of petroleum were omitted from the free list although such was not the intention when the Senate amendment was stricken out and petroleum made free.

PRESIDENT TAFT LIGHTS UP ARMORY

Louisville, Ky., April 12.—What is believed by many to be the most brilliant electrical display ever held on the continent opened here today, when President Taft pressed the connecting button in the White House at Washington. This ignited an electric lamp in the first regiment armory that started all the machinery in motion and the southern electrical and industrial exposition was officially dedicated and started.

Several hundred exhibitors occupy the fully decorated booths. A center tower 30 feet high symbolizes the Goddard electric and she holds aloft an electric lighting of the great building.

On the south wall of the armory is an electrical clock 100 feet high, solid with electric bulbs of various colors, through which the light runs and thus indicates seconds, minutes and hours. The exposition will continue until midnight, April 14. It is created to show the possibilities of electric lighting.

OPENING OF LEAGUE SEASON.

Washington, April 12.—Ideal base ball weather prevailed for the opening of the major league season at American League park in this city today. Neither New York nor Washington, the clubs that played here today, presented its strongest front. Walter Johnson, the local star pitcher, is suffering from a severe cold. McPhee, the short stop, is sick and Milan, centerfielder, is nursing a sprained ankle. The New Yorkers have been even more unfortunate, being deprived of the services of First Baseman Hal Chase, who is recovering from pneumonia. Chase, post-humously from mudpits and practically every man on the team is lame from the effects of recent vaccination.

Washington was all new in anticipation of the opening and all her soldiers for the game had been sold days in advance.

POLICEMAN'S RECORD

Chicago, April 12.—The record of a year and fifty-eight months as police officer during which he was fined 149 times, was today made public by James McCann.

APRIL TERM IN FEDERAL COURT

Grand Jury is Impaneled by Federal Judge Thomas C. Munger.

SLADE CASE WILL COME UP.

Trusted Clerk Who Confessed to Opening Letters is to Be Before Inquisitorial Body.

A grand jury was impaneled in the federal court today by Judge Thomas C. Munger, of Lincoln, Neb., acting for Judge John A. Marshall, who is temporarily in another circuit.

Of the 21 gentlemen summoned, one failed to respond; four were excused for reasons deemed sufficient to the court, leaving 16 to make a grand jury. No excuse other than that of availability and the 16 were sworn in.

A foreman of the jury was named by the court, Robert C. Gonnell, superintendent of the Utah Copper company being assistant. The other members were: B. H. Boyack, Spanish Fork; D. R. Hobbs, Provo; C. M. Bell, Salt Lake; Benjamin Bates, American Fork; E. T. Higgs
