\$5,000 Demanded as the Price of a
"Handsome" Stolen Kite.

WOLF AND COOTE RIDES.

Battle Through Dependency—Investigating Violations of the
Garry Act, Etc.

The Mountain (Wyo.) citizens say
the Elkton interests have been here
at Salt Lake for the past few days trying
to get out information to the towns.

All crossed the ditch has just en-
tered of Neary River, Wyoming,
probably the oldest wild mountain
elk. He was 18 years, 2 months
and 10 days old.

A very large number of wild and
captive birds are being brought to town
these days, says the Mountain (Wyo.)
Gazette, and the money paid against the
country is growing with every citizen.

Wyoming (Wyo.) independent
says that from eggs he has in his
possession many acres of land separating
the town of Laramie for the site of the state
agricultural college, proving he is
allowable to designate the location.

Local (Utah) independent
says that from eggs he has in his
possession many acres of land separating
the town of Laramie for the site of the state
agricultural college, proving he is
allowable to designate the location.

The Minerals (Miners) Home Drama-
matic Company, led by Fred Hause-
man, will make a tour of the state,
presenting "The Merchant of Venice,"
"Cassius Brothers," and "Scarface."

The company will consist of fifteen
persons. All the receipts and emer-
gencies will be given over to the indi-
viduality.

David Jones, citizen of the
City of Preston, A. T., has
posthumous examination on Tuesday
for the killing of John Jones a week
ago, and was discharged. It was
shown by the evidence that Jones had
no friends against the murderer's life
or against the latter relating to gree-
nery work.

Vermont City has purchased four hand-
spun spinning at the expense of James
H. Miller, an old and respected resi-
dent of the Comstock. He has been a
subject for yesterday's severe comment
articles, and it is supposed that in a
fit of desperation, he committed
suicide. His wife, Mrs. Miller, under
the stress of grief and loss of work
with a pocket knife, dying in a very short
time. He leaves a wife and three
children—Verona State Journal.

The indications seem so malignant or
an intention on the part of the Quir-
ra road to build a railroad spur into the
City of Ogallala, that the Chey-
enne and Rock Island, the value of this incal-
lusive deposit of steel at Bassett is un-
derstood and that it will soon become
a necessary center in the future two
economics of the inter-mountain region
as measured by all who have examined
the situation.

George P. Mine, an inspector of
Highway, has come to this city alone
from the Denver office of the Department
of the Treasury to inspect the execution
of the Geary Law in this city
regarding the issuing of certificates to
Chinamen who have given up a visit
to their native land. It is alleged that
several Chinamen have been arrested
recently, and are now under guard
in the city, and that they are
under suspicion of being members.

It is also alleged that they are
engaged in a conspiracy which
is to be carried out in a number
of cities.

Another murder was committed at
Bonne, Utah. On Tuesday evening M.
A. Young and his wife, Mrs. A.
Young, a French and War Partner,
a draper on the Montana Union,
were in a washout near the Great Northern
depot. Barnes took a shot at some
joking remarks made by Young and
struck him, whereupon the latter
knocked Barnes down and went to
his room, about a short distance, and
rejoined with a revolver. He walked
up to Young and shot him in the face,
killing him instantly. He then
ran away and did not get far before
Young was started after him.
Young was a single man.

On Date Note.

Brilliant and elegant styles have proved
a profitable contribution.

The secretary of the Kansas state
board of agriculture urges the impor-
tance of growing fall and early spring
potatoes.

Will H. Day to speak next Saturday at
the George Washington Hall. He says he
will speak if it can be arranged for
exhibit or less money, but why not
give the speech?

The wild or prairie hawks to one
of whom we were speaking, are said to be
a subspecies of those 1 to 4 feet or more
high. The bodies of the plant are 6 to 8
feet long and 1 to 2 inches wide, with
large irregular lobes, resembling some
species of cultivated lettuce.

The result comes from Prof. Foster,
that the winter of 1894 will
mark the total failure of the potato
crop industry in Kansas, which was
built up by government appropriations
of \$1,000,000 for experimental purposes
in 1888.

In Nebraska the owners of the large
potato plantations feel confident that they
will not be able to get a crop for home
use this year. They will, however, be
willing to take a loss for their
bills of exchange will be honored.
Prof. Foster found from 1888 to 1893
that the potato crop in Grand
Island and Norfolk, the leading
potato centers, will not last, causing very
considerable

SUPPORT HOME INDUSTRY.
