EASTERN.

That Fatal Railroad Accident.

DES MOINES, 29.—The body last taken out was that of Mrs. Crow, the wife of a workman in the pork house here. Her head was caught and mashed between two cars. The top car is now pulled off.

Later.—Three more bodies have been taken out, all men. One supposed, by the papers on him, to be Cogan, a commercial traveller from Peoria, Ills., the other two are unidentified. The body of a lady is now tight in the wreck, making the eighteenth person known to be killed. The other cars are so firmly telescoped together that it is impossible, so far, to pry them apart, even with block and tackle.

The stream where the accident occurred was never before known to reach its present height. The channel was forty or fifty feet wide, and the banks about twenty feet high. The locomotive, in its wild dash, landed at the foot of the western side, and half burried itself in the earth. Barnum's car was next, and dropped into the channel, the baggage and mail passed over this, the occupants escaping unhurt. The first passenger car pitched headlong into the stream where the water was fifteen feet deep; the next car plunged under this, telescoping with it, and the next telescoped half through both the preceding. The sleeping car did not go into the wreck, simply because there was not room for it. Its occupants were jarred, but none seriously injured. The scene at the time of the accident is described as terrific. The rain was falling in torrents, accompanied by wind, lightning, and violent thunder. The crash put out the lights, and the scene of terror ensuing may well be imagined. Among the incidents, one mother was killed sitting between two children, who escaped uninjured. One little girl, who had lain four hours in the water, with a man lying dead beside her, was found and restored, and now shows no signs of injury. The train with the dead and wounded arrived here at 11 o'clock.

The Boston Custom House—Appointment.

WASHINGTON, 29.—The committee inspecting the custom house at Boston recommend the reduction of the force, and increased compensation for those remaining. The net saving, if their recommendations are adopted, will be a little over $6,000.

The Secretary of the Interior has appointed Joseph Long, of Indiana, to look after the timber land depredations in the West.

Sitting Bull Coming Back.

Government is informed by a telegram from General Miles, of the crossing of Milk River by Sitting Bull and his encampment, between Milk and Missouri Rivers, in the neighborhood of the Little Rocky Mountains, and about fifty miles south-east of Fort Belknap. Sitting Bull's presence again in the United States, with a large force, will cause additional action at the War Department in dealing with the Indians.

$35,000 Fire.

CHICAGO, 29.—The *Tribune's* Ashland, Ills., special says, the fire there, last night, destroyed property worth about $35,000; insurance, $7,500. Eighteen buildings in all were burned, being nearly the entire business portion of the town.

Wool Market.

BOSTON, 29.—Wool very dull, prices rule in favor of buyers. Sales to any extent could only be made at concessions. No pressure, however, to sell. Sales of No. 1 and X Ohio at 45@47, XX and above 47@50. New York, Wisconsin, Michigan and New Hampshire fleeces are selling at 40@43, combing and delaine selections 50@55, small sales of Cala. at 20@30, super and X quiet at 32@45 for common and choice.

Senator Morton's Health.

RICHMOND, Ind., 29.—Hon. Isaac Johnson, of the Richmond *Daily Palladium*, was among the attendants upon Senator Morton, last night. This evening the following editorial was published in that paper: The general anxiety about the condition of Senator Morton and the contradictory reports afloat in regard to it justify us in saying, and we speak from personal observation, that his improvement in the last forty-eight hours has been most remarkable. His rest last night was almost unbroken, sleeping the greatest part of the time as calmly and naturally as though in perfect health. This morning he was bright and cheerful, conversing with his friends with the utmost freedom and the kindest solicitude for the comfort of those in attendance upon him. During to-day this improvement continues, and his friends every where may be assured that his speedy recovery can confidently be expected.

The Cigar-Maker's Strike.

CINCINNATI, 29.—One hundred and twenty-five cigar makers, employed by Newburg Bros., struck, to-day, demanding the discharge of the female employes of their firm, declined, and express the intention to remove the factory to New York.

FOREIGN.

GREAT BRITAIN.

Eastern War News.

LONDON, 29.—A dispatch from Suliman Pasha, dated 16th, details operations up to that day. He says the Turks occupied Alikiredjebet heights to the left of the enemy's works, threatening their line of retreat, but the Russians succeeded, on Friday, in dislodging them; but on Saturday Vessel Pasha, with two brigades, succeeded in getting a footing, and the fighting continued all night. By three o'clock on Sunday morning the Russians were completely driven from the heights. The Russians, receiving reinforcements, made a final assault, but were unsuccessful, and returned to their fortified works. The cannonade continued all Sunday without effect. Suliman Pasha concludes his dispatch as follows: The matter is not yet decided, as we have not yet taken the enemy's fortified works. Our losses are yet unknown. One thousand Russian dead were found when the enemy were driven from Alikiredjebet heights.

Suleiman Pasha telegraphs on the 28th. Our entrenched line of investment is only 150 paces from the enemy's fortifications. We still hold the forts commanding Alkriedjebet Heights. The Russians are blockaded on three sides. Every effort is being made to complete the blockade by cutting them off from the road to Gabrova. The Russian forces have been cruelly decimated, and they have retired to their fortified positions. Cannonading and outpost engagements are carried on intermittingly.

General Gruiez has been appointed chief of the Servian staff.

Officers from the Russian headquarters are buying large quantities of grain and cattle in Servia.

Roumania has not concluded any military convention with Russia. The Roumanian army will preserve its individuality although acting in concert with the Russians.

Prince Charles, with the bulk of the army, will shortly follow the vanguard across the Danube at Kosabia.

For many days the army of the Grand Duke Nicholas has been closing together against Plevna, with a view to an attack. The wear and tear of the Russian army has been such that the reinforcements brought up hitherto have not compensated for the losses suffered from battle and other causes, without anything like epidemic. There has been a considerable falling out of the ranks, owing to sickness; thus, despite the great reinforcements on the way, the Russians may begin to doubt whether they will be able to have, before the breaking up of the weather, the numerical superiority for the decisive result.

What the War will Cost Russia.

The Russian newspaper, *Vedemosle*, after an elaborate review of the sums already expended on the war, draws the conclusion that if the war lasts till next autumn it will cost not less than 850,000,000 roubles, of which 232,000,000 have already been expended. To cover this sum there is a reserve of 150,000,000 roubles. As to the remaining 450,000,000, paper money, of which there is already 877,000,000 roubles in circulation, must be issued.

Terrible Suffering From the Famine in India.

The editor of the Madras *Times*, a member of the relief committee, writes, under date of August 1st, that the population of Southern India, more or less affected by famine, numbers 24,000,000. In the most favorable circumstances at least one-sixth will die. Twenty-three people in all have died of starvation in Bengal.

In Madras no camp of 3,000 rises, morning after morning, without leaving thirty corpses.

In the interior the distress is fearful. One gentleman passing down the valley, in Wyland District, counted twenty-nine dead bodies on the road.

A coffee planter, seeking shelter from the rain in a hut, found six decomposing corpses in it.

Every day mothers may be seen in the streets of Madras offering their children for sale, while the foundling portion of the poor house is full. Infants are found by the police, on the roads, deserted by their parents.

Since the famine begun 500,000 people have died of want and distress.

The first big tragedy may be expected in Mysera. Information has reached me from Bangalore, of two cases of canabalism already.

Destructive Floods.

Rain has fallen in torrents all all over the north of Scotland almost without intermission, since last night. The harvest reports from all quarters are most desponding. Floods have caused great damage in South Wales. The weather in the English midlands and elsewhere is very bad.

FRANCE.

Prosecution of Gambetta.

PARIS, 29.—The public prosecutor yesterday issued a summons which will be served on Gambetta. Witnesses will be heard by the magistrate charged with the preliminary examination relative to Gambetta's trials.

La Francaise asserts the charge that the meeting was one of hatred and contempt of the government has been abandoned, as it would have involved the trial before a jury to assize, where newspaper reports could not have been prevented offences which are triable by a correctional tribunal. An insult to ministers is punishable for from five days to one year's imprisonment and a fine of from twenty-five to 2,000 francs. An insult to the President with one month to three year's imprisonment and a fine of from 100 to 5,000 francs, and attacks on the President's constitutional rights and authority, three months to five years imprisonment and a fine of from 300 to 6,000 francs. Three other prosecutions are instituted.

Correspondence.

Vacant Land—Buildings—Mill Wanted.

DESERET, Millard Co., ...August, 27, 1877.

Editors Deseret News:

We are now about half done harvesting our grain, every one seems to be well satisfied with the yield of crops and some think it cannot be beat in the Territory.

We have a very extensive farming country here, considerable vacant land yet to be taken up, and as we have generally taken up 160 acres each, land can be purchased at reasonable figures near our city location. Persons wishing a home will do well to visit Deseret before locating elsewhere. We have good land, a good climate, and plenty of water for irrigation without attention of nights and Sundays.

The dam at present is owned by individuals and we are paying one dollar per acre for the land we farm, with the understanding that the tax is to be reduced as fast as the county becomes developed so as to only make a reasonable per centage on the means invested.

We have a church organization, with Joseph S. Black for bishop, and I should judge by the way he takes hold he means business.

We had fifty-one rebaptisms into the united order on the 18th inst., and expect more next fast day. The school trustees are busily engaged getting the material together to build a school house. We have organized a co-operative mercantile company, and the board of directors are making arrangements to build a house and start a store this fall.

Our greatest inconvenience is the want of a good grist mill; we would be glad if some good citizen would come here and build one, there would be plenty of work.

We have a Sunday school with good attendance. We have a very interesting literary paper published once a month called the *Deseret Advocate*.

I remain, fraternally, ...WM. W. DAMRON.

CALDER & CARELESS

Records! Records!

WE ARE NOW PREPARED

to receive orders for BRANCH and WARD RECORDS, of a new and improved form, which has been approved by the presiding Bishopric and others.

We shall make them of four, five and six quires each, holding 2,040, 2,580 and 3,060 names each, respectively, and the price will be for four quires, $12.00, five quires, $13.00, six quires, $15.00. Each book will contain a suitable index, and be well bound in Cloth and Russia Leather with ornamental lettering pieces for name of the Ward on the side. The book being of a large size, we do not think it advisable to make them over six quires.

Specimens can be seen at this Office, and orders received for size of book required.

Bishops in the Country desiring Records can order by mail, and we will make accordingly and forward them.

FAMILY

RECORDS.

WE ARE NOW PREPARED to receive orders for FAMILY RECORDS of an approved form.

Each book is divided into four forms.

The first form is that of a "FAMILY RECORD," with ruled and printed spaces for births, marriages, and deaths, in each family, also for names, dates, and places, one page accommodating one family.

The second form is a "CHURCH RECORD," with spaces for blessings, baptisms, confirmations, ordinations, endowments, and patriarchal blessings and various particulars of the same.

The third form is a "SEALING RECORD," with spaces for name of person sealed, birth, death, time, place, etc.

The fourth form is a "BAPTISM FOR THE DEAD RECORD," with spaces for names, dates, birth death, baptism, confirmation, etc.

Each book is furnished with a title page, on which the person owning the record can enter his or her name. An explanation of the forms, or instructions how to keep the record is also printed in each book, and its pages are numbered.

These Records are well printed and ruled on good ledger paper, substantially bound in full sheep, English roan, or Bock. We can furnish them of any size, from one to five quires, or larger, but probably five quires is as large as will be desired. We can also furnish the various forms in a record, proportioned to each other to order.
