DESERET EVENING NEWS: WEDNESDAY, NOVEMBER 28, 1900.

SURVEYORS ARE AT CENTERVILLE.

Party of Engineers Now Operating in Davis County.

SAID TO BE BURLINGTON.

Indications are That They Will Reach Salt Lake Within the Next Few Days.

A mysterious party of well equipped surveyors, eighteen in all, is reported to be operating in the vicinity of Centerville, Davis county, and to be working towards this city.

While the engineers are not doing any talking the fact that there are now a number of Eurlington pay checks in irculation in Ogden and Salt Lake together with other indications that the survey from meaning into Salt Lake is being pushed, it is safe to assert that the party of eighteen indicated above are in the employ of the Burlington.

Some time ago it was printed in this column that the Burlington was quietly purchasing property on First West between South Temple street and Second South. It is now rumored that an ef-fort will be made by this company to acquire the old University square as soon as that valuable piece of property comes into the market and is offered for sale by the State. It now looks as though the Burlington means business and is coming to town to participate in the railroad boom which is beginning to asume proportions now that the Los Angeles & Gait Lake railroad project is assured. It is not anticipated that the next year will see the entry of the Burlington trains into Salt Lake counly, but it is safe to predict that as soon as the through trains will be running from southern California that the Bur lington will be on hand to participate in the business that will arise.

CHEATING ONE'S SELF BY POOR WORK.

It is not a question of cheating an employer; it is a question of cheating yourself when you do poor work. The employer is not injured half as much as you are by half-done work.
