The proprietress of a drinking saloon in Philadelphia weighs 600 pounds.

The first ten locomotives ever built in Russia have just been completed at Colonna, near Moscow.

England pays Judges salaries varying from \$6,000 to \$50,000 a year.

A New Orleans letter carrier boasts of having walked 100,000 miles during his official career of eight years.

An Ohio Radical editor, after a brief absence, says: "Well, reader, we are again upon our own dung-hill."

A German professor says we are to have another moon. That's not singular; we've had a new moon every month since the earth was created.

A man in Waldeboro, Me., zealously cares for a hatchling which, in the hands of a stalwart Indian, in 1749, was driven into his grandfather's skull.

There are two printing offices in Sweden carried on exclusively by females—one in Hudiksvall and one in Christianstad.

Five members of the Orleans family have died in exile during the last twenty years. The first was Louis Philippe himself, and the last the Duchess d'Aumale, who died recently.

A model husband in Chicago advertises that "that he will pay no debts contracted by any person on his account, except his wife."

Fifteen hundred tons of chalk are imported at Boston annually. It is used to come as ballast and was given away. Now it sells for \$22 per ton, and pays a duty of \$10 per ton.

"Come," said Will, "I pray you, devotes, just half a minute to mend this coat. Which a nail has chanced to rend."

"It's ten o'clock," said his drowsy mate, "I know," said Will "it is rather late, but it's never too late to mend."

Many English farmers feed no hay to their work horses, but keep them in high working order with straw, roots and shorts. This equivalent of twelve tons of hay can be produced on one acre of roots.

"Shall I help you to some of the tomatoes?" inquired a young exquisite of a venerable physician, as he sat opposite to him at a hotel table. "No, sir, I thank you," replied the learned savant; "but I'll trouble you for some of the potatoes, if you please."

A knowing traveler out West, who had chartered half a bed in a crowded hotel, and was determined to have the best half, buckled a spur on his heel before turning in. His unfortunate sleeping partner bore the infliction as long as he could, and at last roared out: "Say, stranger, if you're a gentleman you ought to cut your toe nails."

An Alabama editor, in puffing a grocery, kept by a woman, says: "Her tomatoes are as red as her own cheeks, her hind legs as blue as her own eyes, and her pepper as hot as her own temper."

The average time made by steamers last year, between Panama and San Francisco, was fourteen days; between China and the same port, thirty-three days and one hour; and between Honolulu and the same port, twelve days and seven hours.

A young man in Indiana worked all last summer to clear an eighty acre tract of land belonging to a young woman who had promised to marry him. When, just as the weather began to get cold, he went to claim his reward, she had married another fellow who looked on while the victim was working.

The Detroit Tribune says: "Compositors in the New York Tribune office are fined ten cents for each profane word uttered on the premises, the money so gathered being given to the poor. Some of the paupers of that city are growing rich from the funds collected from compositors who set up Greeley's manuscript."

Miss Lucy Bliss has taught school eight years in the old Academy school at Stockbridge, Mass., without the loss of a single day. As she lives two miles from the school house, she must have walked more than 15,000 miles in the time.

At Syracuse, N. Y., recently a young wife stood at a door bidding adieu to a friend; her husband saw her and thought he would give her a little surprise; so he crept up behind her and suddenly imprisoned her in his embrace. The terrified lady shrieked and went into convulsions. A physician was called, who said the lady was in danger of becoming a maniac, by reason of the shock which her nervous system had sustained. Since that time she has been dangerously ill.

Beauty has its foundations in physical well-being. Health has its laws which must be understood and obeyed; and these laws are clearly indicated in our physical and mental constitutions. They demand:

1. Proper food and drink in such quantities as the system is capable of readily assimilating.
2. Air and sunlight in abundance.
3. Sufficient exercise, rest and sleep.
4. An agreeable temperature.
5. Perfect cleanliness.

The whole secret of a full form and rosy cheeks lies in pure blood, manufactured from wholesome food, by healthy and active vital organs, oxygenated and vitalized in well expanded lungs, and kissed by the life-giving sunlight on the surface of the warm cheek. She who will have the color she covets on any other terms must buy it of the apothecary, and renew it every time she makes her toilet.

### NEW YORK.

The body of Greenwald expected—A New Cuban Junta—Terrible Boiler Explosion—Loss by an Explosion—Relapsing Fever—Fechter in "Hamlet"—Another of the Harper Bros. Dead—English Stockholders in the Erie will Prosecute Fish and Gould.

NEW YORK.—The steamer *Bienville*, from Havana, with the body of Isaac Greenwald, an American recently shot, is expected to-morrow. A large number of citizens, it is understood, will receive the body. A new Cuban Junta has been organized here.

The thirteenth regiment of the State militia has been ordered under arms to defend, if necessary, Raymond St. Jail, Brooklyn, threats having been made against Chambers, the murderer of Voorhees.

A terrible boiler explosion to-day destroyed two buildings on West Thirty-third St., occupied by A. J. Decker, as a paper staining factory and by others. The engineer, foreman and book-keeper of the factory were dangerously scalded; loss thirty thousand.

The death of Wesley Harper, of the firm of Harper Bros. is announced. G. W. Fishback, of St. Louis, Democrat, has returned from Europe. Solicitor Bush, of London, is en route for America to conduct the case of the English stock holders of the Erie railroad against Fish and Gould.

NEW YORK, 15.—The Bellevue hospital is crowded with patients stricken down with relapsing fever. The Board of Health is taking measures to establish other hospitals where the disease may be exclusively treated.

The regular distribution of letters increased about twenty thousand yesterday which probably represented the number of valentines passing through the postoffice.

A special says that the loss by the explosion on Thirty-third St., yesterday will exceed forty thousand. One of the wounded men has died, and two others are not expected to recover.

Over two hundred cases of relapsing fever have been reported. Several publishers met last night and arranged for a meeting of the book trade to pass resolutions of condolence on the death of Wesley Harper.

Niblo's theatre was crowded last night to witness Fechter's first performance of "Hamlet." His reading differs greatly from Booth's. The dramatic critics pronounce him much inferior to the latter. His engagement closes this week.

Vocal Members of Congress.

It has been proved that Whitmore, the member of the present Congress, from South Carolina, demanded and received five hundred dollars for a cadet appointment; he will probably be expelled. Guilt has also been fastened upon a member of the last House from Alabama.

### FOREIGN NEWS.

#### FRANCE.

Examination of the Riots. PARIS.—The persons arrested during the recent disorders have nearly all had their preliminary examinations; thus far 104 have been held to appear before the courts.

#### PRUSSIA.

Opening of the North German Parliament. BERLIN, 14.—King William, to-day, opened the session of the North German Parliament in a speech from the throne. The programme of the laws to be prepared by parliament was given. Among them are bills for a new criminal code and for the development of the right of citizenship in the Confederation. Parliament is assured that the Federal revenues now promise to be equal to the expenditures. Union with the Southern States is still urged; and a treaty with the Grand Duke of Baden

is pronounced as one link in the chain. Peace with all foreign nations has been preserved, and the Confederation has been fairly maintained, solely for defence and not for oppression.

#### SPAIN.

Montpensier in Madrid—England's right of search questioned in the Cortes.

MADRID.—Duke Montpensier has arrived here and is already in intimate communication with Prim. He has had long interviews both with Prim and Admiral Topete. This circumstance causes much comment.

During the session in the Cortes, yesterday, the government was interrogated as to the urgency of a revision of the treaty with England on the slave trade. Slavery being now rejected by national consent, the right of search which that treaty gave to England is leading to vexation and interference with the Spanish, who claim a share of the rich commerce with Africa. Senator Silveira replied that by the treaty England paid two millions of dollars for the right to search, so it was a fair bargain; but the government would invite England to revise the treaty, as Spain would no longer countenance or allow the importation of the negroes.

#### WEST INDIES.

Seward at Matanzas—Santa Anna at Havana.

HAVANA.—Seward has arrived at Matanzas.

There are reports that an accomplice in the murder of Isaac Greenwald has been arrested.

A schooner with a cargo of arms for the insurgents went ashore near Lebara during a gale from the North. It was discovered by the Spanish; the officers were seized, but the crew escaped into the interior. At last accounts troops were taking out the schooner's cargo.

Santa Anna arrived at Havana yesterday. He came from Puerto Principe with the intention of taking passage on a British steamer on the 22nd inst., for Vera Cruz; but the Captain General ordered him to leave the island by the first steamer that leaves, or by any other than a Mexican, being determined to allow no violation of international law. Santa Anna had a personal interview with the Captain General, but the latter was firm in his refusal to allow him to proceed to Mexico; so he will leave immediately for Nassau or St. Thomas.

There may be other models in the Territory by which ladies' dresses can be cut, but the CURTIS "Premium Models" are positively the only ones that will do as above stated, and abundance of unquestionable testimony can be given that they will do all that is promised. Female Relief Societies will find these Models of great service, enabling all, however ignorant of the art of cutting out, previously, to insure a perfect fit in every style of garment required.
