Medicine for Throat and Lung Difficulties has long been, and still is, Ayer's Cherry Pectoral. It cures **Croup, Whooping Cough, Bronchitis,** and **Asthma**; soothes irritation of the **Larynx** and **Fauces**; strengthens the **Vocal Organs**; allays soreness of the **Lungs**; prevents **Consumption,** and, even in advanced stages of that disease, relieves Coughing and induces Sleep. There is no other preparation for diseases of the throat and lungs to be compared with this remedy.

"My wife had a distressing cough, with pains in the side and breast. We tried various medicines, but none did her any good until I got a bottle of Ayer's Cherry Pectoral, which has cured her. A neighbor, Mrs. Glenn, had the measles, and the cough was relieved by the use of Ayer's Cherry Pectoral. I have no hesitation in recommending this

to every one afflicted."—Robert Horton, Foreman *Headlight*, Morrillton, Ark.

"I have been afflicted with asthma for forty years. Last spring I was taken with a violent cough, which threatened to terminate my days. Every one pronounced me in consumption. I determined to try Ayer's Cherry Pectoral. Its effects were magical. I was immediately relieved and continued to improve until entirely recovered."—Joel Bullard, Guilford, Conn.

"Six months ago I had a severe hemorrhage of the lungs, brought on by an incessant cough which deprived me of sleep and rest. I tried various remedies, but obtained no relief until I began to take Ayer's Cherry Pectoral. A few bottles of this medicine cured me." Mrs. E. Coburn, 19 Second st., Lowell, Mass.

"For children afflicted with colds, coughs, sore throat, or croup, I do not know of any remedy which will give more speedy relief than Ayer's Cherry Pectoral. I have found it, also, invaluable in cases of Whooping Cough."—Ann Lovejoy, 1257 Washington street, Boston, Mass.

THE PATENT

## Wire Gauze Oven Door

IS THE LATEST IMPROVEMENT ON THE

It Produces Practical Results in Baking and Roasting never before attained in any Cooking Apparatus, and will

Revolutionize the Present Methods of Cooking

ITS THEORY

Is that all Food Baked or Cooked, should be cooked in fresh air freely admitted to the oven. This is done by discarding the close oven door heretofore used, and substituting for it a door containing a sheet of Wire Gauze nearly as large as the door itself.

Through this Gauze Door the air freely circulates, facilitating the process of cooking, and producing food that is unequalled in flavor and nutrition, and actually cooked with less consumption of fuel than in an oven with a closed door.

It makes an enormous saving in the weight of meat.

It also produces large Loaves of Bread, requires less attention from the cook, and promotes the health of the family by the SUPERIOR QUALITY OF THE FOOD COOKED IN IT.

OPINION OF AN EXPERT.

MRS. MARY B. WELCH, Teacher Domestic Economy, Iowa State University, says: "My deliberate judgment is that the oven of the Range, as compared with others, is not only more equally heated in every part—front and rear—but as a result of its superior ventilation the food placed therein is better cooked, while retaining a sweeter flavor, and a larger proportion of its best juices. I find, also, the consumption of fuel in this Range is much less than any other of same work.

THE SUAKIN VICTORY.

Discussed by Salisbury.—Further Details.

LONDON, Dec. 20.—In a speech at Scarborough, Lord Salisbury said the ministry had no intention of entangling the country in a new Soudan expedition, but they could not abandon Suakim. As long as the Khedive desires, England will maintain the Red Sea ports. It would be madness to surrender Suakim when we are on the verge of suppressing slavery. By the treaty of Paris, England is bound to uphold the integrity of the Sultan's empire.

A DISPATCH

from Suakin says a feature of the fighting was the determined rush upon the trenches by the blacks and the Egyptians. The dervishes fought with the utmost bravery, many of them dying in the trenches. The charge of the Hussars was also specially mentioned. When the dervish cavalry saw them coming, they dismounted and planted their spears in the ground, but these proved no obstruction to the Hussars, who swept down upon the dervish horsemen like an avalanche, cut through the ranks, and left half of them dead on the ground. The Hussars then reformed and charged the remaining dervishes, who fled.

A large portion of the rebel force was not engaged in today's fighting, being absent camping at Handoub and the wells beyond. It is believed the rebels will be reinforced and will make an attempt to

CHANGE THE POSITION.

SUAKIN, Dec. 20.—Osman Digna's nephew and twelve Dervishes have been captured. All are wounded. Serious complaints are made concerning the quality of the sabres and revolvers furnished to the troops. Several cavalrymen returned with broken sabres, and in many instances their revolvers became clogged and were rendered useless.

Three zereebas and stockades were built over the filled trenches and manned by four Soudanese battalions and British soldiers. The space between them and the water forts was occupied by a battalion of horse artillery. The Emir of Trinkitat is a prisoner. He is wounded.

LONDON, Dec. 20.—A dispatch to the *Times* from Suakin says: The prisoners say they believe all the mounted gunners were killed. All tell the same story of

PRIVATION AND CRUELTY

at the hands of the Mandi and Osman Digna. None of them wished to fight, but were forced to do so, or persuaded to fight by promises of loot at Suakin and other rewards.

The trenches were bare. They found no food, clothing or money, but only Snider rifles and cartridges. The prisoners knew nothing of the reported capture of Emin or the fall of the equatorial provinces. The natives assert that Handoub would fall at the first approach of our troops. The government ought not to lose this charge. The task is an easy one, and there is not the slightest sign of any gatherings of local tribes.

Dynamite Bomb.

LITCHFIELD, Ill., Dec. 20.—Some miscreant threw a dynamite bomb into the cupola of the Litchfield Car and Machine Company's foundry this morning. The missile exploded, tearing the cupola to pieces and seriously injuring two employes.

Treacherous Conduct

LONDON, Dec. 20.—The *Daily Telegraph's* correspondent at St. Petersburg says: Having secured a loan by feigning friendliness toward the Paris Exhibition, the Russian government has instructed the newspapers as far as possible to ignore the subject and refrain from advising private individuals to send goods to the exhibition.

Ravages of Fire.

BOSTON, Dec. 20.—The Old Doty tavern on Blue Hill Avenue in Canton was burned last night. The building was a noted stopping place in revolutionary times. Both Washington and Lafayette dined there, and it is said a rough draft of the declaration of independence was prepared under its roof.

INDIANAPOLIS, Dec. 20.—At noon today, while Mrs. Staff, a colored woman, was away from home, her house caught fire, and her two children, aged 3 and 5 years, were burned to death before assistance could be rendered.

The Panama Canal.

PARIS, Dec. 20.—About 700 holders of the bonds and shares in the Panama Canal Company held a meeting to day and decided to forego, for the present, the payment of the coupons and the redemption shares. All present signed documents binding them to subscribe to any fresh issue.

At another meeting it was resolved to demand that necessary measures be taken immediately to safeguard the numerous interests concerned in the canal.

Pennsylvania Miners.

PITTSBURG, Dec. 20.—The railroad miners of Western Pennsylvania, at a delegate convention representing 9000 miners held here today, decided to join the Miners' National Progressive Union. Most of the miners were members of the Knights of Labor, and their decision will be a hard blow to the District Assembly. The question of enforcing the Columbus scale was left to the officers of the National Association.

The Germ Found.

CHATTANOOGA, Tenn., Dec. 20.—Dr. Reeves, an eminent microscopist, has been studying the tissues of the liver and kidneys from patients who died with the yellow fever, and has discovered a micro-organism that closely resembles a specific germ. The micro-organ is a bacillus, and nothing like it has ever before been found by Dr. Reeves. The doctor hopes the discovery will prove successful in determining the specific germ of yellow fever, and that proper culture will be found for it before next summer.

House of Commons.

LONDON, Dec. 20.—In the Commons, Stanhope, secretary of war, denied that the Queen had withdrawn the Honorable Artillery Company's warrant. He said he hoped the necessity for such a step would not arise. Recent events, however, demanded the reconstruction of the corps, whose services it was to be hoped the country would never lose.

In the Commons today, Ferguson stated instructions had been sent to the British consul at Zanzibar to protest in the strongest terms against a repetition of the cruel executions which occurred in the streets of Zanzibar.

At Wahalak.

WAHALAK, Miss. Dec. 20.—The guards who had charge of the prisoners report they escaped last night, but do not think it worth while to attempt to find them any more, and have asked that their names be scratched from the list of "spotted." A note was received today stating that several of the negroes who were in Maury's during the shooting on Sunday night were making their way to Meriden through the country, where they intended taking the train in order to leave the country. This information was telegraphed to Meriden and all other points near here where they might attempt to board a train, and if they attempt it they will certainly be caught.

Haytien Affairs.

HAVANA, Dec. 20.—The sub-sea system now established to Hayti is working satisfactorily, and by this means the following telegram has been just received:

"PORT AU PRINCE, Dec. 20.—President Legitime continues in power, and the majority of the people recognize his authority. The specification of the country is considered at hand. Neither the *Yantic* nor the *Galena* (U. S. war ships) have yet arrived."

WASHINGTON, Dec. 20.—Dr. Nemour Auguste, ambassador of the Haytien insurrectionists to the United States, and Charles A. Jackson, of New York, his attorney, arrived in the city tonight and will attempt to interest this government in the cause of the insurrectionists.

BRIGHT'S DISEASE.

The following statement from Mrs. Emeline P. Misner of Berg Hill, Ohio, will be of great interest to those who suffer from Bright's Disease or Gravel.—I have long resolved that I would apprise you of the deep sense of obligation which I feel. There is nothing which I now enjoy that I do not owe to the happy chance of having used Dr. David Kennedy's Favorite Remedy at a time when I was suffering all that a human being could endure. My troubles began in my Kidneys over nine years ago and from which

I Never Expected to Recover.

I was compelled to use a cane when I walked, and I finally got so weak that I could not stand alone. In a few months my physician said I had Bright's disease, which was indeed alarming information. To add to my affliction after I had been ill about two years, I had a bad attack of Gravel. Six years ago, last June, how well I remember the day, I saw Dr. David Kennedy's Favorite Remedy of Rondout, N. Y., advertised in our paper. After using one bottle I threw away my cane and went to New York on a visit, and three bottle cured me. This was six years ago. I have never had a return of gravel, nor of the pains or weakness in the back, and though I am over sixty years of age

I am Now Vigorous and Strong

as I was in my prime. I do all my own work, and rarely know what it is to be tired. I keep the medicine in the house and give it to my grandchildren, and recommend it whenever I can. What physicians and all of the many remedies I had taken could not do, Dr. Kennedy's Favorite Remedy did. It stayed the disease and made me a strong, vigorous woman.
