

SPECIAL BUSINESS NOTICES.

READ Advertisement of Fuller's Hill Ice Cream and Pleasure Grounds, for Fifth of July. A place for fireworks.

MR. TEASDEL calls attention, in his new advt., to his new arrivals of ribbons of bright Summer shades of all colors and widths at reduced prices; prints from 7c; gents' clothing, boots and shoes; Benedict Hall & Co's guaranteed boots and shoes; staple and fancy family supplies, and general merchandise in variety. Rich and poor attentively waited upon alike.

ATTENTION is directed to the advertisement, in today's News, of Fuller's Hill, which is said to be one of the most pleasant pleasure resorts in this locality, commanding a splendid view of the city, and being provided with the appliances usually to be found at pleasure gardens, for sport and amusement. But there is one thing, which is likely to make it specially attractive to the boys on Monday next, namely, that the chief magistrate of the city has designated it as a place at which fireworks may be discharged *ad libitum*. Do not forget, youngsters, that at Fuller's Hill you can amuse yourselves with various games as at other places of a similar kind, can purchase ice cream, and other seasonable delicacies, and that in addition you can take your fireworks along and discharge them there without fear of arrest by the police.

IMPORTANT TO THE TRAVELING PUBLIC.

It is the duty of all persons before starting on a journey to ascertain by what route they can reach their destination with the least trouble, and if there are two or more roads leading to the same point, to decide which is the safest and most pleasant to travel.

We take pleasure in stating, that the CHICAGO & NORTH-WESTERN RAILWAY is the oldest, and several miles the shortest, route between Omaha and Chicago. Within the past two years the road has been put in admirable condition, and almost the entire line has been re-laid with steel rails.

The Depot in Chicago is centrally located, and as their trains arrive there only thirty minutes in advance of all other lines, passengers can always be sure of making Eastern connections.

Close connections are made at Chicago with the Lake Shore & Michigan Southern, Michigan Central, Baltimore & Ohio, Pittsburg, Fort Wayne & Chicago, Kankakee Line and Pan Handle Routes, for all points EAST and SOUTH-EAST.

If you are going to Chicago, or East, you should, by all means, purchase your tickets at the Old Pioneer Route.

The Chicago and North-Western. You will find on all through trains Pullman Sleepers, new and magnificent Day Coaches, and the best Smoking and Second Class Cars on any road in the United States.

Particular information with maps, time tables, etc., may be had at any of the Through Ticket Offices in the West, or upon personal or written application to J. W. Irons, Ticket Agent, Salt Lake City, A. H. Early, Ticket Agent at Ogden, or to J. H. Mounslie, Western Traveling Agent, Omaha, Neb., or to W. H. Stennett, General Passenger Agent, Chicago. d54

EVENING NEWS.

Saturday, July 3, 1875.

Local and Other Matters.

THERMOMETER 77 degrees F. in the shade at 1 p.m. to-day. Fine.

Religious Services.—Meetings at the Tabernacle to-morrow afternoon and at the Ward Meeting-houses in the evening.

Notice.—The Superintendents and Teachers of Sabbath Schools will hold their usual monthly meeting in the City Hall on Tuesday evening next, July 6th, at half past seven o'clock. A punctual and general attendance is requested.

Twentieth Ward Excursion.—The Twentieth Ward excursionists' train, for Lake Side, will leave the depot promptly at 8 o'clock, on Monday morning. Eight cars have been engaged, so the party will be a large one.

Ogden Excursionists.—The excursionists bound for Ogden on Monday, the 5th, will have to be at the depot at forty-five minutes past six o'clock in the morning, to be in time for starting. Those who wish for tickets should get them to-night, if they would not be disappointed.

Disturbance.—A person who resides in the vicinity of the intersection of Third South and Seventh East Streets informs us that a number of lads have congregated thereabouts every night lately and shot off pistols and other fire-arms, and shouted and yelled, to the great annoyance of the neighborhood living within the radius of a few blocks of the spot. They should be attended to by the city officers.

The Newly Married Pair.—This morning Henry and Mary Miller, the couple who were united in wedlock but a few days since, by Justice Pyper, appeared before that functionary on business of a different nature. Their appearance was involuntary, both having been arrested for indulging in their extensive bicultural propensities and creating a general uproar, to the disturbance of the public peace.

They were each fined in the sum of \$10, which they were unable to furnish, causing them to be under the surveillance of the City officers for the space of ten days.

Insult.—In yesterday's News, the following error was inadvertently made in summarizing the late decision of the Supreme Court:

"Disallowing questions by counsel to plaintiff as a witness in motion bearing on her character and credibility."

The paragraph should have read:—"Disallowing questions to William Hyde, defendant and witness, concerning his motive in destroying the property of plaintiff, and whether or not he had any ill will towards her."

Be Careful.—Small boys and boys not so small are apt about this time to be handling and shooting off fireworks, the city regulations to the contrary notwithstanding, and to parents and guardians of children we offer a word of caution, on this subject, for it is grievous to have to record distressing Fourth of July accidents, as is the case nearly every year, about some child or children being shot, scorched or otherwise injured through carelessness.

The Fourth.—To-morrow being the Fourth of July, the 99th anniversary of the independence of the American nation, and Sunday being an unfitting day on which to celebrate an event of the kind, Monday will be generally, almost universally, observed as a holiday, and the editors, typesetters, bookkeepers, and all hands connected with this office, having no distaste for an occasional holiday, besides being intensely loyal, the News will not be issued again until Tuesday evening.

Personal.—C. R. Penrose, Esq., the handsome editor of the Ogden Junction, showed his pleasant countenance in this office yesterday afternoon, looking well in health, tanned in complexion, buoyant in spirit, and elegant in apparel. Charles says he did not go to Soda Springs, with his good wife, to prevent a few quarter sections, but to drink the sparkling soda water from Nature's fountains, and to get a little sun and air. Judging by his beaming countenance and joyous manner, his desires in that direction were crowned with success.

Grand Ball at Coalville.—A complimentary comes to a "Grand Opening Ball" and social picnic party of the Summit County Court House at Coalville, on Monday next. Dancing to commence at 2 p.m., recess 6 to 8 p.m. Hon. Elias Asper, Charles Richins, Esq., Robert Salmon, Major H. W. Brizze, J. Woolstenholme, Esq., Hon. W. W. Cluff, Wm. Lauder, Esq., Hon. Ward E. Pack, G. G. Snyder, Esq., Committee of Reception.

Floor Manager, Major H. W. Brizze. Music by Olsen's Band. James Currie, prompter.

And lie around, the survivors are sure to become affected. Select and preserve the healthy ones, those which smelt the least time, if you want to be successful in silk raising.

The silk worms are very tedious regarding the place they select to spin in, and take most readily to oak and other kinds of brush. However, in Mr. Pyper's cocoonery they are not only spinning in the brush provided for that purpose, and in racks which have been erected, but have climbed up into the roof and sought out every available nook and corner. It has been observed that they like to spin and have a catch or rest at right angles, and Mr. Pyper is satisfied that there can yet be a great improvement made in the character of the spinning apparatus, and he is making observations with a view to an improvement in that direction.

The 30,000 worms mentioned have been attended to almost solely by Mr. Pyper's son George, who is not quite fifteen years old, and the result of fifty days of his work will be that the quantity of worms named will produce sixty pounds of cocoons, worth \$100, or, when reeled, \$300 worth of silk.

Besides the full grown worms, most of which are spinning, there are 15,000 half-grown, which will be spinning in between ten and fifteen days from now. The 30,000 were raised from only one pair, which were first owned by Prof. Barfoot, from whom Mr. Pyper obtained 500, which had been raised from the pair, four years ago, with the present comparatively large result. As to the probabilities of silk raising here there can be no question. Mulberry trees can be raised in orchards without interfering with the fruit trees, and women and children can attend to the work being light and, to people generally, of an interesting character.

Charged with Subornation of Perjury.—Yesterday afternoon, Bp. H. Hatch, of Franklin, having been brought to the City on a warrant issued by Judge Love, appeared before that official, to answer preliminarily to a charge of subornation of perjury, for which alleged offence he had been indicted at the March term of the Third District Court of Idaho. He was released on giving bonds of \$7,500 to appear at the next regular term of that court.

The charge grows out of allegations to the effect that he procured witnesses to swear falsely in behalf of the railroad company, in the entering up of public land.

A Watery Squabble.—This morning Frank Hirth, a resident of the First Ward, was before Justice Pyper, on a charge of assaulting, striking and threatening the life of another resident of the same locality, named Camilly. The evidence showed that the squabble arose from that ever fruitful source of disagreements, the water. Witnesses who saw a part but not all of the dispute saw the two principals on the ground upon the sidewalk opposite Camilly's lot, shortly after six o'clock yesterday morning. Hirth grasping a pistol in one hand and a hoe in the other. They scrambled to their feet, when it was discovered that Camilly had been struck on the arms and out very badly, and also over the head with Hirth's hoe. The latter threatened to send the other to a twinkling, at the same time flourishing his pistol. Camilly said, "I'll go and get my pistol too," and he entered the house and soon reappeared, pistol in hand, and it seemed then as if there was going to be hot work, but as Camilly approached the other his courage failed him, and, at the command of Hirth, he dropped his weapon upon the ground.

It was all about a little water. It was allotted to Hirth from three o'clock till six, and Camilly claimed that it was after that hour that he turned some water upon his ditch, while Hirth claimed he did it in his allotted watering time. Anyhow, whether Camilly stole the water or not, pistols and hoes are not legal weapons with which to settle such a dispute, and therefore Hirth was fined in the sum of \$15, which he paid.

Silk Raising.—To-day our reporter visited the cocoonery of Justice A. C. Pyper, at the rear of his residence, in the 10th Ward. It is of a temporary character, being in the upper part of a barn, where he has about thirty thousand as fine, large, healthy silk worms, French Annuels, and a small number of Japanese worms, as it has ever been his fortune to see, most of them busily engaged in spinning. The Japanese are considerably smaller than the other kind. Mr. Pyper has demonstrated, to his entire satisfaction, that there is no difficulty whatever in raising silk in this Territory, providing a little care be exercised in the manipulation of the worms. A large amount of the want of success attending the efforts of some in that direction has been the crowding of too many worms upon the hurdles, not giving them sufficient room, and through placing the leaves for them to feed upon always in one place, causing some of the worms that cannot get at them to starve. Also on account of the diaphanous worms being separated from the healthy ones in good time and destroyed. Disease among them appears to be contagious, and will spread and destroy them *ad libitum* unless checked by the separation and destruction of the infected ones. When diseased worms are allowed to die

and lie around, the survivors are sure to become affected. Select and preserve the healthy ones, those which smelt the least time, if you want to be successful in silk raising.
