

TO SAVE CZOLGOSZ FROM HIS FATE

Social Alliance of Boston Wants His Sentence Commuted.

GOV. ODELL WILL NOT HEED

Society's Secretary Is Theo. W. Curtis—No Sentimental Sympathy With Assassin, But to Vindicate Law.

Boston, Oct. 4.—Although Gov. Odell, of New York, has stated emphatically that he will not consider any petition for a commutation of Czolgosz's death sentence to life imprisonment, the Social Alliance of this city is circulating a petition of this nature for signatures in Boston. Its secretary is Theodore W. Curtis. The petition is a long one and includes this sentence: "The motive of the petition is not sentimental sympathy with a condemned man, much less the upholding of any form of anarchy, of which he is said to have been a disciple, but the belief that the ends of justice, the vindication of the law and the higher interests of civilization will be better served by this change in the form of the penalty."

Largest Floating Dry Dock.

New York, Oct. 4.—A special to the Journal and Advertiser from Washington, says:

With a general agreement reached by the insurance companies which is expected on the day fixed by the builders, the largest floating dry-dock in the world will start from Baltimore on the 15th of this month, on a hazardous trip down the Atlantic and around through the gulf and up the Mississippi river to its new station at Algiers, La. A conference has been held this week between a representative of the firm building the dock and Admiral Endicott, chief of the bureau of yards and docks, and an agreement reached to start the dock away. It is said that all the companies having insurance on the risk, will agree on the 15th and the big basin will float off then. Next Saturday it will take the water and the work of preparing it for the cruise will begin. This dock has a lifting capacity of 17,500 tons and is by far the largest in the world. It is the design of two Englishmen, Clark and Shield.

AN AIRSHIP VENTURE.

Herr Kress' Machine Collapses and He is Almost Drowned.

New York, Oct. 4.—Herr Kress inventor of an airship, started Thursday afternoon on another trial flight on the Ballerbach reservoir, says the Vienna correspondent of the Herald.

The result was disastrous. After going a certain distance Herr Kress started his motor at full speed ahead, which caused the forward part of the flying machine to rise about 35 centimeters out of the water. On rising to this height the whole machine suddenly lost its equilibrium and swung over to the right. This caused it to fill with water and it sank like a stone. The water at this point is 13 meters deep. Herr Kress who was alone in the flying machine, was carried down with the ship, but thanks to the life preserver he wore, he came to the surface and was able to grasp the poles which the officer and engineer who were witnesses of the accident, held out to him.

The aged inventor—he is more than 70 years of age—was in a very exhausted condition, and had sustained some slight injury. He was taken home to Fürstendorf.

The flying machine sank to the bottom. It will be fished up today (Friday) when it will be seen if it is still in working order.

FRENCH RELIGIOUS ORDERS.

The Last Applications for Authorization Are Sent In.

London, Oct. 4.—The Paris correspondent of the Times says that the last applications by religious orders for authorization under the law association have been sent in. It is believed that four-fifths of those religious communities in the country have complied with the law. The recusants are mostly Jesuits, Assumptionists, Carmelites and Benedictines.

Cardinal Langueux, archbishop of Reims, deprecates the departure of the religious orders and calls on his flock to "shake off the yoke of official impiety."

Reinforcements for Koweit.

London, Oct. 4.—The Paris Temps, quoted by the correspondent of the Times in the French capital, says that it is true, as reported, that the British are sending reinforcements to Koweit, they are violating the laws of neutrality and complications may be expected.

CASE OF MISS STONE.

United States Will Exact Revenge on All Concerned.

London, Oct. 4.—"The United States government is determined to exact full revenge upon everyone concerned," says the Constantinople correspondent of the Daily Telegraph, "and if anything happens to Miss Stone it will not hesitate to ask permission to bring a fleet through the Dardanelles to get at Bulgarian ports on the Black sea and to force the Bulgarian government to act against the Macedonian committee."

Gold Medal for A. S. Hewitt.

New York, Oct. 4.—A gold medal has just been presented to former mayor Abram S. Hewitt by the chamber of commerce in recognition of his service in the cause of underground rapid transit in this city. On the face of the medal is the inscription: "By his genius benefactor of the city and conservator of public property. Aged 72."

Black Dump in Extension Mines.

Victoria, B. C., Oct. 4.—Black dump was found in such quantities in the Extension mines yesterday that the work of reopening the mine and continuing the search for the hidden had to be stopped. The presence of so much of this dump strengthens the theory that the fire is out.

Stand by the Standard!

Price's Cream Baking Powder is everywhere the acknowledged standard, the powder of the highest reputation, greatest strength, and absolutely pure. It renders the food more healthful and palatable, and using it exclusively you are assured against alum and other dangerous chemicals from which the low-grade powders are made.

Dr. Price's Baking Powder is sold on its merits only—never by the aid of lotteries, gifts, commissions or other schemes. The entire value of your money comes back to you in baking powder—the purest, most economical made.

PRICE BAKING POWDER CO., CHICAGO.

THE ATTACK ON FORT ITALIA.

Was a Far Bigger Engagement Than at First Reported.

KEKEWICH WAS SURPRISED

Boers Intend a Combined Invasion of Natal—Many Seditious Makers Discovered Through Treason Trials.

London, Oct. 4.—A dispatch from Dundee to the Times says that the Boer attack on Fort Italia proves to have been a far bigger engagement than could be gathered from the first reports. The casualties on both sides indicate the fierceness of the struggle. The Boer casualties are now limited to 400. The British prisoners say 60 Boers hurried on farms and assisted in carrying off 75 wounded. The Boers informed the prisoners, that they expected to find the Fort Italia garrison only 100 strong. The Boers lost more men than in any previous action this year.

There seems no doubt, says the Times correspondent, that the Boers intend a combined invasion of Natal, east and west. It is stated that Gen. Dewet ordered the burghers in the northeastern precinct of Orange river colony to concentrate at Taekon, but up to now the only result of the movement has been the invasion of Natal of a small command which can easily be driven back. British officers who recently were prisoners say that Gen. Botha's men and horses are in good condition. The British prisoners have been robbed of almost everything they possessed.

The main body of the Boers is still near the Zululand frontier.

KEKEWICH WAS SURPRISED

New York, Oct. 4.—Discussing the military situation in South Africa, the London correspondent of the Tribune says:

Col. Kekewich's force was surprised by Commandant De Laury as was expected by military men when the earliest bulletins bearing the marks of close revision by the war office, were published.

While this engagement supplies fresh proof that scouting is either a lost art or else ineffectual against the stealthy approach of mobile and crafty foes like the Boer, the veterans are satisfied

A PLUMP FIGURE.

Makes a First-Telling Argument.

"About a year ago a doctor and his wife came to board with us. We already had Miss G., who was at that time thin and yellow and considerably out of health.

The first morning the new boarders came to the table as guests the young lady remarked as she set her cup down, 'This is coffee!' while the doctor added, 'Not at all like the poor coffee they have been giving us at the hotel.' If either of them ever used Postum Food Coffee, the doctor said he had tasted it, but it was weak, miserable stuff. Miss G. had heard of it and wished she could try it.

"I said nothing, but at the end of three months, when Miss G. was ready to leave us for a new field of labor, said, 'I have been giving you Postum Food Coffee all the time you have been here.' What, is that coffee, Postum, she said. I remarked that I had noticed with great pleasure, her daily gain in health, and now that she was leaving us after only three months at our table, she had rosy cheeks and a plump figure, which was all the argument anyone needed to prove the fact that she had been well cared for, and the reason for her gain in health was the use of Postum Food Coffee, for no other change had been made of any account, in her food.

The doctor was very much delighted with the experiment, and discovered that where he had tried Postum before, he had been unfortunate in having it undervalued. Postum must be boiled fifteen or twenty minutes to bring out the delicious flavor, and then it will suit the taste of anyone." Mrs. Florence Dougherty, Placerville, Idaho.

NOTE.—Alum baking powders are low priced, as they cost but three cents a pound to make. But alum leaves in the bread or cake glaucous salt, sulphuric acid and hydrate of alumina—all injurious, the last two poisonous.

with the fine fighting form displayed by Col. Kekewich's command. They assert that the British army had grown stale while only half employed in watching railways and moving across stretches of empty country, where the Boers eluded pursuit and avoided stand, but that it is now again on its mettle when there is real fighting. Col. Kekewich is regarded by South Africans as a vigilant officer with a narrow mind and lack of flexibility. Why he defended Kimberly successfully, it was Cecil Rhodes who recruited the volunteer force of colonials and inspired courage to the people of the town. Col. Kekewich did not get on well with Mr. Rhodes, who was the real defender of Kimberly. There is a story that when Gen. Buller entered Kimberly, Col. Kekewich asked him to put Rhodes under arrest but was laughed at. He has been one of Lord Kitchener's trusted lieutenants, as an experienced officer who thoroughly understands Boer tactics.

SEDITION MAKERS IN SOUTH AFRICA.

London, Oct. 4.—The correspondent of the Times at Pretoria, says the treason trials have revealed the presence of large numbers of sedition-makers who have not only taken the oath of allegiance to the British crown but who, in many cases, have been receiving relief from the British authorities. In spite of this they communicated freely with their friends in the commandos in the field, feeling confident that they would be treated leniently if caught.

The main body of the Boers is still near the Zululand frontier.

Shot with Air Gun.

Victoria, B. C., Oct. 4.—While returning from a hunting trip last evening John Hazenfratz was struck in the head by a bullet from a boy's air gun, the missile piercing his skull and it is feared the wound will result fatally. The boy, Ernest Stevens, says he fired at a bird and the bullet must have struck a tree and glancing hit Hazenfratz. The latter, who is still conscious, says the boy fired point blank at him after a quarrel over the boy's pranks.

Conversations With Felix Faure.

London, Oct. 4.—A dispatch from Paris to the Times says that M. Mermeix, the author of the "Conversations of Felix Faure," printed in the Figaro has now published them in book form. In a preface M. Mermeix discusses the improbable hypothesis that President Faure was poisoned.

Hetty Green's Husband Ill.

Bellows Falls, Vt., Oct. 4.—Edward H. Green, husband of Hetty Green, is reported very ill at the Green home here. He has been in failing health for months but of late has been better and on Monday Mrs. Green returned to New York after spending the summer here. On Wednesday Mr. Green's condition took a decided change for the worse, complications setting in and Mrs. Green was hastily summoned from New York. The only son, Edward H. Green, of Texas, is on his way home and is expected to reach here today. Mr. Green was one of the pioneers in the East India trade and accumulated a fortune in the tea business.

STRANGER'S FRANK LETTER

California Woman Writes Inquiringly to Tabernacle Custodian.

Visited Salt Lake in July and Became Interested in What She Saw and Heard—Her Letter.

Ephraim Jensen, the custodian of the Tabernacle, is in receipt of the following self-explanatory letter:

Alameda, Sept. 29, 1901.—Dear Sir:—I will not recede, and you will wonder at the fact that a stranger should burden you with her inquiries. During the latter part of July while on my way from the east, I visited the Tabernacle in company with a young lady, and just before the organ recital, had the pleasure of listening to a short discourse of Christianity with which you kindly favored us. I was obliged to leave the city at noon, and so was denied the privilege of waiting until after the recital for a continuation of the conversation as you requested.

To-day it chanced, while destroying some letters and papers that had accumulated, that I came across the discourse of Mormonism which you handed me together with your card, and I was reminded of the impression which your apparent sincerity had upon me at the time, and the desire I then had, now revived by the sight of these papers, to ask you to tell me where I might obtain a good history of the Mormon faith and people. Of course

I can secure any amount of literature on the subject, but I desire to view the own people might view it, and for this reason would like to know what work is considered a fair exposition of the faith by a sincere follower of it.

Your assurance was not that of a prejudiced man, so I do not think it will offend you to know that I request this information simply to satisfy a passing intellectual need, by no means a spiritual one. I was in some way impressed with the idea that you had yourself viewed religious questions from this standpoint; that you had more the temperament of a scholar than a religious enthusiast or preacher, whatever your life might have made you. I do not see why such intellectual inquiries should be inconsistent with the attitude of a sincere faith, though many have deemed it so, and I am sure you will understand how necessary it seems to me to study any religious faith from the standpoint of its believers in order to obtain a just idea of its power.

All who visit Utah for the first time must be impressed with the fact that the patience and steadfast purpose that gave it life, and all strangers are not satisfied with the narrow view taken by the world as to the reasons for its existence. It may be, as a recent writer said, that Utah is not the outgrowth of religious zeal; that the Church really does not sustain the industrial system, but that the industrial system sustains the Church. I am but a poor student of any religion, and do not claim any knowledge beyond that which ordinary observation and reading can give me. I thought, however, that I should not understand any religion well enough to have any belief in it, but this will not render me incapable of sympathizing with and perhaps envying those who claim to possess a firm and sincere faith. It may be, too, that some natures are so limited that religious belief can never become a part of them. I cannot see, however, how it is possible for one who has a sincere belief in an Infinite Being—taking any shape from Allah to Mohi—to doubt the power of His revealing His purpose to the prophets of modern times—as the Mormon Church claims. I envy any one who can be free from the thought that

"The revelations of devout and learned Who rose before us, and as prophets burst upon the world."

Are all but stories, which, awake from sleep They told their comrades, and to sleep returned."

It must be an easy thing to endure "rash judgments, greetings where no kindness is, and all the dreary interchange of daily life" when we are sure of a life to come; but after all, how much nobler the man who fixes good and noble aims and tries to live every day as if he were going to die. As I recall saying to you when you spoke of the men made great by religion, I know of no nobler man than Epictetus, who was chained to a slave's collar, or if he did, was not conscious of it. A stranger sometimes gains some odd impressions by a hasty conversation or hasty glance. I thought when I looked at you and saw how far from happy and contented your outward appearance seemed, how many struggles and how many sorrows life might have given you before you obtained the glimpse behind the door to which so many find no key, and I wondered whether the search is worth the striving when its fulfillment brings no evident joy to a firm and professed believer in it.

Forgive me for troubling you, and consider my letter the speculation of an idle moment if you will. Sometimes I believe that the old Romans who made gods of virtues and for a time at least had hold of a sure belief in them, have been the only true people, and I laugh then at my attempts to learn anything from modern creeds.

But after all is said, Utah remains, and I should like to understand, even dimly, the reason for its existence.

I hope to visit the Tabernacle again better prepared to understand its history and meaning; but I fear that the Temple's doors are forever closed to me, even if the book you may recommend should convince me that religion is the only reason for Utah's growth and progress.

I thank you for the courtesy you showed to such a frank unbeliever in your faith, and for the pleasure your momentary interest afforded me, and you may consider, if you wish, this merely as another exemplification of the poet's well-known lines.

"Ships that pass in the night, and speak each other in passing, Only a signal shown and a distant voice in the darkness. So on the ocean of life we pass and speak one another, Only a look and a voice, then darkness again and a silence."

and so forget it.

If you should pass through the door of darkness before me, why not make part of your mission to return and tell me of the road? According to your faith, all mankind may be saved, and if it is possible for you to give spiritual aid to spiritual non-believers hereafter, will it not be now to give spiritual aid to one still in the flesh who knows not what to believe?

If you wish to smile at what I have said, do not do it. I shall have the satisfaction of knowing that I have even more power than your faith, for that has not yet made you joyous.

WINNIFRED FRELICK.

"A Baby's Birth"

is very much like the blossoming of a flower. Its beauty and perfection depends entirely upon the care bestowed upon its parent. Expectant mothers should be careful to give their bodies the best of food and plenty of good nourishing food and take gentle exercises. This will go a long way toward preserving their health and their beauty as well as that of the little one to come. And it is absolutely sure of a short and painless labor they should use

STRONG TEAM FOR Y. M. C. A.

Enthusiastic Meeting of Gridiron Heroes Last Evening.

WILL ORGANIZE AT ONCE.

Sam Porter Chosen Manager—First Practice Scheduled for Tomorrow Evening.

An enthusiastic meeting of pig skin chasers was held at the Y. M. C. A. rooms last evening and formed the nucleus of a powerful football team. It is confidently expected that the team, when fully organized, will be the greatest ever formed under Y. M. C. A. colors in Utah. Dr. Plummer, who is chairman of the Athletic committee, has had the matter in hand, and called the meeting last night for the purpose of discussing matters pertaining to the season now close at hand.

It was the unanimous opinion of those present that the team should be organized immediately and get down to work at once. The position of manager was tendered to Sam Porter, and he accepted the honor. He will be given full control and the hearty support of every member of the institution. With such backing, the team ought to be one of the strongest in the state.

The question of dates was gone into and it was decided to bring outside teams here this winter and give enthusiasts a treat of the great amateur sport.

Quite a number of teams have already been heard from, and among those that will be seen on the local gridiron are the Olympic club of San Francisco, the Agricultural College of Colorado, Denver Athletic club, University of Denver, Washburn college, Colorado college and the Wyoming university.

All the noted lights in the local football firmament will be asked to report for practice and try out for positions. Under the direction of McAndrews and Boyle the first practice will be held tomorrow evening. The probabilities are that Worthen, last year's High school center, will be seen in the line up. Others who have been mentioned for positions are Hyde, Odell, Searle, Richards, Allen, Meyers, Taylor and Dana T. Smith. The latter, however, has expressed some doubt as to whether he will play this year.

BALL GAMES HERE.

Ogden and Salt Lake Will Play Tomorrow and Sunday.

The games between the White Wings and Lobsters scheduled for tomorrow and Sunday at Ogden have been transferred to Salt Lake. The teams will meet at Walkers at 3:30 tomorrow and engage in a double header Sunday. It is believed if the locals win tomorrow, a new series will be started right off.

TEAM FOR L. D. S.

University Will Be Represented on the Gridiron This Year.

That the L. D. S. University will be represented by a good team in this year's gridiron struggles, is now a settled fact.

A petition has been presented to the faculty asking permission to organize a team and participate in the fight for championship honors. The request met with a favorable reply and the footballists are getting down to work. The team will be managed by George Taylor and H. C. Hicks, and Freeman Bassett will captain the team. On the first call for candidates eighteen young athletes responded as follows:

Ends, Douglass, Bassett and Astin; tackles, R. Hamlin, Rampton and Stanton; guards, Ringelberg, Smith and Johnson; centers, V. Hamlin and Larson; halfbacks, Romney, Woolley and Christie; fullbacks, Marx and Chaffin.

Since these men reported for duty, others have made application for positions, so there is plenty of material and an A. 1 team will be the result.

The boys were out for their first practice yesterday afternoon and the showing made more than pleased the management.

RESERVES ORGANIZE.

Team Formed Last Evening—Manager and Captain Elected.

The "big guns" of the Y. M. C. A. are not to get ahead of the smaller ones. A meeting of members of last year's "Reserves," who captured the second team championship, was held and it was decided to reorganize. A. Cheshire was elected manager and Percy Clark captain. Among those who will play are Clark, Cheshire, Hamilton, back, Bridger, Marks, Richardson, Baker, Danfield, Chug, Harris, Ball, Stewart, Miller, Davis and Thomas.

The team will get down to practice as soon as possible.

Another League Team.

A football team was organized at the Ogden school yesterday afternoon and application has been made for membership in the school league. Dyer was chosen manager and McMurrin captain. The line-up is as follows:

Paul, I. S.; Post, I. T.; McIntyre, I. G.; Williams, C.; Lockery, F. G.; Leiring, I. T.; McMurrin, I. S.; Brown, I. S.; Kearns, I. S.; Sear, I. S.; Dyer, I. S.

OUTSIDE EVENTS.

CRESCENT FAILS AGAIN.

Makes Another Attempt to Lower His Great Record.

Baltimore, Oct. 3.—Crescent, the champion trotter of the world, driven by his owner, George H. Ketcham, failed in an effort on the Pimlico track today to lower his record for a mile of 2:02½. The best he could do was 2:05½. The time by quarters: First, :30; half, 1:02; three-quarters, 1:34. The track was in excellent condition and the weather fine. Seven thousand persons witnessed the exhibition.

Columbia Gains Favor.

New York Oct. 4.—When the news that Columbia had again defeated Shamrock II went through the city there was a decided change in the betting and odds were changed considerably in favor of Columbia.

World's Record Broken.

Albany, N. Y., Oct. 3.—At the Island Park Driving association meeting today, driven by Miss Nina Phelps of Waterville, N. Y., beat the world's record for lady drivers by three and three-quarters seconds. The horse trotted the mile in 2:04½. The best previous record for a lady driver was 2:12½.

Maher Fights a Draw.

Lancaster, Pa., Oct. 3.—Jim Jeffers, and Peter Maher met here tonight in

a six-round go. No decision was given and honors were about even, with Jeffers having perhaps a shade the better of it. Maher fought on the aggressive and landed often, but his blows lacked force. Jeffers scored a knock-down in the second round.

"I had long suffered from indigestion," writes G. A. Lebow, Cedar City, Mo. "Like others I tried many preparations but never found anything that did me good until I took Kodol Dyspepsia Cure. One bottle cured me. A friend who had suffered similarly I put on the use of Kodol Dyspepsia Cure. He is gaining fast and will soon be able to work. Before he had Kodol Dyspepsia Cure indigestion had made him a total wreck—Gods-Pills Drug Co., corner First South and Main streets.

A "ditch in the save rim," and a dose of BALLARD'S HOREHOUND SYRUP at the beginning of a cold will save you many weary hours and even days of distressing and harassing cough. Price, 25 and 50 cents. Z. C. M. I. Drug Dept.
