

DESERET EVENING NEWS

WEATHER REPORT.

Barometer, reading at 9 a.m., 25.68 inches. Temperature at 6 a.m., 42 degrees; maximum, 64; minimum, 39; mean, 52 degrees, which is 4 degrees above normal.

Excess of daily mean temperature since the first of the month, 10 degrees.

Accumulated excess of daily mean temperature since January 1st, 559 degrees.

Precipitation since first of month, none, which is 25 inches below the normal.

Accumulated excess in precipitation since January 1st, 4 1/2 inches.

FORECASTS TILL 6 P. M. THURSDAY.

Local forecast for Salt Lake City and vicinity:

Fair tonight and Thursday.

Forecasts for Utah, made at Denver, Colorado:

Fair tonight and Thursday.

WEATHER CONDITIONS.

The storm noted over Washington yesterday morning has moved very rapidly and is now central over eastern South Dakota. An area of high pressure now covers the northern and middle plateau regions. Precipitation has occurred over Washington and Montana. It is cooler over southern Idaho and western Colorado; and warmer over southern Utah, the northern and middle Rocky Mountain slopes, Missouri and upper Mississippi valleys.

L. H. MURDOCH,
Section Director.

TODAY'S TEMPERATURE.

10 a. m., 46; 11 a. m., 48; 12 o'clock noon, 56; 1 p. m., 51.

THE CHRISTMAS NEWS

FOR 1901.

A UTAH-COLORADO EDITION.

The Christmas edition of the "News" this year will be printed on Saturday, December 21st, 1901. It will contain an exhaustive review of the year's developments in business, mining, commerce, real estate, building, and all other branches of business, and will form the most elaborate compilation of the resources and attractions of Utah which has ever been issued.

Our sister state, Colorado, and its industries and attractions will be well represented in the issue, many beautiful views of Denver and Colorado scenery being given. A big part of the edition will be circulated in Denver, and Colorado's principal cities.

Especially attractive articles will be prepared by a corps of selected writers, and leading men of the community will contribute timely articles on current topics.

As the holiday number will be issued several days ahead of Christmas, it will form an invaluable advertising medium to local dealers for the Christmas trade. The general advertiser could find no better means for reaching the people of the great west. The "News" will pledge a circulation of at least 20,000 copies for the Christmas issue. Special rates will be accorded advertisers who wish their notices printed in the Semi-Weekly News as well, giving them a total circulation of nearly 45,000 copies.

LOCAL BRIEFS.

The barometer at the weather office indicates that a general storm is a prospect of the near future.

Copies of the school law, with comprehensive indexes have been printed for distribution at the instance of State Superintendent Nelson.

A telegram received by relatives in this city states that Thomas Thorley, a highly respected citizen of Cedar city and a pioneer settler of southern Utah, died suddenly yesterday morning of heart failure.

Another case of smallpox was reported to the city board of health this morning. The sufferer is Miss Annie Anderson, of 337-cent, Eighth South street. This makes two cases altogether in the city at present.

The regular monthly meeting of the Scandinavian committee will be held in this city on Friday evening in the fourteenth ward assembly room. President C. D. Fieldstead desires to meet with the committee in the interest of the Copenhagen building fund. Other important business is also to be transacted, and a full attendance is desired.

A most enjoyable family reunion was held today at the home of Officer Randolph of the police force. Mrs. Randolph met a brother and two sisters whom she had not seen for thirty years. The brother is Samuel Ware, who recently arrived in this city, and the sisters are Mrs. J. P. Dennis of San Francisco and Mrs. Carrie Hacker of Baker City.

Lieutenant Daniel D. Tompkins, of the Eleventh cavalry is in the city on his way to the presidio to marry Miss Grace Grimes, a daughter of Colonel Grimes of the Artillery. Tompkins enlisted as private in the Spanish war and served gallantly in Cuba. Seven months ago he was promoted to a lieutenant and after he is married he will receive his command, with his bride and on December 15th sail for the Philippines under orders.

L. G. Grog of 250 west Third North street has been severely lately with his share of troubles. He has three children ill with scarlet fever and one with diphtheria, and on Monday afternoon a fire broke out in the house caused by a defective fuse in the kitchen. He could neither call the fire department nor his neighbors because of the quarantine so he had to fight the flames alone. After he finally triumphed.

The change in the arrival of the morning mail from the East is an inconvenience to Salt Lake, so says Postmaster Thomas. The mail formerly arrived here at 5:20 a. m., and was delivered before noon. But now it does not reach here until after 6 o'clock and cannot be delivered until afternoon. And if the mails are very heavy the carriers find it impossible to get through in the outlying districts in the afternoon, and they have to finish delivering the mail the next morning.

TO BE OPENED
END OF NEXT WEEKSalmon River Railroad Will be
Ready to Be Turned Over.

NOVEMBER 15 IS THE DATE.

By That Time It is Estimated the
Depots Will Have Been Finished
And Track Surfaced.

The Salmon River road is to be turned over to the operating department of the Oregon Short Line by the end of next week, providing the work on the depots along the line has been finished and the surfacing of the track completed. It is the intention of the engineering department, however, to turn the road over by November 15 if there are no delays, for everything points to the line being ready by that time.

The Salmon River railroad, the new Oregon Short Line feeder, extends from Blackfoot, on the old Utah Northern, across the desert and up the big Lost River valley, a distance of 80 1/2 miles to where the town of Mackay has been laid out near the White Knob copper mine. This mine has been known since 1884, and has been quite a producer in past years. The expense of shipping ore has been heretofore enormous. It is said that the owners of the mine paid \$50,000 in advance prospective freight as an inducement for the building of the railroad.

The new feeder will undoubtedly prove a good investment and that it will be pushed still further into the very heart of the rich Idaho mining properties is a foregone conclusion, as the ore shipments from Idaho are going to cut a big figure in the earnings of the Short Line a few years from date.

MORGAN-HILL LEADS.

Eight Great Railway Corporations
Which Control 105,379 Miles.

By the consolidation of railways working on the community of interest basis there are eight systems which own or control 105,379 miles of road out of the 198,346 miles, which, according to the statistics of the Interstate Commerce commission, made up the total mileage of the United States at the close of the fiscal year ending June 30, 1900.

The total mileage of each of these systems is as follows: Morgan-Hill system, including Great Northern, Northern Pacific, Burlington and Erie, 26,468; Harriman system, including Union Pacific, O. R. & N., Oregon Short Line, Southern Pacific, 18,800; Gould system, including Missouri Pacific, Wash. & Ore., 12,755; Vanderbilt system, including New York Central, Big Four, etc., 14,455; Pennsylvania system, including Baltimore & Ohio, etc., 13,772; Morgan system, including Reading and Southern, 11,735; Belmont system, including the Louisville & Nashville, etc., 4,247. These, with 3,008 miles represented by the Norfolk & Western and Chesapeake & Ohio, controlled jointly by the Vanderbilt and Pennsylvania systems, bring the total aggregate to 105,379 miles.

There are 11 separate corporations, among which are the Atchafalaya, Topoka & Santa Fe, 7,481 miles; the Chicago, Milwaukee & St. Paul, 6,340 miles; the Rock Island, 3,730 miles; and the Boston & Maine, 3,338 miles, that represent a total of 34,461 miles, making a grand total for the 19 systems of 149,841 miles, or about 70 per cent of the total railway mileage of the country.

Statistics show that while in 1887 there was but one railroad corporation with over 1,000 miles of line, or 6 per cent of the total mileage, there was in 1894 44 corporations of that class with over 57 per cent of the aggregate mileage. Within the past year railway consolidation has reduced the number of roads with 1,000 or more miles of track to 36, with an aggregate of 118,794 miles, or 62 per cent of the total mileage of the country.

INTO DEER CREEK.

Southern Pacific Said to be Con-
templating a Branch Line.

The Southern Pacific will build a branch seventy-five miles long from its new cut-off around the southern end of Salt Lake into Tooele county, to what is known as the Deep Creek mineral district. The principal town of this district is known as Hapah, and is located in the extreme southwest corner of the county near the state line. A greater part of the proposed seventy-five miles is across the alkali desert, over which railroad construction would be easy.—Railroad Gazette.

Splendid New Train.

Chicago, Nov. 5.—Orders have been given by the Northwestern management for a complete new equipment for the Overland Limited. This necessitates the purchase of ten entire trains, the engine to the baggage-cars, at an expenditure of approximately \$1,200,000. This is said to be the largest order ever given for the equipment of a single train.

SPIKE AND RAIL.

General Superintendent E. E. Calvin, of the Short Line, is in Wyoming.

Manager McAllister, of Saltair, is spending a few days in Logan where he went in order to cast his vote yesterday.

President and General Manager Theodore Bruback of the Sanpete Valley road has returned from an extended trip to the East.

The proposed changes in the physical condition of the Rio Grande lines are going the rounds of the railroad columns of the country.

An active campaign has been instituted by the western roads generally against the tramps which are beginning to move to their winter quarters.

P. B. Choate has entire charge of the freight and passenger interests of the Union Pacific, Southern Pacific and the steamship lines in connection with the same, at Pittsburgh.

The San Pedro surveying party of twenty men is camped at Boulder Springs in Rush Valley. They are engaged in a second survey of the route south.

A special train recently used by President Cassatt of the Pennsylvania railroad for the inspection of the lines west of Pittsburgh is equipped with a telephone service so arranged that communication can be had with each car on the train without the necessity of traveling from one car to another.

Locomotive pulling trains on heavy grades on the Rio Grande Western are now in order along the lines of those recently held on the Denver & Rio Grande in Colorado. Engine No. 702 was yesterday pitted against No. 602 on the Soldier Summit grade. Both

these monsters were designed by Master Mechanic Hickley.

General Solicitor W. R. Kelly of the Union Pacific has arrived from Omaha, and has been closeted with Attorney Parley L. Williams of the Oregon Short Line today preparing for the forthcoming cases at Carson City on Monday and Tuesday. All attorneys interested in the cases will leave Salt Lake for Nevada on Sunday.

With the improved schedule for the Overland Limited trains Nos. 1 and 2, effective last Sunday, train No. 1 leaving Chicago at 2 p. m., arriving at Omaha 8:40 a. m., and train No. 2 leaving Omaha at 7:45 p. m., arriving at Chicago over the Northwestern at 3:30 a. m., the passenger equipment will consist of first class sleeping cars only. There will not be any day coaches or tourist sleeping cars in these trains, therefore passengers cannot be carried unless they can be accommodated with a seat or berth (according to the time) for and pay the necessary charge for the same.

Railroad Engineering Review: Commencing Nov. 1, or soon thereafter, it can be gotten around to, all conductors and engineers on the Missouri Pacific must begin complying with a new set of rules, known as the "absolute rules," and must take examinations to prove their fitness to work under those rules. If not successfully passed, conductors will be set back to their old jobs as brakemen, and engineers back to firemen for a period of six months, to give them time to study for re-examination. The new rules and requirements are said to be rigid, and that the employees concerned have been burning much midnight oil over them.

Jumped on a Ten Penny Nail.

The little daughter of Mr. J. N. Powell jumped on an inverted rake made of ten penny nails, and thrust one nail entirely through her foot and the other half way through. Chamberlain's Pain Balm was promptly applied and five minutes later the pain had disappeared and no more suffering was experienced. In three days the child was walking as usual and the wound was a well known merchant of Portland, Va. Pain Balm is an antiseptic and heals such injuries without maturation and in one-third the time required by the usual treatment. For sale by all druggists.

HURT IN ANNIE LAURIE MILL

Scott and Weiser Mutilated in Belt-
May Prove Fatal.

[Special to the "News."]—Richfield, Utah, Nov. 6.—Word just reached here over the phone that two men named Scott and Weiser were seriously if not fatally injured in the Annie Laurie mill this morning. One got caught in the belt and the other went through the mill. The men were in the mill when it was started up. One will lose both arms and the other an arm and leg.

HOLDUPS WERE KIND.

James Young Has an Unusual Experience
With Three Thugs.

James Young, residing at 146 north First West street, had a rather unusual experience with thugs last night about 8:30 o'clock. He was making his way home when at a point near the west entrance of the Temple grounds he was confronted by three men armed with revolvers, and commanded to hold up his hands. At first Young thought the men were joking and, according to his statement to the police, began to "jolly" them. But the hold-ups were not joking, as he soon learned. One of them jabbed a gun in his face and ordered him to be quick about turning his hands skyward. The men searched his pockets and secured a watch and chain and some small change. The chain was a present to him and Young made such a strong plea for it, it melted the hearts of the highwaymen to that extent they kindly returned the chain.

After advising Young to remain quiet for the benefit of his health, and general safety, the robbers escaped down the street.

Young at once made his way to the police station and reported the robbery to the officers. Although a search was made for them, no trace could be found of the thugs.

Mothers everywhere praise One Minute Cough Cure for the sufferings it has relieved and the lives of their little ones it has saved. It is the root of the trouble and draws out the inflammation. The children's favorite Cough Cure—Globe-Pitts Drug Co., corner First South and Main streets.

UTAH'S ARID LANDS.

State's Congressional Delegation Will
Work for Their Reclamation.

Congressman Sutherland has pledged himself to do everything in his power to obtain legislation in congress bearing on the reclamation of Utah's arid lands. In the opinion of the land board there are thousands of acres in the dry valleys of Utah that could be made to flourish as the garden of Eden by judicious reclamation in reservoirs of the waste and flood waters coming down from the mountains. To achieve this end, however, the arid lands would have to be ceded to the state or federal government, and the national government would have to be obtained.

If the arid lands were ceded by the government the state could sell them as it does other state lands, and the proceeds might be applied to the fund for building reservoirs.

Another weighty irrigation scheme is the extension of the vast canal system supplied by the Grand river in Colorado to a large area of dry agricultural land in eastern Utah, contiguous to the Rio Grande Western railway. Land Commissioner Reese is of the opinion that the projected canal extension would make almost a new state in that locality, and the state of Colorado is willing to utilize the water by the aid of the Grand river for the purpose, and has petitioned congress to make an appropriation for surveys for a canal system commencing above Grand Junction and continuing through Utah.

The governor of this state and all the members of the land board have joined in this petition and Congressman Sutherland has assured the board that he will join his efforts to those of the land board and the Colorado delegation in congress to procure favorable legislation in the matter.

We pay 4 per cent interest per annum on \$1 to \$5,000. Zion's Savings Bank & Trust company, Lorenzo Snow, president; George M. Cannon, cashier.

UTAH COMMERCIAL BANK SAVINGS BANK

Interest paid on savings. W. F. Armstrong, pres., P. W. Madsen, vice-pres., J. E. Cain, cashier.

THE PUBLIC LIBRARY.

Interesting Facts at the Regular
Monthly Meeting.

At the monthly meeting of the board of directors of the public library yesterday afternoon bills amounting to \$1,049.63 were ordered paid, a large list of books was ordered purchased and the secretary was ordered to continue the contract for periodicals as at present. Two catalogues, one for 1900 membership cards were ordered purchased, and forty worn out volumes were condemned and ordered disposed of. The librarian reported that the library fund showed a credit of \$2,565.51. Miss Chapman said that there was a necessity for more than four copies of the most popular novels and as an example cited "Alice of Old Vincennes," for which there are now thirty postal card calls dating as far back as July 13th, and thirty-eight for Winston Churchill's "The Crisis," which extend from July 23rd out to date.

On October 17th, there was a membership of 6,184, and the number of volumes in the library was 16,961. The gain in circulation over the preceding month was 1,497.

The classified circulation of the public library is: Philosophy 49, religion 48, sociology 62, philology 2, natural science 45, useful arts 46, fine arts 13, literature 21, history 159, geography and travel 75, biography 127, fiction 1,454, juvenile 1,583, German 3, French 3.

THE TEASDEL STOCK.

OF CLOTHING AND GENTS' FUR-
NISHINGS TO BE CLOSED OUT.

The most important merchandising event of the season is the sale of the entire stock of Clothing, Furnishings Goods and Hats of the well known firm of S. P. Teasdel Co., Rowe & Kelly Co., having been the lucky purchasers. They intend to put in a modern front, remodel the store throughout, and close out the present stock of merchandise at sacrifice prices. This will be the inauguration sale of the season and as they say, "We intend to make our store and business one to be remembered. We are going to show our friends what prices and values are. We have got to have money to reimburse us for the outlay expended. We will commence Monday, Nov. 4, to close out the entire Teasdel stock of Clothing at 25 per cent discount from the regular prices. This stock of Clothing, Furnishings Goods and Hats is all new, up-to-date, and of this season's purchases. Remember, a dollar saved is a dollar earned, and every dollar spent with us will save you 25 cents. Come in and see, and you will be convinced that we are after the trade and the people's patronage hereafter. Although this sale is a sacrifice of seasonable goods we need the money, and will sell for cash only, and at one price to everybody.

Successors to S. P. Teasdel Co., 132 Main Street.
