Special Correspondence. Casper, Wyo, Oct. 9.—It is learned today from an absolutely reliable source that one of the biggest fake schemes in the line of "selfing" min-cral property in this state was suc-cessfully operated at Lander, or rather in the Lander mining district, about three weeks ago. T. L. Greenough, a capitalist from Missoula, Mont., to-gether with 20 others from the same state and from Washington came

LOWER MAMMOTH.

Directors Meet Today to Consider Matter of Dividend.

The directors of the Lower Mammoth Mining company are scheduled to meet this afternoon at which time the mat-ter of posting the monthly dividend will come up for consideration. About the exchange this morning the impres-sion seemed to prevail that the divi-dend would be cut and possibly passed altogether, yet nothing has come from official circles leading to that be-lief. President John Dern refuses to commit himself on the subject and al-be would venture to say was: "I don't know what will be done. We will have to vait until the directors meet and see." The directors of the Lower Mammoth

The Lower Mammoth company has been paying dividends on the basis of 7% cents a share, or \$14,500.

RELATIONS ARE FRIENDLY.

President Knight Says U. S. Smelting Co, Made Friendly Request.

In a recent issue of the "News," the following statement appeared: "Ru-mors have also been plectiful that the action of the smelling company was due to antagonism against Mr. Knight, for building a smelter at Tintic, but there seems to be no foundation for the maximuch as it is now known, that his, inasmuch as it is now known that h_a United States Smelting company as given the same notice to other times whose output it has been buy-

ing." Referring to these rumors, the Knight Investment company writes the "News" from Provo that there are and have been nothing by friendly relations be-tween them and the United States Smelting company. Mr. Knight says that he merely received a friendly re-quest from the smeller people setting forth that it was thought best by some of the prominent lead shippers to cur-taft the present output and thus endeav-or to steady the price of lead.
