FRENCHMEN WON.

FRENCHMEN WON. New York, May 26-According to a pri-rate cable dispatch received last sign from Lecuver, precident of the Cercle catabilitiers of Paris, it appears that the match shot hast week by 15 members of that club with rifles and revelvers against a like number of members of the Manhat-tan Rifle and Revolver club of this city was won by the Frenchmen by a small margin. The conditions were 30 gliots a 29 yards on the French target for the rifle, and the same number at 50 yards or the standard American graget for the re-volver, with 490 points added to each in-oldividual score to equalize the difference in the size of targets.

----A YEAR OF BLOOD.

The year 1963 will long be remem-bered in the home of F. N. Tacket, of Alliance, Ky., as a year of blood; which flowed so copiously from Mr. Tacket's lungs that death seemed very near. He made no secret about it, as he was always within a rew hours of the al-lotted poundage. But Herrera refused utterly to allow any one to see him on the scales. He would not weigh for the club representatives. He would not weigh for the newspaper representatives. The club did not press him and where he should have been forced to do the right thing the Pacific Athletic club trusted him and allowed him to keep them in the dark as to his real weight. If Her-rera weighed 136 pounds at 6 o'clock on Friday there was a good reason for it. His best fighting weight is mear 139 pounds. He could not have made his best fight at 140, as the excess baggage would have bindered rather than helped him.

he considerable incern seed raised here, which always has been of a very choice quality. There is talk of the Fremont Cream-ery company establishing a milk route through this town to connect with the ractory. This will be a great advantage to the famers here. There is plenty of room here for more good settlers to make good homes, and they will be made welcome. The climate is about like that of Salt Lake, but the local resources and facilities are unde-veloped, and more people are needed to accomplish this. There is not a single home in this vicinity that is under mort gage, all own their own homes, land and canais, and can raise almost everything that earth and sunshine can produce People who have had evpertence in farm life and have no farm and desire one can easily locate here. There is some land yet to be taken up and water can be ob-tined without very great cost. Some parting made places can be hought cheap. A nice little town is well started with schools, meetinghouse, etc. It is so miles from Green River railroad station on the R. G. W.
