ALWAYS WAS SICK.

Clark, Denver, Colorado, writes: "For years I was troubled with a chronic cough that would last all day. This could not meet any reasonable condition. I tried Ballard's Horse-horn Syrup and had not had a sick day since. That's what it did for me." Sold by Druggist Dept., 112 and 114 South Main St.

A VITAL ADVANTAGE.

The advantages of owning a home built as those we have recently put up in the place we have put them are scarcely to be reckoned. Helpful conditions and environments are first consideration; the house is built on a solid foundation, and is safe for your children, and no houses are as where you breathe.

The administration building has been finished some time and is occupied by the exposition departments. Sewer and water system contracts will be let soon, and bids will be called for this month for the construction of the Manufacturers', Liberal Arts and Education palaces, the emergency hospital and the fire station.

The management is fully aware that the success of the exposition depends upon its being ready on time, and intends to take advantage of every minute of the 29 months it has in which to have the exposition finished.

The division of exhibits and privileges will soon be organized and the work of arranging for displays inaugurated. It is the intention of the officials to start this part of the preparation as early as possible, so as to have all of the exhibit space allotted to the exhibitors to have complete installation on opening day.

IMPROVED ARRANGEMENT.

The program for the sessions has been arranged to include the following: "Influence of Taxation on the Property of Cities," Mayer Anderson of Manh.; debate, "Prohibition versus High License," (for) Springfield, Saginaw, Murray; "Principles of Social Municipal Administration," mayor of Park City; "The Influence of Sanitation on Morality," Dr. Clark of Provo, and "Municipal Engineering," City Engineer Parker of Ogden.

The second day's session will close with routine matters and the selection of officers and election of next meeting place.
