

## THE OFFICES ARE NOW ABOLISHED.

Sanitary and Provision Inspectors Made to Go by City Council.

## MEETING WAS A WARM ONE

Republican and Democratic Members Join Hands to Put Dr. Beatty's Ordinance Through.

Dr. Beatty's ordinance providing for the abolition of the offices of sanitary and provision inspectors, and placing the health department of this city under the complete control of the health commissioner, was the cause of quite a "hickup" at last evening's Council meeting.

In the discussion that followed the introduction of the measure, Mayor Thompson came in for a certain amount of attention, and, strange to say, members representing the majority went after each other "rough shod," to the evident delight and satisfaction of the minority and the few assembled spectators.

### ORDINANCE IS READ.

Beatty offered the ordinance early in the evening, and the rules were suspended in order that it might receive immediate attention. After its first and second reading Whittemore raised his voice in opposition to the measure. He believed the bill was in direct conflict with the statutes and he therefore advocated the killing of it at once. It was the first time he had heard of the ordinance, and he thought it unjust of Dr. Beatty to keep him in the dark respecting his intentions, seeing he (Whittemore) was a member of the sanitary committee, among whom matters affecting the health department should be brought up and discussed.

"Dr. Beatty," he said in conclusion, "may have petty ideas of his own; but they don't suit me."

Dr. Beatty—Pettty is good.

BEATTY DEFENDS ORDINANCE.

Here the member from the Fifth took the floor and vigorously defended the ordinance which he said was strictly in the best interest of Salt Lake City so far as its health conditions were concerned. He regarded the duties of the health commissioner as being very great. He was responsible for the people's health; but it was unfair to expect so much of him and not give him free scope. As things were now his hands were tied, and he had not the power to do a thing with the men in the health department for the reason that they were controlled by others. He did not understand, however, that he did not oppose Mayor Thompson in his appointment of men to fill the positions of sanitary and food inspector, but he took it for granted that the honor was not as well qualified to name men for the offices referred to as a physician. Politics should not be permitted to enter a question where the health of the people was involved. The city had been proceeding wrong, but it was no reason why it should be allowed to go on.

WHITTEMORE TAKES ISSUE.

Whittemore took issue with Beatty on the personal side of the question. "Why," he said, "Dr. Beatty is not only fighting the Mayor at this time, but he is fighting the law."

Thomas favored the confirmation of the Mayor's appointment, and he proposed to vote against the ordinance to show that he believed the men named by the city's chief executive were competent to fill the positions.

President Buckle asked the member from the First if he thought the health department had always been conducted in a proper manner. Thomas replied by saying that he objected to being questioned by the chair. If a speaker was interrupted it should be plain to him that he was not "afraid" to take the floor, called Reid to the chair and repeated his question. Thomas's reply was that he did not know.

REPUBLICANS PLAYING.

Canning said the health department had always been a drag on the city. He referred to the pest house and the money that had been "squandered" in maintaining it. He charged the Republicans with playing into the hands of the Democrats. The action of some of the former was not only an insult to the Mayor to every decent Republican in the city. The pest house, he said, was not a help to the city, but a hindrance, and it was not fair to treat them the way they were being treated.

Buckle enquired of Canning if he wanted to be understood as saying that the people put up their money as a purchase price for certain offices.

Canning said he did not mean that. What he meant was that the Republicans were entitled to consideration, and he again demanded that they be given the head of the department to the hands of the Democrats.

FORESAW WHAT WAS COMING.

Fernstrom said that two years' experience as chairman of the sanitary committee had made it plain to him that if a disagreement ever took place in the health department, it would be a big one. There were three bosses in the department, neither one of whom had any authority over the other. The sanitary inspector could employ teams, but if he found they were not satisfactory, he had not the authority to order their removal. Continuing, Fernstrom said: "I think the head of a department should have the right to say who and what shall not be in that department. Dr. King's hands are tied. It is the rule in other departments to give the head officer absolute authority. Why is the health department excluded? The ordinance is based on reason and common sense. It throws the entire responsibility over on Dr. King, and if he does not do right, I shall move to remove him. I voted to create the office of food inspector, knowing the sanitary inspector was incompetent."

COTTELL AGAINST ORDINANCE.

Cottrell said he opposed the re-creation of the office of food inspector, but inasmuch as he had been outvoted, and the Mayor had submitted the name of a man for the office, as well as for that of sanitary inspector, he should oppose the ordinance on those grounds. Had the bill come up six weeks ago, he would have supported it.

ROBERTSON FAVORS IT.

Robertson favored the ordinance for the reason that it put the health department on a footing with the others. It gave the head of the department the right to employ his help, which of itself would make the discipline better. He considered that the present administration

tion had practically been without a sanitary inspector. Dr. King was blamed for the incompetency of the man, which was not right.

LIKED THE APPOINTMENTS.

Buckle favored the ordinance, but wanted it distinctly understood that he was just as friendly disposed to the appointees as any member of the Council, but there were other considerations to be thought of first. The Council as a body was responsible to the taxpayers for all appointments, and no member should be swayed in doing what he believed to be his duty. In making his appointments, the chief executive of the city had overlooked the law giving him the authority. The statutes made it clear that all appointments should be with the advice and consent of the Council. The Mayor of Salt Lake was above the law and had taken the place of the fifteen councilmen.

"It is to this matter that I want to raise my voice against," continued Buckle, "in public as I have many times in private."

BREWING FOR SOME TIME.

Whittemore said he was glad now the question had come up, for he could see where certain members stood. In view of the absence of the Howe brothers, he moved a postponement of action for one week.

BEATTY IS SARCASTIC.

Beatty disclaimed having any personal feelings against the Mayor's appointment, although he would not deny that he was opposed to their confirmation. Here the speaker got after Canning. "I have no doubt," said Beatty, "that if Canning were appointed sanitary inspector he would accept it. He might apply for it, knowing he has quite a political pull, and the Mayor would, no doubt, appoint him; but he may be assured the health commissioner never would."

Whittemore objected to any personal attacks on a fellow member.

Beatty said he had a right to say as he was replying to Canning's remarks. Continuing he said that lives could be saved in this city by the health department. He had no doubt but the Mayor acted conscientiously, but the ordinance cast no reflection upon him. The system was to blame and not the Mayor. The lives of the people were much at stake. It was no matter to be trifled with. He begged the members to lay aside all personal feeling and vote for a measure that would not only benefit the people of the present, but future generations.

Whittemore's motion to refer was lost and the ordinance was passed. Beatty, Fernstrom, Gemmell, Hartenstein, Reid, Robertson, Tuddenham and Buckle (5) voting aye; Canning, Cottrell, Hewlett, Thomas and Whittemore (5) no.

Later minority reports from the sanitary committee came up signed by Whittemore and Hewlett, recommending that the appointments of Heiss and White be confirmed. They were filed without comment.

THE ORDINANCE.

The ordinance reads as follows: "An ordinance abolishing the offices of sanitary inspector and inspector of provisions, and imposing the duties of said offices upon the health commissioner."

It is ordained by the City Council of Salt Lake City, Utah:

"Section 1. That the office of sanitary inspector and also the office of inspector of provisions, of Salt Lake City, be, and they each of them are hereby abolished, and all duties required by ordinance of Salt Lake City to be performed by the said sanitary inspector and the said inspector of provisions, shall hereafter be performed by the health commissioner, as part of the duties of his office of said health commissioner, without any additional compensation."

"Sec. 2. The said health commissioner is hereby authorized to employ, by and with the consent of the Council, such employees as are necessary in the performance of the duties of his office, and the compensation of such employees shall be as may be provided by the City Council."

"Sec. 3. All ordinances, and resolutions and parts of ordinances and resolutions in conflict herewith are hereby repealed, and this ordinance shall take effect upon its passage and approval."

MAYOR WILL VETO IT.

Mayor Thompson will veto the ordinance, but it is believed that enough votes can be secured to pass it over his head.

Dr. C. M. Garrison, it is said, will be Health Commissioner King's chief assistant.

THREE MEN ARRESTED.

Charged With Assisting "Nick" Haworth to Escape.

They are Henry Larsen, William Jensen and Thomas Holt—Will Have a Hearing on Monday.

[SPECIAL TO THE "NEWS"]

Ogden, May 29.—There was a new sensation in the Haworth-Sandall murder case here today, caused by the sheriff's office placing Henry Larsen, William Jensen and Thomas Holt under arrest charged with conspiracy in assisting Nick Haworth to escape from the court room at Farmington yesterday.

All of the three men named were present at the time of that exciting incident in Judge Rolapp's court, but each declares most positively that he is innocent of any offense, intentional or otherwise. The arrests were made by Deputy Sheriff Bailey, who found the men at Five Points. They were brought to Ogden and their bonds fixed at \$1,000 each. Their hearing was set for Monday, June 4th.

"Want of Watchfulness Makes the Thief."

Many cases of poor health come from want of watchfulness. But if you keep your blood pure no thief can steal your health. The one effective, natural blood purifier is Hood's Sarsaparilla.

Disordered Blood—"My father has long been troubled with disordered blood and weak blood. Hood's Sarsaparilla made him strong and healthy he works every day." A. S. Wykes, S. Easton, Pa.

Humor—"When I need a blood purifier I take Hood's Sarsaparilla. It cures my humor and is excellent as a nerve tonic." Josie Eaton, Stafford Springs, Ct.

Hood's Sarsaparilla Never Disappoints.

Hood's Pills cure liver, blood, and bowels, and are the only cathartic to take with Hood's Sarsaparilla.

## CITY ACQUIRES NEW WATER RIGHTS

Property of Messrs. Taylor and Dixon in Parley's Bought.

## WATER IN LIBERTY PARK.

John Cook Wants the City to Compensate Him for Alleged Injury to Spring.

Mayor Thompson and the Council finance committee, in behalf of the city, have acquired another block of land and water rights in Parley's canyon.

The new acquisitions are the farms formerly belonging to W. W. Taylor and Blanes Dixon, each of whom are to receive \$5,500 for his property. Taylor's farm contains ninety-two acres, fifty of which is under cultivation, and Dixon's tract has eighty-five acres, sixty of which is cultivated. The Council last evening approved the deal and appropriated to the Mayor's contingent fund \$7,000 to pay for the property.

NEW WATER SUPPLY.

Jones & Jacob, engineers and contractors, called the attention of the Council to a source of increased water supply for the city which they said appeared to have been overlooked. The source referred to is the wells at the southeast corner of Liberty park. The wells were sunk ten years ago and at present is \$2,000,000 gallons a day and capable of being largely increased. They suggested that the wells be erected for distribution. They offered to supply the machinery for \$2,325 and estimated that 4,000,000 gallons per day could be obtained from that source, and arrangements for distribution made for a total cost of \$50,000. Referred to committee on waterworks.

HIS SPRING INJURED.

John Cook, by his attorney, N. V. Jones, in a petition addressed to the Council, says that he was riding on Sixth street, between East and West Temple streets last Wednesday evening when he ran into a "heap of dirt" across the bicycle path. In addition to smashing his wheel, which cost \$6 to have repaired, the petitioner said he received several bruises. The petition concludes as follows: "If you will consider you will see that I am entitled to that amount to pay for the wheel. Let me hear from you." Referred to committee on claims.

NO MONEY FOR ABB.

The committee on claims reported adversely on this claim of A. B. B. who is claiming damages for the smashing of a delivery wagon in a runaway caused by turning on the water of a fire hydrant at the head of East Temple street for the purpose of flushing. The committee said it had investigated the matter and had concluded that the city was blameless and not responsible for the loss sustained by Mr. Wilson. The report was adopted.

S. S. Howard asked to be allowed the use of land belonging to the city, near the union stock yards, for pasture purposes. Referred to committee on public grounds.

THE TOTAL ASSESSMENT.

County Assessor Quinn by his deputy, W. R. Jennings notified the Council that the total assessment of all property in Salt Lake City for the year 1900, including telegraph and telephone companies and net proceeds of mines, amounts to \$31,197,525.

Seymour B. Young Jr. asked that the drainage canal, which drains the pond in Liberty park, be turned over to the Salt Lake Valley Railroad company, by C. A. Quigley, vice president and general manager, in a communication to the Council, stating that it accords with the ordinance by which by ordinance a week ago. Received and filed.

PRESIDENT YOUNG'S BIRTHDAY.

B. Morris Young requested the privilege of erecting a monument on the northeast corner of the Brigham Young monument, for use in the celebration of the birthday anniversary of President Young, on June 1st. Granted.

I STREET FIREMEN.

The ordinance providing for ten additional men in the fire department, who will be required to do duty at the new fire station on I street, was passed.

LOWER INSURANCE RATES.

Buckle introduced a resolution providing that the insurance companies be notified when the new fire station is opened so that the companies may know that the time has come for them to make the promised reduction in premiums. The resolution was passed.

City Attorney Stephens, reporting on the petition of E. H. Hyde and A. E. Hyde to be supplied with free water under an alleged old agreement with the city, advised that under the state of facts submitted by the land and water commissioner, the petition should be denied. Referred to the committee on waterworks.

A resolution offered by Tuddenham demanding that the committee on streets take steps to insure the residents of the north bench the quantity of irrigating water belonging to them was adopted.

On resolution offered by Fernstrom, the chief of police was directed to enforce the ordinance limiting the speed at which trains shall run within the city limits to twelve miles an hour. Fernstrom said that trains were often run at forty to fifty miles an hour within the city limits.

PAYABLE YEARLY.

Gemmell offered a resolution abolishing the semi-annual collection of water rates and providing that the rates be collected annually in advance. It was adopted, being backed by the committee on waterworks. Canning opposed the resolution, notwithstanding

## MUNYON'S GUARANTEE.

Strong Assertions as to Just What the Remedies Will Do.

Munyon guarantees that his Kidney Cure will cure all cases of rheumatism, all cases of kidney trouble, all cases of bladder trouble, all cases of prostate trouble, all cases of urinary trouble, all cases of sexual trouble, all cases of nervous trouble, all cases of general weakness, all cases of indigestion, all cases of constipation, all cases of biliousness, all cases of skin disease, all cases of eye disease, all cases of ear disease, all cases of throat disease, all cases of lung disease, all cases of heart disease, all cases of liver disease, all cases of spleen disease, all cases of pancreas disease, all cases of gallbladder disease, all cases of stomach disease, all cases of intestines disease, all cases of rectum disease, all cases of bladder disease, all cases of prostate disease, all cases of urinary disease, all cases of sexual disease, all cases of nervous disease, all cases of general weakness, all cases of indigestion, all cases of constipation, all cases of biliousness, all cases of skin disease, all cases of eye disease, all cases of ear disease, all cases of throat disease, all cases of lung disease, all cases of heart disease, all cases of liver disease, all cases of spleen disease, all cases of pancreas disease, all cases of gallbladder disease, all cases of stomach disease, all cases of intestines disease, all cases of rectum disease, all cases of bladder disease, all cases of prostate disease, all cases of urinary disease, all cases of sexual disease, all cases of nervous disease, all cases of general weakness, all cases of indigestion, all cases of constipation, all cases of biliousness, all cases of skin disease, all cases of eye disease, all cases of ear disease, all cases of throat disease, all cases of lung disease, all cases of heart disease, all cases of liver disease, all cases of spleen disease, all cases of pancreas disease, all cases of gallbladder disease, all cases of stomach disease, all cases of intestines disease, all cases of rectum disease, all cases of bladder disease, all cases of prostate disease, all cases of urinary disease, all cases of sexual disease, all cases of nervous disease, all cases of general weakness, all cases of indigestion, all cases of constipation, all cases of biliousness, all cases of skin disease, all cases of eye disease, all cases of ear disease, all cases of throat disease, all cases of lung disease, all cases of heart disease, all cases of liver disease, all cases of spleen disease, all cases of pancreas disease, all cases of gallbladder disease, all cases of stomach disease, all cases of intestines disease, all cases of rectum disease, all cases of bladder disease, all cases of prostate disease, all cases of urinary disease, all cases of sexual disease, all cases of nervous disease, all cases of general weakness, all cases of indigestion, all cases of constipation, all cases of biliousness, all cases of skin disease, all cases of eye disease, all cases of ear disease, all cases of throat disease, all cases of lung disease, all cases of heart disease, all cases of liver disease, all cases of spleen disease, all cases of pancreas disease, all cases of gallbladder disease, all cases of stomach disease, all cases of intestines disease, all cases of rectum disease, all cases of bladder disease, all cases of prostate disease, all cases of urinary disease, all cases of sexual disease, all cases of nervous disease, all cases of general weakness, all cases of indigestion, all cases of constipation, all cases of biliousness, all cases of skin disease, all cases of eye disease, all cases of ear disease, all cases of throat disease, all cases of lung disease, all cases of heart disease, all cases of liver disease, all cases of spleen disease, all cases of pancreas disease, all cases of gallbladder disease, all cases of stomach disease, all cases of intestines disease, all cases of rectum disease, all cases of bladder disease, all cases of prostate disease, all cases of urinary disease, all cases of sexual disease, all cases of nervous disease, all cases of general weakness, all cases of indigestion, all cases of constipation, all cases of biliousness, all cases of skin disease, all cases of eye disease, all cases of ear disease, all cases of throat disease, all cases of lung disease, all cases of heart disease, all cases of liver disease, all cases of spleen disease, all cases of pancreas disease, all cases of gallbladder disease, all cases of stomach disease, all cases of intestines disease, all cases of rectum disease, all cases of bladder disease, all cases of prostate disease, all cases of urinary disease, all cases of sexual disease, all cases of nervous disease, all cases of general weakness, all cases of indigestion, all cases of constipation, all cases of biliousness, all cases of skin disease, all cases of eye disease, all cases of ear disease, all cases of throat disease, all cases of lung disease, all cases of heart disease, all cases of liver disease, all cases of spleen disease, all cases of pancreas disease, all cases of gallbladder disease, all cases of stomach disease, all cases of intestines disease, all cases of rectum disease, all cases of bladder disease, all cases of prostate disease, all cases of urinary disease, all cases of sexual disease, all cases of nervous disease, all cases of general weakness, all cases of indigestion, all cases of constipation, all cases of biliousness, all cases of skin disease, all cases of eye disease, all cases of ear disease, all cases of throat disease, all cases of lung disease, all cases of heart disease, all cases of liver disease, all cases of spleen disease, all cases of pancreas disease, all cases of gallbladder disease, all cases of stomach disease, all cases of intestines disease, all cases of rectum disease, all cases of bladder disease, all cases of prostate disease, all cases of urinary disease, all cases of sexual disease, all cases of nervous disease, all cases of general weakness, all cases of indigestion, all cases of constipation, all cases of biliousness, all cases of skin disease, all cases of eye disease, all cases of ear disease, all cases of throat disease, all cases of lung disease, all cases of heart disease, all cases of liver disease, all cases of spleen disease, all cases of pancreas disease, all cases of gallbladder disease, all cases of stomach disease, all cases of intestines disease, all cases of rectum disease, all cases of bladder disease, all cases of prostate disease, all cases of urinary disease, all cases of sexual disease, all cases of nervous disease, all cases of general weakness, all cases of indigestion, all cases of constipation, all cases of biliousness, all cases of skin disease, all cases of eye disease, all cases of ear disease, all cases of throat disease, all cases of lung disease, all cases of heart disease, all cases of liver disease, all cases of spleen disease, all cases of pancreas disease, all cases of gallbladder disease, all cases of stomach disease, all cases of intestines disease, all cases of rectum disease, all cases of bladder disease, all cases of prostate disease, all cases of urinary disease, all cases of sexual disease, all cases of nervous disease, all cases of general weakness, all cases of indigestion, all cases of constipation, all cases of biliousness, all cases of skin disease, all cases of eye disease, all cases of ear disease, all cases of throat disease, all cases of lung disease, all cases of heart disease, all cases of liver disease, all cases of spleen disease, all cases of pancreas disease, all cases of gallbladder disease, all cases of stomach disease, all cases of intestines disease, all cases of rectum disease, all cases of bladder disease, all cases of prostate disease, all cases of urinary disease, all cases of sexual disease, all cases of nervous disease, all cases of general weakness, all cases of indigestion, all cases of constipation, all cases of biliousness, all cases of skin disease, all cases of eye disease, all cases of ear disease, all cases of throat disease, all cases of lung disease, all cases of heart disease, all cases of liver disease, all cases of spleen disease, all cases of pancreas disease, all cases of gallbladder disease, all cases of stomach disease, all cases of intestines disease, all cases of rectum disease, all cases of bladder disease, all cases of prostate disease, all cases of urinary disease, all cases of sexual disease, all cases of nervous disease, all cases of general weakness, all cases of indigestion, all cases of constipation, all cases of biliousness, all cases of skin disease, all cases of eye disease, all cases of ear disease, all cases of throat disease, all cases of lung disease, all cases of heart disease, all cases of liver disease, all cases of spleen disease, all cases of pancreas disease, all cases of gallbladder disease, all cases of stomach disease, all cases of intestines disease, all cases of rectum disease, all cases of bladder disease, all cases of prostate disease, all cases of urinary disease, all cases of sexual disease, all cases of nervous disease, all cases of general weakness, all cases of indigestion, all cases of constipation, all cases of biliousness, all cases of skin disease, all cases of eye disease, all cases of ear disease, all cases of throat disease, all cases of lung disease, all cases of heart disease, all cases of liver disease, all cases of spleen disease, all cases of pancreas disease, all cases of gallbladder disease, all cases of stomach disease, all cases of intestines disease, all cases of rectum disease, all cases of bladder disease, all cases of prostate disease, all cases of urinary disease, all cases of sexual disease, all cases of nervous disease, all cases of general weakness, all cases of indigestion, all cases of constipation, all cases of biliousness, all cases of skin disease, all cases of eye disease, all cases of ear disease, all cases of throat disease, all cases of lung disease, all cases of heart disease, all cases of liver disease, all cases of spleen disease, all cases of pancreas disease, all cases of gallbladder disease, all cases of stomach disease, all cases of intestines disease, all cases of rectum disease, all cases of bladder disease, all cases of prostate disease, all cases of urinary disease, all cases of sexual disease, all cases of nervous disease, all cases of general weakness, all cases of indigestion, all cases of constipation, all cases of biliousness, all cases of skin disease, all cases of eye disease, all cases of ear disease, all cases of throat disease, all cases of lung disease, all cases of heart disease, all cases of liver disease, all cases of spleen disease, all cases of pancreas disease, all cases of gallbladder disease, all cases of stomach disease, all cases of intestines disease, all cases of rectum disease, all cases of bladder disease, all cases of prostate disease, all cases of urinary disease, all cases of sexual disease, all cases of nervous disease, all cases of general weakness, all cases of indigestion, all cases of constipation, all cases of biliousness, all cases of skin disease, all cases of eye disease, all cases of ear disease, all cases of throat disease, all cases of lung disease, all cases of heart disease, all cases of liver disease, all cases of spleen disease, all cases of pancreas disease, all cases of gallbladder disease, all cases of stomach disease, all cases of intestines disease, all cases of rectum disease, all cases of bladder disease, all cases of prostate disease, all cases of urinary disease, all cases of sexual disease, all cases of nervous disease, all cases of general weakness, all cases of indigestion, all cases of constipation, all cases of biliousness, all cases of skin disease, all cases of eye disease, all cases of ear disease, all cases of throat disease, all cases of lung disease, all cases of heart disease, all cases of liver disease, all cases of spleen disease, all cases of pancreas disease, all cases of gallbladder disease, all cases of stomach disease, all cases of intestines disease, all cases of rectum disease, all cases of bladder disease, all cases of prostate disease, all cases of urinary disease, all cases of sexual disease, all cases of nervous disease, all cases of general weakness, all cases of indigestion, all cases of constipation, all cases of biliousness, all cases of skin disease, all cases of eye disease, all cases of ear disease, all cases of throat disease, all cases of lung disease, all cases of heart disease, all cases of liver disease, all cases of spleen disease, all cases of pancreas disease, all cases of gallbladder disease, all cases of stomach disease, all cases of intestines disease, all cases of rectum disease, all cases of bladder disease, all cases of prostate disease, all cases of urinary disease, all cases of sexual disease, all cases of nervous disease, all cases of general weakness, all cases of indigestion, all cases of constipation, all cases of biliousness, all cases of skin disease, all cases of eye disease, all cases of ear disease, all cases of throat disease, all cases of lung disease, all cases of heart disease, all cases of liver disease, all cases of spleen disease, all cases of pancreas disease, all cases of gallbladder disease, all cases of stomach disease, all cases of intestines disease, all cases of rectum disease, all cases of bladder disease, all cases of prostate disease, all cases of urinary disease, all cases of sexual disease, all cases of nervous disease, all cases of general weakness, all cases of indigestion, all cases of constipation, all cases of biliousness, all cases of skin disease, all cases of eye disease, all cases of ear disease, all cases of throat disease, all cases of lung disease, all cases of heart disease, all cases of liver disease, all cases of spleen disease, all cases of pancreas disease, all cases of gallbladder disease, all cases of stomach disease, all cases of intestines disease, all cases of rectum disease, all cases of bladder disease, all cases of prostate disease, all cases of urinary disease, all cases of sexual disease, all cases of nervous disease, all cases of general weakness, all cases of indigestion, all cases of constipation, all cases of biliousness, all cases of skin disease, all cases of eye disease, all cases of ear disease, all cases of throat disease, all cases of lung disease, all cases of heart disease, all cases of liver disease, all cases of spleen disease, all cases of pancreas disease, all cases of gallbladder disease, all cases of stomach disease, all cases of intestines disease, all cases of rectum disease, all cases of bladder disease, all cases of prostate disease, all cases of urinary disease, all cases of sexual disease, all cases of nervous disease, all cases of general weakness, all cases of indigestion, all cases of constipation, all cases of biliousness, all cases of skin disease, all cases of eye disease, all cases of ear disease, all cases of throat disease, all cases of lung disease, all cases of heart disease, all cases of liver disease, all cases of spleen disease, all cases of pancreas disease, all cases of gallbladder disease, all cases of stomach disease, all cases of intestines disease, all cases of rectum disease, all cases of bladder disease, all cases of prostate disease, all cases of urinary disease, all cases of sexual disease, all cases of nervous disease, all cases of general weakness, all cases of indigestion, all cases of constipation, all cases of biliousness, all cases of skin disease, all cases of eye disease, all cases of ear disease, all cases of throat disease, all cases of lung disease, all cases of heart disease, all cases of liver disease, all cases of spleen disease, all cases of pancreas disease, all cases of gallbladder disease, all cases of stomach disease, all cases of intestines disease, all cases of rectum disease, all cases of bladder disease, all cases of prostate disease, all cases of urinary disease, all cases of sexual disease, all cases of nervous disease, all cases of general weakness, all cases of indigestion, all cases of constipation, all cases of biliousness, all cases of skin disease, all cases of eye disease, all cases of ear disease, all cases of throat disease, all cases of lung disease, all cases of heart disease, all cases of liver disease, all cases of spleen disease, all cases of pancreas disease, all cases of gallbladder disease, all cases of stomach disease, all cases of intestines disease, all cases of rectum disease, all cases of bladder disease, all cases of prostate disease, all cases of urinary disease, all cases of sexual disease, all cases of nervous disease, all cases of general weakness, all cases of indigestion, all cases of constipation, all cases of biliousness, all cases of skin disease, all cases of eye disease, all cases of ear disease, all cases of throat disease, all cases of lung disease, all cases of heart disease, all cases of liver disease, all cases of spleen disease, all cases of pancreas disease, all cases of gallbladder disease, all cases of stomach disease, all cases of intestines disease, all cases of rectum disease, all cases of bladder disease, all cases of prostate disease, all cases of urinary disease, all cases of sexual disease, all cases of nervous disease, all cases of general weakness, all cases of indigestion, all cases of constipation, all cases of biliousness, all cases of skin disease, all cases of eye disease, all cases of ear disease, all cases of throat disease, all cases of lung disease, all cases of heart disease, all cases of liver disease, all cases of spleen disease, all cases of pancreas disease, all cases of gallbladder disease, all cases of stomach disease, all cases of intestines disease, all cases of rectum disease, all cases of bladder disease, all cases of prostate disease, all cases of urinary disease, all cases of sexual disease, all cases of nervous disease, all cases of general weakness, all cases of indigestion, all cases of constipation, all cases of biliousness, all cases of skin disease, all cases of eye disease, all cases of ear disease, all cases of throat disease, all cases of lung disease, all cases of heart disease, all cases of liver disease, all cases of spleen disease, all cases of pancreas disease, all cases of gallbladder disease, all cases of stomach disease, all cases of intestines disease, all cases of rectum disease, all cases of bladder disease, all cases of prostate disease, all cases of urinary disease, all cases of sexual disease, all cases of nervous disease, all cases of general weakness, all cases of indigestion, all cases of constipation, all cases of biliousness, all cases of skin disease, all cases of eye disease, all cases of ear disease, all cases of throat disease, all cases of lung disease, all cases of heart disease, all cases of liver disease, all cases of spleen disease, all cases of pancreas disease, all cases of gallbladder disease, all cases of stomach disease, all cases of intestines disease, all cases of rectum disease, all cases of bladder disease, all cases of prostate disease, all cases of urinary disease, all cases of sexual disease, all cases of nervous disease, all cases of general weakness, all cases of indigestion, all cases of constipation, all cases of biliousness, all cases of skin disease, all cases of eye disease, all cases of ear disease, all cases of throat disease, all cases of lung disease, all cases of heart disease, all cases of liver disease, all cases of spleen disease, all cases of pancreas disease, all cases of gallbladder disease, all cases of stomach disease, all cases of intestines disease, all cases of rectum disease, all cases of bladder disease, all cases of prostate disease, all cases of urinary disease, all cases of sexual disease, all cases of nervous disease, all cases of general weakness, all cases of indigestion, all cases of constipation, all cases of biliousness, all cases of skin disease, all cases of eye disease, all cases of ear disease, all cases of throat disease, all cases of lung disease, all cases of heart disease, all cases of liver disease, all cases of spleen disease, all cases of pancreas disease, all cases of gallbladder disease, all cases of stomach disease, all cases of intestines disease, all cases of rectum disease, all cases of bladder disease, all cases of prostate disease, all cases of urinary disease, all cases of sexual disease, all cases of nervous disease, all cases of general weakness, all cases of indigestion, all cases of
