

FOOT AND MOUTH DISEASE KILLED.

Great Britain Removes Embargo On Cattle and Sheep from New England.

HOW THE GOOD WORK WAS DONE

Secy. Wilson Says No Country Has Ever Succeeded in Stamping Out Such an Extensive Outbreak.

Washington, Sept. 29.—Sec. Wilson said today that the receipt through the state department of an official notice that Great Britain had removed its embargo on cattle and sheep from the New England ports was the conclusion of the great work in which the department had been engaged since Sept. 1 for the eradication of foot and mouth disease from the New England states and the restoration of traffic to the condition it was in before this outbreak occurred. The secretary regards this as in effect the most important and valuable piece of work that the department has done for American agriculture.

"No country," he said, "has succeeded in stamping out such an extensive outbreak of this disease. The work was accomplished under great difficulties. The weather in New England last December was very inclement and the inspectors and their assistants were obliged to work in the open country with the thermometer far below zero. Some of the men had their extremities frozen and were disabled. Notwithstanding these obstacles, the work was carried forward constantly and rapidly.

"It is difficult, even at this time, to understand how the pits were dug in the frozen ground, and how the disinfectants were applied with everything of a liquid nature frozen in a short time after it was exposed to the atmosphere. But the work was so thorough that not a single case where the disinfection was conducted by the department's representatives did the disease re-occur when fresh cattle were introduced.

"During the work 3,000 cattle and 500 hogs and sheep were slaughtered and paid for, and over 200 premises were disinfected. The total cost of the work was less than \$200,000. Since the last outbreak herd was slaughtered all animals in the infected district have been carefully examined three times without finding any traces of the disease.

"Arrangements are now being made for providing cattle and sheep for export through the ports of Boston and Portland, Me., and shipments will commence in a few days. The department has been working in connection with the state department since July 1 to secure favorable action from the British government, and is much gratified that the trade can now be resumed."

MARIE JORDAN SHOT DEAD

BY EDWARD DE LA BROUSSE.

San Francisco, Sept. 29.—Marie Jordan, a handsome brunette, was shot dead on the street today by Edward de la Brouse, who then fired a shot into his own head, inflicting a wound which will probably prove fatal.

The tragedy was the result of jealousy. Miss Jordan, who was employed as sales lady in the cloak and suit house of Armand Callieau on Kearney street, had been long admired by de la Brouse. He is a salesman in the haberdashery establishment of Wolf & Frank, also on Kearney street, and he daily saw Miss Jordan passing to and from her work. Recently, it is asserted, she became weary of his persistent attentions and plainly informed him of that fact. Today he lay in wait for her at noon hour, and when he knew she would pass as she went home to lunch, it was near her residence, close to the intersection of Hyde and Sacramento streets. He waited until his intended victim was within his side. Then touching her on the arm to attract her attention, he deliberately fired two shots from a revolver into her head. She fell dead on the spot without uttering a word.

The murderer then placed the pistol against his own head and pulled the trigger but the weapon failed to go off. He lowered it and it was discharged. The bullet striking the sidewalk, he immediately turned and fired at his head and this time the shot went to its mark. He fell beside his victim, writhing in pain.

The wound is a serious one, and it is not thought he can survive.

The affair has caused considerable excitement, as each of the parties had a wide circle of friends and acquaintances. They were both under 30 years of age.

De la Brouse left a letter addressed to his sister, telling of his love for Marie Jordan and saying he could not suffer any longer as he had since she had discarded him. He asked forgiveness for the act he intended to commit.

Another document also found on the person of the murderer and would be made public. It is addressed to the public. After saying: "I have suffered eight months of hell. How I have stood it only the Lord knows." De la Brouse goes on to charge Miss Jordan with seducing him from his "beloved Marie" because he was not making financial headway and in a rambling way tells of his troubles. The closing sentence is "I not only curse you now but will wish you a curse on your head to the last hour of your life."

Condition of the Crops.

Washington, Sept. 29.—The weather bureau's weekly crop bulletin: "The principal crop states have experienced favorable weather conditions, especially favorable for maturing late corn and wheat. Frost has been quite general over the central and eastern portions of the corn belt, no material damage is indicated. Probably less than 20 per cent of the corn crop is unharmed, and while the proportion yet exposed to injury in South Dakota, Minnesota and Wisconsin is greater the immature wheat makes good feed; farther south only a very small part of the crop is still soft. Cutting is quite general in all sections and some new corn has been marketed in South Dakota.

While conditions have been favorable for threshing spring wheat, spring wheat region reports dampness of grain in shock as a result of previous rains. Harvesting has been completed on the Northern Pacific coast and threshing is advanced.

While generally seasonable temperatures over nearly the entire cotton belt, a large part of the cotton crop has already been gathered. Cool nights and the general prevalence of drought in the central and western districts have been detrimental and rust and shearing continue to extend westward.

THE MICROSCOPE

Proves That Parasites Cause Hair Loss.

Nine-tenths of the diseases of the scalp and hair are caused by parasitic germs. The importance of this discovery by Professor Unna, of the Charity Hospital, Hamburg, Germany, can not be overestimated. It explains why ordinary hair preparations, even of the most expensive character fail to cure dandruff, because they do not and cannot kill the dandruff germ. The only hair preparation in the world that positively destroys the dandruff parasites that burrow up the scalp into scales, scurf or dandruff, is Newbro's Herpicide. In addition to its destroying the dandruff germ Herpicide is also a delightful hair dressing. Sold by leading druggists. Send 10c in stamps for sample to The Herpicide Co., Detroit, Mich. MORE TROUBLE FOR MACEDONIANS.

A General Uprising Proclaimed And Insurgent Bands Ordered To Begin Operations.

WOULD AROUSE BULGARIANS.

Razlog in Flames—Fifty Turks Killed—Insurgents Use Bombs—Big Protest Mass Meeting in London.

Sofia, Bulgaria, Sept. 29.—A telegram received here from the camp of Gen. Zontcheff, the commander-in-chief of the Macedonian insurgents at Razlog, 55 miles from Sofia, announces that a general rising was proclaimed Sept. 27 in the districts of Razlog, Novokop, Demotshissar, Melnik and Seres, and that all the insurgent bands in eastern Macedonia had received direct orders to begin operations.

The chief hope of the revolutionary organization now centers in the outbreak in eastern Macedonia which is expected to assume considerable proportions as the leaders there are all officers of the Bulgarian reserve. This, the sympathizers with the Macedonian cause hope, would result in a war, feeling in the Bulgarian army and force the government to espouse the Macedonian cause.

Dispatches received here from various sources say Gen. Zontcheff has been greeted everywhere with the greatest enthusiasm and that all the peasants are flocking to his banner.

RAZLOG IN FLAMES.

Sofia, Bulgaria, Sept. 29.—A dispatch from Rilo says the town of Razlog has been in flames since Sunday night. The insurgents are attacking Butch-eva, and severe fighting is reported to be going on between the insurgent bands and the Turkish troops. The sound of artillery is plainly heard at Rilo.

Another fight is reported to have taken place near Ohrida, 25 miles from Monastir, in which 50 Turks were killed and many were wounded. It is reported that all the intelligent Bulgarians of the town of Ohrida were recently arrested on suspicion of communicating with the insurgent bands and were sent in chains to Monastir.

A letter from Philippopolis, dated yesterday, says the authorities there have distributed rifles and ammunition in all the frontier villages for use in case of an attack being made by the Turks.

INSURGENTS REPULSED.

Salonica, Macedonia, Sept. 29.—A band of insurgents Sept. 27 with bombs attacked the Turkish garrison at Razlog and were repulsed with loss. Orders have been received to stop the military movements, but large quantities of ammunition and 15 guns were sent today to Demotshissar, 45 miles from Salonica.

The American mission has presented a petition to Minister Leishman, Sir Nicholas R. O'Connor, the British ambassador, requesting them to secure the admission of a corps of the Red Cross society into Turkey, or, as an alternative, permission for the members of the American mission to disperse charity.

A PROTEST MEETING.

London, Sept. 29.—A mass meeting to protest against the situation in Macedonia was held in St. James' hall here tonight, and was presided over by the bishop of Worcester. The hall was crowded and an overflowed meeting had to be held. It is estimated that there were 2,000 persons gathered within the hall, where they were addressed by the bishop of Worcester, James Bryce, M. P., and Rev. R. J. Campbell, pastor of the City Temple and others.

Resolutions were adopted urging the government to take action looking to putting an end to Turkish rule in Macedonia. Letters of regret from the archbishop of Canterbury, the bishop of London, Earl Spencer and many other prominent men, were read, and the object of the meeting was read.

GOES FOR THE BISHOP.

London, Sept. 29.—Sir Edward Malet, formerly British ambassador in Macedonia, writes to the Times this morning reprehending the attempts of the bishops to force the hands of the government in Macedonia affairs, and says that Great Britain could only accede to the bishops' demands by in plain English, "going to war."

If the government made such a move as the bishops are making, Sir Edward Malet would be left by the other powers in splendid isolation and faced with the alternative of an ignominious retreat or war. The former would do infinite harm to the Macedonians, while the latter would mean letting loose the dogs of insurrection as well as the dogs of war, and would give the coveted opportunity to Great Britain's innumerable enemies throughout the world.

AN APPEAL FROM SOFIA.

Chicago, Sept. 30.—An appeal from the Young Men's Christian association in Sofia has been made to their brethren in Chicago and other cities for aid for the suffering Macedonians and asking a special week for prayer for their deliverance from the atrocities of the Turks.

After describing present conditions, the appeal continues: "Civilized Europe sees this, but diplomacy does not wish to know. In her heart there is no mercy, there is no sympathy, no germ of the teaching of Jesus Christ."

LYNCHERS ARE MURDERERS.

Such is Verdict of Coroner's Jury At Lynchburg, Tenn.

Lynchburg, Tenn., Sept. 29.—The coroner's jury has returned a verdict to the effect that the negro, Allen Smith, who was killed last Thursday night during a raid on the Moore county jail, was deliberately, maliciously and designedly murdered, and 27 men are named in the verdict as guilty of the crime. Fourteen of the men are under arrest and warrants for the others have been issued. Three of the prisoners have turned state's evidence and have been released on bond on condition that they will appear as witnesses for the prosecution.

Mishap to Veteran Firemen.

Chicago, Sept. 30.—Veterans of the Chicago Volunteer Firemen's association have had a lively and unpleasant experience in giving an exhibition run in Michigan avenue. Eighty-one members of the volunteer department, none under 65 years old, participated and during the run 14 were injured or overcome by their exertions.

Drawing one of the old engines which had done service in 1840, the veterans started from the Washington street engine house for the Auditorium hotel. At Adams street and Michigan avenue the short "run" was indulged in, and

as the engine was suddenly jerked forward it swerved on the car rails and three firemen were hurled to the pavement. The "run" came to an end quickly and the injured men were cared for. The company then continued its march to the Auditorium hotel, where a large crowd witnessed the exhibition and the throwing of water by old methods. The volunteers were the recruits to which they were accustomed in the old days, and were commanded by former Chief Matthias Brenner.

Stabbed for Remonstrating.

Chicago, Sept. 29.—In the center of the vast throng of people who were waiting for the parade to pass at Jackson boulevard and Clark street, Dennis Sheehan was stabbed just over the heart last night by Charles Earl, and is dying. His assailant, who was arrested, told the police he had come from New York to attend the centennial celebration.

The assault upon Sheehan came when one source says Gen. Zontcheff had been trying to get a good view of the parade. Sheehan, who is an old soldier and more than 60 years old, remonstrated and immediately drew a jack-knife and stabbed him. Earl is about 45 years old.

The Nickel Plate Road, with its eastern connections—the Delaware, Lackawanna & Western and West Shore and Boston & Maine Railroads—is considered by those who have patronized it as the most desirable line between Chicago and New York, Boston and other eastern points, and takes its place among the first-class lines leading eastbound from Chicago. It is operating three through first-class trains, all daily and equipped with modern improvements. For the convenience and comforts of the traveling public, it has dining-car service, meals being served on American Club Plan, ranging in price from 35c to \$1.00; also service a la carte. Colored porters are employed to look after the comfort of passengers in coaches and especially to assist ladies traveling with children. No excess fare on any train on Nickel Plate Road. All passenger trains arrive at and depart from the La Salle St. Station, Chicago, the only passenger station in Chicago on the Elevated Loop. When going east, try the Nickel Plate Road.
