

important mining camp near the sum-mit this side of Oroya, quite a distance from Cerro. Alf McCune has been superintendent of those mines and has handled the work very well indeed. Some former owners of the property, for New York, where they will be joined a few days later by the car. matives, have been continually in dis-pute over the property and have caused no end of trouble, in fact there has been trouble there for some time Once over on the continent trains and all traffic except the motor car will be tabooed and a long tour will be taken to and it culminated on July 8 (which is the Peruvian Fourth) in a regular riot. include every interesting corner of the old country.

FOUR BADLY BEATEN.

"Alf McCune and four of his men all white men, were badly geaten by the mob of natives and it has since been charged that he killed a couple of the natives. Even if he did (which is still a matter of grave doubt) it was purely for the purpose of defending himself but here the laws are different from at there being no such thirg as self defense. The natives have made a tremendous lot of trouble over the affair and details have been exaggerated, the fact that the natives started the riot and beat four white men having been suppressed. However, Alf has left the country now and probably the papers will soon drop the affair."

FRED WILCOX HURT.

Young Salt Laker Meets With Accident at the Columbus Con. Mine.

UTAH ACTRESS WEDS.

that Julia Dean was married in Chiago last Tuesday to Orme Caldara, leading man at the Chicago Opera House. Miss Dean is a well known Utah actress and has been leading lady with Edwin Arnold's company, playing "Told in the Hills."

Miss Dean is the daughter of Al-bert Dean, and has many relatives liv-ing in this city. She starred last sea-sen in "The Little Grey Lady," and gave up this play to accept her present position. The couple are now at the Elms apartment house on the

the Elms apartment house on the South Side, Chicago, from which cards were sent out announcing the wedding. Stated that be had two other propositions from other sources but he did not care to say anything about them at present, saying that he believed the statement made should be sufficien, to satisfy the people that he can carry out his part of the contract. The announcement that Mr. Eccles willing to build the Eagle valley railroad on the terms which have been agreed to by the Citizens' league is one of the best pleces of news ever published in Baker City. It means that if the subscription is raised and Mr. Eccles is given the contract the read will be built within the road will be built within the shortest possible time and that it will be a pay-ing proposition, for it is well known that Mr. Decles is a conservative man and will not build railroads where the returns are not certain. It is known that Mr. Eccles, during is week spent in Baker City, made a thorough examination of the proposed Eagle valley road and sent his engineer. Mr. West, over the surveys. It is very evident that Mr. Eccles found the posible business would pay .- Baker City Herald.

\$100,000 is raised. This is a positive statement made by Mr. Eccles before leaving Baker City Saturday. He ofontract

ment "You may say that Mr. Eccles, president of the Sumpter Valley rallway, has been investigating my proposition some time and is now willing to build the road from here to Eagle valley pro-

fers to begin in the same time as specified in the contract with W. L. Vinson by the Citizen's league and to complete it within the same time specific in that On being pressed by the committee to know who was backing him on the building of the Eagle valley railroad Mr. Vinson made the following state-

ler today appointed the following ad-ditional delegates to represent this If anyone was given adverse comment Boise, Idaho, from Sept. 2 to 8: Maj. R. W. Young, V. C. Cutler and E. E. Jenkins, Salt Lake; George M. Hansen and Judge Thomas Maloney, Ogden. Admits He Is Mean-Tom Alexis, a young Greek 14 years of age, pleaded guilty to the charge of incorrigibility before Judge Armstrong in the criminal division of the district court today and was committed to the State Industrial school at Ogden. Alexis stole \$200 from another Greek at Bingham several days ago. New Home Ready-The Masons will occupy their new building next week, with these bodies of the order, viz., he Mt. Morlah, Wasatch and Argenta Blue lodges, the York Bite chapter, the Salt Lake Commandery, the Con-sistery, the Mystic Shrine, and two odges of the Eastern Star (women Masons). Wyoming Encampment Bills-A special meeting of the state hoard of ex-aminers was held in the office of Secy, of State Tingey today at which the bills for National Guard encampment at Fort Russell, Wyo., amounting to \$5.114.79 were approved and ordered paid. The government paid the guards at the regular army rate of \$13 per month and the above amount is the balance due as expenses for the encampment. Building Epidemic-Architects and ontractors look for an epidemic of building in this city by another spring, and they believe that the improve-ments intended for the Eighteenth ward square 18 months ago, will be then carried out. This will involve expenditure of perhaps a round \$1,000,000 in a great apartment house, with interior court covering the entire square. New Residences-Architect J. C. Craig has completed plans for a \$10,-000 double house of two stories to be built for Mrs. E. F. Holmes, at State and North Temple streets, to contain 28 rooms each, and equipped with all the modern improvements. The fourdations are already in, and construc-tion will be carried on without de-lay. The same architect has plans for a \$\$x100 foot, two story building on west Second South street between Fourth and Fifth West streets, to cost \$13,000. The building will contain five troves, and 35 rooms, for lodging purposes on the second floor. F. S. Richards Home-Hon, F. S. Richards has returned from a month's ubsence on the Pacific coast, breathing spell. He has always en-tertained a strong regard for San tertained a strong regard for San Francisco, and the sight of the city in ruins made him feel very sad. But he admired the pluck and determina-tion of the people in crecting tempor-ary structures and starting in to do isvaines the best they could under the circumstances. Mr. Richards was particularly improved with the climat-ic attractions of southern California where the climate is could all the year where the climate is equal all the year round, neither too hot or too cold. He found the senside resorts well pat-ronized, and at Ventee considerable money was being invested in further improvements.

ing dubbed "County Chairman."

More Irrigation Delegates-Gov. Cut- forced to live that the Bogie man will

vorce in the district court toda against L. H Coleman, a barber, o today the ground of failure to support. They were married at Provo on May 1, 1899. Plaintiff asks for alimony and attor. nev's fees and an order was issued by Judge Morse citing the defendant to appear on Sept. 7 and show cause why he should not pay plaintiff temporary alimony and suit money,

John H. Horr filed suit for divorce in the district court today against Sarah M. Horr on the grounds of cruelty and infidelity. The complaint al-leges that the parties were married In this city on June 26, 1901, and that on frequent occasions defendant has used vile and abusive language towards plaintiff and also towards his mother and brothers. He also alleges that she has frequently neglected her children and left them at home alone and associated with men and women of ili repute. Plaintiff asks for a divorce and for the custody of the five children, the youngest of whom are triplets only six months of age.

able picnic in Liberty park yesterday afternoon. One of the features was a banquet spread under the trees which was participated in by all. LATE LOCALS.

Bank Clearings-Today's local bank clearings amounted to \$553,480.69 as against \$570,780,28 for the same day

New School Instructors-The board of education of the Jordan school district held a meeting yesterday and appointed the following principal and instructors in the high school of that district: C. E. Gaufin, principal; John Groendyke and Grace Jennings, instructors.

neon and as the shades of evening fell Tonight the machinery of the Salt all adjourned to the pavilion and ming-led in a big dance. Today the Murray Lake county Democrats will be given Lake county Democrats will be given a thorough overhauling, and new cap-tains of industry given a job at the helm and the log book to steer things against the coming of election day. The friends of Fred Wilcox, son of Dr. and Mrs. Charles F. Wilcox of the Twentieth ward, will learn with regret that the young man was painfully hurt in an accident at the Columbus Consolidated mine at Alta last night. At the same time they will be pleased to hear that his condition is as promising as can possibly be expected under the clicumstances.

The accident occurred at the 190-foot The accident occurred at the 199-foot level as the cage was being dropped into the mine with the midalight shift on board. In some manner the young man was raught between the cage and the pro-troding timbers and was badly supered it was feared that the consequences would prove fatal and the injured man was holsted to the surface as guickly as pos-sible, and where, under the case of Dr. Sykes, he soon recovered consciousness. Today Dr. Wilcox reached the mine him-self, and this atternoon telephoned his family that unless complications set in not regard removal hous a wise thing at this time. No bones were broken, but somewhat affected. Tred went to the Columbus Consolidated

his chest is badly swollen and his lungs somewhat affected. Fred weat to the Columbus Consolidated to work for the summer, immediately af-ter the adjournment of the State Univer-sity for the heated spell, and to get some practical information in the course of nations engineering which he is pursuing. With him is Charles Gibbs and other students, who contemplate the same call-ing in life as that which he hopes to fol-low. The young men have been en-camped in a tent near the mine during the summer, and have been enjoying themselves immensely, in addition to get-ting valuable experience and providing means to "carry toem through school." That the pleasure of their work should have thus been interrupied when the time for returning home was so near at hand, will be sincerely regretted by all. How-ever, there is every reason to believe that the young men will soon be home and in good physical condition for his winter's studies.

SINGERS AT SALTAIR.

Tomorrow Will be Stephens' Day at The Big Lake Resort.

Tomotrow will be Stephens' day at Saltair and the last outing of the singers of Salt Lake this season. It is the intention to make it a great event. In the afternoon the children of the stake singing classes will hold sway and enjoy themselves to the top of their bent. In the evening the members of the Tabignacle choir with their friends will induige in a dance on the splendid my, which floor until a late hour. Prof. Stephens fall term.

ceeding the supply.

WORK ON BOULEVARD

Will be Completed so Far as Commercial Club is Concerned, Sept. 15.

The delay on the work of the Wasatch boulevard late in the summer, was due to waiting for the building of the approaches to the canyon bridge and the structure itself, which is of concrete. The bridge has now been built, and the work of grading is be-ing pushed under the direction of Engineer Doremus, so that the Commercial club expects to hand over to the ity its share of the work on the improvement by the middle of Septem-

The amount subscribed was in exis a little short of the subscriptions. The entire cost of the boulevard when ompleted will be a great deal more but the work will be continued from time to time by the city, as funds become available for that purpose, so that eventually Salt Lake will have a drive that ought to challenge the mot noted boulevards in the country.

PERSONALS.

J. H. Radcliffe left today on a mining errand of several days in Nevada. Mrs. Harry Horsley, after a long and painful illness, is reported to be rapidly

improving.

Charles B. Felt, son Edwin, and his nephew. Haroid, son of George F. Felt, have returned home from an extensive trip through the Teton basin and surrounding Idaho territory.

Prof. M. M. Young is back from a trip up Weber canyon with a number of very fine oil sketches made on the One painting of the headwaters spot. One painting of the beauwaters of the Weber river is a very fine effort, the artist having been successful in bringing out the most charming effects in the wild scenery in that section. Prof. Young will complete his work in the studio.

Rev. E. I. Goshen will be home tomorrow from his month's vacation preparatory to occupying his pulpit again next Sunday morning. Mr. Goshen would have been back before this but was detained by special business connected with the Gordon academy, which reopens Sept. 5 next for the

TRIP DOWN GREEN RIVER.

Utah to Have Another Attraction to Offer the Tourist. By next season Utah will still have mother attraction for tourists in the

form of a 200-mile trip down Green river to a pjoint where it joins the Grand and Gunnison rivers and the rapids

Arrangements are under way to charer the "Cliff Dweller," the big steamer which has been placed in commission on the stream and errect two charcteristic tourist hotels amid some of the grandest scenery that the state af-fords. One hotel is to be located about 100 miles below Green river station on the Rio Grande Western and the other at the end of the trip. It is anticipat-ed that considerable business will folow the opening up of this herelafore

INTO BEATTY SEPT. 15.

J. Ross Clark Wires Date of Entry of

C. O. Whittemore, general attorney for the Salt Lake Route, who returned from Goldfield yesterday, is in receipt of a telegram from J. Ross Clark, president of the Las Vegas & Tonopah road which states that the date set for the completion of the road into Beatty is now Sept. 15 and not ten days earlier,

Size of Religious Sects.

The Roman Catholic council to discuss the new situation created in France by the recent law separating church and state, calls attention to the relative numerical importance of the principal forms of religion followed by perincipal forms of religion followed by humanity. According to the latest es-timates, the total population of the world at the present day is 1.663.150,000. Of this total, rather more than one-third, exactly 543,000,000, and Prot-tianity--Catholics. 350,000,000, and Prot-estants. 213,000,000. Mohammed has 222,000,000 followers: Buddhs, 107,000,000. Of the teeming population of China-Of the teeming population of China, 253,000,000 practise the cult of ancestry. The Brahmins in the world number 225,000,000, and the Jews but 9,000,000. The Parsees, who play such an import-ant role in India, are but 150,000 art told. So far as mere numbers go, the Roman Catholics are thus seen to be far ahead any other denomination .- Grand Magazine.

it was Furious J. for not making good on the promise of Mrs. Schoff that he should be done to death to prove that Salt Lake is the home of the unsafe and insane, and ought to be the recipient of more missionary funds to help along the work of conversion, Come to think of it, Senator Dubois also has an official explainer. In the reformed spelling of President Rooseveut his complaint is labelled "to-maine." which is another way of saying

the Danites are after him for fair, It still appears to be true, after mature deliberation, that Frankie and his friend in a duet of thrilling experi-ences ought to draw the record house of the campaign rallies.

Who is Representative Fishburn, newly discovered candidate for represent-ative in Congress. He is a Republican who has sat in the state legislature, and seems to wonder why Parley P. should run after all.

A few persons read a lengthy double column article in last Sunday's Trib-une, signed "Hon. Thomas Kearns." If there is a man in Salt Lake with nerve enough to say be believes it was written by the Alaskan geographer he can get a chrome by calling at any second hand store either in or out of the business district

An error in typesetting in last eve-ning's impression of the "News" made the name of Judge W. H. King appear as a candidate for county attorney in-stead of W. H. Wilkins, who was entitied to the mention. Judge King is now in New York, where he has gone how in New York, where he has gone to welcome Bryan with the other hosts of the unterrified. He probably won't back up the type machine man or proofreader, by making good on the proposition. It may be definitely stated that Judge King does not aspire to the worlden is assured. position in question.

County Clerk Jacob Coleman of Juab county is in Salt Lake today. When asked as to the political situation down the state, he said that the Socialists the state, he said that the Socialists are going to surprise the natives in the western section of Juab, in the min-ing districts near Tintic. The eastern portion, however, is Republican strong enough to carry the county, he thinks, although the Democrats and Socialists will split about even as very close seconds to the Republicans. On the consolidation matter. Coleman says a great deal of advertising is being done for the Agricultural college for the pur-pose of gaining converts, but the coun-ty as a whole, he says, seems to favor consolidation.

In Sanpete county one W. D. Livingstone, Republican, is on a large war horse and breathing vengeance upon the "party machine" which is alleged to have disappointed him in the selection of Hiram E. Booth United States district attorney.

Juab county expects O. W. Powers to make the race for Congress against Representative Howell. The ringing oratory of the last campaign is still remembered by Democrats to the credit of Judge Powers in Juab, and they say he is gaining strength down there.

Many Democrats who have been lookng over the field for good material for the nomination of county attorney have arrived at the conclusion that they have the right man in Ashby Snow, and they
