"THE AMERICAN PERIL."

A French Deputy Says it is Nearer and More Real than Yellow Peril.

Paris, June 2.-In the chamber of deputies today M. Des Tournelles de Constant asked the foreign minister, M. Delcasse, for a statement on the Chisituation. In the of his remarks the deputy alluded to Ameri-con business competition, saying the "American peril" was advancing toward them with methodical rapidity. Napoleons of American industry de-clared openly that their enterprise meant the conquest of Europe and her economic ruin. The "Yellow peril" was more distant than the American peril, but the Chinese had been given a warning which ought not to be neglected. M. Delcasse replied in a reassuring manner regarding China. He said the French troops would leave at the earlest possible moment. The powers only nsisted on measures of justice, having the charcter of reparation for the pasand guarantees for the future. Regarding the indemnity, France thought the immediate payment of a lump sum was preferable. China accepted the principle of an Indemnity some months ago, and she now consents to pay the indemnity demanded. It is said she will pay with her customs duties. But commercial relations will not be injured as it is intimated that China herself will pay the indemnity
