

REVOLUTIONISTS WILL ATTACK SOON

Will be on Jamiel, Which is Some
Thirty Miles Southwest of
Port au Prince.

GOVERNMENT MUCH ALARMED

So Far as it is Concerned, Situation is
Believed to be Lost—May be
Uprising in Capital.

Port au Prince, Dec. 1.—The expected
battle between the revolutionists and
the troops of the government which are
entrenched a few miles outside the city
is likely to be deferred for several
days. Gen. Artoine Simon, minister
in-chief of the revolutionary
forces, has decided to attack Jamiel,
which lies 30 miles to the southwest of
this city, and which is the only town
that has remained loyal to the govern-
ment of the south, before resuming
his march on Port au Prince.

It is believed, however, that the situa-
tion, so far as the government is
concerned, is lost. Louis Herbo, min-
ister of state, has handed in his resig-
nation and has taken refuge in the
German legation, and there now re-
mains in office only three of the high-
est officials. Gen. Laleau, minister
of the interior; Gen. Laleau, minister
of justice and public instruction, and
Gen. Marcelin, minister of finance and
commerce. All the other ministers
have resigned, with the exception of
Gen. Celestin Cyrille, who, after his
recent defeat at the hands of the in-
surgents, is believed to have found asy-
lum in one of the foreign consulates.

It is believed that the intention of
the president in calling an extraordi-
nary session of the chambers is to have
them name his successor. President
Alexis favors either of two candidates
for the office, Gen. Turanne Jean Gilles
and Solon Menos, a distinguished law-
yer.

The three divisions of government
troops entrenched at the cross roads
outside the city are being depleted by
numerous desertions. While every ef-
fort has been made to hold the troops
together, and there have been few out-
ward signs of dissatisfaction, the gov-
ernment soldiers have taken the first
opportunity to slip away. Some of
these undoubtedly will join the insur-
gent army. Gen. Simon will enter Port
au Prince probably without causing
blood, and it may be without causing
disturbance in the order of things. If
President Nord Alexis takes his de-
parture from the city before the ar-
rival of the insurrectionists, the situa-
tion will be critical if the president elects to re-
main.

ARMS FOR THE REBELS.

New York, Dec. 2.—With her hold
filled with what her commander is free
to admit is contraband of war, and
what is otherwise declared to be a
cargo of guns, ammunition and ex-
plosives, intended for the use of the
whals in Haiti, the two-masted schoon-
er Alice is moored in a Long Island
harbor practically in readiness for a
start on her voyage, when her captain
deems conditions propitious for sail-
ing. Capt. James L. McPherson, ma-
rine soldier of fortune, who is said
to have a record of several successful
filibustering exploits to his credit, is
the reputed commander of the Alice,
and it is said will take charge of her
on her coming trip, whatever that may
turn to be. Capt. McPherson denies
that he is organizing a filibustering
expedition.

INFLAMMATORY RHEUMATISM

Cured by Dr. Williams' Pink
Pills and the Proof Is
Right Here.

Nothing better demonstrated that
rheumatism is a disease of the blood
than the fact that it is hereditary in
certain families. It may not develop
until conditions of cold and dampness
favor it because nature is always fight-
ing to keep the body in health. When
disease does get the upper hand and
rheumatism is seated in the blood, a
remedy that will revitalize and renew
the blood is the simplest and best
means of relief.

A remarkable instance of the value
of Dr. Williams' Pink Pills in this
case is shown by the cure effected in
the case of Mrs. O. E. Taylor, whose
address is R. F. D. No. 6, Columbus,
Ohio, who writes:

"I suffered severely with inflamma-
tory rheumatism for three years and
was helpless in bed for weeks at a time.
The attack followed exposure to damp-
ness. Every bone in my body seemed
to ache and my joints were swollen to
twice their normal size. During the
first attack I had to be fed as I could
not raise my arms and was so perfectly
helpless that I couldn't turn over in
bed. The least bit of a jar would hurt
me, and on damp days the pain was
worse and almost unbearable. I was
not able to work for months, could
not sleep and had no appetite.

"I was treated by different doctors at
London, Ohio, who gave me only tem-
porary relief. Upon the advice of a
cousin, who had used Dr. Williams' Pink
Pills with benefit, I decided to
give them a trial. I soon had an ap-
petite and could see that the pills were
helping me. I took several boxes and
was cured as I have not been troubled
with the pains since and am a healthy
woman in every way."

Dr. Williams' Pink Pills actually
make rich, new blood and have cured
such diseases as rheumatism, nervous
and general debility, indigestion, ner-
vous headache, neuralgia, and even
partial paralysis and locomotor ataxia.
As tonic for the blood and nerves they
are unequalled.

Dr. Williams' Pink Pills are sold by
all druggists or will be sent, postpaid,
on receipt of price, 50 cents per box;
six boxes for \$2.50. Dr. Wm. C. Williams,
Medicine Company, Schenectady, N. Y.

1908, as compared with the same period
of the previous year, according to a re-
port from Consul General Richard Guen-
ther of Frankfurt. The imports for the
first nine months of the present year
amounted to \$1,145,799 as compared with
\$1,552,490 for the same period of 1907,
while the exports decreased from \$1,267,
000 in 1907, to \$1,199,550 in 1908.

ORIENTAL RUGS.

Buyers Warned to Beware That They
Are as Represented.

Washington, Dec. 2.—That there is
need of the utmost caution in buying
oriental rugs so as to secure proper
guaranty that only vegetable dyes and
textures have been employed, was the
warning sounded by Consul W. F. Doty,
in a report from Tabriz, Persia. He
says that the royal edict which forbids
under heavy penalties the introduction
of aniline coloring material is not en-
forced.

GREAT SUSPENSION BRIDGE.

May Have to be Built Across Hudson
For New York Water Conduit.

New York, Dec. 2.—Unable to find solid
rock bottom through which to carry a
conduit under the Hudson river north
of the city, near Peekskill, N. Y., it
may be necessary for New York to erect
a \$10,000,000 suspension bridge in order
to perfect the new Catskill water sup-
ply system, now under construction.
Such a bridge would have a span of
from 1,200 to 1,400 feet, with a maximum
height of 150 feet. Although it built, it
will be used primarily to carry the
giant conduit, arrangements will also be
made for traffic facilities. A tentative
report on the proposed structure had
already been submitted to the board of
water supply.

MONTANA SHEEPMEN

Discuss Proposed National Wool
Warehouse Project.

Billings, Mont., Dec. 1.—Flockmasters
of this section of the state and of eastern
Montana met here today with the
officials of the National Wool Growers'
association to discuss the proposed na-
tional wool warehouse project. The
meeting was addressed by President F.
W. Gooding.

After considerable discussion, 1,000,000
pounds of wool for storage in the pro-
posed warehouse were pledged. More
than 70 of the leading wool growers
of eastern Montana attended the
meeting. W. H. Morse, industrial com-
missioner of the Association of Com-
merce of Chicago and A. Anderson of
Salt Lake City also made speeches.

ESTELLE STOUT KILLS MAN IN SISTER'S DEFENSE

Chicago, Dec. 1.—Shooting, she al-
leges, in defense of her sister, Miss Es-
telle Stout today killed Henry Horn-
berger, agent for a picture enlarging
concern. Mrs. A. Chambers, a sister
of Miss Stout, quarrelled with Horn-
berger, according to the police, over an
enlarged picture of a third sister, who
is dead, when Hornberger called to
deliver it.

Mrs. Chambers declared that the pic-
ture was not a good likeness and she
said Hornberger struck her, felling her
to the floor. As she arose she saw her
sister, Miss Stout, standing with a
smoking pistol in her hand, and her
assaulted dead from a bullet through
the heart. Miss Stout admitted firing
the shot, averring that she did so to
save her sister's life. Both women
awaited the arrival of the police and
readily accompanied them to the sta-
tion.

At the station Miss Stout became
hysterical when informed that Horn-
berger was dead. She declared her sister's
hand been lacerated in the struggle
with the man and that he had threat-
ened to kill both herself and her
sister. She said she had hurried
into a room, seized a revolver and
fired blindly to frighten the assailant.
The police are inclined to credit the
statements of the two women and be-
lieve they may be freed by the action
of the coroner's jury.

SALT COMPANY PLEADS GUILTY TO REBATING

Grand Rapids, Mich., Dec. 1.—The
Salt and Soda Company of Michigan
Ludington pleaded guilty in the United
States court here today to six counts
charging rebating in connection with
shipments made over the Pere Mar-

quette railroad. Sentence will be passed
tomorrow morning.

The company pleaded guilty some
time ago to 20 counts, covering 20
shipments, and was fined \$20,000. After
the decision in the Standard Oil cases
that each shipment did not constitute
a count, but that each settlement
should constitute a count, the com-
pany made a motion for a new trial.
The motion was denied, but as the
company had six monthly settlements
with the railroad company, Judge
Knapp agreed to suspend the fine if
the company would plead guilty to six
counts. The company today asked for
leniency on the ground that the amount
of the shipments was small. Dist. Atty.
Coyell asked that the old fine stand,
as the six counts cover the same ship-
ments which the 20 counts covered.

FOURTH CLASS POSTMASTERS PUT IN CLASSIFIED SERVICE

Washington, Dec. 1.—All fourth-class
postmasters in the states east of the
Mississippi river and north of the Ohio
river were today placed in the classi-
fied service by an executive order of the
president. Hereafter all the appointees
to fourth-class postmasterships in
those states must undergo civil ser-
vice examinations. Postmasters now
holding office will not need to take the
examinations.

Over 15,000 fourth-class postmasters
are affected by the order.

Another executive order of the presi-
dent, signed at the same time, author-
izes the postoffice department to fill
vacancies in fourth-class postmaster-
ships without civil service examination
until the civil service commission shall
certify to the department that it is able
to hold examinations and make certi-
fications to such positions.

This was necessary because time is
required before any position can be
filled by examination and certification
from the commission. The action of
the president has long been contem-
plated, but up to now it has been with-
held because of a difficulty in conduct-
ing the examinations and securing a
list of eligibles in consequence of the
work that would be thrown on the civil
service commission. The commission,
however, has been broadening during
the last few years and the members
now claim they are fully capable of
handling this class of work. The sec-
tion included within the order has ex-
perienced less difficulty in getting eligi-
bles for the rural carrier service than
elsewhere. It, however, was stated at
the department that the president's or-
der was the beginning of a policy to
eventually include all postmasters when
the salary is less than \$1,000 in the
classified service.

SPEAKER CANNON.

Indications Are That He Will Be Re-
elected.

Washington, Dec. 1.—Friends of
Speaker Cannon profess to be highly
pleased with the response to letters
which Representative James R. Mann
of Chicago, has been sending to the
members announcing that the Illinois
delegation will present the name of
Joseph G. Cannon for speaker of the
sixty-first Congress. They state that
these answers assure re-election of the
speaker.

Representative Mann today admitted
that he had received unequivocal an-
swers from more than a majority of the
Republicans of the house saying
that they would support Mr. Cannon.

This number has not yet reached a
majority of the house. Mr. Mann ex-
plained that a number, principally
new members, had written that they
desired to look over the situation and
investigate the subject more thor-
oughly before replying in a way that might
be considered as a pledge. It is said
that only one member of the house has
replied that he will oppose the re-election
of Mr. Cannon as speaker.

PRIZES DISTRIBUTED THIS AFTERNOON

New York, Dec. 2.—Failure of several
of the foreign drivers, who took part
in the recent grand prize automobile
race at Savannah, Ga., to reach the
city yesterday, caused a postponement
of the first prize which was to be
distributed this afternoon at the headquarters
of the Automobile Club of America, when it is
expected that all the successful contest-
ants will be on hand.

Joy rides have become so prevalent
in New York city and so many fatali-
ties have resulted from the negligence
of unscrupulous chauffeurs that auto-
mobiles are prepared to take drastic
action to stop the practice.

To this end a special meeting of the
governors of the Automobile Club of
America will be held next week to con-
sider the situation in general. A re-
vision of the speed laws may be sought,
for the broad principle of postmaster-
ships is public safety rather than a
stated number of miles per hour. In
the opinion of the speed limit should vary
for different hours of the day and
night and different sections of the city,
depending upon the number of pedes-
trians, the congestion of traffic, a li-
cense bureau of chauffeurs will be on re-
cord, it is also suggested, together with
the provision that a description of all drivers
be kept on file.

A STRANGE RACE OF NEGROES IS DISCOVERED

New York, Dec. 2.—A strange race of
negroes with a language of their own, is
said by Lieut. W. H. Wymans of the
Dutch navy, who arrived here yester-
day from an expedition to heretofore
unexplored parts of Dutch Guinea,
South America, to have been one of the
most interesting discoveries he and his
party made.

The negroes were encountered after
the explorers had proceeded a hundred
miles up the Surinam river and then
cut across country to the boundary be-
tween British and Dutch Guinea. They
appeared never to have seen white
men before, and while perfectly black,
yet were not of the thick lipped type.
After considerable effort their language
was found to be a mixture of several

European tongues, Dutch, Portuguese,

Wymans was of the opinion that they
were descendants of the slaves who
had escaped from the coast doubtless
many generations ago.

Gold was found to abound in the
country, but cataracts and other nat-
