

The only safeguard was in congressional investigation, he said.

Mr. Teller expressed the opinion that the postoffice department would make a thorough investigation, but contended that the legislative branch should retain the right to make an inquiry.

Mr. Clay expressed surprise that there should be opposition to the resolution and he called attention to the declarations by Fourth Assistant Postmaster General Bristow and Counselors Bonaparte and Conrad that the investigation should be carried further.

He declared that the Bristow report "demonstrates the absolute guilt of the late first assistant postmaster general, Mr. Heath. (Heistow), says himself that this leading high official was guilty and the proof overwhelming. If this is true, Mr. Heath should have been indicted. I will do Mr. Bristow the credit to say that his report shows that the frauds of the postoffice department originated in Heath's office. If so, he must have had cognizance of them. Then why should the subordinates in that office be indicted and the principal be allowed to escape?"

Mr. Clay quoted extracts from the Bristow report to substantiate his argument.

"If," he said, "this report speaks the truth, Perry S. Heath originated all the frauds in his office."

#### NEW STUDENT BODY.

One Organized at the University of Utah—Thomas is President.

At 11 a. m. today there was a general meeting of the student body of the University of Utah, Mr. George R. Bristow presiding. After reporting that the college students had withdrawn and suggesting that the preparatory students effect an organization of their own, the former reported to room 22, Museum building, where they effected an organization by electing Elbert D. Thomas president; H. C. Brown secretary and treasurer, and George R. Bristow member of the executive council. The organization includes the fourth year normals, the engineers and art students, and each department will be entitled to elect one member of the executive committee. It will be known as "The Student Body Organization of the University of Utah."

Simultaneously the preparatory students met in the large assembly room of the Museum building, where they were addressed by their former president, Mr. Elbert D. Thomas, who suggested that they effect an organization. Frederick Phoenix was made temporary chairman and Miss Elsie Ward temporary secretary. The students then elected the following committee to draft a constitution for the preparatory student body: W. E. Davis, W. H. James, Daley Clark and Ethel Simmons. This committee will report at an early date.

On Friday night next the Bachelor Maids, composed of the girls of the fourth year normal course, will give a leoparty in the large assembly hall of the Museum building.

James A. Strane of Cornell university arrived here Saturday and began work as foreman of the machine shops in place of George J. Silver, resigned. Mr. Strane comes highly recommended and is already doing very excellent work.

#### Mr. Arthur Shepherd

Has moved his piano studio to room No. 3 Hooper & Eldredge Bldg. No. 49 Main St.

#### APPLICATIONS FOR PARDON.

The following applications for pardons, parole and commutation of sentence will come up before the board of pardons on the 16th inst.: For pardon—James O. Bliss, alias C. L. Maxwell; Frederick von Falkenstein, Elton A. Harrison, Joseph Hill, Charles A. Larsen, Joseph Swazey, William H. Hall, alias William Kelly; for parole—Joseph J. Wimblish, Harry T. Duke; for commutation of sentence—Thomas Dunaher.

#### WEATHER OUTLOOK.

Notwithstanding the cloudy and threatening weather, the weather bureau does not look for any rain, as the high barometer is unfavorable to a snowfall. The local mercury fell this morning to 29 degrees, and the thermometer averages medium low through the west. Even at Phoenix it fell to 22, and at Yuma to 25.

#### A GUARANTEED CURE FOR PILES.

Itching, Blind, Bleeding or Protruding Piles. Druggists will refund money if no CEMENT falls to cure in 4 to 14 days.

#### GIGANTIC SAGEBRUSH.

Specimen of What Grows in Idaho—Power Dam Items.

There is an immense specimen of southern Idaho sagebrush exhibited in the D. F. Walker building by the American Falls Canal and Power company whose headquarters are in this city. This sagebrush tree is seven feet high, and attracts considerable attention, but the officers of the company say that it is but a small sample, as the sage brush on the desert near American Falls grows to a height of 10 and 11 feet, and has trunks as large as a man's body. The desert for a long distance is so covered by this gigantic sagebrush that it is the same as a forest, and it is the easiest thing in the world to get lost therein. This wood is full of vegetable fat, and makes the best kind of a bonfire.

The canal company has 22 miles of the great canal excavated. The prism is 65 feet wide at the bottom and 85 feet wide at the top and will carry six feet of water. The entire length will be 62 miles when completed and extend from a point above Blackfoot to a point below American Falls on the Snake. In this distance there is a fall of 275 feet, and at the American Falls end there is a fall into the river of 139 feet, so that the waste waters of the canal can be utilized for such power as may be desired. A peculiarity of the canal is that there is a sediment from the river that settles in the canal bottom and has the same effect as though it had been puddled. This prevents seepage, and there is no waste to speak of. The company is fortunate in that the topography of the river at the headgate is such that no dam is necessary, and by a little digging the entire flow of the river can be diverted into the great canal. It is the intention of the company to build before long, an electric railway from American Falls to Blackfoot, a distance of 55 miles. This will be a strong factor in settling up that particular country.

It is a beautiful thing for a grocer to do, to sell Schilling's Best; for the goods are good and the dealing is high; there's nothing higher in business.

#### CONTAGIOUS DISEASES.

Only Four Cases in the County at the Close of the Year.

County Physician Mayo today filed his report for the month of December with the county commissioners. There were 11 cases of diphtheria and 10 cases of scarlet fever in the county during the month, but no smallpox. Two deaths from diphtheria were reported. There were only four cases of contagious diseases under quarantine at the end of the month.

#### AUTHORITIES DIFFER.

M. E. Jones and Prof. Swenson Take Opposite Views on Utah Lake Reservoir.

Prof. M. E. Jones does not place the same faith in Utah lake as a reservoir as other scientists, and claims that there is not enough water running into the lake to warrant making it a reservoir. Moreover, the professor holds that establishing reservoirs in the watershed of the Great Salt Lake withholds water from the great lake, which helps dry it up and reduces the evaporation of the great lake and the consequent precipitation in this basin. However, Prof. Swenson of the geological survey says he has a complete array of facts and figures ascertained by careful investigation, which go to show that the scheme of a reservoir in Utah lake is not only feasible but particularly desirable, and that Prof. Jones is mistaken in his premises.

#### LATE LOCALS.

Today's local bank clearings amounted to \$464,707.57, as against \$700,617.13 for the same date last year.

The Reesley family of musicians have had their group picture taken in large numbers, and they make a fine showing.

The street department is busy scraping the snow from the sides of the streets in the paved district nearest the sidewalks.

Mr. Thomas J. Kleinog, the local representative of Armour & Co., has been transferred to San Francisco, for which point he will leave tonight.

It was not expected this noon that there would be any inquest over the Italian killed last night at the Warm Springs quarry. The local Italians will give him a burial.

Suit for divorce has been filed in the district court by William N. Foster against Ruth Foster on the grounds of desertion. They were married at Logan on May 6, 1903.

While out walking last night with her husband, Mrs. Thomas J. Kleinog of 448 Fourth East street, slipped on the pavement and broke her wrist. She was removed to her home, where Dr. Rosmer set the fracture.

El Paso has fallen down on getting the Electrical Workers' convention for 1905, as the lodges throughout the country voted heavily in favor of Louisville, Ky., on the 24th inst.

It was not expected this noon that there would be any inquest over the Italian killed last night at the Warm Springs quarry. The local Italians will give him a burial.

A special from Springfield says that T. E. Child had his right eye removed at the hospital last Monday, and is doing nicely. Mrs. Jennie B. Whipple, formerly matron of the Salt Lake county infirmary, has been taken to the hospital to be treated for a long standing affliction.

Present Jessie M. Smith of the Utah Wool Growers' association has ascertained that there will be fully 100 delegates to the Portland convention from this state. The delegation will occupy three standard sleepers, and have a special train.

The Orpheus club management has sent out invitations to all the men singers in the city to join the club. Attendance on rehearsals has of late been so irregular that an increase of membership is felt necessary to insure proper balancing of the voice parts at rehearsals.

The new metallurgical building at the state university is so nearly complete that it is being occupied for purposes of instruction. A fine metallurgical plant is being installed, including furnace, assaying and leaching apparatus, and the latest methods of reducing refractory ores. It is proposed to have one of the finest metallurgical schools in the country.

Local architects favor separate stairways connecting each theater gallery with the street, and using these exits after every performance instead of having the occupants of the galleries return to the street through interior passageways. The use of such exits has been suggested by the fire department, so that in case of need of their sudden use there would be no delay in the escape of an audience.

The terrible anthrax disease which caused such a mortality among horses at Milford, Utah, some weeks ago, has now appeared at Clifton, Ida., where one man alone has lost 15 head. Veterinarians say that horses dying of that disease should not be buried, as the germs get up through the ground and into the grass, thus communicating the disease to other animals. The only way to do is to cremate the dead animals, and thus destroy the germs.

**Peculiar To Itself**

In what it is and what it does—containing the best blood-purifying, alterative and tonic substances and effecting the most radical and permanent cures of all humors and all eruptions, relieving weak, tired, languid feelings, and building up the whole system—is true only of **Hood's Sarsaparilla**

No other medicine acts like it; no other medicine has done so much real, substantial good, no other medicine has restored health and strength at so little cost.

"I was troubled with scrofula and came near losing my eyesight. For four months I could not see to do anything. After taking two bottles of Hood's Sarsaparilla I could see to walk, and when I had taken eight bottles I could see as well as ever." SUSIE A. HARRIS, Withers, N. C.

**Hood's Sarsaparilla promises to cure and keeps the promise.**

## SAYS DECKER WAS NEGLIGENT.

Con. Mercer Further Charges That Plaintiff in Damage Suit Was Incompetent.

#### PLANT HAD TO BE REBUILT.

Says That Owing to Alleged Blundering, Company Had to Expend The Sum of \$50,000.

The answer of defendant in the case of Rudolph J. Decker against the Consolidated Mercantile Gold Mines company was filed in the district court today. In his complaint Decker asked judgment against defendant for \$6,050.02 alleged to be due for a breach of contract in the construction of a Moore slime process plant at the defendant's mill at Mercer and for services rendered in superintending the work.

In its answer defendant alleges negligence on the part of plaintiff in installing the plant which caused damage in the sum of \$10,000 by defendant having to replace the material and appliances used by plaintiff with more substantial matter and having to reconstruct the entire mill. Plaintiff in his estimate of the cost of the plant, stated that it would cost \$15,000, but defendant alleges that, owing to plaintiff's negligence and incompetency, it has been compelled to expend the sum of \$40,000 on the plant. In the agreement entered into between plaintiff and defendant, it was agreed that plaintiff should receive 5 per cent of the total cost of the mill for his services. Up to the time plaintiff quit the contract, it is alleged that defendant paid him \$405.81 more than was really coming to him under the agreement. Defendant asks judgment against plaintiff, therefore, for the sum of \$10,000 damages and \$405.81, the amount overpaid plaintiff on the contract.

#### DAMAGE SUITS.

No More Filed Against the Utah Consolidated Mining Company.

Two more damage suits were filed in the district court today against the Utah Consolidated Mining company for a total of \$17,330.15 damages for injuries to the land, crops and stock of William L. Turner and James F. Turner, alleged to have been caused by the deadly fumes and smoke from the Highland boy smelter operated by defendant. William L. Turner in his complaint asks damages for the sum of \$3,150.50 for injuries to his property during the past four years. James F. Turner asks judgment for the sum of \$5,573.65 for injuries to his property during the same period of time.

#### FRAUD CHARGED.

Mrs. Cheshire Says She Signed a Deed While Wholly Incompetent.

George Cheshire today filed a petition in the probate division of the district court for letters of administration of the estate of Elizabeth Cheshire, deceased, who died in this city Nov. 22, 1903. The estate consists of personal property of the value of \$50 and real estate of the value of \$3,500, which is encumbered by a mortgage of about \$1,300.

The petition also recites that in the month of September, 1903, while Elizabeth Cheshire was wholly incompetent to transact business, Reuben Cheshire, one of the heirs-at-law of deceased, induced her to sign a deed to the whole of the real estate belonging to her. The petitioner asks that the deed be declared null and void.

#### Suit on a Note.

The State Bank of Utah this afternoon filed suit in the district court against James & Charles H. Blade to recover \$1,242, alleged to be due on a promissory note executed Nov. 21, 1901.

#### PERSONALS.

Judge Barch left for California on a visit today.

Will Cunningham today departed on a trip to San Francisco.

W. H. Davidson, Lewiston, Ida., is among the guests of the Wilson.

Joe Siegel, formerly of this city and now in the clothing business at Butte, is here on business.

J. F. Brinhurst of Springfield and C. M. Madison of Gunnison are in the city on a brief business trip.

Mrs. Will Sharp leaves for Chicago on Saturday morning to join her husband and proceed to New York.

J. C. Rice, general agent for the International Harvester company, is here from the east to open western headquarters in this city, and spent yesterday in Ogden looking over country.

Manager H. E. Parkhurst of the Pacific Underwriters has returned from a trip to San Francisco, where he left Captain Donnell, as the latter expresses it, "Younger than he ever was before in all his life."

#### BUSINESS NOTES.

Walker Brothers' Dry Goods company has filed an amendment to its articles of incorporation in the county clerk's office by which its capital stock is increased to \$500,000. The amendment, which follows, was adopted at a special meeting of the stockholders held on Dec. 21, 1903.

The amount of capital stock of the corporation shall be \$500,000, divided into 2,000 shares of common stock; and \$100,000, divided into 1,000 shares of preferred stock, which said preferred stock shall bear interest at the rate of 6 per cent per annum, payable semi-annually on the 15th day of January and the 15th day of July in each year, but not entitled to any dividends or profits other than said interest, and that the holders of said shares of preferred stock shall not have power to vote on the same at any stockholders' meeting of said corporation.

## TWENTY YEARS AGO TODAY.

(JAN. 6, 1884.)

A defective flue caused a \$20,000 fire in the Tabor Grand theater, Denver. No lives lost.

The New Park theater, Cleveland, O., built to be fireproof, totally destroyed by fire caused by lamp exploding on stage. Loss, \$200,000.

St. Nicholas Hotel building, St. Louis, destroyed by fire. Loss, \$100,000. Twenty-two pupils and five sisters of charity burned to death in the Convent of Notre Dame at Belleville, Ill.

Great Britain ordered a battleship to the Red sea.

H. Villard resigned as president of Northern Pacific railway.

The earnings of the Union Pacific for eleven months were published as \$27,053,779.

Local—The new Twentieth ward meetinghouse was dedicated, the First Presidency attending the ceremony.

## Dr. Shoop's Rheumatic Cure

Costs Nothing If It Fails.

Any honest person who suffers from Rheumatism is welcome to this offer. For years I searched everywhere to find a specific for Rheumatism. For nearly 20 years I worked to this end. At last, in Germany, my search was rewarded. I found a costly chemical that did not disappoint me as other Rheumatic prescriptions had disappointed physicians everywhere.

I do not mean that Dr. Shoop's Rheumatic Cure can turn bony joints into flesh again. That is impossible. But it will drive from the blood the poison that causes pain and swelling, and then it is the end of Rheumatism. I know this so well that I will furnish for a full month my Rheumatic Cure on trial. I cannot cure all cases within a month. It would be unreasonable to expect that. But most cases will yield within 30 days. This trial treatment will convince you that Dr. Shoop's Rheumatic Cure is a power against Rheumatism—a potent force against disease that is irresistible.

My offer is made to convince you of my faith. My faith is but the outcome of experience—of actual knowledge. I know what it can do. And I know this so well that I will furnish my remedy on trial. Simply write me a postal for my book on Rheumatism. I will then arrange with a druggist in your vicinity so that you can secure six bottles of Dr. Shoop's Rheumatic Cure to make the trial. You may take it a full month on trial. If it succeeds the cost to you is \$5.00. If it fails the loss is mine and mine alone. It will be left entirely to me. I mean that exactly. If you say the trial is not satisfactory I don't expect a penny from you.

I have no samples. Any mere sample that can affect chronic Rheumatism must be drugged to the verge of danger. I use no such drugs for it is dangerous to take them. You must get the disease out of the blood. My remedy does that even in the most difficult, obstinate cases. It has cured the oldest cases that I ever met, and in all of my experience, in all of my 2000 tests, I never found another remedy that would cure one chronic case in ten.

Write me and I will send you the book. Try my remedy for a month, for it can't harm you anyway. If it fails the loss is mine.

Address Dr. Shoop, Box 713, Racine, Wis.

Mild cases not chronic are often cured by one or two bottles. At all druggists.

#### STILL ANOTHER.

Cheyenne Believes That W. L. Park Will Be the Man Selected.

(Special to the "News.")

Cheyenne, Wyo., Jan. 6.—There is a well founded rumor here that W. L. Park, general superintendent of the western division of the Union Pacific, will be named general manager of the Union Pacific under President Harrison. He is expected to be named in the near future. He is said to be a native of Ohio, and will receive the same salary. It is said that Assistant Supt. G. A. Whitney of the Wyoming division will succeed Mr. Park here in the event the latter is called to Omaha.

#### DONALD ROSE HERE.

Will Go to Europe to Build Up Import and Export Business for His Road.

Donald Rose, general European agent of the Illinois Central, accompanied by Mrs. Rose, arrived in Salt Lake this morning. Mr. Rose expects to remain here until the end of the week when he will return to Chicago, prior to sailing for Europe next month. He expects to open headquarters on Leadenhall street, E. C. and then go on the continent and open up agencies in the larger cities and sea ports of Europe. It is the intention of the Illinois Central, says Mr. Rose, to further develop import and export business at New Orleans, and with this object in view the European agents will concentrate their efforts in the direction of securing business via the steamship lines plying between New Orleans and European ports. Mr. Rose spent the day shaking hands with his many Salt Lake friends.

#### CHICAGO OUTLET.

Union Pacific to Secure the Chicago & Alton as Link in System.

Chicago, Jan. 5.—The Post says: According to reliable authority the Chicago & Alton will be sold to the Union Pacific. This is the subject of the Kahn-Loeb circular asking for most instantly be taken into consideration of the road. The response to the request for the deposit of stock has been so general as to insure the success of the deal.

The Alton will be used to afford the Union Pacific and the Southern a direct Chicago outlet and the headquarters of the entire system may be moved to this city.

It is intimated that the purchase of the Alton by the Union Pacific may not in any way interfere with the plans suggested for the close affiliation of the former with the Kansas City Southern.

#### SPIKE AND RAIL.

Thomas Tipton, purchasing agent for the D. & R. E. Co., is number among the visiting officials in town today.

Frederick Mertsheimer, superintendent of motive power and car departments of the Denver & Rio Grande, is in the city today from Denver.

Harry Buyn, road master on the west end of the Oregon Short Line, is to be operated upon for appendicitis at St. Mark's hospital tomorrow morning.

Auditor McNitt of the Oregon Short Line is out on an inspection trip in Idaho. During his absence Mr. Cruickshank is the man at the helm.

General Freight and Passenger Agent Gillett of the Salt Lake Route is reported to be slightly better today.

## Amusements

The farce comedy, "An Eye On Hubby," which is booked at the Grand for three nights and Saturday matinee, beginning tomorrow, is headed by Robert Buchanan, who has the reputation of being an able comedian.

## TWENTY KILLED IN ROCK ISLAND WRECK

(Continued from page one.)

upon an alarm being raised by watchmen, who declared that the chopping away of the lower car was letting the top car down upon the victims. The top, or forward car, left the trucks in its backward rush. The trucks were still upon the track under the car in front. Not a wheel on the entire passenger train seemed to be off the track. The freight train fared differently, the four cars immediately behind the engine were crushed into kindling and strewn from one fence to the other. Dead and dying cattle lay around in the neighborhood of the wrecked cars and some were running loose. A carload of hogs were nearly all killed.

#### WORK OF RESCUE.

The uninjured passengers in the Pullman cars led the rescue work. Among these was a Mr. Bell of New York city, a cripple. He is not a practicing physician, but had studied medicine for three years. During the past nine months he has been under treatment for spinal trouble which resulted from an injury to his hips and has caused the shortening of one of his legs, requiring that he wear an iron heel and carry a crutch. Despite these disadvantages he was able to direct the work of tending the injured and he was responsible for the saving of some lives. Bell cleared a portion of the chair car and set up a hospital. Then he cleared berths in the sleeper and had the victims of the catastrophe brought in and made as comfortable as possible. He was without instruments and medicine, and the only thing he could do was to bind up wounds with bandages made by tearing up sheets and pillow cases, giving the patients whiskey to deaden the pain.

An artery was severed in the fireman's leg. The young doctor took it with a pen knife and tied it with a thread. He then took a woman from bleeding to death. He performed innumerable acts of a like nature before the arrival of the Topeka physicians. A shortage of hypodermic needles was broken in a short time and then the doctors were forced to resort to whiskey.

#### THE HERO PHYSICIAN.

The hero physician refused to give his name to the State Journal reporter, but from passengers he was learned to be Dr. Bell of New York City. Initials were not obtained. Miss Anna and Miss Mann of Topeka, Mo., acted as nurses and rendered almost equal service with Dr. Bell, working under his direction. Two sisters named Roseborough, helped in the work.

None of the trainmen seemed to know who was to blame for the wreck. The El Paso train left Topeka about 20 minutes late, and the injured conductor, as he lay in a sleeper berth, said that he had the right of way, and that the cattle train had no excuse for being in the main line under any circumstances. He said that it should have waited for the passenger at Maple Hill, six miles west of Willard. The El Paso train did not stop at Willard, but kept on to Topeka, where it was stopped to make up lost time. At the point where the wreck occurred there is a curve in the track and the engineers on the two trains barely had time to set the airbrakes and jump before the crash came. The heavy freight which looked like a mountain half a mile long, was not easily stopped. The passengers on the El Paso train were given little warning. The loud hiss of the airbrakes was followed almost instantly by the blow and crushing sound of telescoping cars. Not more than two seconds elapsed.

Amid the groans and shrieks of the injured survivors crawled out over wrecked steel. The usual number of human swine were visible. They were around and hung on to their baggage with an iron grip while other men were using all the tools on the train and then escaping by wooden ladders and pieces of scrap-iron to break into the death trap.

Just before the car went to pieces, a middle-aged German who could not speak a word of English, came into the forward coach with his family, consisting of a wife and five children, under ten years of age. They had a lot of miscellaneous baggage and could find no place in the car. Not ten seconds before the wreck the porter called to the deposit of stock to the factory, as there was plenty of room in that car. The German and his family started forward. A minute after the wreck the agonized German, whose face was covered with blood from a dozen wounds, broke out of the car and began calling loudly for his family. In a few minutes three men came out of the wrecked car carrying four of the children. They were motherless. How they escaped instant death is a mystery. They had been forced upward through the floor of one car and were taken out of the smoker which was piled on top. The mother and small-

est child were instantly killed. Ladies from among the passengers tried to comfort the desolate children who were crying loudly for "Mother." The father worked with the frenzy of desperation, tearing boards from the side of the car with his bare hands until the blood came. It was nearly an hour later when the body of the woman was found, with the smaller child and a piece of baggage in her arms.

A Mrs. Hill, who with her small daughter was going to El Paso, was in the wrecked car. Mrs. Hill died while giving her name to a physician who was trying to revive her. When the relief train, with 10 injured persons aboard, left the scene of the wreck, the wrecking volunteers were trying to find the body of the little daughter.

## NO NEED FOR ANY LOSS OF LIFE.

Chicago, Jan. 6.—"The overwhelming mistake of the Iroquois disaster was in the condition of the skylights and ventilators above the stage," said Fire Inspector Fulkerson today.

"Had the ventilators over the stage been open or the skylights not been fastened shut," said Mr. Fulkerson, "there would have been no loss of life by fire, regardless of the asbestos curtain failed in his duty of closing the metal reflecting trough and thus blocked the curtain. But the skylights were blocked and wired so they could not be opened."

"The heat of the flames finally broke two panes of the skylight with the result that there was instantly relief from the deadly draft sweeping the auditorium. If the skylights had been entirely opened, the flames would have been diverted from the auditorium entirely."

Mr. Fulkerson added: "All the testimony given me forms a story of incompetence, blunders, carelessness and neglect upon the part of the builders and managers of the theater."

Today George M. Dusenberry, head usher, was called before Inspector Fulkerson and the ushers were examined today to determine the truth of reports that the ushers tried to prevent by threats of arrest the outpouring of frightened people from the burning theater.

C. M. Hawes, a scene shifter, gave important testimony before Fire Inspector Fulkerson. He declared that the stage management of the Iroquois had no orders to govern the employees in case of a fire had never instructed them as to opening or closing ventilators, and never gave them a fire drill.

David Jones, John Kingsbury, Otto Rausch and William Brown, the Fuller Construction company employees, arrested on a charge of malicious mischief in destroying evidence at the theater by changing the skylights, were today held under bonds of \$2,000 each.
