NEWS OF THE DAY.

The election news from Great Britain is indicative of a Conservative majority in the next House of Commons. Of forty-one members elected yesterday twenty-nine were Conservatives. Mr. Gladstone has been re-elected at Greenwich, but his fellow member was rejected, and a Conservative returned. The electors in various parts of Britain are evidently taking advantage of the opportunity afforded by a general election to display their independence and intelligence, as rioting and fighting are reported in a number of places. In Dudley the disturbance was so great that the authorities had to telegraph for assistance; in Nottingham there has been "much fighting," and at Lincoln, the rioters, in possession of the streets, smashed a large amount of glass, tried to set fire to a hotel and were finally charged upon and dispersed by the military.

A whisky war has been commenced in the East, and is at present waged chiefly by the ladies, their weapons being of a moral and spiritual character. The war is being prosecuted vigorously, in Ohio, and in several counties in that State it is said the Anti-Whisky Brigade is meeting with considerable success. The ladies hold prayer meetings, and adopt other measures to induce whisky drinkers and whisky sellers to stop their abominable practices and traffic. The work is a noble one, and worthy of the support of every philanthropist and Christian in the land, for drunkenness is beyond question the most prolific source of evil in the entire country, and it is to be hoped that the Anti-Whisky Brigade will increase in power and influence, and that its success in the suppression of drunkenness will be all that the most sanguine of its members desire.

An increase of the tax on emigrants is talked of in New York, to which the representatives of the principal European steamship lines are opposed, and they think that if the proposed increase is decided upon, it may lead to the landing of emigrants at other ports.

A wholesale preconcerted incendiary attempt was made in the town of Hamilton, Canada, on Monday night, the seats and books, &c., in several places of worship being piled up and set on fire; luckily all the churches but one, St. Andrews, escaped with little damage, that one was almost ruined. At Memphis, Tenn., last night, the machine shop of the Memphis and Louisville R. R. was burned, with all they contained, destroying property valued at a hundred and thirty thousand dollars, and throwing five hundred hands out of employment. A fire at Allen's print works, at Providence, last night, did nearly a hundred thousand dollars' damage.

A big strike is now in progress of the employees of the N. Y. and Oswego Midland Railroad; the strikers number not less than 200; they refuse to let any but mail trains leave, have possession of the telegraph office, and have destroyed considerable property. Several months' wages is said to be due, which is the cause of the strike.

Five tons of Australian mail matter, from London for San Francisco, passed through Omaha yesterday.

A large fire is raging in the Empire mine, at Wilkesbarre, Pennsylvania.

The Mississippi legislature has elected B. L. Bruce, colored, U. S. Senator for the long term.

Mrs. Myra Clark Gaines makes a serious charge against Caleb Cushing. She has filed a bill in the Equity Court, for an injunction to restrain him from receiving patents and certificates for some 68,000 acres of Louisiana lands, which she claims to have deeded him in trust, and that he afterwards, in his own name, obtained a confirmation of the title, denying her right to any interest in them. The order for the injunction was issued. It is said that Cushing leaves for Madrid on the 7th instant.

The rolling mills at Calmar, Pa., which have been closed since October, have resumed work; they employ five hundred hands.

A Berlin special to the London press gives alarming rumors of the progress between Germany and France.

Professor Anderson, the well-known professor of *leger-de-main* is dead.

News from the Gold Coast says the Ashantees have liberated a German missionary they have had prisoner, and have sent him to the British to sue for peace. The British forces are said to be within a day's march of Coomassie.

SUSPICIOUS ADVOCACY.

Two of the foremost of those precious characters who are urging the administration and Congress to consummate the infamous legislation proposed to "kill" Utah, are Federal officials—the U. S. Attorney and the U. S. Marshal, the U. S. prosecutive and executive officers appointed for the Territory, who have deserted their appointed posts of duty, that they might themselves to Washington to misrepresent the situation here and lobby there to the injury of the people they were appointed expressly to serve.

This has a very bad look. No body can regard such a fact without suspicion. These patriotic officials abandon their proper duties on purpose to go to the capital to secure the passage of a law which shall throw into the hands of one of the most pro-secessionary of all material cases before the courts, and into the hands of the other the execution of all processes of the courts, as a matter of course each to receive the fees and other emoluments resulting from the Federal judge, the chief justice, for instance, out of the taxes paid by the people, who are to be so bound and gagged as to be perfectly helpless and utterly unable to interfere, by word or deed, in this virtual robbery of their public treasury.

What an immaculate pair of republicans this detestable couple of high-minded patriots must be! What magnificent loyalty they manifest, to be sure! How proud the party in particular and the Union in general ought to be in the possession of two such noble souls, such disinterested public officers! How inextinguishable must be the desire of these noble brothers in ambition to serve their country, and pocket a liberal proportion of its greenbacks!

Still, there are people who are sufficiently unbelieving to doubt the purity of the patriotism of such officers, and to regard them as demagogues of a very low type, and their professed desire to "kill" Utah as a mere judicial action, a pettifoggery pretence, a litigious technicality, mere humbug, a piece of rather stupid hypocrisy, concocted and lugged in for the purpose, and destitute of worth or weight. With men of that stripe for public officers, what a gigantic and complete humbug does this much vaunted republic become!

THE WOMEN AND THE SCHOOLS.

The Boston, Mass., School Board excluded therefrom the women members elect, on the ground of legal disqualification, the vote standing 46 to 39, or twelve less than a majority of the whole Board. Some who voted with the majority explained that they did so merely to bring the question to the test of the courts, and advised the excluded women to immediately take the matter before the Supreme Court. All parties favored an appeal to the courts, but opinions differed as to whether the court or the women should hear the question of doing it. Little difference of opinion was expressed as to the valuable aid the women could render in the proceedings of the Board.

In England much benefit acknowledged results from placing women as well as men on school boards or governing committees. In Illinois women serve on school boards, and the Chicago Tribune says they are giving great satisfaction, there being no question that educated women have a peculiar tact in the administration as well as the teaching of schools.

The Cleveland Herald says there are a number of women in that city who could be very profitably exchanged in the board of Education for some of the present masculine members, a remark which is probably true of every other city where the women are excluded from such organizations.

LIVING ON SIN.

The New York Journal of Commerce says that the Board of Education in that city have presented to the District Attorney evidence going to show that some wealthy citizens are the owners of houses of prostitution so near to Public School No. 10 on Wooster St., between Houston and Bleeker, as to make it necessary to abandon the school (now attended by nearly 1,200 children) unless he abates the nuisance. They ask that the owners be prosecuted as the law of the State directs.

Our Country Contemporaries.

Provo Times, Feb. 2.—John Baum, Jr., was arrested this morning at 1 o'clock, by deputy sheriff John W. Turner, on a charge of grand larceny, and brought before Judge P. H. Emerson, but not being ready for trial he was held in \$1,000 bonds to appear to-morrow morning, in default of which he was sent to the county jail.

A meeting of the citizens of Provo, held last Saturday evening for the nomination of officers to be voted for at the coming municipal election, resulted as follows:

For Mayor: Daniel H. Wells.

Aldermen: Isaac Gbo, Geo. Crimmon, Jeter Clinton, John Sharp, Alex. C. Pypher.

Councillors: Brigham Young, Theodore McKean, Albert Carrington, J. R. Winder, Henry Grow, N. H. Felt, David McKenzie, H. B. Clawson, Thomas Williams.

Treasurer: Paul A. Schettler.

Recorder: Robert Campbell.

Marshal: J. D. T. McAllister.

WASHINGTON NOTES.

It has been stated by a New York paper that it is probable General Brister, of Kentucky, would be appointed to the Vienna mission in place of Jay, who is expected to resign. Well informed persons say that Attorney General Williams is much more likely to be appointed to this mission, and that General Brister will become Attorney General, agreeably to the intention of the President some time since.

Women's Whisky War.

CINCINNATI, O., 4.—The excitement of the Woman's Whisky War is unabated throughout the State. In the most prominent of the interior towns prayer meetings are organized in bar rooms or on the sidewalks, and patrols are kept on through all kinds of weather. The ladies of Cincinnati, Highland County, have inaugurated evening visits to the saloons at any hours from 6 to 10 o'clock, and the result is to empty every saloon by a rear door very suddenly as they enter by the front. At New Holland, Pickaway Co., twenty-five ladies have volunteered for the crusade, they visit every shop daily. At Washington, Fayette Co., where the women initiated the movement, the liquor traffic has been entirely stopped. Charley Eckert, whose saloon is outside the corporate limits, has been visited by ladies every day for nearly two weeks; he has refused to let the ladies enter, but he has refused to accede to their propositions. The entire county is being secured for signposts in the county, and the ladies' brigade of active workers numbers 91; they work in three divisions, but have made but little headway with the saloon keepers, some of whom order them off their premises, and when they enter put out the lights. In most counties their success is marked.

The Greenwich Election—Gladstone and a Conservative Returned—Cheltenham Returns a Conservative—Rioting and Fighting.

LONDON.—Gladstone has been re-elected in Greenwich. Mr. Board, a Conservative, has been elected in place of Sir David Solomon, the late Liberal member. The result for the two seats is as follows: Gladstone, 5,969, Board, 6,193. Gladstone's vote in 1868 was 6,990. A Conservative has been elected from Cheltenham, which is an entire gain for the opposition. Edward Cardwell, Secretary of State, and Vernon Harcourt, Solicitor General, are re-elected in the city of Oxford.

A mob broke up a Liberal meeting at Wolverhampton last night and destroyed the platform. There was some serious rioting at the polls at Dudley yesterday, the authorities telegraphed to Sheffield for assistance. Much fighting is reported at Nottingham.

News From the Gold Coast—Relations of Germany and France to this coast on a visit to the coast. Advice from the Gold Coast report that the Ashantees have released the German missionary and sent him to Sir Garnet Wolseley with proposals of peace. Twelve hundred British troops have advanced, it is supposed, to within a day's march of Coomassie. The British navy has deserted the British army.

A special from Berlin says alarming reports are current concerning the relations between Germany and France.

EASTERN.

Murder—Meyer, the alleged Tompkins Square rioter, was placed on trial yesterday, on a charge of assaulting Sergeant Beighold. The defendant's story was that the sergeant collared him while he was trying to get out of the way, and a policeman shouted, "Kill him." This, the prisoner understood to be an adjunction to his assailant, and he seized a hammer and struck him in self-defense. Afterwards, as before, he was unmercifully clubbed. In regard to the manner in which he had been out of work at his trade for a long time, and had solicited odd jobs of work from house to house, the witness testified that he had his own hammer with him. The pink colored string shown with it had no significance, it had been used merely to secure the hammer in his pocket. He denied emphatically that he carried it as a weapon.

Representatives of the principal European steamship lines expressed themselves in strong terms against increasing the commutation rate for emigrants from one dollar and a half to two dollars, and held that it is not fair for the State to be accumulating property at the expense of immigrants. Any increase in the commutation rate, better facilities in other ports for loading or discharging vessels, the agents may, may send the vessels to those ports.
