

LOCAL AND OTHER MATTERS.

**High Council.**—The High Council will meet in the Council House at 7:30 this evening.

**At Black Rock.**—The 17th Ward Sabbath School has been spending the day at Black Rock.

**Night Riders.**—A jolly party of young folks enjoyed the lovely evening yesterday in a horseback ride in the suburbs.

**Threshing.**—Threshing has commenced on the southeast bench. The grain is mostly barley, which will yield 20 to 30 bushels to the acre.

**Water Wanted.**—Water is becoming very scarce and many farms and gardens are suffering from drought. The "abundant supply" promised for the season is not forthcoming.

**New Hotel.**—Ogden is to have an up-town hotel. Two gentlemen of capital, says the *Journal*, have decided to erect a fine four-story hotel on the vacant lot on the corner of Main and Fourth Streets.

**Our Correspondent O. J.** writes from Panguitch, Idaho, that a party of E. Parsons, of Richfield, Salt Lake, by sending him his name and O. J. address, which are as follows:

**Sportsmen's Prey.**—Mourning doves are now said to be fat and plump, and the sportsman's gun is heard morning and evening in all directions. The fields are full of the plump birds, which are killed in large numbers.

**A Success.**—A report reaches us that a gentleman of this city who is interested in artesian well boring, has succeeded in striking an underground current on his farm in this county, of such force as to cause the water to rush out on the surface of the ground. We await with anxiety further details.

**Making Night Hideous.**—A drunken woman on the State Road, late last night, made things more lively than enjoyable for the inhabitants of that vicinity. She was being taken home by a man, supposed to be her husband, and kept falling down by the way, using profane and disgusting language, and screaming at the top of her voice. Such circumstances are anything but pleasant or creditable.

**Eleventh Ward School.**—On Monday, the 20th inst., the Eleventh Ward School will be re-opened. The trustees—Messrs. H. Coulam, W. B. Child and Frank Armstrong, have re-engaged Mr. A. S. Kendall as principal, and he has secured the services of a competent assistant—Mrs. F. B. Bliss. Full particulars of tuition and terms are given in the trustees' circular. Mr. Kendall has given great satisfaction in his former services at this school.

**Police Court.**—A green grocer was fined \$5 this morning for obstructing the sidewalk with his truck.

A case of assault, by one woman upon another, in the 19th Ward, was up for examination and continued for 10 days. It is stated that the woman accused came out of her home holding a pistol in her hand, and frightened the other by flourishing it at her. The pistol was afterwards discovered to be empty. The prosecution was given in the assaulted woman's picking currants from a bush hanging over into her lot, from the yard of the other.

**Of To-morrow.**—Mr. Richard W. Young, Utah's cadet at the U. S. Military Academy, at West Point, who has been home on a furlough of several weeks, returns east to-morrow morning, to resume his studies at the Academy. He has much enjoyed his visit home to his relatives and friends, all of whom have highly appreciated his society, and extend their warmest wishes for his future welfare and success. The young gentleman will remain east for two years longer, there being but one furlough given in the four years, and then probably enter the service of the government.

**"Woman's Exponent."**—The Exponent for August 15th is out, its last issue being due to the absence of the editor in Southern Utah, a trip from which the lady has but recently returned. The contents of the present number are as follows: "An Address," delivered on the 10th, at St. George, by Mrs. A. M. Romney; "Life Incidents," Helen M. Whitney; "Notes on English Literature," W. C. "Visit to Sanpete," by the Way, "editorial," "Public Dinner at Ephraim," "Aunt Ann," "Whose Fault Was It," "Crosby," "Woman's Position," M. J. Crosby. Besides these are Correspondence, Home Affairs, Reports, and other news and items. The poetical department contains lines "Addressed to G. K.," by Hannah T. King, and "A Good Wife," by Sister Plunkett.

**The City Vault.**—The new fire and burglar proof vault, now being erected at the City Hall for the safe keeping of the City records, books, and other valuable documents, is progressing finely. Messrs. Watson Brothers have the work in hand. The vault will be built of brick, with stone floors and iron doors, and is to be two stories high. The work begins in the basement, where the walls, which are 2 feet 1-inch in thickness, are now about half way up to the ceiling. The outside dimensions of the structure are 8 feet and 11 inches by 14 feet and 6 inches. When the walls reach the ceiling of the basement, stone flags will be substituted for the flooring now there, and a superstructure of brick, similar to the other, be erected in the room above—the central one of the east wing of the Hall. The cost of the vault will be \$600 to \$1,000.

**"Leader" Lines.**—From the *Leader* of to-day:

On Saturday last, a little son of Chas. Frank, Esq., fell from a barn and broke both bones of the forearm about midway between the wrist and elbow.

About four weeks ago, a man named Larson, of Mendon, while chopping wood, was struck in the eye by a flying chip, bursting the sight. He came to this city and was under treatment for two weeks. The injury was so extensive that the other eye partook of it through sympathy, and he was likely to lose it also. Consequently the injured eye had to be removed, and this was done on Wednesday last by Dr. Benedict and Ormsby. The patient is doing well, and the pain from which he was suffering severely is relieved.

The U. & N. has placed on its road two Pullman sleeping cars. These cars contain 20 berths, each berth affording luxurious accommodation for one person. The sleepers were now running from Ogden to Blackfoot, far enough to accommodate passengers for the night. We understand that more sleeping cars are to be added immediately. A new day coach has also been lately put on the road. All these cars are models of comfort, luxury, elegance and completeness of finish.

A man named Peck, from Garden City, near Lake, came to Logan Thursday, suffering from a badly swollen hand. It is supposed that the hand was bitten by a spider or some other poisonous insect. Saturday the 7th inst. was when he first noticed it. It is being treated, but it is doubtful whether it can be saved or not.

A Mr. Scott of Salt Lake while in the Snake river country looking for a ranch was thrown from his horse, breaking both bones of the lower right leg about four inches above the ankle, one of the bones protruding through the skin. The accident occurred at a point 50 miles from the railroad. Mr. Scott rode the first ten miles on horseback and the rest of the way by team to the railroad, and arrived here Tuesday night. The accident occurred 38 hours previously. From lack of treatment the limb was in a bad state, but is now doing well under Dr. Ormsby's care.

**Hatching Expectations.**—Our worthy exchange the *Enquirer*, in a glowing article on Provo, its present prosperity and future prospects, says that a steamer is shortly to be launched on Utah Lake, which will probably be the precursor to street cars, gas, water works, etc., for that city. Summing up other advantages, the paper says: "In a few years, we doubt not we will not be so very far behind our sister county, Salt Lake, for we have all the chances she has, and perhaps more."

No doubt, friend, if you count all you have, and add to it all you expect to get. This counting of chickens reminds one of the anecdote of the boy who was caught by his father playing on the hay in the barn, after being forbidden to do so. "What are you at?" was the irate query. "Catching rats," answered the boy. "Well, how many have you caught?" "Well, dad, when I catch the one I'm after, and three others, I shall have caught four."

However, we rejoice in the fair outlook for sister Provo. She cannot possibly improve fast enough to excite our jealousy. But does she think Salt Lake is going to stand still all the while she is catching up with her?

**Two Heavy Afflictions.**—It has been said that misfortunes never come singly. The saying received a fresh exemplification several days since, at Five Mile Creek, Onida County, Idaho. On the 7th inst., as will be seen elsewhere, the wife of Stephen Callan succumbed to the effect of poisoning, from swallowing concentrated lye seven years ago. Three days afterward, the Logan *Leader* received the following from a correspondent at Five Mile Creek: "Since writing the death notice, and the Brother Callan's death, from home, some sparks from the stove, which was on the outside of the house, set the house on fire. There was quite a strong wind at the time. The fire was not seen by the neighbors until it began to smoke considerably, and before any one could get there, the flames took possession. A sewing machine and a few clothes in some boxes and a set of harness was all that was saved. All the bedding and furniture, with the two rooms, were burnt to the ground. The fire occurred just three days after Bro. Callan's burial. His wife. None of the family were at home at the time, and no other accidents occurred."

Jointly with many sympathizers, the News extends condolence to the bereaved husband and relatives in their dual affliction.

**"Requirer" Notes.**—It is now a settled fact that the broad gauge road, now being constructed from Echo Park City, is to connect at Provo with the Utah Southern.

A compromise has been effected between the U. P. and U. E. Railroads, whereby one road can cross the other wherever necessary, and responsibility will prevail during the progress of the work.

Those citizens of Ephraim, Sanpete County, who have valuable letters to send through the mails, now forward them by private conveyance to the Mantel or Moron post office, where they are registered in preference to sending them through the Ephraim City post office. The postmasters at these places can testify to the truth of this statement. And still the drunken postmaster is retained.

Three letters were received at this office on Sunday last, through the mail, from Ephraim City, with the stamps uncancelled. Was that postmaster drunk again when he put his mail matter in the sacks? On those three letters were four three-cent stamps, a lot of 12 cents to Uncle Sam. If the stamps, as may be, should be used again. It will pay the Government to oust that postmaster, without further delay.

**Not Juveniles.**—The operetta of the "May Queen," performed at Logan recently, it appears was not a juvenile operetta, but was played by adults.

**A Lady Temple Builder.**—The keystone in the arch of the second large window, on the east end of the Logan Temple, was set in its place the other day, by Sister Harriet A. Preston, wife of President W. B. Preston, of Cache Stakes. The lady was assisted by her husband. Brother James Leishman, of Logan, says:

"Carved upon the keystone is a magnificent star, called the Star of the Morning, being in an elevated position, it looks out in bold relief upon the rising sun. About fourteen months ago Preston set the keystone in the arch of the first large window on the same end of the Temple, upon which is carved the significant words, 'Holiness to the Lord,' and judging from the fact that the stone in question remains firmly in place, we conclude it was well done."

The circumstance of a lady performing such a task is noteworthy. It is perhaps the first time such a thing has happened in the history of the Church.

**IT IS TRULY WONDERFUL**

TO SEE what improvements now exist as compared with railway travel only a few years ago. To be convinced of this, one has only to seek for his route East, the popular and well-known CHICAGO & NORTHWESTERN RAILWAY.

You are landed by the Union Pacific R. R. in the Union Depot at Council Bluffs, where stands the C. and N. W. Palace train, composed of Pullman Hotel Cars, Pullman Sleeping Cars, elegant Day Coaches, Smoking Bagnios, Postal Cars, etc., ready to convey the passengers through Iowa and Illinois, and into Chicago. Gliding smoothly along over the superb track of steel rail through thriving cities and villages, comfortably seated in this train, one scarcely discovers the high rate of speed which he is riding. Trains of this road are always on time, conducting states and passengers seeking pleasure, comfort, safety and ease in traveling, will find the "North-Western" in excess of their expectations, and the greatest of all routes to Chicago and the East. Insist upon Ticket Agents selling you Tickets via this road; all Agents sell them. Examine your Tickets and have to buy if they do not read over this Road. If you wish the best Traveling Accommodations, you will buy your Tickets by this Route, AND WILL TAKE NO OTHER.

WHY submit to the discomfort and humiliation entailed by a local disease of the skin, when GLENN'S SULPHUR SOAP will rid you of it with certainty and despatch? It is a remedy which never fails to relieve cutaneous disease, and as a means of banishing defects of the complexion, it is equally reliable. The benefits arising from the use of Sulphur Baths, in cases of skin disease, and of rheumatism and gout, are well known, but the cost is too heavy to be incurred by many persons who would otherwise take advantage of them. GLENN'S SULPHUR SOAP answers the same purpose, and is both inexpensive and convenient. No one need stir abroad in search of a sulphur bath who has this admirable means of providing one in doors. It is incomparably the best deodorizer and disinfectant of clothing and bed linen in use, and prevents diseases of an obnoxious nature caused by contact. Sores, ulcers, scalds, cuts and sprains are promptly remedied by it; and its cleanly, healing and soothing properties constitute it a far more desirable remedy for scorbatic ailments than the ointments of any description, since such greasy compounds soil the clothing, often aggravate, and very rarely indeed do any permanent good.  
Sold by druggists. Price 25c. per cake, 1 box (three cakes) 75c., sent by mail, prepaid, on receipt of price.

A woman's beauty is never lost So long as her sweet smile remains, So long as gleam her teeth like frost, And her soft lip the ruby stains; And SOZODONT, with magic power, Bestows on her this priceless dowry.

**By Universal Accord,**

ATHER'S CATARRH PILLS are the best and most palatable for family use. They are the product of long, laborious and successful chemical investigation, and their extensive use, by Physicians in their practice, and by all civilized nations, have proved them the best and most effective purgative pill that medical science can devise. Being purely vegetable, no harm can result from their use. In intrinsic value and curative powers no other pills can be compared with them, and every person, knowing their virtues, will employ them. When used, they keep the system in perfect order, and maintain in healthy action the whole machinery of life. Mild, soothing and effective, they are specially adapted to the needs of the digestive system, derangements of which they prevent and cure, if timely taken. They are the best and safest physic to employ for children and weak constitutions, where a mild, but official cathartic is required. d206
