KENDALL'S SPAVIN CURE. The most Successful Remedy ever discovered, as it is certain in its effects and does not blister. READ PROOF BELOW from Rev. P. N. GRANGER Presiding Elder of the St. Albane District.

St. Alban's, Vt., Jan. 20th, 1880. DR. B. J. KENDALL & Co., Gents:—In reply to your letter I will say that my experience with 'Kendall's' Spavin Cure' has been very satisfactory indeed. Three or four years ago I procured a bottle of your agent, and with it, cured a horse of lameness caused by a spavin. Last season my horse became very lame and I turned him out for a few weeks when he became better, but when I put him on the road he grow worse, when I discovered that a ringbone was farning. I pencured a bottle of Kandall's Spavin Cure and with less than a bottle cured him so that he is not same, neither can the bunch be found.

Respectfully yours, P. N. GRANGER. Respectfully yours, P. N. GRANGER.

KENDALL'S SPAVIN CURE is sure in its effects, mild in its action as it does not biliter, yet it is penstrating and powerful is reach every deep seated pain or to mesore any hone growth or other enlargement, such as spavins, splints, ourbs, callous, sprains, swellings any lemeness and all enlargements of the joints or limbs, or rheumatism in man and for any purpose for which a liniment is used for man or beast. It is now known to be the best liniment for man ever used, acting mild and yet certain in its effects.

Send address for Illustrated Circuitz which we think gives positive proof of its virtues. No recently has ever met with such mounts and statems to our inswiedge, for beast as well as make.

882. Egyptian Soldiers.

Col. Dye has much to say concerning the fighting capacity of the first experiment was made upon the body of a man, which is still in the morgue. No perceptible odor arises from experience, gained both in the barrack and in the field, his strict was possess at the present moment a more than ordinary value. His acidities are the lapse of several months. A street lapse of several months. A body so treated can be buried and collers and a good campaigner, though gifted with a wonderful power of physical endurance, and a body of treated can be buried and collers and a good campaigner, the fellah is not at spart of particular fields in a recognizable condition.

It is dollers and a good campaigner, should be fellah is not at spart of particular fields and a good campaigner, became day to the fellah is not at spart of particular of the fellah is not at spart of particular of the fellah is not at spart of particular of the fellah is not at spart of particular of the fellah is not at spart of particular of the fellah is not at spart of particular of the fellah is not at spart of particular of the fellah is not at spart of particular of the fellah is not at spart of particular of the fellah is not at spart of particular of the fellah is not at spart of particular of the fellah is not at spart of particular of the fellah is not at spart of particular of the fellah is not at spart of particular of the fellah is not at spart of particular of the fellah is not at spart of particular of the fellah is not at spart of particular of the fellah is not at spart of particular of the fellah is not at spart of particular of the fellah is not the fellah is not at spart of particular of the fellah is not the fel

intense a hatred that, in order to avoid it, he will often cut off one of his fingers, or put out one of his eyes. When Col. Dye was in Egypt the artilery, as well as the cavalry, consisted exclusively of fellahin. The gunners were taken from a class superior to that which supplied recruits to the other arms of the service. The officers, moreover, were better in

officers, moreover, were better instructed than their brethren of the line, an advantage which they owed to the exertions of the commandant of the artillery school, a highly educated French officer. To the teachings of this Frenchman probably, the tout defense made the other day by the forts at Alexandria is in some measure due. A great draw. trollable spirit to act outlandisly.

This curious spectacle attracted the crowd, who laughed and yelled. Many drivers refused to trust their herses on the spot, Finally a wise man came up and explained the mystery. At this particular spot Edison's electric wires are laid under the street. Through some defect in the wires the electric fluid had got loose, and every time a horse put its iron shoe down the horse received a severe shock, which, though not strong enough to do injury. through a rifle sight further than a few rods. The eyes of the black soldiers are better. Under the same conditions he can mark 30 to 40 per cent. more hits than his Egyptian comrade. This superior shooting may, however, be in part due to the

Silk Culture in Hungary.

Few industries have been more rapidly domesticated in new homes rapidly domesticated in new homes during the last few years than that of silk culture. In Hungary its growth has been particularly noticeable. Thus in 1880, according to an official report, the communes where ellkworm breeding was regularly carried on numbered only 109, and the persons engaged in the production of silk only 1,059; whereas last year the number of communes had risen to 426 and the number of production of silk only 3,000, In 1880 the chase, they make far better fighting material than the f-llahin. With the exception of a few who have risen from the ranks, the higher officers are the descendants of Turkish fathers and Circassian mothers. ducers to nearly 8,000. In 1880 the product was only 20,000 of cocoons, and the following year it was 80,000 pounds. The government has established a model school of instruc-Beys in government service, trained in the military schools established by Ismail. They are inferior, morally and physically, to tion and arraged for the attendance of village schoolmasters, who will thus be able in turn to instruct their own neighborhoods. The gov-ernment has also paid for nearly 30,000 mulberry trees, and it is considering the advantage of setting out others along the public roads and the open spaces owned by municipalities and communes.

> The editor of the Pittaburgh Republican, A Heilman, Esq., person-ally referred in that journal to his own aggravated case of rheematism of two years duration, which was

RACINE, WIS.

Greeting to the People of Utah :

For the last three years our STEEL PLOWS, CHIL-

atrove to hold him back by force, and, having traversed Pakamaran in every direction, quitted it by the other path. The natives had assured him that he would find the valley choked up by skeletons, as even the swiftest birds flying above it would drop down stone-dead, alain by its polsonous exhalations. In vain, however, did he look about for a single bone; nor could he detect the least unpleasant odor. Dr. Kuntze pronounces Pakamaran to be an imposture, the offspring of ignorance and superstition. Unable to disputelhis sentence, we are bound not altogether without regret, to relegate the death-dealing vale to the limbo of exploded myths,—London Telegraph. LED PLOWS, SULKY PLOWS and HARROWS have been thoroughly tested in your country, and we are proud of the flattering commendations of them that have come from you to us. It has always been our aim, and will be in the future, to make nothing but what is FIRST-CLASS, and that we will thoroughly guarantee. We heartily appreciate your trade and solicit its continuance. You will find a full line of our PLOWS with our General Agent, J. W. LOWELL. of Salt Lake City and Ogden, and his numerous local Agents throughout the Territory.

Yours Very Sincerely. J. I. CASE.

BALT LAKE CITY, August 12th, 1882.

Competitors!

J. W. Lowell, Esq., Dear Sir.—The J. I. Case Agita-tor we bought of you last season is the best machine we ever saw or used; it will thresh more grain and thresh it better and cleaner than any other machine we have ever

Dear Sir .- The Agitator Separator and Woodbury Power that we bought of you, we can truly say give entire satisfaction. It beats anything that we ever saw to thresh and clean. We have run seven different kinds of machines, but this is the champion. The cleaning and the sep-arating are perfect. We have not had a man find fault with it yet, and we all its superior qualities or how much we think of it, but can say this, that could we not get another like it, no money would buy it.

Yours truly, GEORGE BROWN, 8. J. CAMPBELL, WM. P. REYNOLDS, ROBERT BODILY.

CEDAR CITY, Sep. 23rd, 1881. John W. Lowell, Dear Sir.—Our machine, Agita-tor, is doing excellent work. Cleans the best and threshes faster than any Thresher we ever saw.

We remain, CORRY & HUNTER. LEHI, Utah County,

February 7th, 1882. To John W. Lowell, Esq., Dear Sir.—As our opinions have Appointments, and he often been asked about the merits of rilory to examine my the Agitator Threshing Machine we purchased from you last fall, we take pleasure in sending you the following as our experience with it. To answer the numerous inquiries, and perhaps others who would like to know, we recommend the following

points of superiority over all other nachines we are acquainted with-1st.—Lightness of draft. Our team of five span of average native horses and mules, being fully equal to the work, and without crowding or hurrying them, they gave us all the speed and power we needed. 2nd.—Thorough threshing and cleaning, and that without extra ef-

fort on our part; such a thing as the sieves being crowded or clogged, or requiring the attendance of one person at the tail end of machine having never occurred or been needed. 3rd.—Lightness of wear. After having thereshed 18000 bushels of grain, lucern seed, etc., the general wear on the machine being scarcely perceptible.

4th.—Lightness of running ex-penses. By comparing notes with our friends of other machines, we find ours have not exceeded half of theirs.

We also consider the capacity for threshing in quantity, superior to other makes of machines. Although the farms here are small, necessitating a great deal of moving, and often to distant points, yet we threshed as high as 800 bushels per

We also consider the Straw Stack er, End Shake, Elevator principle and many other points are all worthy of notice and examination of any and all persons who may con-template purchasing a machine.

A. J. EVANS, M. T. WOODHOUSE, H. M. ROYAL, M. B. BUSHMAN,

JE .

I have helped wear out four ma-chines of other kinds, and I heartily endorse all of the foregoing points. A. D. RHODES, JR.

CEDAR CITY, March 18th, 1882. Mr. J. W. Lowell.

We bought one of the J. I. Case 32 inch Agitator Threshers last year and consider it by far the best Thresher ever brought to this country. It runs very light, saves all the grain and is a very durable machine. We threshed grain at the rate 2½ bushels per minute.

Yours, etc.,

CORRY & HUNTER. I also take the liberty to refer hresher men to the following reli-

able people who have purchased the Agitator Machines: Mesars, Robbins & Simmons Kaysville.
