

GEORGE Q. CANNON,
EDITOR AND PUBLISHER.

Monday May 20, 1870.

THE BOSTON EXCURSION PARTY.

The Boston Board of Trade Excursion party, with their elegant train of cars, arrived at the U. C. R. R. depot in this city at 7 p. m. on Saturday, May 28th. The cars have not been changed since leaving Boston, and they will go through to San Francisco and return. It is the first through train which will have crossed from the Atlantic to the Pacific direct, every car going through with only through passengers. To commemorate the event, before starting a bottle was filled at Boston with sea water out of Massachusetts Bay, in the presence of the party, to be taken to San Francisco, and there to be emptied into the Pacific Ocean. We have been favored with copies of the *Trans-Continental*, a daily paper published on the train. W. R. Steele, Esq., a life-long editor and printer and for many years last past, editor of the *Wilmington (Ill.) Independent*, but more recently the general traveling agent of Messrs. Rounds and Kane, the famous Chicago printers and house for furnishing printing material—is the editor. This paper is the first ever composed, printed and published on a railway train. From its columns we clip the following description of the train:

"The train is made up of eight of the most elegant cars ever drawn over an American railway. They were built by the order of the Messrs. Pullman, to be completed in time for the present excursion, and to be first used in conveying the members of the Board of Trade of the city of Boston, and their families, from their homes on the Atlantic coast to the shores of the Pacific.

The train leads off with a baggage car, the front of which has five large ice closets, and a refrigerator, for the storing of fruits, meat and vegetables. The balance of the car is for baggage, with the exception of a space in one corner, where stands a new quarto medium Gordon Press, upon which this paper is printed.

Next comes a very handsome smoking car, which is divided into four rooms. The first is the printing office, which is supplied with black walnut cabinets filled with the latest styles of type for newspaper and job work. This department, we may say without egotism, has been thoroughly tested, and has already turned out some fine work as can be seen by those of our readers who have a local habitation. Adjoining this is a neatly fitted up lobby and wine room. Next comes a large smoking room, with ure tables, etc. The rear end of the car has a beautifully furnished hair-dressing and shaving saloon.

Following this come two new hotel cars, the "Arlington" and the "Riverside," both of which are completely and elegantly furnished, and are thoroughly adapted to the uses for which they are destined.

Two magnificent saloon cars, the "Palmyra" and "Marquette," come next. The train is complete with the two elegant commissary cars, the "St. Charles" and "St. Cloud," each of which is finished in all its appointments as any of the other carriages noticed.

The entire train is equipped with every desirable accessory which may tend in the least to promote the ease of the passengers—elaborate hangings, costly upholstery, artistic gilding, and beautifully finished wood work marking every portion of their arrangements. Among the new features introduced with these cars are two well-stocked libraries, replete with choice works of fiction, history, poetry, etc., and two of the improved Bardet organs. These instruments are complete in every detail of stops, pedals, double banks of keys, etc.

The cars of this train are lighted during the night in a new and novel manner, there being under each an ingeniously constructed machine which produces from liquid hydro-carbon, a gas equal in brilliancy to that made in the ordinary way. The apparatus is furnished by the U. S. Gas Light Co., whose offices are at 155 West Twenty-ninth street, New York. The generator is so arranged that it provides gas for any required number of burners in the car and no more, and when the burners are all turned off the generator ceases to act until they are re-opened."

The *Trans-Continental* is printed on tinted paper, is a very fine specimen of typography and reflects credit on its editor and compositors. Charles W. Brooks, Esq., Japanese Consul at San Francisco, who is one of the party, renders considerable assistance in the editorial department, and he informed us that each issue of the paper was looked for with greater eagerness by the members of the party than he had supposed to be possible under the circumstances.

Yesterday was a disagreeable day—windy in the morning and rainy in the afternoon,—for the visitors to see the city, yet, whom we heard allude to the subject, expressed their delight at its appearance and surroundings. The weather did not prevent the excursionists from attending meetings in the forenoon and afternoon—that of the afternoon probably being the largest attendance of strangers ever witnessed in this city. After the dismissal of the afternoon meeting, Presidents Young, Smith and Wells, and several of the Apostles were invited to visit the train, and dined with the party, the Executive Committee and the entire company doing all in their power to make the visit an agreeable one. If the dinner had been served up in a first class hotel, it could not have surpassed that provided by the Pullman Hotel train; and the excursionists say the table, since they started, has been supplied in excess of their highest expectations.

The party comprises the following gentlemen and ladies, all of whom are citizens of prominence and high standing:

EXECUTIVE COMMITTEE.
Hon. Alex. H. Rice,
Hon. Geo. F. Bennett,
Hon. J. M. A. Bennett.

John W. Miller,
Edward W. Kinsey,
Frederick Allen,
and wife,
H. S. Barry,
Miss Josie W. Bliss,
Hon. John B. Brown,
and wife,
E. W. Burr,
and son,
John L. Bremer,
Geo. D. Baldwin,

Mrs. C. A. Kinsey.

(SPECIAL TO THE DESERET NEWS.)

By Telegraph.

AFTERNOON DISPATCHES.

CONGRESSIONAL.

HOUSE.

Pensions, etc.

Willard reported several pension bills, including the renewal of the pension of two Tennesseans, suspended during the war. A discussion ensued, developing much opposition, when the bill was withdrawn.

Willard reported a general bill granting pensions eight dollars per month to the surviving soldiers and sailors of the war of 1812, who are in dependent circumstances, and who gave no aid or comfort to the rebels in the late rebellion.

Winans moved to strike out the exception. Holman moved to include the surviving widows and officers and men married before or during the war of 1812, and who are in like circumstances. Winans' amendment was referred, 60 against 111. Holman's amendment was adopted 80 to 34; the bill passed.

A member offered an amendment adopting a tax on all gambling operations of gold and stocks; agreed to. The paragraph relating to lottery managers was amended by increasing the tax to five thousand dollars.

On motion of Sargent, the paragraph relating to distilleries was amended by taxing distillers of spirits from apples, peaches or grapes, producing ten barrels or less within a year, forty dollars for every barrel produced in excess of ten barrels. An additional paragraph was inserted, taxing the proprietors of banking games, such as faro, roulette, rouge-et-noir, vignette, etc., one thousand dollars for every table, where such games are played. The exemptions in favor of savings institutions were limited to those not authorized to receive a higher rate of interest than the rate authorized by the general laws of the State. The paragraph relating to places of public amusement was amended by reducing the tax on the gross receipts of permanently located places to one per cent.

The consideration of the bill to reduce internal taxes was resumed. On motion of Schenck the tax on sales, contracts for the sale of goods and bonds and stock was reduced from two cents for every hundred dollars to one cent, the present rate; a provision was also inserted taxing contracts for the delivery of gold coin at the Custom-house or other institutions, at one-twentieth of one per cent. additional.

MASSACHUSETTS.

Senator's Wife Dies.

BOSTON.—The wife of Senator Wilson died to-day, at Natick, Norfolk.

VERMONT.

The Fenians Get Home.—Left for Home.—Not Dead.—Not Married.

ST. ALBANS.—Everything is quiet this morning. How the remaining Fenians are to be got off is a question which now troubles the citizens of the State. The Government refuses to take the matter out of the hands of the civil authorities, and they do not like to take the responsibility of paying for their transportation, while the railroad managers insist on being paid for returning them home. Thus the matter stands. General Meade is inclined to ensure the people here more than they deserve. He says they have, to a great extent, sympathized with the Fenians. They knew they were making preparations to invade Canada by storing arms and ammunition on the border. This is true, but the Government has been officially apprised of all this long before the Fenians landed here, informed the Washington authorities of what might be expected. District Attorney Fife did the same, yet no word was received in reply to their communications, and it was forty-eight hours after the Fenians had commenced landing at this point, notwithstanding that the Government was promptly posted concerning their move, before anything of an official nature was received from Washington. Generals Meade, McDowell, Ingalls and Van Villet left on the noon train to-day for Malone, to take a look at the situation. General Meade was quite indignant on his arrival, so much so that physicians were called in to prescribe for him. He is much better to-day. Gen. Spear is in town.

Nearly all the Fenians have left for their homes. General Donnelly is not dead. Murphy, the teamster, was not

hanged by the Canadians, as it was reported he would be.

INDIANA.

\$120,000 Lost by Fire.

INDIANAPOLIS.—McCord & Whitney's planing mill was burned to day, loss, \$20,000, insured for \$12,000. A railroad bridge was burned at Richmond last night, loss, \$100,000. It is supposed to be the work of an incendiary.

OHIO.

Suffocated and Burned.

DAYTON, O., 29.—A fire occurred in a tenement house, between one and two o'clock this morning; Mrs. Waterman, and a woman and five children were suffocated, and another child badly burned. The scene was shocking. Gen. Sherman arrives to-morrow to participate in the ceremonies at the dedication of the Soldiers' Asylum.

MISSOURI.

McClellan and Allen going to fight.

ST. LOUIS.—Mike McClellan and Tom Allen signed articles this afternoon for a fight for \$2,500 aside, to take place September 13, within fifty miles of St. Louis.

NEW YORK.

The Move on Canada Abandoned.—Still Some Hope for Ireland; Her Deliverance only Postponed.—Prince Napoleon on Exile.—French Notes to Greece.—What about the "Finnians"—Fenians Fanning, they Won't Fight any More.—Wrestling Match.—End of the "Finnian" War.

NEW YORK.—A Paris dispatch states that Prince Pierre Bonaparte has been ordered, by the Emperor, into two years' exile in America, and that he will leave for New York. He is now under surveillance at Autail.

An Athens dispatch states that the French Minister has forwarded to the Greek government a strong note from his home government, declaring that France proposes a convention of the Great Powers, at which permanent guarantees will be demanded from Greece, for future good behavior of Greek subjects. The note sharply comments on the delays in the pending negotiations on the part of the Greek authorities.

OGDENSBURG.—The U. S. Marshal contemplates stopping 500 Fenians, who, it is reported, will pass over the Rome and Ogdenburg Railroad to-morrow, to the front.

A hundred Fenians attempted to seize a train at Potsdam, but were repulsed by U. S. troops. The Fenians are reported to be an unorganized rabble. Their authorities, however, are still sending men to the front, and the Canadians fear a raid at Prescott, to-night.

MALONE.—Nothing of importance has come to hand, except a report that a Fenian prisoner named Moon, has been shot by the Canadians. Meade and McDonald are here. All is quiet at Trout river. It is believed that the raid is a total failure.

MALONE.—The Fenians in a council of war this afternoon, resolved, that for the present, the movement against Canada, shall be abandoned. The council was composed of commissioned officers, but the leaders of the raid are now here. One hundred and thirty cars loaded of the Fenians' war material were saved. Captain Jas. Murphy, of N. Y., it is reported, was captured and shot at Pigeon Hill. The government has provided transportation for the men and they are hurrying homeward.

The Fenian leaders here are instructed to send no more men to the front, but to forward money for the support of the New Yorkers at Malone, who are nearly famished and dependent on the charity of the citizens. The latter will pay their fare back to Rome. Prominent officers of the brotherhood have agreed to discontinue any further hostile movement on this continent, and the men at Malone say they will never have any more to do with Fenianism. Much anxiety is felt at Montreal as to the disposition of the prisoners. The feeling is intense against them and extra precautions have to be taken to avoid lynch law. A party of drunken Canadians, on Friday, tore down the flag of the American Consul at St. Johns. The outrage is doubly regretted by the citizens.

O'Neill will probably be released on bail on Monday.

BUFFALO.—The wrestling match for the championship of America and \$2,000 was won by Homer Sene.

General Meade and McDowell are here. Meade reports that the Fenian war is ended, and that the leaders are in the hands of the civil authorities. All is quiet along the lines and the railroad companies carry back the thousand or fifteen hundred Fenians now at Malone at its own expense. He says the Fenians are behaving well, and only desire to get home. The Canadians are jubilant at the inglorious termination of the movement.

NEW YORK.—James Gibbons, Chairman of the Fenian Brotherhood, has issued an address stating that the Fenian invasion of Canada was undertaken without authority, and that the failure cannot be recognized as a defeat of the national organization. He deplores the loss of life and war material, and the sacrifice of the result of years of toil and preparation. He says that O'Neill's misconduct has postponed, only a short time, Ireland's deliverance.

ILLINOIS.

Shot—Sudden Death.—Poisoned.—Bancroft shot by the police.

CHICAGO.—The Fenians still continue to hold meetings and to make speeches to raise money. It is rumored that 250 additional men will be sent from here to-morrow.

At Springfield, Ill., yesterday, a party of railroad surveyors were fired upon by one Bancroft while running a line through his premises. To-day Major Souther, the city editor of the *Register*, went to interview him, and as the Major was leaving the premises Bancroft shot him through the arm. At the last account the would-be assassin was not arrested.

J. E. Thomson, President of the First National Bank, at St. Paul, and one of the wealthiest and most prominent citizens, died suddenly, yesterday, of heart disease while on a fishing excursion.

At Christiansburg, Indiana, a few days since, a family of six persons was poisoned by placing poison in a well, it is supposed, by a relative, who was joint

owner of the farm and desired to obtain the whole. But one of the family died. CHICAGO, 29.—At Springfield, Ill., a squad of police went to arrest young Bancroft, who shot and wounded Major Souther, the local editor of the *Register*. They found him shut in the house defying the officers, one of whom shot him through the window with a shot gun, loaded with buckshot, killing him instantly. There is much excitement over the affair, the killing of Bancroft being generally denounced as cold-blooded and inexcusable murder.

NEW HAMPSHIRE.

Home from the War.

CONCORD.—Seven car loads of Fenians passed here yesterday, returning home from the war.

FOREIGN NEWS.

SPAIN.

Still want a King.—Not tidings of the captives.—Slaves to be freed.

The Spanish officials have ordered the closest search for the English prisoners, lately captured by brigands near Gibraltar. The government has promised the English ambassador that Spain will refuse any ransom that may be demanded in favor of Epartero are expected to-morrow. General Prim is present at Caduz.

MADRID.—Last evening a Caucus of the country deputies in the constituent Cortes was held to decide on some action, relative to the selection of a future ruler. After a long debate a proposition to invest Serrano with Royal attributes was lost 22 to 12, and the caucus adjourned. It is reported that general Prim has announced his intention to resign from the Cabinet. Serrano refuses the Regal Rink. It is rumored that there will be a change in the Director generalship of the post office department forthwith; should it prove true, efforts will undoubtedly be made for the establishment of a postal treaty between France and the United States. Such a treaty will be more likely to succeed, and under any new administration of the French post office department is certain. The small pox prevails in St. Pelgie.

MADRID.—There are no tidings of the English captives. The government orders no attack to be made on the brigands, and has taken every precaution to prevent the massacre of the prisoners.

The minister of the colonies read to the Cortes, yesterday, a draft of a law for the gradual extermination of slavery in all the Spanish possessions. It provides that children born of slaves since '68 shall be free, the government paying fifty dollars for each. All born after the promulgation of this law are to be unconditionally free. Slaves who fought in the Spanish service, and all over sixty-five years of age will be immediately set free. The project was received with much favor by the Cortes.

GREAT BRITAIN.

The Queen's Birthday, etc.—The Times on O'Neill's Trial.—The "Cambria" will not Race-Rich Present to the Pope.

LONDON.—The Queen's birthday was celebrated in the usual manner. Flags and festoons were displayed and salutes were fired. During the day there were reviews of troops, and in the evening a display of fireworks. Several grand dinners were given.

The *Flag of Ireland* newspaper exults in irony, at the Fenian victory in Canada.

Instant justice to Ireland, the *Flag* continues, can alone prevent that result, and until that is accomplished, Nemesis dogs the heels of the Dominion.

The *Times* to-day says the result of the trial of O'Neill will be awaited in England with great anxiety, as amicable relations between the United States and England are fully involved in the issue.

Bells' Life confirms the refusal of Ashbury to race the *Cambria*, unless in a match for twenty miles to windward. Venillot, editor of *L'Univers*, the ultra-montaine organ in Paris, has presented the Pope with a hundred thousand francs, mostly raised by subscription among the French poorer clergy. The Pope has accepted it with warm thanks.

CANADA.

Fenians Quiet—Red River Matters—More Arrests.

TORONTO.—All has been quiet during the night. Only ten Fenians are reported in camp at Trout river. Eight more Fenians were killed, and twenty wounded yesterday. All is quiet on the Niagara and Detroit frontiers, but an ample force will be kept up to defend all the borders of the Dominion. Many bands are wandering near the lines, unable to return home. The excitement has almost ceased, and business is rapidly resuming its former condition. What is considered as the last Fenian raid is regarded as a complete failure.

Latest advices from the Red River expedition indicate that everything is going smoothly forward, and that Archibald will soon leave to assume his duties.

Information from Malone tells of the arrival of U. S. Marshal Quinby, and the arrest of several men, supposed to be Fenian officers, including Gen. Gleason and Father Mahoney.

The railroads offer to take the Fenian homes at half fare, but the leaders can't raise the funds, and the townspeople will probably raise the money and ship them off.

Special Notices.

MAGIC MACEDONIAN OIL.
For sale at the 18th Ward Co-operative Store.
At \$4.50 per Dozen. d160-17
