Spasms SPENDS FOR FUN St. Vitus' Dance Over a Million Dollars is Every BETTER TOWN THAN NEW YORK health.

When Her Population is Taken Into Account Utah's Capital Has More Spending Money.

Year Expended on

Amusements.

WHAT SALT LAKE

Salt Lake spent \$1,200 to see the Tom Show, thereby living up to its record as being one of the best theatrical towns in the country. Whether the public got its money's worth is neither here nor there; the fact remains the same that Salt Lake City is reputed to spend over a million dollars for amusements throughout the year.

That portion of New York City known as Manhattan, with a population of perhaps two and a half million, has 62 theaters, or one playhouse to about 62 theaters, or one playhouse to about every 40,320 persons residing there. If Salt Lake's population were computed along the lines indicated and accord-ing to the "rule of three," there would be in this city considerably upwards of half a million people, instead of less than one-fifth of that number, for here there are 14 showhouses. there are 14 showhouses.

SOME FIGURES.

SOME FIGURES. At a conservative estimate, Salt Lake's four regular theaters take in annually \$400,000 at the box office, with the ten small electric theaters, say at \$30 each per diem, making a grand to-tal of over \$500,000. Specifying the former class, the computation is made that each year 150 performances are given at the Salt Lake theater, at an average of \$500, or \$120,000. The Or-pheum runs 50 weeks each season, and the receipts are not less than \$3,000 a week, and a somewhat smaller amount is realized by the Grand in its 400 annual performances. The sum realized b) b Lyric will easily bring the total of the four in the neighborhood of tha \$400,000 mark.

NEW YORK'S SHOWING.

The 62 theaters in Manhattan have The 62 theaters in Manhattan have an average nightly attendance of \$2,000 people. That is nearly as many per-sons as there are in Salt Lake City, men, women and children. The Goth-amites boast that the box offices of their city takes in more than \$15,000,000 annually. New York has a population at least 30 times greater than that of Salt Lake, but the receipts of her thea-ters are by no means 30 times that of this city's. this city's.

this city's. The figures cited by the New York World tend to show that the people of Salt Lake are ahead rather than be-hind as patrons of the stage. The rea-son is not far to seek. Scarcely was this valley settled before the drama was fostered and encouraged by the leading spirits of the community in a manner not usually experienced in newly colonized places. As a result, for many decades the criticism of a th take audience has been dreaded by managers of theatrical companies by managers of theatrical companies more than that of any other city of its size in the land.

SUPPERS AND FLOWERS.

In the matters of theater suppers In the matters of theater suppers, carriages and flowers, Salt Lakers fall away down below the figures shown by the people of Gotham. Theater sup-pers cost New Yorkers as much as do their theater tickets, or \$15,000,000 an-ually, cabbies get one-fourth as much, while florists are credited with receiv-ing from theater patrons as much as ing from theater patrons as much as 14,000,000. It would scarcely do to ap-by the "rule of three" along these lines, for the result would show Salt lines, for the result would show Salt lake's population to be almost nil. Western people do not attend a theater be show off, but to enjoy the perform-ince. A man working for a salary, and not a very large one at that, but who thinks that he must wear a dress wit because he once breathed the at-mosphere of New York, may find him-self sliting in a Salt Lake playhouse along side of a man of wealth, content to appear in a neat business suit.

From 1880 up within two years of his death, Sena-r Shoup was always a moving spirit the Republican national conventions. He served for many years as the Idaho member of the national Republican ommittee.

WHY HE WAS WELCOME. The old men of the senate have gone out of their way to be exceptionally nice and cordial to the "kid" states-man recently sent up from Florida to fill the unexpired term of Senator Mal-lory. Senator Johnston of Alabama, meeting Senator Bryan in the Demo-cratic cloakroom the other day. grasped his hand cordially and remarked how glad he was that he had become a member of the august body and was about to speak further when the young man showed signs of being particularly pleased. The reason I'm so glad, you are with us is that you are about the only man who is newer here than I am, and it is a real satis-faction to meet somebody in this body who is my junker in service and can take his full share of the bossing we get from the old fellows." longer can it be said that this committee has nothing to do and that it ranks only with that on ventilation and acoustics. The Philadelphia member is in his glory. Already he has made a powerful speech along legal lines, and as the debate on a big measure is to last a long while he will have a

to last a long while he will have a chance many times to be heard from. The penal code is to be fixed up, and the bill now before the house covers 189 pages of printed matter. This measure, which so far has provoked lively debate, has been put forward by the managers of legislation as a buffer. It will be kept on the track perhaps indefinitely in order that measures which Speaker Cannon and his lieutenants wish to switch off may not have a chance to be taken up and put through. This is an old trick in legislation, and the rules committee has congratulated liself that just about now there is such a demand for a revision of the criminal laws of the country. A commission worked on this business for 10 years or more, and Congress has the result of its la-bors to guide it in making the proposed the administration people are mighty anxious to have the Philippine tariff bill passed. Representative Sheppard of Texas has had appended to his remarks con-cerning the striking off of certain coins "In God We Trust" a large number of letters on the subject from people in all parts of the United States. From this collection it appears that in 1861, when the late illustrious Salmon P. Chase of Ohio was secretary of the treasury, he was compelled to write as follows to the director of the mint: "No nation can be strong except in "No nation can be strong except in the strength of God or safe except in his defense.
