

men expressed willingness to appear before the coroner's jury.

#### STAGE VENTILATOR

Great stress is laid by the coroner upon developments during the inquest in relation to the stage ventilator and air shafts, the proper working of which, it is held, would have saved hundreds from death. The ventilators and shafts were opened the next morning after the fire by Fireman David Jones, of the George Fuller Construction company, and the two workmen, Maher and Nagel, according to the police, Maher, according to the police, says that he went to the theater the day after the fire and looked to see if the lever had been attached, but could find no trace of it. He saw several temporary scaffolds still nailed to the wall in the way he had fixed them when his part of the work of constructing the theater was finished.

#### THE FATAL FLOODLIGHT

"Exhibit A" at the inquest probably will be the fatal floodlight from which the fire originated. Fire Department Atty. Fulkerson and two city firemen went to the theater building today to recover this flood lamp which was recovered by Edward McMillen when the fire broke out. Atty. Fulkerson decided today to hold no session in the city's fire investigation, but instead he present with a stenographer at the coroner's inquest and there secure testimony pertaining to the city's inquiry. Any witnesses Mr. Fulkerson wishes to question later will be recalled for the separate inquiry by the city fire department.

#### THE FIRST WITNESS

The first witness before the coroner's jury was John G. Galvin, a painting contractor. He testified that on the afternoon of the fire he stepped into the vestibule of the Ironclads to purchase tickets for the following evening. As he turned to the ticket office the center door of the lobby, and the outside entrance doors were blown open as though by a blast of hot air. Looking into the foyer he saw people endeavoring to open the west door, that being the nearest. It was locked on the inside and he could do nothing with it.

#### PANAMA CASE WILL NOT BE REOPENED.

Washington, Jan. 7.—Gen. Rafael Reyes, the Colombian special envoy, has received the answer of the Washington government to his note charging the United States with open violation of the treaty of 1846. The answer which was prepared by Secy. Hay though couched in the most diplomatic terms and expressing the wish of this government to deal justly with Colombia is an emphatic refusal to re-open the Panama question. Prior to the reception of the reply, Gen. Reyes wrote to the state department requesting that the correspondence be transmitted to the senate for its consideration. In answer to this request, the correspondence will not be made public.

#### "Nothing to Arbitrate."

Bloomington, Ill., Jan. 7.—The members of the state board of arbitration, who have been endeavoring to settle the local strike of the railway men, have failed in their efforts, the company stating that there was nothing to arbitrate. There still is slight disorder. A shot was fired through a car window but no one was hurt, and no arrests were made.

#### Increased Coke Production.

Scottsdale, Pa., Jan. 7.—The long expected turn in the tide of coke production seems to have been reached at the local works of the Pennsylvania company. The output of the plant, which has been running at a low level for some time, is now showing a substantial gain in production. The production last week in the plant was 10,000 tons, an increase of 17,000 tons over the week previous while the shipments show a gain of over 20,000 tons.

#### Coliseum Won't be Closed.

Chicago, Jan. 7.—The order by the city building department closing the Coliseum was today rescinded. The building department finding, upon further investigation, that the Coliseum was entirely safe, and was fully complying with all requirements.

#### Large Crops in Philippines.

Manila, Jan. 7.—This is the first year since the insurrection in 1896 that the crops of rice and other cereals in Ilocos, Samar, and the provinces of Luzon, have been large and of good quality. This is attributed to the extermination of the lawless element, and to the fact that the farmers are now protected from the insurgent tax collectors.

#### GERMAN UNIFORMS.

Will be Made to Conform Somewhat to the American Style.

Berlin, Jan. 7.—Since Emperor William saw Gen. Corbin, Young and Wood in their new uniforms at the German army maneuvers in this country have been experimenting with similar shades and have produced a new uniform, which will be substituted for dark blue throughout the army as the uniforms of private and non-commissioned officers. The cloth has been tested for a year under service conditions, for wear and cleanliness. It was found in the present uniforms that the new uniforms are scarcely distinguishable at a distance from dry stubble or grass. It will be three or four years before the present uniforms are entirely replaced, as the government has upwards of three million of uniforms in stock, though the greater part of these have been service.

The German government is the largest ready-made clothing manufacturer in the world, turning out 60,000 to 80,000 uniforms per year, the exact number depending on the weather.

#### D. vanshire - Rosebury Make-up.

London, Jan. 7.—The impending return to the Liberal party of the Duke of Devonshire, who has just resigned the office of lord president of the council is announced by the Pall Mall Gazette, which understands that the duke and Lord Rosebury, have agreed to "bury the political hatchet" and amalgamate their interests.

## C. M. SCHWAB ON WITNESS STAND.

Ex-President of U. S. Steel Co. to Tell of Sale of the Bethlehem Works.

### HAS NO PRESENT OCCUPATION.

Declines to Take to Himself the Honor Of Being a Leading Expert in Steel Industry.

New York, Jan. 7.—Charles M. Schwab, ex-president of the United States Steel corporation, took the stand today in the hearing to make permanent the receivership over the United States Ship-Building company, to tell of his connection with the sale of the Bethlehem Steel company to the ship yards concern.

The attendance at the hearing, which had fallen off during the taking of testimony, was greatly increased today. Interesting testimony being expected from the man who arranged the sale of the Bethlehem plant from J. P. Morgan & Co., to whom he had transferred it as syndicate manager, to the United States Ship-Building company, the arrangement being such, Receiver Smith alleges, that the ship-building company has been unable to control the Bethlehem company or gain possession of its earnings to keep the ship-building company from insolvency.

Counsel Untermyer, for the complainant Bondholders Protective association, immediately began the examination of the witness. Mr. Schwab gave his age as 41 and said he had at present no occupation, having ceased to be president of the United States Steel corporation. He had no connection, executive or advisory, with the Bethlehem Steel company at this time, he said, though he had "an enormous pecuniary interest in that company." He severed his connection with the management of the company on account of his going abroad in 1902. His whole life he said, had been connected with the steel industry.

"You are considered the leading expert in that line, are you not?" was asked.

"I do not take that honor to myself," he answered.

Sydney, N. S. W., Jan. 6.—Forty-three persons have been killed by the explosion of the boilers on the British cruiser Wallaroo. The Wallaroo, which was proceeding to Hobart, signalled Montague island, 230 miles south of Sydney, reporting the disaster. The Wallaroo is returning and is expected here tomorrow. The killed are assumed to include the whole shift of the 23 stokers and a number of deck hands.

### GEN. CANNON HERE.

Returns to Carbon County Tomorrow To Bring Back Troops.

General John Q. Cannon is in town today on business, and returns south to Carbon county tomorrow morning. He hopes to be able to send the battery and part of G company home the last of the week, and as there seems to be springing up an amicable feeling between the fuel company and the remnants of the strikers left in the country Gen. Cannon expects to be able the sooner to strike his tent and return home with the state Guard. The Kipps are constantly under the impression that he is en route for Honolulu in a sail boat, where he avers he has a sweetheart named Lulu. He will be taken to Provo this afternoon by Deputy Sheriff Douth.

### HOUSES FUMIGATED.

During the year 1903 the health department of this city fumigated and disinfected 595 houses, consisting of 2,550 rooms, in which there had been contagious diseases. Of the total number 255 houses, or 1,143 rooms, had been infected with smallpox, 219 houses, or 972 rooms, with diphtheria and 129 houses, or 552 rooms, with scarlet fever.

## RUSSIAN MARINES REACHED SEOUL.

Refused Transportation on Japanese Railway Line. They Marched Overland.

### RUSSIA'S BLACK SEA FLEET.

Negotiations Under Way With Turkey To Allow it to Pass Through The Dardanelles.

Washington, Jan. 7.—United States Minister Allen at Seoul, Korea, has called the state department under today's date that the Russian marines who were landed at Chemulpo and who were refused transportation to Seoul over the Japanese railway, have reached the capital marching overland.

### JAPAN'S ACTION STRANGE.

London, Jan. 7.—No further news from the far east had been received this morning at the Japanese legation. The Japanese minister, Baron Hayashi, says he fails to see how the Japanese railway could refuse to transport Russian troops from Chemulpo to Seoul as reported, nor, if it did, what object would be gained, for the Russians could easily go to Seoul on foot. Consols today touched 96 1/2-16, another low record mark. The Rothschilds say this appears to be entirely due to apprehension of war between Russia and Japan and not to fear that Great Britain will be involved in the fighting.

At their annual meetings all banks are announcing that they have written their holdings of consols to 85.

### RUSSIA'S BLACK SEA FLEET.

Paris, Jan. 7.—A dispatch to the Patrie from Constantinople says that Russia is negotiating with Turkey to permit her Black Sea fleet, said to consist of 76 ships, to pass through the straits of the Dardanelles.

### SEEK SETTLEMENT.

Striking Coal Miners Ask for Compensation for Improvements on Homes.

Vice President G. W. Kramer and General Manager Williams of the Utah Fuel company are meeting today at Castle Gate with S. A. King, of the firm of King, Burton & King, attorneys for the strikers. The object of the audience is for the purpose of arriving at an equitable settlement of the claims of the strikers who have erected homes on company ground, have otherwise improved the property and are to be evicted from the premises. The meeting is for the purpose of preventing anything in our position is nonsense. Of course we will pay the strikers if we owe them, but who says we owe them anything? It is for the courts to decide. Suits for eviction will begin and then will be determined whether they have a right to remain on property which is not their own.

The Utah Fuel company has now 513 men working at Snydsider, 200 at Clear Creek, 225 at Winterquaters and 22 at Castle Gate, a total of 1,065 men. The force at Castle Gate is one half of the regular force, new men are being sent there, and to Winterquaters.

### MERCURY WENT DOWN.

D., where the mercury registered zero. The cold stratum was pretty evenly distributed as in Santa Fe it was 14 above this morning, and 39 at Phoenix. A high barometric pressure is butting in from the north.

### NEW BUILDINGS.

Work Being Pushed on the Telephone And Atlas Blocks.

The carpenters and plasterers are pushing their work in the interior of the Independent Telephone and Atlas blocks, and as the structures are all enclosed, the condition of the weather outside makes no difference with the work inside. At M. H. Walker's new mansion the interior finish is being put in. There has been a delay in this, just as with the University club, on account of the finish from St. Louis having been imperfectly dried, and it was necessary to finish the process here. The last thing to go into the Walker mansion will be the \$10,000 organ. Studies in stained glass for the skylight have been sent on to the architect in this city. The design that will be most likely accepted is a grape arbor study from Tiffany's in New York, a beautiful piece of work.

### GLEASON'S BODY TAKEN HOME.

## ARREST MADE; POLICE SILENT.

Detectives Raleigh and Chase Have A Suspect in Jail—Who The Man Is.

At a late hour this afternoon the police say they have reason to believe that they will yet apprehend the murderer.

"We have nothing more to give out at present," said Chief Lynch. "We have very little to work on and find ourselves confronted with a very difficult task."

One man has been arrested by Detectives Chase and Raleigh, but whether he is a suspect or not the police neither affirm nor deny. The man's name is William Heenan. He is an old offender and has been in jail a number of times for petty crimes. His picture is in the rogues' gallery at police headquarters.

When the detectives were questioned concerning the man this afternoon, they said: "Well, the man who did the shooting was described as being about six foot tall. This man is six foot two inches," and then officers smiled and would say no more. Heenan was locked up on the charge of vagrancy. No weapon was found on him and there is nothing at present to connect him with the crime.

Judging from the temper of the street men there will be something doing if the murderer is caught. Several of the men stated this afternoon that if the fellow was captured it would take a big squad of policemen to protect him from their fury. They freely said they would lynch the murderous thug if he fell into their hands. It was suggested to one of the company officials that it would be a good plan, in the event of the murderer's capture, to keep an eye on the men. To this the official replied: "I think it would be wise to simply close our eyes and go to sleep for awhile."

This afternoon Acting Coroner Clark and a jury viewed the remains of the dead man prior to holding an inquest, which was set for this afternoon at 3 o'clock. The inquiry will then probably go over until tomorrow in order that every person who knows anything about the case may appear as witnesses.

### A NEW NEWSPAPER.

It is Stated That One May be Launched By P. H. Lannan.

Once more there is a story to the effect that P. H. Lannan, former proprietor of the Salt Lake Tribune, is to start a new newspaper in this city. Whether or not the report is correct could not be ascertained this afternoon as it was stated that Mr. Lannan had gone to Chicago on an important business mission. It is further stated that the object of his errand was to see what could be done in the way of getting telegraphic service for his new journalistic venture. It is the understanding that he will return in about ten days and that he will have a big story to tell on his arrival. The course of the Tribune in local politics, and its general policy, are said to have convinced Mr. Lannan that the time is now ripe for action.

The usual reaction after holiday business prevails with retailers. Wholesale also report dullness.
