

MUCH DEPENDS ON GEN. KUROPATKIN.

Question of a Decisive Battle Near Mukden Rests Largely With Him.

JAPS' BIG TURNING MOVEMENT.

At Jenson Authorities Are Collecting Four Thousand Pack Ponies.

St. Petersburg, Sept. 28. 7:42 a. m.—In summing up the situation today the military expert of the Russ says it is evident, from all indications at the front, that the Japanese are engaged in a big turning movement on the eastward. This would give them the advantage, as heretofore, of operating largely in the mountains, to which their artillery is better suited than for movements in the open. But, in the present movement, the units of the Japanese army are necessarily losing touch with one another. Their strategic position is, therefore, less satisfactory than at Liao Yang.

The Russ says it is a question whether a decisive or even serious engagement will occur at Mukden. Such an event will depend entirely upon Gen. Kuropatkin's view as to the exigencies of the situation. "However, one may rest certain," the paper adds, "that the fundamental question of violation of the Chinese treaty will not weigh with the Russian commander. The public must wait patiently a few days in order to ascertain whether there will be a big fight at Mukden, or whether the retreat will be continued to the strong position at the pass."

GATHERING PACK PONIES.

New York, Sept. 28.—During the last 10 days 2,500 troops have arrived at Chemulpo and others are expected, says a Herald dispatch from Seoul, Korea, forwarded last Sunday. The Japanese authorities at Jenson are collecting 4,000 pack ponies for the use of the army to advance northward along the eastern coast toward Vladivostok. The advance already has begun. Sixteen hundred Japanese troops with five machine guns, 500 pack ponies and 400 coolies are reported to have arrived at Hamgyung.

The advance guard was fired upon by Cosauks. Ten men were killed and 17 wounded. The Japanese were completely surprised, and retreated to await the coming of the main body.

The garrison at Jenson is being reinforced from Seoul and Pyongyang. The Russians meanwhile are sending reinforcements south from Kapean to effect a junction with the force at Pukchen.

On account of the great difficulties experienced in obtaining pack ponies the Japanese are shipping large quantities of supplies north from Genzan by cargo boat to Kuhnburg.

QUARREL OVER SCHOOL LAWS

One Mt. Airy, Ia., School Director Kills Another.

Mt. Airy, Ia., Sept. 27.—Samuel Egly is dead and William Kling, his self-confessed slayer, is in jail today as the result of a quarrel over the school laws. Both are directors and had met on school business when the difficulty arose. Egly threatened to strike Kling with an axe, and the latter shot him through the heart. Self defense is the plea.

SUES PARIS SURGEON.

G. H. Crocker Wants Damages for Death of Mrs. Emma Crocker.

New York, Sept. 2.—George H. Crocker, of New York and San Francisco, has instructed his attorneys to institute suit for the recovery of \$20,000, alleged to have been paid a well known Paris surgeon and discovered to be a fraud for the treatment of cancer. The treatment was given to Mrs. Emma Rutherford Crocker last spring in France, but she died a few months later at Newport, R. I., having been brought to America after hope of saving her life was abandoned.

Mr. Crocker asserts that the injections of serum only weakened the patient and finally were discontinued. He

Suffering Will Not Help Your Disease, but Will Weaken Your Nerves.

Folks who think it is better to bear pain than soothe it are wrong. Old-fashioned doctors used to say it was better, because they had nothing with which to ease pain but dangerous, heart-paralyzing drugs.

But now, that a safe remedy has been found, Dr. Miles' Anti-Pain Pills, it is wrong to suffer, for nothing can be gained but weakened nerves.

A safe rule to remember is: When in pain, take an Anti-Pain Pill.

This will soothe your quivering nerves, Dr. Miles' Anti-Pain Pills relieve pain by restoring the natural secretions, in which they differ from opium and similar narcotic drugs, which relieve pain by checking the action of the glands.

They are sure and harmless, and are the latest medical treatment for the cure of Headache, Neuralgia, Backache, Rheumatism, Dizziness, Toothache, Stomachache, Menstrual (Monthly) Pains. Also nerve irritations like Brachialgia, Car-Sickness, Sleeplessness, Indigestion, etc.

Pleasant to take, quick in results. "I have used Dr. Miles' Anti-Pain Pills for sick, nervous headache, and have received best results. I heartily recommend their curative properties, for they are successful."—REV. RAY A. WATSON, D. D., Iowa City, Ia. Sold by druggists, at 25c. Money back if first box does not help. Never sold in bulk.

FREE Write to us for Free Trial Package of Dr. Miles' Anti-Pain Pills, the New Scientific Remedy for Pain. Also Symptom Book, Our Specialist will diagnose your case, tell you what is wrong, and how to right it. Free. DR. J. C. MILES, MEDICAL CO., LABORATORIES, ELKHART, IND.

Pale. Thin

Pale cheeks, white lips, and languid step tell the story of thin blood, impure blood. Doctors call it "anemia." They recommend Ayer's Sarsaparilla. Ask them and they will tell you just why it makes the blood so rich and red.

Anemic people are almost always constipated. Their liver is sluggish. They have frequent attacks of sick-headache, nausea, biliousness. Just one of Ayer's Pills each night will correct these troubles.

had been compelled to pay the full fee in advance, and has instructed his attorneys to turn over any sum they may recover to the Pasteur Institute of Paris for its use.

Trailing Suspected Incendiaries.

Ogden, Ia., Sept. 27.—Bloodhounds placed upon the trail of the suspected incendiaries traced Eton and Earl Hayer to the home of their father, Ora Hayer, a prominent farmer, and the boys are before the grand jury today. Indictments are expected. Their arrest followed a series of barn burnings and dwelling house blazes.

Dressmakers' Goods Seized.

New York, Sept. 28.—Collector of the Port N. N. Stranahan has announced the formal seizure of four cases of dutiable merchandise found among the baggage on a French steamer recently. The articles mostly belonged to dressmakers returning from Paris and aggregate in value about \$12,000. One lot belonging to San Francisco, which had been released in bond of \$1,500, also was ordered seized after the case had been investigated. As the goods had been released, the bond will be seized.

Daniel F. Minahan Dead.

New York, Sept. 28.—Daniel F. Minahan, a well known railroad contractor and builder, is dead at his home in Orange, N. J. He constructed the water works system of Lebanon, Pa., the sewer system at Alliance, Ohio, the city hall and court house at Springfield and also 22 miles of the Springfield and Jackson narrow gauge railroad.

National Casualty Organization.

New York, Sept. 28.—Representatives of twenty casualty, liability and surety companies all over the country have attended a meeting here to discuss the desirability of forming a national organization. Eight companies which were not represented, sent letters announcing that they were in sympathy with the plan to promote harmony, adopt uniform policies, combat fraudulent claims, etc.

A Committee was appointed to work out the details of the organization and also consider the advisability of enlarging the scope of present association of accident underwriters. Another meeting will be held Oct. 12 to hear the committee's report.

DIAMOND THIEVES CONFESS.

Sentenced to Fourteen Years in Iowa Penitentiary.

Des Moines, Ia., Sept. 27.—William Smith and Jennings today confessed to the theft of \$10,000 worth of diamonds from O. Cohn last June, and were sentenced to 14 years each in the state penitentiary. The diamonds were taken from Cohn's safe, which the robbers returned to this city from Chicago several months ago.

Prince Shoots Duke for a Bird.

Dresden, Sept. 27.—While hunting partridge today Duke Henry of Mecklenburg-Schwerin was shot by Prince Othon of Schoenberg-Waldenburg and wounded in both knees and one hand. Luckily, the gun was loaded only with birdshot. Nevertheless, the duke will be confined to a hospital for several days.

Abandon Oil for Steamers.

San Francisco, Sept. 28.—Some time ago the officials of the Pacific Coast company announced their intention to convert their steamers into oil burners and went so far in the matter as to have a plant installed on the steamer Cos Bay which plies between this port and southern California ports. Now they have decided to abandon the scheme, it is said, principally on account of the objections raised by passengers.

To Contest Mrs. Dolbeer's Will.

New York, Sept. 28.—Lawyers from San Francisco are reported to be now in this city preparing for a fight in the courts against the will of the late Miss Bertha M. Dolbeer of California, who leaped from a window on the ninth floor of the Waldorf-Astoria hotel. She left most of her estate, valued at \$2,000,000, to her traveling companion, Miss Etta M. Warren.

A special commission will come here from San Francisco, within the next few days. It is stated to take testimony with a view to proving that Miss Dolbeer was of unsound mind when she made her will. The captain, purser, steward and deckhands of the Deutschland, on which Miss Dolbeer traveled here from Europe, already have been interviewed by a man claiming to represent the heirs.

Thomas A. Wood Dead.

Portland, Ore., Sept. 28.—Thomas A. Wood, grand commander of the Indian War Veteran association of Oregon, died of heart disease at his home in this city yesterday. Mr. Wood was an attorney by profession. He had been grand commander of the Indian War veterans for more than 10 years. It was mainly through his instrumentality and indomitable persistence that the act of Congress securing pensions for the veterans of the Indian wars in this part of the country was passed. He was 67 years of age.

Steel Works to Resume.

Chicago, Sept. 28.—The Inland Steel company at Indiana Harbor has posted a notice on the gate of its works that work will be resumed in the sheet mill next Monday. Former employees, who to the number of 500 went on strike four months ago, are informed that they will be taken back at the scale prevailing before they ceased work. The plant, it is said, will be run as an open shop.

Michigan Postmasters Meet.

Lansing, Mich., Sept. 28.—A number of the fourth class postmasters in the Michigan Postmasters' association, have met here and effected an organization. The association favors the organization of a national league of fourth class postmasters with state and county auxiliary leagues, and the enactment of a law providing for the payment by the government of the items of rent, lights, etc. for civil-class offices. It also is in favor of civil service in fourth class offices.

JAPANESE SICK AND WOUNDED.

Unofficial Estimates Place Number Under Treatment at Forty-Five Thousand.

DEATH RATE EXTREMELY SMALL.

Absence of News From Port Arthur Taken to Indicate a Closer Blockade.

Tokio, Sept. 28.—Unofficial estimates place the number of sick and wounded Japanese soldiers under treatment in Japan at 45,000.

The military hospitals at Tokio, Osaka and Hiroshima contain 10,000 each. Nine thousand have recovered sufficiently to be sent to mountain and health resorts.

The system of handling and treating the sick and wounded is working splendidly and the death rate is exceptionally small.

NO NEWS FROM PORT ARTHUR.

St. Petersburg, Sept. 28.—The war commission adjourned early last evening without hearing further news from the front.

The Mukden telegram to the Berlin Lokal Anzeiger, reporting that the Japanese had crossed the Hun river 30 miles above the city, is believed to refer to scouting parties of Japanese, whose presence there was recorded in the Associated Press dispatches of Sept. 28.

The movement of Japanese forces on the Liao river, which was reported in a dispatch from Gen. Sakamoto to the general staff on Sept. 25, is all the more significant since it is the starting point of roads leading to Tie pass, Mukden and Siumintin. The announcement that the Russians are fortifying Pakoman, 25 miles northeast of Mukden, shows that Gen. Kuropatkin is preparing to check the banking movement on Tie pass from the west in case Siumintin should have to be evacuated.

The entire absence of news from Port Arthur, it is feared, indicates a closer blockade there. Heavier dispatches from Gen. Stoessel have been coming through semi-weekly.

The admiralty has not received any details of the fight off Aniva, at the southeastern extremity of Sakhalin. The Vladivostok squadron, it is understood, is still in the harbor. The commanding at Aniva was probably a Japanese attack on blockade-runners.

A telegram received here from Baku, reporting that reservists are being transported along the Caucasian coast, brings the first intimation that troops there are being mobilized. There are only two army corps in the Caucasus, and one of these has apparently been ordered to the far east.

Balliet Files His Answer.

San Francisco, Sept. 28.—Lester Balliet, who is being sued by the White Swan Mines company for the return of 275,000 shares of stock valued at \$1 per share, filed an answer to the complaint yesterday. In it he claims that he was given the stock by the directors of the company in compensation for his services as mining engineer, and that it was actually understood that the stock was to be non-assessable.

Suicide.

S. A. Read, Cisco, Texas, writes, March 11th, 1901: "My wrist was sprained so badly by a fall that it was useless; and after using several remedies that failed to give relief, used Ballard's Snow Liniment and was cured. I earnestly recommend it to any one suffering from sprains." 25c, 50c, \$1.00. Sold by Z. C. M. I. Drug Dept.

Another sufferer testifies to his cure of skin disease by D. D. D. Prescription.

Payson, Utah, June 1, 1904. D. D. D. Co., Chicago, Ill., Gentlemen:

I wish to express my gratitude for your D. D. D. remedy. I was much troubled with a very bad case of eczema, and tried everything that could be suggested for the cure of this terrible disease. Nothing helped me. I was almost in despair of ever finding relief. I saw your advertisement in the Relief-gram, and sent for a bottle, and I am glad to say it helped me immediately. I have used two more bottles, and I feel I am almost cured. I hope others who are suffering will read my letter and find the relief that I have received.

Yours truly, L. N. FISHER.

If you are suffering the tortures of the damned don't hesitate, but go TODAY NOW to your druggist and invest \$1.00. It will not be an expenditure, but an investment in happiness.

Or if you have some minor skin affliction don't delay till it develops into horrible, loathsome skin trouble, but act now. Buy D. D. D. Life and its weight in gold as a preventative of serious skin disease.

So many astonishingly effective and permanent cures have been made by this wonderful Skin Disease Remedy (The D. D. D. Prescription) that we are absolutely convinced it will conquer any and all diseases of the Skin and Scalp.

WE BACK THIS ASSERTION WITH OUR GUARANTEE.

Those who are interested in this subject are invited to call at our store and see actual photographs of many people cured of these seemingly incurable skin diseases.

For sale by all druggists.

D. D. D. costs but \$1.00 a bottle, and is guaranteed to cure or money refunded.

shoveled out of a bin is a child without parents: no name, no fame. Schilling's Best is in packages.

ORIGIN OF SEEDLESS GRAPE.

Tree and Vine, replying to an inquiry of a correspondent concerning the origin of the Thompson Seedless grape, says:

There is some doubt as to the origin of this grape, but it is probably the genuine seedless Sultan, and was imported by J. P. Onstott of Yuba City, Messera, Onstott and Thompson were neighbors and exchanged grape cuttings in early days. Mr. Onstott imported a lot of vines from Smyrna and Mr. Thompson imported some choice varieties from the east. These he planted indiscriminately with some of the imported cuttings he had secured from Mr. Onstott. Among the first of his vines to bear was the one we know as Thompson's seedless, and as its origin and species were not positively known at the time, it became known by its present title. There is little doubt, however, as to its being the Sultan, and every probably one of Mr. Onstott's importations, as some of his imported vines afterward produced identical fruit. In pruning this grape the canes should be left long, as the vines will not stand severe cutting back, and the best fruit is given by leaving the canes long.

VALUABLE EXPERIMENTS.

Down near the south line of Brigham City on land owned by Hans Olsen, the Utah Experiment station has established a branch farm for conducting experiments in raising tomatoes, canteloupes and watermelons. There are only two and one-half acres in the patch but this is all platted off so that an accurate record can be kept of each variety and at the end of the season the relative value of each can be determined.

Prof. W. H. Hutt of the Experiment station at Logan is supervising the work with Hans Olsen of this city in immediate charge. Mr. Olsen devotes nearly all his time to irrigating, cultivating and caring for the plants and they are making a thrifty growth. The tomatoes especially, are doing well and will make a fine showing when they begin to ripen.

The seeds have been gathered from all parts of the world and the experiment will be watched with great interest.

Of the tomatoes there are 73 varieties of ten plants each; canteloupes, 250 varieties of five plants each, and of watermelons, 33 varieties of six plants each.—Boxelder News.

SUCCESS ON SUCCESS

Portfolios Twenty and Twenty-One of Our Exposition Views Going With a Rush

FASTER THAN AT FIRST.

Readers Are Wisely and Quickly Securing the Parts as Issued.

That our readers know and appreciate a good thing is clearly shown by the wide and general demand for our superb "Forest City" series of World's Fair views.

Of course the earlier views pertained somewhat to the dedication period and to the time before the opening, and on this account, they lacked some of the life and motion which later numbers show.

These issues are exceptionally interesting and valuable, showing what the Fair looks like at the zenith of its success; and they are perfect specimens of the art of the photographer, engraver and printer.

Readers understand this and thus eagerly secure the portfolios, so that they will eventually be able to know about the whole undertaking, from start to finish.

They are much aided in this by the vivid descriptions, which have been prepared by Walter S. Stevens, secretary of the Exposition.

No one else has been in such close touch with all of the departments, and no one else has had such ready access to the facts, figures and incidents connected with the inception and working out of the gigantic project.

A time to cover cost of wrapping, handling, mailing, etc., is all that is required, and we are confident that all of our readers will say that they never before received so great a value at so trifling an expenditure.

Beautiful Women.

Plump cheeks, flushed with the soft glow of health and a pure complexion, make all women beautiful. Take a small dose of Herbine after each meal; it will prevent constipation and help digest what you have eaten. 50c. Mrs. Wm. M. Stroud, Midlothian, Texas, writes, May 31, 1901: "We have used Herbine in our family for eight years, and found it the best medicine we ever used for constipation, bilious fever and indigestion."

A SORROWFUL MEETING AT MUKDEN.

It happened that the train bearing a large body of wounded Russian soldiers from the battle of the Yalu steamed into the station at Mukden just as several regiments of the reserve were about to take the train for the front. These new recruits were detailed to refill the places of the victims who had just been brought back to the base of supplies in varying degrees of physical shipwreck. For the outgoing men, who were already under the depressing influence of their call to face immediate danger, this spectacle, so suggestive of what might be in store for them, was certainly not conducive to peace of mind.

ESTABLISHED 1864. F. Auerbach & Bro. ONE PRICE TO ALL. NEVER UNDERSOLD.

THE FOURTH DAY OF The Great Curtain Sale

OFFERS UNDIMISHED ATTRACTIONS TO JUDICIOUS BUYERS.

Among the thousands of pleased customers who daily thronged our Center Aisle and Curtain Section the first part of the week, the prevailing feeling was one of wonder at the expanded purchasing power which their money had suddenly acquired.

"How is it possible?" was the question on everyone's lips.

The complete answer is too lengthy to give here, but the gist of it is this: Prices in this Curtain Sale are not proportioned to values. In repricing these Curtains for this sale, the point which received the most consideration was this: What price will create the heaviest demand for these Curtains.

Everyone will find it profitable to lay in a supply of Curtains this week.

Among the old chemists gold, was symbolically represented by the sign Webster's Dictionary.

It looks like a bulls-eye.

Whoda thought these old chemists knew so much. Hundreds of years ago they adopted this symbolical sign, and yet they knew nothing of Utah politics, tariff reform, nor trust mergers. We all know that the one who hits the most bullseyes in the financial, political and social world generally has the most gold, but we don't know much about chemistry.

It's peculiar our diverted and dissimilar intellects should so thoroughly coincide as to the appropriateness of the sign.

Evolve the thought and think—are we evolving into natural born chemists, or are we going to stop at the bulls-eyes?

We collected one hundred and twenty-five dollars for Mr. William Kirkup of Franklin, Idaho, last week. So far as we know, he is not a chemist, but he hit the bulls-eye, and is one hundred and a quarter ahead. It was an old note. It was torn and ragged; had to be pinned together. Its fragments had long lost whatever glitter they ever had, but the gold we traded the note for was as bright as a midday sunbeam. Do you need any of this kind of gold? If so, send us your old, mildewed and mossbacked claims and notes. We will make some bulls-eyes by collecting them, and you will get some gold.
