FLOATING FRAGMENTS.

The heat continues very oppressive. Wet nurse wanted. See advertisement.

Carpeters wanted. See advertisement.

Regular meeting of the City Council to-night.

Mr. H. S. Wells is expected home from Arizona shortly.

Mr. M. C. Cullough, Esq., editor of the *San Francisco Globe-Democrat* is in town.

The Mendocino Quartette Club, from Mendocino, give their first concert at the Opera House to-night.

There are messages at the Western Union Telegraph office for Alfred Thompson and C. L. D. Crockett.

Mr. and Mrs. A. J. Bruno will present the "Midnight Pleasure" at the Salt Lake Theatre to-night.

The band of Prof. Messer about to perform at the National series of residents at the Brigham Young Academy.

John W. Young is still in Arizona, somewhere in the San Francisco Mountains, attending to railroad business.

An ordinance against "outh-breaking" The Miller brothers have given two performances in that town on separate Sunday nights.

J. M. Smith, of Hyrum, while dropping wood at the head of Blacksmith's Fork canyon, accidentally cut his foot to the bone, making a ghastly wound, which was dressed by Dr. Ormsby. — *Utah Journal*.

The *Union Democrat* of Sunday says: The Utah extension of the Denver and Rio Grande has now reached a point thirty-five miles below Gunnison, and will reach the mouth of the Cimarron at the lower end of the Black canyon next Saturday night.

On Sunday morning, while playing in the front of his parents' residence, corner of East and Second streets, Harold, a ten-year-old son of Mr. H. C. Wardleigh, fell forward, striking his arm, near the elbow, upon a rock, breaking it in the elbow joint. — *Ogden Herald*.

Arrival of Oscar Wilde has appeared in London and is drawing crowds to his lecture. He goes in his knickerbockers and stockings, no shirt front, no coat tails and no pockets. If he comes to this country he'll soon feel the need of pockets in which to put the thousands of dollars the ladies there will pay to hear him lecture. — *Norristown Herald*.

Early on Saturday morning, W. F. Weaver, one of the night riders, fell in Green River, met with a severe and painful accident, while coupling cars. It appears from what we can learn that Weaver must have slipped just as the cars came together, as the fleshy part of his head is badly mashed, the flesh being torn from the bones in some places. — *Ex*.

A scandal so horrible that it is almost impossible to believe it, comes from Casper, Wyo. The report is that a thirty-year-old lady, who had every appearance of being cultured and refined, has outraged every sensibility and cruelly mortified those who had the misfortune to be considered her friends by appearing in one of the very dresses she wore last year, and worse than all, the dress had been turned.

LOCAL AND OTHER MATTERS.

From the South.—Yesterday Hon. Brigham Young returned from the South, in which direction he went lately from this city to meet his wife Mrs. Catherine Young, his son H. S. Young, and other members of his family, who were on their way home from Arizona, where they had been residing for some time.

Opera House.—The Mendocino Quartette Club will give their first concert to-night. The company comprises the following noted artists, leaders Schnitzler, violin; Ernst Thiele, violin; Thomas Ryan, clarinet and viola; Frederick Stadel, flute and viola; Frederick Stadel, violin; assisted by the distinguished vocalists Miss Cora R. Miller.

Wherever the club have performed they have received the most flattering notices from the press.

A Fraternal Visit.—Last evening we had the pleasure of a call from J. B. McCullough, Esq., editor of the *San Francisco Globe-Democrat*, one of the leading journals of the country. Mr. McCullough occupies a brief vacation from his labors in a visit to the west, and is making notes by the way, to be written up for the paper whose columns he ably conducts. He is not one of those superficial scribblers who think that they grasp the whole question connected with this community in a brief visit of a few days. He modestly confesses that what he is enabled to learn in a day or two of the philosophy of the subject only serves to manifest to his mind the extent of the field of information and the scope for thought. After remaining a few days Mr. McCullough will proceed to Denver, on his way home.

Water Wanted.—Great complaints come from the "dry bench" in the northern part of the city. The people there have been without water for any purpose, for several weeks except what they have carried from the 20th Ward, in many cases for long distances. The ditch lately constructed from Emigration Creek has so far failed to give relief beyond a very limited distance in the eastern part of the bench, while the western part has been without. It is an exceedingly cruel condition of things, which, in the comparatively plenteous supply of water in other portions of the city, needs not to exist much longer. The water being in the city it is merely a question of conveying it to the bench land.

In view of the intense heat it is really a wonder that the people living on the "bench" are able to live at all without one of the chief essentials of life, except what they are able to convey long distances, and which has to be used when in a state unfit to be imbued by the human system.

The Cost of Special Cars.—The arrival in this city of "special" or Pullman and other private cars, started by people of large means is a very common occurrence. The following information about the cost of luxuries of that kind may be of interest.

The Pullman Company charges \$35 a day for the use of a car, which includes the services of a conductor, a cook and two waiters. Besides the person hiring the car—or in fact any car—must buy eighteen full tickets of the railroad line over which the car passes for hauling it. The car is usually attached to a regular train, and, if a special engine is used, which is rarely the case, the cost is greatly increased. Provisions and liquors are supplied by the Pullman company at cost, or the person to whom the car is let may stock it himself. Sleeping cars are let at the rate of \$95 per car, including a conductor and porter, and a host of other services. The Pullman company also has two hunting and fishing cars. One is named the *Davy Crockett* and the other the *Leak Walker*. The charge for these cars is \$35 a day, which includes cook and waiter for each. These cars are provided with kennels for dogs.

Railroad Rumors.—It is reported that the Denver and Rio Grande Western R. R. Company are quietly preparing to run their line from this city to Ogden, and that men in their employ are already at work in Davis County. It is also stated that it will be a three-rail extension, to enable the broad gauge cars of the Central Pacific to run between the two points.

Of course the report includes the allegation that the C. P. Company are largely interested in the Denver & R. G. W., and another branch of the rumor has it that from Ogden the latter line will ultimately strike for Corinne, there to join with the proposed Utah and Wyoming R. R. between that point and Granger, and which is expected to connect with the Chicago, Burlington and Quincy line.

Death of Edward Martin.—Today at 1.50 p. m., Edward Martin, of the Fourteenth Ward, departed this life. The deceased was an old citizen, having come to this country many years ago from England. He was a member of the Mormon Battalion, and went through the hardships of the famous Mexican campaign. He was 3rd Corporal of Company C of that Regiment, and was Second Sergeant at the muster out. In his young days he was an active and intelligent member of the community, and operated as a missionary several years in Scotland. When he returned he had charge of a company of immigrants who crossed the plains with hand-carts.

Distressing Accident.—The Utah Journal says that on Saturday evening last, John Taylor, a boy 12 years old, son of William Taylor, of Brigham City, was going home on a load of hay, when, like many thoughtless boys, he sat too far forward on the load. One wheel went into a chuck hole, the front pitched down, threw the boy on the horses, from which he dropped under their feet. It is thought one of the horses either kicked or trampled on him, or both, and the wagon passed over him. He was picked up, carried home, and has since vomited much blood. His head was cut in three places, his back skinned, but the chief injury is internal. He is dangerously ill, if not fatally injured.

Theatre.—There was but a small audience last evening, but many of those present appeared to be well entertained. Mr. Gas Bruno and his wife are artists, and appeared to great advantage in every part they essayed. The lady, however, was suffering from a severe cold, which somewhat marred her vocal performance. Mr. Bruno is a splendid variety actor, a good singer, an agile contortionist, a clever mimic and a versatile linguist. When he appeared there was life and fun; of the rest of the entertainment the less said the better. The performance is billed for to night and to-morrow night.

A Complaint.—A party sends us an anonymous communication respecting, a nuisance he claims exists on Fourth East street, between South Temple and First South streets. The object of his abhorrence consists of a number of pigs kept by somebody in that locality, and he wants the health officers to see to the abatement of the nuisance. The correspondent does not comply with our rule requiring communications for the News to have the names of their authors affixed, as an evidence of good faith and to insure their insertion.

Church Authorities.—Yesterday President Joseph F. Smith and President W. Woodruff, Elders E. Snow, F. D. Richards and J. H. Smith, of the Apostles, returned from Cache Valley.

President Taylor, Elder F. M. Lyman and others have gone north to Bear Lake Valley.

To-day Elders E. Snow and J. H. Smith left for Emery County, on a missionary trip through that portion of the Territory.

A Capable Caterer.—Mr. D. J. Griffiths has opened a restaurant at 1227 First South Street, where he is prepared to serve up lunches, dinners and suppers to suit the most fastidious palate. He knows how to cater to the taste of customers, and will doubtless make a success of the enterprise. Read his advertisement.

Storing Them Up.—The business of storing up ice for use during the dog days is a lucrative business. It remains for some speculative Yankee to invent a system to "gather up the sunbeams" and bottle them, to be brought out as a source of comfort in the cold weather of grim winter.

Reward Offered.—Up to the time of our going to press the search for the body of Mr. J. D. Farmer, accidentally drowned in Salt Lake had proved fruitless. Cohn Bros. offer a reward of \$500 for its recovery.

Brigham Young Academy.—It has been concluded to continue for the present the National Series of Readers at our institution, in consequence of which the Note in our Circular referring to the adoption of another series is hereby revoked.

Provo, August 7, 1882.

KARL G. MAESSER.

Small-box on the Oregon Short Line.—The following is an extract from a letter written to Mr. Lambert, Laramie. It is of interest to persons intending to go to Idaho:

AMERICAN FALLS, Idaho, July 29, 1882.

Mr. Lambert:

I arrived all safe and well. The small-box is raging here. I am working on a bridge at \$2.85 a day. Stop all from coming out here that you can. It is not safe for anyone to travel here. They try to keep it quiet and not let it get out, but it is wrong and everybody should know it. This is a tough country. There is a killing affair here every day, but the small-box is the worst of all. — *Laramie Times*.

A Singular Affair.—The following strange story appears in the *Blackfoot (Idaho) Register* of Saturday last:

"On the afternoon of July 26, as Geo. Hestard, who is with J. Vance's bull train, was on his way to overtake the train, with a lost steer he was accosted by a man very evidently crazy, who enquired if he had a revolver or knife to lend him. (The man) ought to die and that he was going to kill himself. He was a large, well built and powerful man and inclined to be ugly to anyone who bothered him. Hestard tried to induce him to come on with him, but he declined, and as the train was deep in the desert and was crossing without water, it was impossible to go back and get him. It seems a queer, romantic, though fearfully real fancy, that a man though crazy should seek to not only lose his life, but his complete identity by the side of a river which would mean a requiem over the grave until its own life should end as completely and suddenly as Lost River. The last seen of him he was at Lone Cabin, on Lost River, 46 miles from Snake River, and ere this has probably gone to join the great army of unknown dead.

Since the above was written we learn from freighters who came in that the body of a man, supposed to be the same person, was found hung to a tree near the old Burnett cabin. He was hanging by about two feet of rope, and his arms were badly lacerated, supposed to have been done in an attempt at rescue after hanging himself.

SPECIAL BUSINESS NOTICES.

ANOTHER.

SALT LAKE CITY, Aug. 5th, 1882.

I hereby certify that I was a sufferer for three years, until I called upon Dr. E. L. Plant, on the 8th inst. I took only three doses of his medicine, which delivered me of a tapeworm forty feet long. I have since been rapidly gaining in strength. I have no hesitation in recommending Dr. Plant to all my friends similarly afflicted to what I say, as I can state from experience that he is very skillful in such cases.

Mrs. WILLIAM H. BIRD, Of West Jordan, Salt Lake County.

REPERATORS.

When a board of eminent physicians and chemists announced the discovery that by combining some well known, valuable remedies, the most wonderful medicine was produced, which would cure such a wide range of diseases that most all other remedies could be dispensed with, many were sceptical, but proof of its merits by actual trial has dispelled all doubt, and to-day the discoverers of that great medicine, Hop Bitters, are honored and blessed by all as benefactors.

FROM "THE TIMES."

Editors Times:—The veterinary department in your valuable paper is always read by me with great interest and I value the information received from it a hundred fold more than the small amount paid for the paper. One year ago you published a letter from Dr. John Bates, relating the wonderful success he had had in curing apoplexy and splints with Kendall's Spavin Cure, and his allusion to using it now in his practice for several human ailments, on account of the success he has always had with it. The above statement gave me great faith in its efficacy, and as I had been afflicted for years with rheumatism and hip-joint lameness so bad that I could hardly walk to town, I procured a bottle of Kendall's Spavin Cure, and I wish to proclaim it to all the world as the most wonderful discovery ever made for the benefit of afflicted men as well as for the poor horse, for which it was first used. As this remedy must be of incalculable value to the world, I write this letter to express my thankfulness to you for ever mentioning it in your columns and to ask another favor in behalf of my fellow men who are afflicted in body, that you continue to make known to the world, the great value of Kendall's Spavin Cure for both man and as well as beast.

Respectfully yours,

ARNOLD PARKER, Rochester, N. Y., Sept. 1st, 1881. — *ad 218*.
