HIGH SCHOOL CONTRACTS LET

Board Arranging With Hon. F. J. Kiesel for Transfer of Site Today.

CRIMES DISCLOSED BY POLICE

In Looking Up Antecedents of Sammy Lewis—Woodmen Give Coal to Poor—Called as Missionary.

Ogden, Dec. 12.—The proposed high school building was the all-absorbing topic at the session of the board of education held last evening, and before adjournment President Gilliam of the board, was instructed to meet with Mr. F. J. Kiesel today, in relation to the deed to the city of the ground for the proposed building.

As the property in question has not been deeded to the city as yet by Mr. Kiesel, who has agreed to give the property to the city, the board of education has been unable to do anything in the matter of ordering work on the building.

Pending the transferring of the property to the city, the bid of the Eccles Lumber company for \$80,000 for the building without the gymnasium and of Halverson Brothers for \$12,425.50 for heating and \$4,825.50 for plumbing were let. The bids were opened a week ago.

The building committee will cost \$104,357 and this amount will be raised as follows: Bond issue, \$72,000; building fund on hand, \$4,200; 1908 building fund, \$16,000; 1909 building fund, \$13,000. The total is \$110,000. The \$5,000 remaining will be used for building improvements. The enrollment for the month shown by the superintendent's report showed the attendance to be 5,076 and the cases of tardiness to be 2,288. These were caused by bad weather.

The board was advised by the county treasurer that the board's apportionment would be as follows: Assessed valuation, \$11,762,228; rate, 8.5 mills; \$99,931.40 taxes due.

LOOKING UP LEWIS' ANTECEDENTS.

Since the investigation was started by the local police in regard to the murder mystery concerning a child which Abbie McDonald told the Chicago police on Tuesday and involved Sammy Lewis, a former boy at the depot hotel, and who was alleged to have been her husband, it is very probable that a number of other crimes will be laid to young Lewis.

The latest developments in the case now are that, since the departure of Lewis from Ogden to the mysterious thefts of suit cases from the depot have ceased and now the officers suspect that young Lewis together with his friend Jacob Savitsky, both of whom seemed to have a great deal of money most of the time, were responsible for the thefts. It was also made known yesterday afternoon that when Lewis worked in the hotels at Reno and Goldfield that there was the same mysterious disappearance of suit cases and baggage which stopped when Lewis left that locality.

It was further learned in railroad circles that Lewis had, some weeks ago sent a letter to the depot hotel seeking to regain his old position, but this was denied him. In his application Lewis stated that his wife had left him and had eloped with another man shortly after reaching Chicago to which point they were directed to go. This being the case it would appear that the story told the Chicago police about the murder of her babe in the Kansas conflict by Lewis and Savitsky was false and that the child died when Lewis and his wife went to Kansas last May.

WOODMEN GIVE COAL TO POOR.

At a recent meeting of the local lodge of the Woodmen of the World a committee consisting of Samuel Kline, Robert E. Fanning and Thomas Melis was appointed to purchase a carload of coal and present it to the city at Christmas time. It is thought that by doing this the poor can derive greater benefit than if they were given a big Xmas dinner.

LONG PURSUIT ANTICIPATED.

For the past few days there have been no developments in the Seymour Clark murder case but the officers are working upon every possible clue. A well-known railroad detective, who is spending much time upon the case stated that to catch the murderer of Clark it will involve a long man-hunt which will take weeks and possibly months but that eventually the murderer would be brought to justice.

There was no improvement in the condition of James Hartwell, the man at the hospital who is in an unconscious condition and who was taken there a week ago yesterday and believed to have had his skull fractured by the murderer of Clark, because Hartwell knew something of the case.
