## GRASSHOPPER ANTIDOTES.

The grasshopper is heard from this year not only in the Rocky Mountain regions, but through the Western and in some of the Southern States, as well as in Spain and other portions of the old world.

According to the St. Paul Pioneer Press, a little red bug is eating the grasshopper eggs thereabout and inspiring the farmers with renewed confidence in the extinction of the pests and in obtaining uninjured crops in succeeding years. Here is a description of the gentleman bug—

"This bug is of a deep red color, about the size of a flea, or rather a louse, resembling the latter somewhat in its shape and movements. Ex-Governor Stephen Miller has forwarded to President Drake, of the State of Iowa, a bottle of the eggs, which he says originally contained a mass of grasshopper eggs, but which has been transformed by these parasites into a quantity of loose soil, mingled with the remains of discolored eggs, shells, with a multitude of the fat little red bugs prancing around on the surface, apparently in pursuit of something more to eat. Now, as to the utility and complete annihilation of these as destroyers of the grasshoppers' eggs there would seem to be no doubt in the minds of those who have given the subject a general examination, as well as of those who have personally inspected their mode of operation and the places where they have already utterly destroyed the eggs laid by the 'hoppers a few weeks ago."

Governor Miller, in a letter from Winona, says—

"Last evening when we reached Worthington from Lake Shetek, there was quite an excitement in Worthington, owing to the fact that the citizens were generally convinced that a red parasite was destroying the grasshopper eggs. I examined the matter carefully myself, and became convinced that the destruction of the eggs in that immediate vicinity were well assured; but I determined not to write and excite any hopes until a further and more complete examination could be had. We therefore furnished our Bohemian friends with a bottle of the eggs, and their pests, and the commission left in high spirits. We postponed further investigation until this morning, when I left and prosecuted the examination with vigor. The farmers in the vicinity knew nothing of these signs of deliverance until the visitors from Worthington reached them, and I feel safe in saying to you that in a circle of ten miles from Worthington there will scarcely be an egg left by to-morrow night. I send you a bottle here, with containing the cones and the parasites. We could scarcely find a cone, or sack, except as they were indicated by the parasite on the surface, and each cone which was not entirely destroyed had from five to fifty of the red laborers at work upon the eggs. We found scores of cells with no eggs left except the shells. As fast as the bug finishes one cone, it starts upon an expedition for new worlds to conquer, and it instinctively finds and conquers the new world. I, of course, informed our station agents and others at Hanesy and Heron Lake of this discovery, and they also promised to make a thorough investigation, as I will do here, and the results will be reported forthwith. If the matter is general, deliverance is high."

I stopped for fifteen minutes one and a half miles west of Wilder, where section foreman Smith took me to that portion of his farm where the bug finishes one cone, but could find none by general digging, but wherever we found, as we frequently did, the red parasite on the surface, we found the work consuming the eggs. I am aware that two years ago this parasite was

found working upon the eggs at Madeira and other places, but here we have the remedy almost as soon as the eggs are laid, while in the former instance the parasite was only discovered in the spring."

In the Council Bluffs Globe is the following concerning another means of preventing the ravages of grasshopper, also of potato bugs—

"Hon. D. C. Lane, of the West India Islands, who is visiting in this city with Rev. P. B. McMenamy, and who will locate next spring in Crawford county on a large tract of land, has kindly given us the following information in relation to grasshoppers and potato bugs. He says that the West Indians were troubled with them for years, but so soon as these remedies were ascertained there was no ravages by either. The western people will hail this information and preventive with delight, and we hope they will at once try the efficacy of these exterminators. The following is the communication—

"To the Editors of the Council Bluffs Globe:

"Gentles—For the last two weeks I have been in this country from the West Indies and I find the grasshoppers making great ravages in vegetation. In order to prevent this, burn one pound of sulphur on charcoal, in the centre of a field, and save what it has taken so much toil to develop.

"To prevent potato bugs from destroying the crop, plant two grains of flax seed in each hill. This will prevent them from injuring the potatoes, as they will not go near the flax."

"DANIEL G. LANE,  
Hamilton, Bermuda, W. I."

## TO-DAY'S DISPATCHES.

EASTERN.  
Weed on Morgan—Yellow Fever—The Forest Fires—Weather, etc.

NEW YORK, 29.—Thurston Weed speaks highly of Governor Morgan, and thinks his nomination insures the success of the republican ticket in New York.

There was one death from yellow fever in Brooklyn yesterday, and some consequent excitement.

The atmosphere for hundreds of miles around is impregnated with smoke from forest fires.

The weather continues dry and warm, and the whole region hereabout is suffering from drouth.

The Science Association sitting at Buffalo unanimously passed a resolution that gold should be the only standard of value.

The Forest Fires.

The forest fires along the Hudson River are so numerous and the smoke so dense that navigation is dangerous.

Barring Burglars.

At six o'clock this morning Wagner's mathematical instrument store and Burck's warehouse were robbed of \$20,000 worth of goods by burglars, who openly loaded an express wagon with the loot.

The building is on Madison Lane, corner of Broadway.

Regatta—The Scull Race.

PHILADELPHIA, 29.—The first heat of the single sculls was won by James McCartney, of the Friendship club; George E. Mann, of the Argonaut; second, George W. Hough, of the Crescent third, and T. Henderson, of the Vesper, last. Time 1:10.

More Moody and Sankey.

CHICAGO, 29.—It is now definitely settled that Moody and Sankey will open a series of revival meetings in this city on Oct. 1st, commencing on that day and evening for a month or two. A large hall is being erected in the central part of the city especially for the purpose.

Nomination.

READING, Pa., 29.—The democratic of Berks County, to day renominated Heister Crysler for Congress.

The Tour of Inspection.

WASHINGTON, 29.—Secretary Cameron and General Sherman will inspect about their western tour of inspection about the State of Iowa. They will visit San Francisco before their return.

The Four and a Half Per Cent. Bonds.

The Secretary of the Treasury has decided that the new four and a half per cent. bonds may be deposited as security for the circulating notes of the national banks, and the same issue made upon them as upon other United States securities, that is, nine per cent. of their par value.

Gloomy Outlook in the Coal Trade.

POTTSVILLE, Pa., 29.—The prices realized by the auction sale of coal in New York were anxiously looked for by all engaged in the coal trade, and much surprise and alarm was shown at the prices were realized. Coal operators say the prices brought will compel them all to suspend operations, unless tolls and labor are reduced to a much lower figure than at present, with prices than are now prevailing. The situation has a gloomy outlook for the fall and winter trade.

WESTERN.  
Destructive Fire.

SAN FRANCISCO, 29.—About 11 o'clock last night a fire broke out in a box factory on Brannan street in the southern part of the city. The neighborhood is closely built up with frame dwellings, stores and manufacturing establishments, and before 2 a. m. the fire almost completely swept the large block bounded by Brannan, Townsend and Third and Fourth streets, the only buildings saved being the fine office of the Central Pacific Railroad, and a few frames of small value, the latter mostly badly damaged. Over two hundred poor families are turned out of doors, and the loss will probably aggregate half a million dollars. Among the buildings destroyed was the German hospital, a large brick edifice, containing at the time about seventy patients. Owing to the rapid spread of the flames, the inmates were, for a while, in a critical condition, but were eventually all removed without accident. The fire at one place crossed to the north side of Brannan street and the Railroad Hotel, a large three-story frame, was completely destroyed. The streets, for blocks in the neighborhood, were littered with household goods and packed with dense crowds, while all the numerous eminences of the city were covered with spectators. At one time there was imminent danger that the fire would cross Third Street and sweep that portion of the city down to the Pacific Mail dock, but the fire brigade made a stand on that street and checked the advance there. Some of the dwellings destroyed were of a superior character. Besides these the principal loss is in the destruction of the hotel, retail stores, and box, sack and blind manufacturers. No loss of life or serious accident reported.

During the conflagration a fireman named Stewart fell from a ladder on Brannan Street, and was

instantly killed, his neck was broken. A number of minor accidents are reported, but few of serious nature.

## FOREIGN.

GREAT BRITAIN.  
Accident to Steamers.

LIVERPOOL, 29.—As the White Star steamer *Germania*, was leaving her dock, to-day, she fouled the Allan Line steamer *Circassian* at anchor. The *Germania* lost her boats and davits from waist to quarter, and sustained extensive damage to her upper works. The *Circassian* lost her bowsprit and figure head.

Stocks.

LONDON, 29.—Consols 99 3/4; Erie 10 1/2; New York Central 95.

The "Tallman" Case.

A private telegram from Lima, Peru, says the supreme court has confirmed the sentences of the superior court, and the prisoners belonging to the British steamer *Tallman* will be at liberty to leave Peru in a few days.

Bullion Withdrawn from Bank—Suicided.

The bullion withdrawn from the Bank of England on balance to-day is \$28,000.

Lord Ribblesdale, stepson to Earl Russell, committed suicide in Switzerland.

The Mediator's Proposals.

A special from Berlin says Austria will be invited to again take the initiative in submitting the mediator's proposals to Turkey and Serbia. The negotiations commenced by the guaranteeing powers are, for the present, restricted to obtaining a suspension of hostilities. Great divergencies of opinion are feared when the details are discussed, and a conference is anticipated. The only means of adjusting them, touching the principal features of policy to be adopted, but details are unsettled. Germany is the most backward of the powers. It is believed that no great difficulty will be experienced in determining the steps to be taken, but several days will probably elapse before the powers submit the proposals to the Porte.

SPAIN.  
Sea and Army for Cuba.

SANTANDER, 29.—It is said that 23,500 men, well armed with the Krupp and Blaceta guns, will embark at Santander and Cadix for Cuba before November first.

FRANCE.  
Victor Hugo Protests.

PARIS, 29.—Hugo publishes a protest against the Turkish barbarities.

TURKEY.  
The Turks Repulsed With Heavy Loss.

BELGRADE, 29.—Official advices state the Turks attacked the Servians' left on Monday, but were repulsed with heavy loss. They left a large quantity of arms and ammunition on the field.

The Sultan is to be Deposed.

CONSTANTINOPLE, 29.—The cabinet council, at which all the grand dignitaries were present, have resolved to depose the present Sultan Murad, and proclaim Abdul Hamid. The change will occur shortly, certainly before the beginning of the next Ruhlail, the great annual feast of the Mohammedans.

## Correspondence.

Y. M. M. I. A.

ST. CHARLES, Aug. 24, 1876.

Editor Deseret News:

On the 30th of July, Brothers M. H. Hardy and B. M. Young were here and held two meetings. At one of them they organized a Young Men's Mutual Improvement Association, and the following brethren were elected and voted for as officers of the Association—President, Mosiah Booth; Counselors, Benoni S. Hunt, Byron H. Aldred; Secretary, Christopher A. Merkle.

Brothers Hardy and Young gave some very good instructions on the youth improving their minds and preparing themselves for future usefulness. The meeting was well attended and all felt a desire to be forward in discharge of their duties and do the best they can.

Very respectfully,  
C. A. MERKLE, Sec'y.

The Science Association sitting at Buffalo unanimously resolve that gold should be the only standard of value. People generally in this country, especially officials and politicians, have long acted upon that idea.

## Special Business Notices.

Bakes Perfect.

THE CHARTER OAK COOK STOVE now in my kitchen has been used ten years. It bakes perfectly with less fuel than any stove that I know of, and perfectly cleans, no dirt or smoke escape into the room, and I cheerfully recommend it to any housekeeper wanting a first rate stove.

Beware of Tooth Poisons.
