# VARIOUS QUACKS.

Who ... Fach with his own Pet Scheme--- Cultivate the Field of Human Nature.

There have always been quacks: - legal quacks, theological quacks, scientific quacks and medical quacks. Some of them are bland, olly fellows who argue and smile the world into believing in their favorite bit or humbug. Others are pompous and pretentious perasites. But they make it pay. Men seem to love to be swindled, stipulating only that it shall be neatly done.

The dear public are equally liberal to the electric and magnetic fraud. This fellow is a genius in his line. He will put a magnetic belt around your waist, a magnetic necklace under your chin, or fit you out with an entire suit of magnetic clothes, warranteed to serve the purpose of ordinary garments, and at the same time to cure all d'seases, from whoop ing-cough to hasty consumption.

Most of these have no more electric or

magnetic power about them than resides in woolen b'ankets or in girdles of sackcloth. Only when applied by an expert is electricity of the slightest use as a medicinal agent, and even then its value is grossly over-stated What is the atrongest possible presumative evidence in favor of that particular remedy? ## Rev. Father Wilds' EXPERIENCE.

The Rev. Z. P. Wilds, well-known city missionary in New York, and brother of the late eminent Judge Wilds, of the Massachusetts Supreme Court, writes as follows:

Massachusetts Supreme Court, writes as follows:

"78 E. 51th St., New York, May 16, 1882.

Messas, J. C. Aven & Co., Gentlemen:
Last winter I was troubled with a most uncomfortable itching humor affecting more especially my limbs, which itched so intolerably at night, and burned so intensely, that I could scarcely bear any clothing over them. I was also a sufferer from a severe catarrh and catarrhal cough; my appetite was poor, and my system a good deal run down. Knowing the value of AYER'S SABSAPARILIA, by observation of many other cases, and from personal use in former years, I began taking it for the above-named disorders. My appetite improved almost from the first dose. After a short time the fever and Itching were allayed, and all signs of irritation of the skin disappeared. My catarrh and cough were also cured by the same means, and my general health greatly improved, until it is now excellent. I feel a hundred percent stronger, and I attribute these results to the use of the Sarsaparilla, which I teconmend with all confidence as the best blood medicine ever devised. I took it in small doses three times a day, and used, in all, less than two bottles. I place these facts at your service, hoping their publication may do good.

Yours respectfully, Z. P. Wilds."

The above instance is but one of the many constantly coming to our notice, which prove the perfect adaptability of AYER'S SARSA-PARILLA to the cure of all disc from impure or impoverished blood, and a weakened vitality.

# Osborne No. 11 Twine Binder

SARDY, Utah, July 31st, 1883.

Messes. D. M. Osborne & Co.,

Gentlemen:--Last year I bought a Marsh-Whitney Low Down Bind-

Gentlemen:—Last year I bought a Marsh-Whitney Low Down Binder and fooled away the entire season trying to harvest my crop. This year the agent gave me their improved Binder, but like the first, it was a failure and I, together with all my neighboring farmers have become disgusted with the kind of work it does.

Kuowing that the Osborne No. 11 Twine Binder was running all around me and doing good work, I went to town yesterday and purchased one. To day it was set in motion and after thoroughly testing it in short and tall grain alike, I feel like recommending the Osborne to the farmers of Utah, as a machine that will give entire satisfaction.
