SENATE AGAINST JUNKET. Believes There Should be No Long

Trip Out of State

There has been no formal word said or step taken in either branch of the Legislature in respect to an excursion or junket out of the state. Some informal talk has been indulged in both in-side and outside of the chamber, by members and non-members. If the attitude of the Senate will determine bether or not the junket aken-it will not be taken, for so far as can be ascertained, the have set their faces like fiint against the proposition. The position of the members who compose the railroad committee of the senate, is that a junket outside of the state is entirely wrong in principle, that the Legislature is a body of serious men, met to gether to frame laws for the state and not to dissipate their time in pleasure excursions; that the Legislature has t proper to accept of such elaborate

The argument of those who favor the junket is, that a visit to another state would enable them to study its industrial, social and educational condition etc. This idea is laughed to scorn by some of the senators. One prominent member of the upper house ventured the assertion today, that there were no a half a dozen members of the Leg islature two years ago, who visited Ida ho, could tell, what State institutions are located at Boise. He affirmed that it was weak and childish on the part of the Legislature, to harbor a desire to go galavanting around the country He thought the next thing they would be agitating would be a trip to the Phil

ay back. This has fairly outlined the position taken by the senate, in relation to the matter, so that it is probably a fore gone conclusion, that the solons will remain home and do their work. COMMITTEE MEETINGS.

Be Strained.

The time and attention of the senate yesterday afternoon were devoted princlipally to the consideration of Sena or Whitemore's bill, prohibiting the paying of mileage to any state official or member of the Legislature who is in possession of a pass. The bill passed after it was amended in such a manner as to make a reconsideration recessary if the bill is to be made ef

When the bill was brought up for final passage, Senator Murdock moved that it be recommitted to the committee on salaries. He said his reason for making the motion was, that a bill had been introduced looking to an increas f the salaries of judges, and as this mileage bill, if passed, would lesser the salaries, he thought the two measnres might conflict. Senator Whit-more successfully opposed the motion Senator Lawrence spoke briefly in behalf of the bill, affirming it as his opinion, that it was unlawful for judges and legislators to accept free transportation from corporations an

Senator Bennion then moved an amendment intended for the benefit of those whose mileage covers only a por-tion of the trip. The amendment carried, but was inserted in such a way as to make the bill read that no official ceive mileage for any distance, or The vote was 9 to 8, those who were

S. Larsen's bill No. 0, relating to the eliminating of duplicate bounties on wild animals. The measure was peremptorily returned to the senate with the laconic explanation that it had been rejected Senator Lawrence, indicating in his manner that he felt the disrespectful attitude of the house, moved that the president appoint a committee from the senate for the purpose of further explaining the purpose of the measure. WILSON AFTER THE RAILROADS

tions in This State.

Asks for the Appointment of a Commissioner at a Salary of \$2,500 Per Year-House Business.

By far the most important bill thus far introduced in the house was that of Representative Wilson of Wasatch county yesterday in which he proposes to regulate the railroads doing business in the state. The scope of the bill is one, containing about 9,000 words. The main features of the bill are said to have been copied from the Iowa and Michigan stautes. It provides for the appointment of a commissioner of railways, who shall look into all complaitns of individuals, corporations or eodies politic, establish maximum rates, prevent discrimination and see that existing laws are enforced.

COMMISSIONERS POWERS,

The commissioner shall be appointed by the governor, with a salary of \$2,500 a year, and he shall have power to appoint a secretary at \$1,000 a year. He shall give a bond for \$10,000, His power is very extensive; he may raise or low-er rates with the consent of the governor and attorney-general; he shall in-spect railroads and has power to condemn bridges and other property and if a railroad refuses to obey his orders it becomes ciminally liable. He may lodge a complaint with the attorneygeneral who must bring an action in the district court and if the court sustains the complaint it may issue an or-der against the company, the disobedience of which is punishable by fine and imprisonment. He may fix rates for freight charges. Penalties for viola-tions, range all the way from \$500 to

VERY COMPREHENSIVE.

The bill covers a large field and has many ramifications. Printed in the "News" in its entirety it would occupy one whole page, therefore a synopsis of it can not even be given in a few lines. It must be read in full to be properly understood. It was referred to the committee on railroads and common carriers and will be printed.

Representative Done introduced a esolution concerning the Evening Telegram, censuring that paper for publishing an editorial critcising the members from Sanpete on their views was read and is as follows: "But so far as the learned members,

who wisely shake their heads and throw up their hands in holy horror when you mention vaccination to them are concerned, they had best be nored. They are not worth the trouble of an argument. They are hopeless Take Mr. Peterson, who con hall from only one county in Utah Sanpete. 'Vaccination almost killed my wife, and I don't favor it.' declares this what Mr. Metcalf, another statesman from Sanpete, says: 'I am opposed to vaccination because the remedy is vorse than the cure.' Are such ridicu lous arguments as these expressed by the gentlemen from Sanpete to dominate the Legislature when a question which vitally affects the public health is at stake? Shall the enlightened county of Sanpete decide what is best for the health of the entire state? Men who argue as do Peterson and Metcalf could change places with jack rabbits that roam the plains of Sanpete and the Legislature would be strengthened by the presence of their substitutes. But the itnelligent men of the assem-bly should give this question of compulsory vaccination thorough consideration. The smalpox germ is already on the rampage, and the results will be serious if the law does not step into the breach and provide a means of checking the spread of the disease. The doctors of Utah, not the members from Saupete, should be consulted with regard to the demand for compulsory vaccination."

DONE'S RESOLUTION. The resolution of Representative Done read as follows: "Whereas, The Salt Lake Telegram in its issue of Jan. 23, published an edi-torial severely criticising members of

this house and particularly the gen-tlemen from Sanpete, casting serious reflections upon their intelligence and fitness for the work of the Legislature Whereas, These statements are made merely because the members appeared to differ in opinions as to public policy
