

committee, held in Chicago last week it was decided that no clubs or associations should be admitted as such, and members of such organizations must look to delegates for tickets.

Lewiston, Me., 25.—Blaine arrived in Lewiston this evening, and received an ovation from the crowds assembled at the railway station.

Little Rock, 25.—The Democratic State Convention met at noon to-day, organized and adjourned until 3 p.m., when 14 ballots were cast for governor without result. The convention again adjourned until 9 to-morrow.

Raleigh, N. C., 25.—The Democratic State Convention nominated General Alfred M. Scales for Governor, and Stedman for Lieut. Governor.

New York, 25.—The members of the Republican National Committee, have nearly all arrived in this city, most of them to stay. It is said to-night that F. B. Jones, of Pittsburg, will preside at the meeting of the committee to-morrow, and that S. B. Elkins, of New Mexico, will be secretary at the permanent headquarters, which the committee have engaged at 242 Fifth Avenue.

Several members of the executive committee of the Democratic National Committee are in town.

Portland, Oregon, 25.—The official count of the State election has just been made. For Congress, B. Herrmann, (republican,) received 25,699 votes; John Myers, (democrat,) 23,652. Herrmann's majority 2,047.

The woman's suffrage amendment received 11,223 votes; against it, 21,876.

WALL STREET, 26.—Anderson, of Stout & Co., says the firm is embarrassed on account of outside matters disconnected with the Stock Exchange and partly on account of the Metropolitan Elevated road, in which they are largely interested. Stout is a director of the Metropolitan.

ST. PETERSBURG, Pa., 26.—The bank of Clarion County failed to open its doors this morning. Inability to realize on securities was the principal cause of failure, though there was some loss in the oil depression. It was considered one of the strongest banking institutions in the State outside of the large cities. No statement has been made, but it is thought to be able to meet liabilities.

NEW LONDON, 26.—The Columbia-Harvard race was postponed to 10.30 this morning, with the understanding that if not rowed then it should take place one hour after the Yale and Harvard race. It was raining hard and the water rough at that hour, and the race could not be rowed.

PITTSBURG, 26.—The oil market is steadier this morning and trading fairly active in small lots and fluctuations are confined to a range of 3 per cent. One failure reported was brought about by Watson's failure yesterday.

FOREIGN.

LONDON, 23.—It is officially announced that on June 16th Granville, Foreign Secretary of State, addressed a note to Waddington, the French Minister, the substance of which is as follows: "England undertakes to withdraw her troops from Egypt at the beginning of 1883, in case the Powers consider such withdrawal possible without endangering public order. The *Caisse de la dette publique*, after 1885, will have a consultative voice in regard to the budget, and will have the right to veto any increase of expenses on the part of the Government. It shall continue to exercise the right of financial inspection after the evacuation of the country by the English, in order to insure a regular collection of the revenue. England also undertakes, during her occupation, to propound schemes to the Porte and the Powers for the naturalization of Egypt, like Belgium, and for the naturalization of the Suez Canal." In reply, Waddington gave assurances of the satisfaction of France with the points suggested by Granville. "France," he said, "accepts Granville's proposal, and testifies to England's moderation and friendly spirit, which it believes will strengthen the bonds that bind the two countries together."

Intense discontent prevails among a group of independent liberals in regard to Gladstone's statement concerning Egyptian affairs.

PARIS, 23.—Twenty deaths from cholera at Toulon were reported yesterday. The city is in a panic. The reports are officially confirmed. The troops and dock laborers are chiefly attacked. It is pronounced Asiatic cholera. Quarantine is established everywhere. The news caused a sensation in Paris.

The ministry of commerce has issued a notice that the cholera at Toulon is spreading and is not Asiatic; that it is due to local infection, and therefore confined to the place of its origin.

PARIS, 23.—There were five deaths from cholera at Toulon to-day.

Dundee, 23.—The whaling vessel *Chieftain* arrived in the Tay from the Greenland fisheries with the crew of but one of her boats. It is believed the crews with the other boats are lost.

Berlin, 23.—A young man was arrested at Ems to-day who had in his possession a revolver and dagger, and who, it is believed, had designs on the life of the Emperor.

Warsaw, 23.—The floods have destroyed the new bridge across the Vistula here, which was erected at a cost of £2,000,000. Crowds were standing on the bridge, watching the torrent, when the bridge began to give way. Twenty persons were drowned.

TOULON, 24.—The first death here from cholera occurred June 23, but was kept secret.

Marsailles, 24.—Travelers assert that 18 deaths by cholera occurred at Toulon yesterday.

Liverpool, 24.—As the steamer *Pavonia*, from Boston, was entering the dock to-day, the cylinder burst and the engineer was killed and many others injured.

LONDON, 24.—The court of appeals rendered a decision to-day in the Park Club Baccarat case. The proprietor and members of the governing committee were fined £500 and the players £100. The court of appeals affirms judgment against the proprietor and committee, but quashed that against the players.

LONDON, 24.—The Philadelphia cricketers won the game with the gentlemen of Leicester, in two innings 152 to 260 by the Philadelphians in one inning.

Madrid, 24.—The Cabinet has ordered the strictest quarantine to be enforced against French shipping. Land communication with Toulon is prohibited.

Rome, 24.—In the Chamber of Deputies the Prime Minister said that as a precaution against cholera the government had forbidden French ships free pratique at Italian ports, and had instructed them to quarantine.

Armagh, 24.—The Orangemen here have resolved that the Orangemen of the whole country shall attend the anniversary meeting at Newry, July 12th.

Paris, 24.—De Lesseps declares the rumors of the failure of the Panama excavation work are false. The latest advice he has from the works are to the effect that there were less obstacles to overcome than expected. The enterprise is making rapid progress, and the canal will be finished at the latest in 1888, when he hopes he and his children will be present. In regard to the Nicaragua canal De Lesseps said he favored the project, which in no wise interfered with the Panama canal, but would be a fresh water feeder to the Panama, with regard to which he had possibly a rivalry to fear.

MARSEILLES, 25.—The chateau formerly belonging to Empress Eugenie, is being prepared for the accommodation of 500 cholera patients.

Alexandria, 25.—The Egyptian authorities quarantine French vessels.

LONDON, 25.—Advice from Eastern Turkey state the Chinese governor of Kashgar has ordered Russian residents to quit certain stations, and has forbidden the Chinese to trade with the Russians.

Belfast, 25.—A committee from the Methodist Conference was admitted to the Presbyterian alliance, to-day, amid great enthusiasm. Dr. Croke read a congratulatory address to the Presbyterian Council, in which he said the conference recognized the firm stand the Presbyterian Church had ever taken against Popery and other errors.

PARIS, 25.—The Franco-American committee will deliver the Bartholdi statue, "Liberty Enlightening the World," to United States Minister Morton, July 8th, in the presence of Prime Minister Ferry and a delegate representing President Grevy. The statue will be shipped to New York late in July.

Toulon, 25.—Ten new cases of cholera were taken to the hospital yesterday. Alarm is abating. The Government physician confirms the sporadic character of the malady.

At a meeting of physicians to-day, in relation to cholera, a majority expressed the opinion that it is Asiatic.

VIENNA, 25.—Austria proposes a quarantine against vessels arriving from Western Mediterranean ports.

There were five deaths from cholera to-day. There have been no further admission of cholera patients into the civil hospital.

Berlin, 25.—In the Reichstag to-day the Windthorst bill abolishing the expulsion and imprisonment of clergy act for exercising their functions without civil authority, passed its third reading by 246 to 34. The bill was read without debate.

VIENNA, 26.—A bomb filled with a powerful explosive was found in the shrubbery near the exhibition rotunda. All the public buildings were carefully searched owing to fears of outrages by anarchists; the main sewers which the anarchists threatened were repeatedly inspected.

PARIS, 26.—Hanoi dispatches state that Chinese regulars with artillery have entrenched themselves at Langoon in violation of the treaty and attacked the French forces on Monday on the march killing and wounding 52. Gen. Megault immediately set out with reinforcements. Gen. Milot telegraphs: The French numbering 700, were on the way to Langoon, though greatly outnumbered we routed the Chinese. The French lost two officers.

TOULON, 26.—Eight deaths were reported from cholera yesterday. The authorities are sparing no effort to minimize the outbreak.

A KIND WORD IN BEHALF OF DEAF MUTES.

SALT LAKE CITY, June 22, 1884.

Editor Deseret News:

If space is permitted me in your paper I would like to devote an article to some few ideas and suggestions in relation to deaf mutes, and to enlighten the public generally in regard to the condition of these unfortunates, their status and standing in the community, that the natural benevolence and commiseration of the people may happily be enlisted in their favor.

Deaf mutes are a

HEAVY RESPONSIBILITY

and charge not only to parents but in a measure to the community in which they may be found, and any means that may be used to benefit or elevate them will be a step gained in fitting them to be useful citizens, and as the mind is brought little by little to comprehend higher things, so will his faculty for being self-supporting be increased in proportion, and as his education advances so will his ideas of self-reliance and independence manifest themselves.

It may be interesting to here give an extract showing the condition of a deaf mute—one who has not had the

BENEFIT OF EDUCATION,

taken from a paper read before the Convention of American Instructors of the deaf and dumb, by Professor M. L. Brock, a teacher of the Illinois Institute, which will give some idea of the difficulties to be surmounted.

"The whole world of sound is a sealed book. The boom of the cannon and the roar of the thunder arouses him only through the sense of feeling. He is dependent on a few crude signs for fewer and cruder ideas. He wanders about a hermit in his own family. Speech, that mysterious power that unites minds and stirs souls, is to him unknown. In imitation of those around him he moves his lips and blows his breath. The inarticulate mutterings thus produced are a fair exponent of his mental status. Like the ape he is skillful in reproducing motions, and people call him bright. Abstract ideas in science and morals reach him, if at all only as perversions. Conceptions of God, eternity and heaven never penetrate the abyssal night that shrouds his soul. He is never intellectually born till, at the age of eight or ten, he is allowed to enter school.

He is a Nihilist and know-nothing combined. His mind is a cross between a blank and a jungle. His animal instincts of selfishness and cruelty are, in many cases, strengthened by the indulgence of misguided parents and relatives. A foreigner in language and a heathen in religion, he presents no foundation, either moral or intellectual, upon which to build an education. His teacher has before him all the difficulties of effecting a lodgment somewhere in the abyss of a bottomless pit."

This in the abstract is a correct conception of the pitiable condition of those who have been born deaf and mute.

Now while the Legislature of this Territory was kind enough to

MAKE PROVISION

for the education of all classes of these unfortunate beings, it would naturally be expected that those parents or guardians whose children were thus afflicted would accept the opportunity thus offered to provide for them moral and intellectual instruction in the common branches of education, that they might be fitted for the duties and responsibilities of life, and that the burden of their support might rest upon themselves.

Not only should their minds be brought to comprehend the usefulness of education but it should be borne in mind that their moral and physical capabilities should also be trained to keep pace with their mental attainments, and when sufficiently advanced to know right from wrong, their religious training should not in the least be neglected. For to give them a conception of God and heaven would partially initiate them into the mysteries of life, and a knowledge of justice, of reward and of punishment, and their definitions, so that in time they would comprehend the why and wherefore of their existence.

THEIR PHYSICAL CONDITION

should be looked after, and ways and means provided for them to learn the different branches of mechanism, art, printing, etc., that they may be able to work out an independence and build themselves up; and if means can be found for this purpose, those contributing thereto will in a few years see the benefits derived therefrom, in making this class a self-supporting citizen.

I am rather sorry, that so far as I have heard,

LITTLE OR NO INTEREST

has been taken thus far in relation to sending to the Deseret University. There have been several published statements concerning the facilities of this institution for their instruction. It is a matter of regret that more interest is not taken in this matter if not by the parents, at least the authorities in places wherever they may be found who should take initiative steps to send all such to this institution.

There is one feature in the case of those who are

ABLE TO TALK

but are deaf, which I will give a passing notice. Naturally a stranger seeing of this class talking on the street or in a crowded thoroughfare, will be attracted by the facial expressions and peculiar signs and contortions made by them. This is their mode of expression and they cannot very well help it. It subjects them to the stare of the passerby and they are very

SENSITIVE TO RIDICULE.

But ridicule in this connection is apt to turn on the other party, as illustrated in an incident that came under my

notice. A gentleman at a dinner who was sitting opposite a deaf person, wished to communicate with him. He did so by the medium of signs and facial expression, while forming words on the mouth. His appearance was so ridiculous that an old lady who observed him, not knowing the situation, turning to her next neighbor, said: "Look at that person. He must be very sick, by his actions, or he has the stomach ache!"

Mothers, fathers and guardians, let not a false love on your part make you choose to cling to your children in ignorance, rather than give them up, even temporarily into the care of the University to be educated; deprive them not of the few pleasures to which they may attain so they will be able to appreciate and enjoy the blessings of life.

Let means be devised in every county of the Territory to send them to this place of instruction, and let the people be awakened to the necessity of doing something to lift them out of ignorance and degradation and they will not regret such action.

Respectfully,
LARON PRATT.

THE GEORGIA CONFERENCE

The Georgia conference convened June 15th, at the residence of Mr. Cruse, Gurunette Co.

Elders present J. A. Mower, Wm. Kirby, traveling Elders of the Georgia Conference, and J. G. Kimball from Chattanooga.

It would have afforded us great pleasure to have had the counsel of Prest. B. H. Roberts, but in consequence of his having to meet with the brethren in South Alabama, Elder Kimball filled the vacancy.

The weather was not favorable for our meeting, for it had been raining without cessation for several days and in consequence of having to meet under the shade of an old oak tree, our forenoon's meeting did not take place.

We visited Mr. Cruse, and meeting a gentleman of the Baptist faith, an argument on religion soon engrossed our attention. Quite a number listened attentively, until we were called to partake of a good dinner provided by our genial friend. After dinner some time was occupied in ventilating different topics, when a meeting was proposed, and by permission of Mr. Cruse we called them to order.

The time was occupied in speaking on

THE HOLY GHOST.

It was taken up in the following manner:

Its appearance under the Gospel dispensation, the promises made by John the Baptist, Jesus and the Apostles. Showed forth its power, its effects, how obtained, conferred, and how its gifts are distributed. Finally, proved that it was only those that were led by this spirit that were truly the sons and daughters of God, and that they, living up to their covenants, enjoyed the supernatural gifts. Knew of the doctrine they espoused, and last, but not least, it was that voice behind them, saying, this is the way; walk ye in it. Positive testimonies were borne of the restoration of the gospel and that the Elders of the Church of Jesus Christ were duly authorized to officiate in the same.

EVENING MEETING.

although not well attended, is worthy of mention. Faith, repentance and the necessity of new revelation were dwelt upon in a systematic, plain and comprehensive manner, and we feel that the responsibility of our message, to this particular people, has been moved from us to them.

In the experience of the Elders traveling in Georgia, opposition has been the predominant characteristic, but in the midst of this many friends have been made, only to be lost, they yielding to the popular opinion that it is not good to be a "Mormon," but on the contrary we think to be a "Mormon" is greater than to be a king.

COUNCIL MEETINGS

were held and we fulfilled scripture where it says, "If two or three are gathered together in my name there am I in their midst." This was literally fulfilled. Doubtless some may think our Conference a small affair, but we are thankful for the privilege of meeting together and hope its effects will reach others who are desirous of seeking after the kingdom of God. The Elders were encouraged and felt to prosecute their labors with renewed diligence.

J. G. KIMBALL.

CONSUMPTION CURED.

An old physician, retired from practice, having had placed in his hands by an East India missionary the formula of a simple vegetable remedy for the speedy and permanent cure of Consumption, Bronchitis, Catarrh, Asthma and all throat and Lung Affections, also a positive and radical cure for Nervous Debility and all Nervous Complaints, after having tested its wonderful curative powers in thousands of cases, has felt it his duty to make it known to his suffering fellow. Actuated by this motive and a desire to relieve human suffering, I will send free of charge, to all who desire it, this receipt, in German, French or English, with full directions for preparing and using. Sent by mail by addressing with stamp, naming this paper, W. A. Noyes, 149 Power's Block, Rochester, N. Y.

CATARRH CREAM BALM
effectually cures
catarrhal virus,
causing itching
secretions, it al-
lays inflammation,
protects the nasal
passages from
