ATTENTION is requested to the advertisement of the Planters' Iron Fence Co., whose business office is at 203 N. Sixth St., St. Louis. This fence is made of wrought iron, spiral, plain, or with barbs inserted. It is manufactured in eight feet lengths, and two lengths are connected with iron rivets, making a strand of sixteen feet. Being made of flat iron twisted it is much more durable than the wire fence, and will not give way if pressed against by animals. It is fastened to the posts with staples, and no more posts are required than for an ordinary lumber fence of the same length. It has been very thoroughly tested in the south-west and Texas, so much so that farmers and stock raisers are abandoning the lumber fence, and using this in its place. Animals once coming in contact with the steel barbs become very shy of it. It is considered to be much more durable than lumber and makes a much better fence, and it is put up in about half the time of lumber fences. It is guaranteed to be stock proof, cannot burn or blow down, contract or rust, and does not sag. Persons desirous of inspecting the same can do so by calling at this office. Read the advertisement, and send for circulars to their business house at St. Louis.

Testimonial to Dr. E. L. Plant.

About six weeks ago I was perfectly cured of a cancer in my tongue. The suffering through which I passed previous to its removal, cannot be described. The cure was effected without any surgical operation, and I gradually experienced great relief from the commencement of Dr. Plant's skillful treatment. The entire cure was performed in six weeks. I am sixty-one years old, and am prepared to answer any or all enquiries in relation to the matter. But the case, to myself, seems so wonderful that I think it my duty to take the present means of communicating the fact for the benefit of others.

MRS. MAY,

14th Ward, Main St.

The No. 6 is a combined machine, with controllable Self Rake, the gearing is enclosed in an iron box, which excludes all dirt and grit.

This machine was awarded the California State Diploma last September, and already taken the laurels from several competitors in Texas this year. We also have
