The old proverb; "To be at peace prepare for war," is the secret of the larger part of life's successes, whether nations or individuals.

The difference between the healthy, happy mother who has healthy children to nurse and nourish, and the weak, nervous mother, with a weakling child, is mostly a difference of preparation. The great preparative for motherhood is Dr. Pierce's Favorite Prescription. It tranquilizes the nerves, encourages the appetite and induces refreshing sleep. t gives the mother strength to give her child. It imparts elasticity and strength to the organs of maternity so that the baby's advent is practically painless.

baby's advent is practically painless.

"I take pleasure is writing you to let you know about your Favorite Prescription," says Mr. E. E. Fricke, of Petersburg, Memard Co., Ill., Box 367, "My wife had been sick nearly all her life, and after trying everything I could think of I made up my mind to try Favorite Prescription." I sent to Chicago and got six bottles, which my wife took, a tablespoonful three times a day, until the baby came. She left better after taking the first bottle, and when haby was born he weighed nine anoful half pounds. To-day he is six months old and weighs twenty-two pounds. He is as good a child as any one could wish. The doctor says he is an healthy as any baby could be, and also weighs twenty-two pounds. He is as good a child as any one could wish. The doctor says he is as healthy as any baby could be, and also the doctor says your 'Pavorite Prescription' was the cause of such a healthy baby. I felt I owed you this much for the good yow did my wife and myself. I hope you will mention this to others who may be in need of such help, and you may refer them to me, as I would be glad to tell of the good of such a valuable ineducine."
