A BIG CONSOLIDATION. The American Smelting Co. Will Purchase Guggenheim Interests. A dispatch from New York states that it has been officially announced that the directors of the American Smelting and Refining company will immediately ask the stockholders of the company to authorize an increase in the capital stock vfrom \$55,000,000 to \$100,-000,000, additional capital to be used in acquiring the properties of the Guggenhelm's Sons company and to increase the cash resources of the company about \$15,000,900. It is learned that but a small amount, if any, of the new stock issue will be offered for sale, Stockholders' meeting will likely take place within a month. The increase will amount to \$45,000,000, and as the worklifted to 101 and the entire market ral-lied. Some railroads rose buoyantly. ing capital will be increased about \$15.-000,000 it is evident that the amount 71% necessary to take over the Guggenheim properties will be about \$30,000,000.

D. C. JACKLING'S SUCCESS. A Saving of 95 Per Cent Has Been

Made at the Republic Mill.

The Republic mill is doing all, and even more, than D. C. Jackling, the ex-pert and superintendent, ever claimed for it, says the Republic correspondent of the Spokane Review. Up to date, 24 tanks have been cleaned up, representing 2,400 tons of ore.

The last three show a remarkable perpercentage of saving was largely due to the fact toat the employee were be-coming more familiar with the operation of the mill. He does not expect that the highest rate of percentage will be kept up constantly, na it was more of an experiment to see what could be done, but he says that from 91 to 93

rapid work done The last six tanks cleaned up showed the following percentages of savings: 91.43, 91.69, 91.90, 94.15, 94.35 and 94.98, This is a remarkable showing, especial ly the last three, as they are not only very high, but are so nearly the same The machinery is all working to the satisfaction of the superintendent. The oullion produced is something over 900 ine. The output of the mill is not made public, and probably will not be until the official report of the officers is sub-lished. It is however, very sublatery to those who are in charge of the affairs of the company. The only drawback to rapid work is the Fall pulverizers. These are to be replaced by Griffina pulverizers, which left Boston 10 days age for Republic. It is expected that it will take about three weeks for them to reach here and be placed in position. After that there will be no difficulty in

CON. MERCUR REPORT.

Will Show Diminished Tonnage and Increased Values During November.

Treasurer George H. Dern of the Con. Mercur company came in from the mine last evening and reports the refinery at work on the output for the manth of November, the report of which will be out in a few days. The management has been delayed in issung the monthly report, which will probably show a sum very close to that of October. The amount of ore milled during November is said to be less than that handled during October, but a slight improvement is recorded in the No special change is reported values. at the mine. The incline from the Sil-ver tunnel on the old Mercur ground now down 124 feet on the footwal of the big vein of base are. The face of the incline looks good notwithstanding the fact that the values are slightly

CASE IS CONCLUDED.

lower.

The Decision Will Probably be Handed Down Early in January.

John M. Zane concluded his argument in the Grand Central-Mammoth case shortly after noon yesterday. The deislon will probably be handed down early in January. Mr. Zane discussed the indications of an outcrop and also levoted considerable time to the considcration of the dip and strike of the vein. He considered the theories of the attorneys on the other side as being wild on these quistions.

May Day Shipments.

The May Day Mining company sold centage of saving, and all are high. Mr. four cars of ore today which netted Jackling stated that the increase in the \$2,534. The lot consisted of 96 tons of most of which was taken from the recent strike on the 100 level.

Centennial Dividend.

Word has been received in Salt Lake the directors of the Centennial Eureka Mining company met in Bostor per cent can easily be maintained and dividend of 59 cents a share, or \$50,000 payable January 1st. The books will close tomorrow.

Mining Deed Filed.

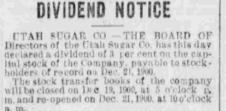

[SPECIAL TO THE "NEWS."] Provo, Utah, Dec. 20 .- A mining deed has been filed for record from Wm. W. Rivers to Chas. B. Durst, both of Salt Lake, conveying a one-fourth interest in Good Luck and the Lookout mining claims, situated in Silver Lage mining district. The consideration named is \$50,
