THE EVENING NEWS.

Monday, - - - - January 9, 1871.

ANATHEMA MARANATHA.

By authority of the Almighty God, the Father, Son and Holy Ghost; and of the holy canons; and of the undefiled Virgin Mary, mother and nurse of our Savior; and of the celestial virtues, angels, archangels, thrones, dominions, powers, cherubims and seraphims; and of all the holy patriarch and prophets; and of all the apostles and evangelists; and of the holy innocents (who in the sight of the Holy Lamb are found worthy to sing the new song;) and of the holy martyrs and holy confessors; and of the holy virgins; and of all the Saints, together with all the holy and elect of God—we excommunicate and anathematize him, and from the threshold of the Holy Church of God Almighty we sequester him, and that he may be tormented in eternal excruciating sufferings, together with Dathan and Abiram and those who say to the Lord God, "Depart from us; we desire none of Thy ways." And as fire is quenched with water, so let the light of him be put out forevermore.

May the Father who created man curse him. May the Son who suffered for us curse him. May the Holy Ghost which was given to us in our baptism curse him. May the Holy Cross which Christ (for our salvation triumphing over His enemies) ascended curse him. May the Holy and Eternal Virgin Mary, Mother of God, curse him. May Saint Michael the advocate of holy souls, curse him. May all the angels and arch-angels, principalities and powers, and all the heavenly armies, curse him. May St. John, the precursor, and St. John, the Baptist, and St. Peter, and St. Paul, and St. Andrew, and all other of Christ's Apostles together, curse him. And may the rest of His Disciples and the Four Evangelists (who, by their preaching, converted the universal world,) and may the holy and wonderful company of martyrs and confessors (who, by their holy works are found pleading to God Almighty,) curse him.

May the Choir of the Holy Virgins (who, for the honor of Christ have despised the things of the world) damn him; may all the Saints, (who, from the beginning of the world and everlasting ages, are found to be beloved of God) damn him; may the heavens and the earth, and all the holy things remaining therein, damn him.

May he be damned wherever he be; whether in the house or in the field, whether in the highway or the by-way, whether in the wood or in the water, or whether in the Church. May he be cursed in living and in dying, in eating and drinking, in fasting and thirsting, in slumbering and sleeping, in watching or resting, in standing and sitting, in lying down or working, mingendo, cacando, and in blood-letting.

May he be cursed in all the faculties of his body. May he be cursed inwardly and outwardly. May he be cursed in his hair. May he be cursed in his brains. May he be cursed in the crown of his head and in his temples. In his forehead and in his ears. In his eyebrows and in his cheeks. In his jawbones and in his nostrils. In his foreteeth and in his grinders. In his lips and in his throat. In his shoulder and in his wrists. In his arms, his hands, and his fingers.

May he be damned in his mouth, in his breast, in his heart, and in all the viscera of his body; may he be damned in his veins and in his groin; in the thighs and genital organs, in his hips and in his knees; in his legs, feet, and toe-nails!

May he be cursed in all the joints and articulations of his members. From the top of his head to the sole of his foot may there be no soundness in him.

May the Son of the living God, with all the glory of His majesty, curse him, and may Heaven, with all the powers that move therein, rise up against him—curse and damn him!

Amen. So be it. Amen.

SEASONABLE HINTS—HOW TO TAKE OR AVOID A COLD.

There is no more seasonable time in the year to take cold than the present; the facilities are abundant, and as a consequence, every other person we meet admits to having taken advantage of the opportunities furnished. The *Technologist* condenses the philosophy of taking cold into a few lines, and we give them for the benefit of those who would learn how to avoid the disagreeable complaint. It says: "The human frame was intended for activity, to run fast and to run slow, but it must be managed. A locomotive can run very fast, but if stopped instantaneously, when going at a high rate of speed, it is unjointed as badly as if it had had inflammatory rheumatism for seven years. A skillful engineer, however, tones down his speed gradually, and in this lies the whole secret of taking cold. It is exposure or carelessness, after exercise, that brings on colds. After walking, or running, or dancing, or any exercise that quickens the circulation, a little current of air from a window, a crevice from an open door for a few minutes, just to cause a chill, is sure to produce cold. Merely stopping on the street in a current of air—as at a corner where the wind breaks or makes an angle—will do the job. Any sudden subsidence of active forces of the body in a temperature that chills will produce cold. The little common sense that is needed, and for the lack of exercise of which so much money is paid to doctors, is to preserve an equable temperature, or having exercised freely, cover the proper state gradually without a chill. This is attained in a simple and easy manner. After exercise always seek rest in a sheltered place, where you will be warm, never being hasty to remove hat, gloves or cape. Let the perspiration subside before disrobing, if in-doors, and if out-doors always keep gently moving until the usual condition is attained."—*Ex.*

THE DANFORTH
NON-EXPLOSIVE
PETROLEUM FLUID!
OR
THIS terrible and fatal disasters, which are almost daily occurring by the careless use and explosions of kerosene oil, should call the serious attention of using it to its deadly qualities and induce them to procure a substitute for it.
Thousands have perished by using kerosene oil, and thousands more will be offered a sacrifice to its death-dealing properties without its use is discontinued or its destructive element done away. If a fluid capable of a far more brilliant light,
Cheaper, More Cleanly and Perfectly Free from the Danger of Explosion
can be found, is it not perfectly suicidal to delay for a single day to use it? Such a fluid, by years of patient experiment and the expenditure of over fifty thousand dollars, has been provided by R. F. DANFORTH, of Cleveland, Ohio, and it has been introduced to the public with great success.
For the Danforth Non-Explosive Petroleum Fluid it is claimed:
1st. That it is Non-Explosive and perfectly safe in whatever form used.
2d. That it is entirely free from filth and grease, and will not stain silks or fabrics of the most delicate colors or tints.
3d. That it is entirely free from all disagreeable odor.
4th. That it gives a purer, more brilliant and at the same time a softer light than any oil or fluid in use, and is fully equal to gas light.
5th. That it is (except daylight) the cheapest light ever discovered.
Surely, if the fluid is as above represented, kerosene oil should be discarded in every family where it is used, and the Danforth Fluid used in its stead. Not to use it would be trifling with the lives and property of every member of the family.
The FLUID 75c. per gal.
The Fluid, Burners, Chimneys, etc., in large or small quantities, can be procured of

PEOPLE'S VERDICT!
Over Half a Million sold and in use!
4,000 made and sold per week!
SINGER'S
New Improved Silent
FAMILY SEWING MACHINES
ARE
The Best in the World,
Because all of them are in constant use, while a very large proportion of other makes are not used, owing to their being partially or utterly impracticable.
THE SINGER
NEW FAMILY MACHINE
Has been brought to perfection, regardless of time, labor or expense, and is now incomparably the best Sewing Machine in existence.
It is *simple, compact, durable, beautiful, quiet, light-running,* and capable of performing a range and variety of work never before attempted upon a single machine; using either Silk, Twist, Linen or Cotton Thread, and sewing with equal facility the very finest and coarsest materials, or anything between the two extremes, in the most beautiful and substantial manner.
The New Improved Attachments for Hemming, (any width) Braiding, Embroidering, Magic Ruffling, Gathering and sewing on (at the same time) Self-Sewing, Cording, Tucking, Quilting, Felling, Trimming, Binding, etc., are novel and practicable, and have been invented and adjusted especially for this Machine.
Folding Tops and Cabinet Cases.
New designs of the unique, useful and popular Folding Tops and Cabinet Cases, peculiar to the Singer Machine, are in every variety of Wood, such as black Walnut, Mahogany, Rosewood, Satinwood, and from the plainest to the most elaborate pattern and finish. The Machines themselves are plain or highly ornamented with pearl and gold to correspond with their tables or cabinets.
In the Singer the work is fed or passed through the Machine in the natural direction, namely, *from the operator,* permitting her to sit in a natural and healthy position. In many other Machines the work passes from right to left, or the reverse, *compelling the operator to sit in a bent and unhealthy position, and thus causing weakness of the back, etc.*
The Singer uses a SHORT *STRAIGHT* NEEDLE, which is *not* liable to break or raise the stitch. Many other Machines use a long crooked needle, which *is* liable to break and to miss the stitch.
In the Singer Machine the Shuttle is carried, thus avoiding nearly all wear. It requires no oil, and does not soil the thread or goods. Other Machines *drive* their Shuttles, in a race, thus causing great wear, and *requiring* oil, soiling the thread and goods.
On the Singer, the Tension on both the upper and lower threads is absolutely under the ready control of the operator, thus rendering the Machine always available for good sewing, which is not the case with any other. Many so-called cheap Machines are really worthless, and so are many of their new peculiarities and supposed advantages.
The SINGER is the
Oldest Practical Sewing Machine,
Being about twenty years in the market. Having been constantly improved by the employment of the most skilled ingenuity of the age and unlimited capital, it is now divested of all unnecessary parts and possesses All the Very Latest Inventions and Improvements. It is the only Machine sold on Honest Claims, as all its parts are Practical and will do all that is claimed for them. Some other Machines are Greatly Complicated, to do Useless and Silly things, and thus are rendered Liable to Constant Derangement. The Singer Seldom or Never gives Trouble, but is readily and easily managed by those *who utterly fail on other Machines.*
SINGER'S
New Manufacturing Machines
Claim the same advantages over others of their class as the new Family Machines. These old and well-tried Sewing Machines are *applicable to all kinds of heavy and light manufacturing in Cloths, Leather, etc.,* and run in the most perfect and reliable manner without trouble to the operator.
Without any previous advertisement, the Demand for the Singer Machine is so Great that we *have been unable to retain even one Machine to exhibit.* All sold, but a large number are now on the way from New York, and
WILL ARRIVE IN A FEW DAYS.
They will consist of the Different Varieties made by the Singer Manufacturing Company, and we shall sell at Eastern Prices, with addition of Freight only. To accommodate parties who cannot pay all down, we will sell on
EASY MONTHLY INSTALMENTS
So that all may possess one of these *Blessings.*
For the convenience of our Patrons we have engaged the services of a gentleman who has had twenty years experience and is one of the most skillful experts in the world in repairing and adjusting Sewing Machines. *He will* put each Machine in complete and practical running order before it leaves the Institution and will also impart to purchasers all needful instruction, so that they can at once commence work.
We resort to no trickery whatever to sell Sewing Machines, but allow their Great Merits to recommend them. We can do this, as the demand for them is so great that although the Singer Company make more than all other first-class companies combined, they cannot nearly fill their orders, and are compelled to still extend their Gigantic Works.
We having been so fortunate as to secure the
General Central Agency,
For this Territory, we extend a cordial invitation to all to come and see the Machines, whether they wish to buy or not. See all others, but do not buy without you examine the Singer.
We Guarantee every Machine we sell to give entire satisfaction.
THE SINGER
BUTTON-HOLE MACHINE
Is the only Practical one in the World.
OTHER SEWING MACHINES REPAIRED on Reasonable Terms.
