

## CARNEGIE STILL GIVING MONEY.

Will Bestow 56 Million Pounds in  
Public Benefactions.

## GIFTS MORE EXTENSIVE.

Is Desirous That Public Have Best  
Results, and Hence No Particu-  
lar Plans Given Out.

New York, July 9.—The Herald says: Andrew Carnegie still has \$26,000,000 to give away in public benefactions. Mr. Carnegie himself is authority for this statement, which he made recently at Skibo castle to a member of the New York chamber of commerce committee, who is now in this city, but wishes his name kept secret.

Several members of the New York chamber of commerce delegation which went to England recently visited Mr. Carnegie at Skibo castle, and with them he discussed his gifts to the public. He remarked that in the future he meant to make other donations more extensive even than heretofore to public institutions.

According to Mr. Carnegie he is still undecided in what manner to dispose of his wealth for the public good. He wishes the public to obtain the best results from his future benefactions, and for that reason has not yet formulated any philanthropic statements.

Mr. Carnegie admitted that free libraries and other educational institutions would undoubtedly obtain a portion of the millions in question, in order that the plans he had previously adopted should be fully developed. He said he was considering the advisability of directing his wealth towards endowing and supporting art galleries, scientific museums and similar institutions.

## BOISE CITY ELECTION.

M. Alexander, Citizens Candidate,  
Elected Mayor.

Boise, Ida., July 9.—The city election today resulted in the election of M. Alexander, citizen candidate for mayor, over D. D. Williams, Republican, by a majority of 31. E. D. H. Peasley (Rep.) was elected treasurer by 188. Five candidates on the Republican ticket for councilmen were elected, H. C. Farrell, W. C. Annet, J. J. Hosang, A. J. Swain and H. W. Dunton. Four councilmen were successful on the citizens' ticket: Max Mayfield, J. B. Morrow, Charles Norwood and William Lomax.

## CROP CONDITIONS.

Weather Bureau Summary Shows  
Them to be Fairly Good.

Washington, July 9.—The weather bureau's weekly summary of the crop conditions is as follows:

The northern and central districts of the Rocky mountains have experienced two consecutive weeks of intense heat, and while the average daily temperature excess for the week ending July 8th was not quite so marked as in the previous week in the central valleys, it was more so in the middle Atlantic coast districts.

No serious injuries to crops from this period of intense heat are reported from the middle Atlantic coast states, but from Texas northward to Nebraska, including Missouri, Arkansas and portions of Illinois, Kentucky and Tennessee, crops have suffered to a greater or less extent.

The weather conditions on the Pacific coast and in the plateau regions have been favorable, although frosts caused some injury in Utah and Wyoming on the 5th.

In Kansas, Missouri, Oklahoma, Texas and Arkansas corn has been seriously damaged by intense heat and drying winds, although late corn is in a fair condition. The bulk of the crop in Nebraska and Iowa has so far escaped injury except in a few southwestern counties in Nebraska, where corn has been slightly injured, while in southeastern Iowa, it is threatened. In the states of the Ohio valley corn has suffered no injury from heat, and has generally made good growth, but continues in need of cultivation in portions of Ohio and West Virginia.

The winter wheat harvest is finished in Kansas, Missouri and in the lower Ohio valley, and is in progress in the more northerly sections. Rain has interfered with the harvest in portions of Ohio and West Virginia, and reports of injury by its continuance from the first named state, as well as from portions of Pennsylvania and New York.

On the Pacific coast the harvest has begun in Oregon and wheat is ripening in Washington.

In the Dakotas, Minnesota, Oregon

## Sore Hands

Red Rough Hands Itching Palms  
and Painful Finger Ends.

ONE NIGHT CURE.

SOAK the hands on retiring in a strong, hot, creamy lather of Cuticura Soap. Dry, and anoint freely with Cuticura Ointment, the great skin cure and preserver of emollients. Wear, during the night, old, loose kid gloves, with the finger ends cut off and air holes cut in the palms. For red, rough, chapped hands, dry, fissured, itching, feverish palms, with shapeless nails and painful finger ends, this treatment is simply wonderful.

## Millions of People

Use CUTICURA SOAP, assisted by CUTICURA OINTMENT, for preserving, purifying, and beautifying the skin, for cleansing the scalp of crusts, scales, and dandruff, and the stopping of falling hair, for softening, whitening, and soothing red, rough, and sore hands, for baby rashes, itching, and irritations, and for all the purposes of the toilet, bath, and nursery. Millions of Women use CUTICURA SOAP in the form of baths for unwearying infirmities, chafings, and excoriations, or too free or offensive perspiration, in the form of washes for ulcerative weaknesses, and for many sensitive, itchy purposes which readily suggest themselves to women, especially mothers. CUTICURA SOAP combines in ONE SOAP at ONE PRICE, the best skin and complexion soap, and the best toilet, bath, and baby soap in the world.

**Complete Treatment for Every Humour.**  
CUTICURA SOAP, to cleanse the crusts and scales and soften the thickened cuticle, and CUTICURA OINTMENT, to instantly allay itching, inflammation, and irritation, and soothe and heal. A SINGLE SET is often sufficient to cure the severest case.

Sole Wholesale for the U. S. British Depot: F. NEW-  
ELL & SONS, 17-25, Chancery Lane, London. PORTER  
DAVIS AND CO., Sole Props.

and Washington, spring wheat conditions generally in promising condition, although areas in northern Minnesota have been flooded and the crop has suffered from drought in portions of South Dakota. In Iowa the excessive heat has probably impaired the quality of the crop by forcing it to ripen too rapidly.

The oats crop in the states of the upper Mississippi and Missouri valleys has suffered further injury from intense heat, but in southern Minnesota and portions of South Dakota it is in promising condition. In the Ohio valley and middle Atlantic states the crop has ripened rapidly, under the high temperatures, a fair to good yield being indicated for these districts.

A large crop of hay is being secured in New England and New York and having continued with fair to good results in the Ohio valley and like regions. The intense heat has materially reduced the crop in the central Mississippi and lower Missouri valleys, but its condition in the Dakotas is excellent. The having weather has prevailed on north Pacific coast, with satisfactory yields except in eastern Oregon.

In the central and western portions of the cotton belt, with the exception of South Carolina and Florida, cotton is generally growing and fruiting well. In Tennessee and to the westward of the Mississippi river cotton is much in need of rain, especially in the uplands of Texas, and portions of Arkansas. The crop is generally from one to two weeks late.

Tobacco has suffered somewhat from heat in Maryland and Virginia, and its growth has been checked by drought in portions of Tennessee and western Kentucky. The general condition of the crop, however, is satisfactory. Cutting and curing continues in South Carolina and has begun in North Carolina.

In the states of the Missouri and central Mississippi valleys apples and other fruits have been seriously injured by heat and the reports from the districts to the eastward respecting apples are not encouraging.

"I am indebted to One Minute Cough Cure for my present good health and my life. I was treated in vain by doctors for years, unable to follow a regular life. I took One Minute Cough Cure and recovered my health." Mr. E. H. Wise, Madison, Ga.—F. C. Schramm, Prescription Druggist, McCormick building, corner Main and First South street.

## A WARM WAVE SUCCEEDS COOL.

Average Temperature of the Week  
Considerably Above Normal.

## SOIL DRIED OUT RAPIDLY.

Fair Yields of Fruit in Southern Utah  
—Irrigation Water is Getting Low  
—Crop Correspondents' Remarks.

United States department of agriculture, Utah section, climate and crop service, weather bureau.

Salt Lake City, Utah, July 9.—The week ended July 8th was clear and dry. A cool wave overspread the state from the 3rd to 5th, but this was followed by unusually warm weather, during which maximum temperatures in the vicinity of 100 degrees were reached in all sections of the state; the average temperature for the week was about 6 or 7 degrees above normal. On the morning of the 5th, light to heavy frost occurred in parts of Boxelder, Rich, Morgan, Weber, Summit and Wasatch counties, doing some damage to potatoes, beans, etc. Rye, barley and dry farm wheat are being harvested. The high temperature dried out the soil rapidly, and was not favorable for vegetation, but irrigated crops made fair advancement. Wheat, oats, sugar beets, potatoes and corn continue in good condition. In the southern half of the state the fruit crop will make about the average yield; in the northern half, small fruits are plentiful, but the yield from the large fruits will be considerably below the average. The apple crop will show the greatest shortage. The ranges are becoming very dry. Irrigation water is getting low, but there is generally sufficient for present requirements.

## REMARKS OF CORRESPONDENTS.

(The name of the postoffice is followed by the name of the county.)  
Garland, Boxelder.—The drought continues; no rain since May 1st. Dry farm grain is a complete failure. Irrigated grain looks well.—A. H. Gleason.  
Snowville, Boxelder.—Very dry. Lucern is nearly all cut; the yield was about half the usual amount. The condition of grain is below the average. The ranges are very dry.—Joseph Robinson.

Tooele, Tooele.—Dry farm wheat is being cut. The yield of cherries was above the average; apricot trees are heavily loaded with fruit; nectarines, peaches, plums and pears will not make more than half a crop. The yield of raspberries is rather below the average. Irrigation water is getting scarce.—I. J. Elkington.

Nephi, Juab.—Very hot and windy. Lucern is nearly all in the stack; the yield was light. Dry farm fall wheat is suffering from drought and is burning. Strawberries were a failure; apples and other fruits will make an average crop. Potatoes and corn are suffering from drought.—Thomas Vlekens.

Levan, Juab.—The first crop of lucern is nearly all in the stack. Dry land wheat is ripe; the yield will be below the average. The fruit crop is better than for years; so far, wormy apples are the exception; apricots were not injured by the frost as much as was thought, and will make an average crop; small fruit is plentiful; currants are ripe.—William Brown.

Clarkston, Cache.—Warm, with parching winds all week. Crops and gardens are burning up. Small fruit is ripening rapidly and is plentiful; apples, pears and other large fruits will make a light yield.—William Sparks.

Paradise, Cache.—Dry, with warm days and cool nights. Dry farm wheat looks fairly well. The fruit crop is almost a total failure. English currants are a fairly good crop.—James Lott-house.

North Ogden, Weber.—No rain; favorable growing weather; all irrigated crops are doing well. Red currants and sweet cherries are just going out of season; the yield was average. Red and black raspberries are at the height of picking; the yield will be below the average. Early harvest blackberries are just beginning to ripen. Peaches are growing nicely and promise a full crop; pears are average; plums, prunes and apples indicate a light yield.—James Storey.

Huntsville, Weber.—Light frost on the morning of the 5th killed potato vines. Lucern is still being cut and hauled.—Lars Petersen.

Morgan, Morgan.—Hot days, cool nights and drying winds. Potatoes were injured by frost on the nights of the 4th and 5th. Lucern hay is being harvested. The yield from apples, pears, plums and cherries will be very light.—S. Francis.

Kayville, Davis.—Hot and dry week.

## Ask Him

Ask your doctor what he thinks of Ayer's Sarsaparilla. He knows all about this grand old family medicine, this splendid tonic. Follow his advice and we will be satisfied.

St. All druggists. J. C. AYER CO., Lowell, Mass.

Water for irrigation is getting low. Grain is ripening and harvest is in progress. The yield is hardly up to the average. Sugar beets are doing well. The fruit crop is very light, with the exception of currants, which are plentiful. There are many grasshoppers in some localities.—J. W. Galley.

Miller, Salt Lake.—Hot and dry. Corn and potatoes which receive plenty of water are looking well. Fruit on low lands will be a very light crop; the fruit on the benches is looking well, but water is getting scarce and it may suffer from drought.—John Morgan.

Payson, Utah.—Dry, with warm days and cool nights. Light frost on the 5th killed vines on low grounds. Irrigated crops are doing nicely. Dry land crops have been destroyed by drought. Water is getting scarce. The fruit crop will be below the average in yield and of very poor quality. Raspberries, currants, and cherries are plentiful. Corn, potatoes and sugar beets look fine. Grain is in the boot and dough and will soon be ready to cut. Dry land rye is being cut and is ready for thrashing. The grasshoppers are taking everything on the west side of the valley.—J. D. Stark.

Pleasant Grove, Utah.—A dry week, the first part being windy with cool nights and the latter part very warm. Irrigation water is getting very low. Apricots, peaches and plums will make about half a crop and apples are almost a failure.—J. H. Shore.

Axial, Sanpete.—Wheat, oats and barley have done well so far, but will suffer from drought if rain does not fall soon. Sugar beets and potatoes are doing well. The lucern crop was light.—A. L. Emerson.

Mountain Green, Sanpete.—The week was hot and dry; no wind and no rain. Crops have done fairly well. First crop of lucern is nearly all stacked in good condition, the yield was rather light. Wheat is nearly all in head. Fruit promises a good yield.—Lars Nielson.

Meadowville, Rich.—Clear, warm and windy. First crop of lucern is being cut; the yield is rather light. Potatoes are just coming up. English currants, raspberries and gooseberries are a good crop, but other fruits are a total failure.—J. S. Moffat.

Ketown, Rich.—Hot and windy. Water is rather scarce. Apples, plums and pears are doing well and will make about the average yield. Cherries are nearly ripe.—G. G. Weston.

Oakley, Summit.—Heavy frost on the night of the 4th killed potato vines. Wheat is commencing to head. Lucern is being cut. Currants and cherries are getting ripe. Apple trees are full of fruit; plums are plentiful; no peaches.—S. B. Snapp.

Peco, Summit.—High winds during the greater part of the week. Killing frost on the morning of the 5th; corn, beans, tomatoes, potatoes and all other tender plants will be a failure. Small fruit will average half a crop.—O. F. Lyons.

Heber, Wasatch.—Very warm days, but light nights. The heaviest frost since May occurred on the morning of the 5th; beans, cucumbers and potatoes were frozen; some potato vines were frozen to the ground. Hay is being cut, and the yield in some cases is very light. Apples are a light crop; pears and cherries are good; currants not so good and strawberries a failure.—John Crook.

Helper, Carbon.—Very hot, dry week. Water in river getting low. First crop lucern all in; yield not as heavy as expected. Spring wheat and oats beginning to show effect of hot weather. Apples, apricots, peaches, plums and pears are extra fine and the trees loaded with fruit. Apricots and early peaches will soon be ripe. Ranges are getting very dry, but pasture along the streams is still good.—J. Tom Fitch.

Vernal, Utah.—Dry, windy and warm, with the exception of the 5th, which was cool. Crops will suffer if drought continues.—William Gibson.

Palmira, Millard.—Hot, dry and windy. The yield of small fruit from the trees, but there is plenty left. Raspberries and currants are ripe and plentiful. Some dry farm wheat and rye have been cut; the yield will be light. Early potatoes are turning out well. Rain much needed.—C. Anderson.

Sigurd, Sevier.—Very warm. Small fruits are ripening and plentiful. Plums are plentiful; apples and pears are about average. Wheat and oats are heading. Water is getting scarce and some grain is suffering.—C. Meyer.

Emery, Emery.—Hot, drying, south-west winds every day, except the 5th. Crops are suffering in places. Second crop of lucern will be very light unless rain comes soon. Fruit will be about an average crop. Wheat, oats, corn and potatoes promise well, where plenty of water is applied.—H. C. Wickman.

Moab, Grand.—Dry and hot. Peaches are ripening rapidly; the early peach

crop is average. Late peaches and winter apples will make a very light yield. Grapes will make a full crop, but are being harvested. Corn is doing well.—J. P. Miller.

Beaver, Beaver.—Very warm. Water is holding out well. First crop of lucern is good. Wheat looks well. Potatoes promise a fair yield. Plums are unusually plentiful; apples are plentiful, but are being damaged by insects; small fruits are good.—D. Grimeshaw.

Tasdale, Wayne.—Very warm and windy. Crops have made fair growth. Wheat and oats are heading. Hay is being cut; the yield will not be heavy, and the second crop will be very light, unless rain comes. Water is very low.—R. C. Nasser.

Parowan, Iron.—Warm week, with drying winds, which were unfavorable to growing crops. Chinese buzzes are doing some damage to wheat. Small fruit is a fair crop; plums, peaches and apricots are above the average; apples are below the average.—James Connell.

Coyote, Garfield.—Warm days and cool nights, with drying winds. Vegetation is doing well. Wheat has begun to head. Lucern cutting has begun; the yield will be fair. Cherries are ripening; the late frosts in June damaged the fruit.—H. J. McCullough.

St. George, Washington.—The grape crop gives great promise; figs are more plentiful and finer than usual, and the same may be said of pomeligranates; stone fruits, such as peaches, etc., will also be limited in yield. The chinich bugs, which were so numerous, have come without doing any perceptible damage to grain.—J. G. Bleak.

L. H. MURDOCH,  
Section Director, Weather Bureau.

## BEAVER SUMMER SCHOOL.

Interesting Session Will be Held at B. Y. Academy Branch.

The Building Has Been Overhauled  
and Thoroughly Fumigated and  
a Profitable Session Expected.

The summer school of the Beaver branch of the B. Y. academy will open on July 15, at Fort Cameron. The building has been overhauled and fumigated and the grounds have been thoroughly cleaned so that this mid-summer school offers a splendid opportunity to the young people of the southern section of the state.

An interesting session will be held as the following excellent program will attest:

## EDUCATIONAL.

July 15th to 19th—Reviews in all classes.  
July 21st, 8 p. m.—Baccalaureate address to graduates, Mamie Ollerton.  
July 22nd and 23rd—Examinations and issuing of cred. slips.

July 25, 10 a. m.—Commencement exercises. Orator by Dr. J. M. Tanner, general superintendent of Church schools.  
Note—Students, teachers and citizens are invited to take advantage of this review of examination free of charge.

## THEOLOGICAL.

Devotional Exercises—9:45 to 10 each morning.  
Sunday, July 21st, 10 a. m.—Sunday school. Two p. m., testimony meeting. Theology reviews, 10 to 11 a. m. each day.

## ATHLETIC.

Saturday, July 20—Baseball, 10 a. m.; basketball for boys and girls, 2 p. m.; July 24, 1 p. m.—Field day concluded. Races, jumping, pole vaulting, etc.  
Note—The class winning the greatest number of points will hold the silver cup for one year.

## MUSICAL.

Monday evening, July 15—Grand concert by Prof. Stanley Partridge, assisted by E. P. Partridge and the Mrs. Partridges.  
Singing by the academy choir each morning.

Selections by the members of the musical department during the exercises.  
Note—Prof. Partridge has spent five years in the University of Michigan School of Music. His concert will be a rare treat of classical and popular piano music, with a few mandolin and guitar selections.

## SOCIAL.

July 19, 8 p. m.—Grand ball.  
July 23, 8 p. m.—A. H. Reed, "Penny Thing," as voted for by the students the day before school was closed.

July 24—Pioneer day celebration; guns, hoisting of Stars and Stripes and white and blue, parade, oration, etc. Grand ball at 8 p. m. to which the public are invited.

July 25, 10 a. m., exercises preparatory to class, 2 p. m., exercises of 1st and 2nd year Normals. 8 p. m., exercises of graduating class.  
July 26, 2 p. m., organization of Alumni association. 8 p. m., Alumni ball for students and patrons of the school.

Notes—We invite people from all the settlements to join in the commencement exercises and all others they wish.  
Suitable programs have been ar-

anged for Pioneer day and commencement day.

## COMMITTEES.

Flags and salutes, E. D. Partridge; class exercises, Mamie Ollerton; music, A. M. Durham; marshal, N. H. Tanner; athletes, E. D. Partridge and N. H. Tanner; "A Real Penny Thing," R. Macser.

## WHERE O'CALLAHAN IS.

Didn't Know Monday Night, but is Aware of It Now.

Thomas O'Callahan, 70 years old, and Irish, was the cause of considerable disturbance in the neighborhood of Arthur Barron's residence Monday evening. The family had just retired when they heard someone out on the lawn cursing and yelling, "Where am I? Investigation showed O'Callahan rolling around among the flower beds in a state of helpless intoxication. The patrol was telephoned for and the aged reveler was conveyed to the station, where he spent the night.

O'Callahan was arraigned before Judge Timmons this afternoon and pleaded guilty. The cause he assigned for his condition was that he was drunk. He begged "one more trial, but the judge didn't think he would behave. Twenty days was the sentence.

## VOTE FOR QUREX OF FAIR.

The vote for the queen of the Morchard street fair stood as follows this morning:

Florence Lewis, 4,164  
Ethelyn Markham, 3,890  
Ruth Wilson, 2,853  
Mabel Cooper, 1,234  
Lizzie Hamilton, 1,150  
Mercy Tuckett, 1,127  
The voting closes Saturday, July 15th at 10:30 p. m. sharp.

## Talked

into taking cheap washing powders in the belief that they are equal to PEARLINE! Grocers who want to work off unsalable goods, peddlers, prize-givers, etc., all say "This is just as good," "much cheaper," "same thing." Don't be deceived. The most effective, most economical, best made, is

Pearline: unequaled

## Bicycle Races

# THIS GREAT CLOTHING SALE GROWS GREATER DAY BY DAY.

WITH HUNDREDS of pleased buyers telling of the bargains we're giving—and the newspapers sounding our praises—this Clothing Sale grows greater day by day. To you who haven't been here, we say hurry, else you'll miss some of the best bargains you ever saw. Think of the best values you ever saw in Gardner's Store—then remember you can come and get them with A FOURTH, A THIRD, AND EVEN A HALF CLIPPED OFF.

Boys' Suits.

One of the busiest parts of this great store these days is the boys' section. Quite naturally, too. Cause what mother but knows Gardner's boys' clothing? What mother but knows, then, the wonderful values she's getting at these reduced prices? Some are buying for immediate use. But many are buying to lay away till school time. Have you bought yet? You ought to hurry, when you can get Gardner's boys' clothes like this:

\$ 2.50 Suits for	•	1.85
3.00 Suits for	•	2.25
3.50 Suits for	•	2.50
4.00 Suits for	•	3.00
4.50 Suits for	•	3.50
5.00 Suits for	•	3.75
6.00 Suits for	•	4.50
7.50 Suits for	•	5.75

Straw Hats Reduced.

Every straw hat in this house has been reduced in price. We want them out of the way. You'll have plenty of straw hats weather yet, so the bargains are all the greater for you. Every hat is nobby and up-to-date. Rough straws, smooth straws. Stiff brims, roll brims, and Fedora style. With prices reduced like this:

25c Hats reduced to	20c
50c Hats reduced to	35c
75c Hats reduced to	50c
\$1 Hats reduced to	75c
\$1.50 Hats reduced to	1.00
\$2 Hats reduced to	1.50
\$2.50 Hats reduced to	1.75
\$3 Hats reduced to	2.00
\$4 Hats reduced to	3.00

The Wonderful Bargains in Boys' Knee Pants.

The very best values at original prices that this store ever had—some four hundred pieces were in the lot—a third of them have been sold already—so you had better hurry if you want some.

**75c PANTS FOR 50c: \$1.00 AND \$1.25 PANTS FOR 75c.**

Men's Belts at Exactly Half Price.

About one-half of the twenty-five dozen Men's Belts that we put on sale are gone. They're the regular 50c value. You can have your choice for just half price.

**TWENTY-FIVE CENTS.**

**Two Great Bargains in Men's Hose.**

Hose that we've sold all season at 25c, now twenty cents per pair, or three pairs for

**HALF A DOLLAR.**

Hose that we sold for 25c per pair,

**NOW 25 CTS.**

CLEAN UP OF

THE WASH SUITS.

Men's Suits that you can throw into the wash tub when soiled. And they'll come out fresh and whole. They're the coolest kind of clothes you can wear these days, too. They're no good to us, though, so we want them out of the way. Come and take them at the following reductions:

\$ 3.50 Suits for	•	2.50
4.00 Suits for	•	3.00
5.00 Suits for	•	3.75
6.00 Suits for	•	4.50
7.50 Suits for	•	5.75
10.00 Suits for	•	7.00
Boys' wash Suits reduced like this:		
.50 Suits for	•	.40
.75 Suits for	•	.50
1.00 Suits for	•	.75
1.50 Suits for	•	1.00
2.00 Suits for	•	1.50
2.50 Suits for	•	1.85
3.00 Suits for	•	2.25

Men's Suits.

400 men's Suits, as good as any we've got in the house at original prices, with a fourth clipped off their prices. That's about as short a way as we can tell the suit reduction story. Every suit is a good pattern. Every suit is made up in best style. Every suit is lined, padded, canvassed and tailored as good as possible for the money. You're just finding the difference between the old and new prices:

\$ 6.00 Suits for	•	5.00
7.50 Suits for	•	5.75
10.00 Suits for	•	7.00
12.00 Suits for	•	9.00
