## ONLY THE SONG SLIDE MAN.

Residents of Atlantic Highlands Interested in Antics of Mysterious Trio.

The inhabitants of Atlantic Highlands, Waterwitch, Highlands and other neighboring hamlets along the Jersey coast were very much interested and mystified at the strange behavior of a trio of New Yorkers on Saturday, says an exchange.

The three strangers in question, a woman and two men, arrived on the early morning train at Atlantic Highlands and immediately got busy. Saying a Jersey cow in the field opposite the depot, they made for her and before the astonished bossy could recover her wits, the woman was mounted on her back while one of the men had his camera focused on her.

The picture taken, they made for a rustic arbor over the entrance of one of the mansions where the girl took her position with the camera, who knelt in the dust at her feet in an attitude of supplication. By this time quite a crowd of the local disengaged had congregated and bet saw the men made as to whether the strangers were crazy or were getting evasive for a divorce case.

The trio then took the train for Highland Beach followed by the crowd. Here several more pictures were taken, ending with one of the men wading out into the ocean and tossing his new straw hat into the water and zoning in this position. This was too much for one of the crowd of Jerseyites, a woman, and timidly stepping forward she asked the photographer, who seemed to be the most sane of them all, what they were trying to do.

"Taking pictures for the slides of 'Neath the Old Acorn Tree,' says the woman. He shortly replied, as he and his two companions made their way to the train, leaving the inquisitive one standing there wondering whether there was anything personal in his remarks concerning "Neath the Old Acorn Tree," as she was unfamiliar with the titles of the popular songs of the day.

CHAMBERLAIN'S COLIC, CHOLERA AND DIARRHOEA REMEDY, BETTER THAN THREE DOCTORS.

"Three years ago we had three doctors with our little boy and everything that they could do, but the value was when all hope seemed to be gone we began using Chamberlain's Colic, Cholera and Diarrhoea Remedy, and in a few hours he began to improve. Today he is as healthy a child as parents could wish for."—Mrs. J. J. Thompson, Linton, Miss.

# TAXES RAISED IN WYOMING

Valuations of Union Pacific Railroad in That State Increased Over \$5,000 Per Mile.

SHORT LINE GOES UP \$4,000.

Conditions in Idaho Nearly as Bad—Interesting Statistics Unearthed By Agent Evans.

The Wyoming papers chronicle the raising of assessed valuations of the Union Pacific holdings in that state from \$3,600 to \$14,400 per mile, and those of the Short Line from \$3,000 to \$12,000 per mile. The state board of equalization felt justified in doing this for the reason that no raise had been made in the last 16 years, in spite of the fact that in that time several hundred miles of road had been built in the state, and the total valuation of this class of property had increased about half. The increase in valuations made, is about 50 per cent for the Short Line, and 60 per cent for all the other railroads in the state.

Conditions in Idaho Nearly as Bad—Interesting Statistics Unearthed By Agent Evans.

Assessment conditions in the state of Idaho are not much better off, according to the railroad agencies having such matters in charge. There was a hearing Friday last at Boise, before the state board of equalization, on railway assessments. Charles Hayden of St. Paul represents the Great Northern. J. B. Evans of Salt Lake, Oregon Short Line; M. T. Sanders of St. Paul, Northern Pacific; J. F. Lehigh of Spokane, Spokane Inland Empire railway; A. P. Critchlow of Spokane, Spokane International.

Agent J. B. Evans of the Short Line made a strong plea in behalf of equitable treatment for his company, asking that it be assessed on the same basis as other property within the state. He submitted the following as a result of his investigation of property in the state and property actually returned:

Patented lands, acres assessed in 1892, 2,829,456 acres. Lands patented, 1892-1906, 3,571,853 acres. Was assessed by returns, 5,306,838 acres. Unpatented lands not assessed, 1,091,443 acres.

## FIGURES ON PATENTED LANDS.

Mr. Evans stated he had received his information from the department of commerce and labor. He also stated that he had totaled the deed considerations of patented lands in seven of the counties \$2,848,186 and that the same property had been assessed for \$492,335, or a little over 20 per cent.

Mr. Evans took up the stock report, making the statistics of state and federal enumerators in comparison with the showing made by the abstracts. His report of stock is as follows:

Horses 149,551, valuation \$10,594,158, returned for taxation \$1,423, valuation \$2,821,220. Sheep 3,648,133, valuation \$18,154,353; returned for taxation 1,100,219, \$2,399,065. Cattle 2,892, valuation \$212,155; returned for taxation \$23, \$34,297. All cattle 417,431, valuation \$7,979,158; returned for taxation \$25,045, \$2,355,577. Swine 122,948, valuation \$382,485; returned for taxation \$1,086, \$127,331.

## YEAR'S WOOL PRODUCT.

Mr. Evans said the wool product for 1906 in Idaho amounted to 16,905,000 pounds, which was marketed for \$3,681,959, and the value of sheep as returned in 1905 was \$2,399,065, or 11 per cent of the value of last year's product of wool.

"Last year the Oregon Short Line was assessed at \$10,300 per mile, and on a basis from the stock and dairy products, and the value of the other property over the state of 20 to 25 per cent would have to be worth at least \$55,000.

Mr. Evans stated that it was possible for the Oregon Short Line, under a charter, to declare dividends from interest on bonds and stocks of other companies, while not a mile of the road was actively earning dividends. These other companies he stated are all paying taxes in other states. If the earnings were to be the basis of taxation he contended that that rule should be equally applied. He contended that the showing of the physical condition of the property was the only basis upon which the assessment could be made.

## LIFE INSURANCE.

## HEADQUARTERS MOVED.

Striking Telegraphers Secure More Central Location—Benefit Concert.

The striking telegraphers are to move their headquarters to Harmony hall in the Jennings block on West First South street, from Room 3, Federation of Labor hall. This is to secure a more central location.

Fred Graham, who is in charge of the benefit concert to be given Friday evening in the Methodist church, has completed a list of the program, which will be found in another part of this paper.

## WILL EXHIBIT SEA WALL.

Galveston to Place Section of Marine Defense in Transmississippi Congress.

Muskogee, Okla., Aug. 21.—Galveston, Tex., will send to the Transmississippi Commercial congress for exhibition a section of her wonderful sea wall.

The congress will be held in a convention hall especially built for its entertainment and underneath the hall, which will seat 5,000 persons, will be 20 booths which will be used for municipal exhibits by such cities as care to make an exhibit. Galveston will occupy one of the booths with her sea wall exhibition, and will have a special one.

## "COAL PROBLEM SOLVED."

Sugar City Times Sees End of Fuel Shortage in Teton Mines.

Under the title of the "Coal Problem Solved," the Sugar City, Ida., Times of recent date says that many people are hauling coal from the mines in the Teton valley. The paper further says:

It is a common occurrence to see from seven to 12 teams loaded with coal traveling in a string on the road from the Teton coal fields to Sugar City. Last Wednesday 20 teams were counted passing through this city on their way to and from the Basin for coal.

Just recently they have discovered coal on this side of Canyon Creek and we understand that the mines will be opened up and that we will be able to secure coal from them this winter. This will make the highest price paid for coal in the Teton basin is undermined with coal and it is probable that there will be as large veins discovered on this side as have been discovered on the other.

## DON'T GRUMBLE.

## MCKENZIE NOT PRESENT.

"American" Celebration for Mayor Did Not Include Chief of Police.

An effort to fix the party taint on Mayor Bransford as firmly as possible was made last night in the "American" club headquarters, when about 300 members of the "American" party gathered to follow Judge A. J. Weber's lead in offering congratulations. Before the meeting closed an announcement was made that the annual "American" party meeting will be held the first Tuesday in September when reports will be read and officers elected for the next year. The meeting was held at the present last night owing to the fact that he had not been notified of the meeting.

## DON'T BE BLUE.

And lose all interest when help is within reach. Herbine will make that fact perform its duties properly. J. B. Vaughn, Elba, Ala., writes: "Being a constant sufferer from Rheumatism, I have found Herbine to be the best medicine for these troubles. I believe it to be the best medicine of its kind, and I wish all sufferers from these troubles to know the good Herbine. For sale by J. M. Drug Dept., 112 and 114 South Main Street."

## SOMETHING DOING.

Party of Short Line Surveyors Running Lines Into Idaho Coal Fields.

That there is something doing in the matter of reaching the coal deposits of Teton basin is evident from the fact that a party of Short Line surveyors have been from a week working preliminary lines from Rexburg via Canyon Creek. The Rexburg Journal claims that the branch road to the coal region will surely be built from that town. The Journal in commenting on the opening up of the new coal region says: "The location at present is so remote from railroad facilities that it is impractical to reach the coal region by road once there and the whole country will quickly be under cultivation. When we reach the coal region, what do we find? Only 150,000 acres of choice land in stretches almost as far as the eye can see."

## NEURALGIA PAINS.
