

Evening News.

Monday, Oct. 1, 1883.

Floating Fragments.

Brother Platt D. Lyman is up from San Juan Slake.

Major William Jennings has arrived from the East.

The two-cent letter postage system went into effect to-day.

Brother F. M. Lyman and Elder John Morgan have arrived in the city.

Brother Homer Duncan, the well-known veteran, is up from the south.

Captain Douthett is quite ill. He has been in the city last night for medical attention.

The stores of Auerbach & Bros., 421 Main St., will be closed till Wednesday at sundown. See notice.

A thrilling account of the recent attempt at railroad robbery will be found in our Sunday night's dispatch.

Remember the Sunday School Union meeting to-night. Brother Anderson will deliver a brief temperance address.

There will be a meeting of the South Ward Quorum of Elders, in the 1st Ward Chapel, at 7:30 o'clock to-morrow evening.

The marriage there was born to Miss E. Gentry Wood, wife of Mr. William Wood, the well-known painter and sculptor. This is the eleventh child and the eighth boy. There is great rejoicing among the Woods.

Last Wednesday a young man named Wm. Marshall, of Kayville, while heading sheep over the mountains from City Creek, was suddenly seized with cholera mortis and expired the following day.

Local and Other Matters.

Purpose Building.—We understand that Zion's Savings Bank and Trust Company have purchased a piece of the lot of Hon. D. H. Wells, immediately north of Z. C. M. I., and purpose erecting a bank building on it at an early day.

Will Organize for Winter.—I desire all the young people of the 1st Ward and all others interested to meet myself and Council in the School House to-morrow evening (Tuesday) at 7 p.m., for the purpose of organizing the Mutual Improvement Association for the coming winter.

F. KESLER, Bishop.

Another Paper.—We have received the first issue of a new addition to the ranks of Salt Lake journals, the Times, a weekly paper, published in this city by the Times Publishing Co., (J. C. Graham & Co.). We wish success to the enterprise. The new paper will be published every Monday, and announce information to business, mining, real estate and commercial interests.

Extinguished in Indianapolis.—The fire alarm was rung at 5:15 p.m. yesterday. It was in consequence of the electric light in the wholesale warehouse of G. F. Culmer & Co., East South Street, being out of order. Sparks of fire flew from it and ignited the contiguous wood-work. Firemen went speedily on the spot, and what might have been a disastrous fire was "slipped in the end" without damage, by the application of a little water.

A U. F. Appointment.—Mr. W. C. Garland has been appointed General Agent of the Passenger and Ticket Departments of the U. P. R. R. Company, with headquarters at Salt Lake City, the change taking effect today.

Mr. Garland will have charge of the passenger business in Utah and Idaho, and in Nevada, east of Winnemucca. He was learned by circular from S. H. H. Clark, General Manager.

Coincidentally Shot.—The following dispatch of yesterday's date, has been received from Brigham City:

Joseph Tippetts, Jr., accidentally shot himself while out hunting today. Dr. Mitchell says the wound is not necessarily fatal, though Tippetts received a full charge of buckshot in his right breast, while standing at the muzzle of the gun.

Later.—Oct. 1st. He slept some during the night and in comparatively free from pain this morning.

Waste Employment.—Brother James W. Harris, a resident of London, who arrived with the last company of immigrants, has taken up his abode in Salt Lake City, and is endeavoring to obtain employment.

For the last nine years, previous to leaving home, his occupation has been that of manager and housekeeper of the Hotel Chambers, 55 Chambers Lane, where he had been for some time. He was formerly acting as collector for the tax, mostly gentlemen of the legal fraternity. Previous to this he had been clerk and collector in a mercantile office in Crosby Square. He brings with him testimonials of a reliable character as to his honesty and efficiency in business. He can be heard of at this office.

The Temperance Meeting.—Last night the Theatre was crowded to excess by people who flocked to hear the previously announced temperance lecture by Mr. Scott Anderson.

On the stage with the lecturer, besides President Angus M. Cannon, who occupies the chair, were Applegate Erasmus Snow, President Joseph E. Taylor and other gentlemen. After prayer by Elder Geo. Goodard, the chairman introduced Mr. Anderson, who, without unnecessary preliminaries, plunged at once into his subject. He gave a succinct history of the temperance movement, its struggles, obstacles, reverses and successes during the last fifty years. His remarks sparkled with cutting and humorous hits, well told anecdotes introduced as illustrations, and in some of the latter passages of the lecture the speaker waxed eloquent, and fairly sealed his audience into the spirit of his theme. It appeared to be the universal sentiment of the audience, judging from the unremitting attention given to the lecturer, that they had spent a very profitable evening.

The Sanitary Meeting.—At the

meeting held in the City Hall on Saturday evening, on the subject of better sanitary arrangements for Salt Lake City, Alderman Raleigh was called to the chair and Mr. Don Carlos Young was appointed secretary.

Dr. Douglas, in consequence of whose communication to the City Council on the subject the meeting was mainly called, being absent, a desultory conversation ensued between Dr. Hamilton and Councilor Ritter in relation to the deleterious effects produced by drinking water from wells rendered impure by the introduction of organic matter from cesspools, etc., carried through the ground.

Dr. Benedict was asked to give his views on the subject under consideration. He stated that he would prefer not to do so in the absence of Dr. Douglas, as he proposed to take the negative of every proposition advanced by that gentleman. He claimed that the health of the city was comparatively good; that none of the epidemic diseases were caused by filth; that sewerage was an impossibility and would not conduce to health of the population, but otherwise, and that the healthiest portion of the community was the dirtiest, while the services of the medical fraternity were largely confined to those who had all the conveniences of life. He cited facts and figures to sustain his various points. He expressed many intelligent and brilliant ideas, but carried into his remarks a vein of regular mischievous that was plainly apparent.

During his speech he wriggled and danced around the centre-table, and persisted in keeping a marble or some other object in his mouth, rolling it around as he warmed with his subject. We thought once we would ask him to take it out, as everybody's curiosity must have been aroused to see what it was. We concluded, however, that he was coming the old Demosthenes dodge of the pebble, and thought we would let it roll.

A gentleman present took exception to the position of the doctor that such a malady as diphtheria was not created by bad odors. He cited an alleged instance of that disease being experimentally produced by foul gas from a sewer.

The doctor did not believe it, but said, "If that is the case then don't let us have any sewers."

"But," said the citizen, "that was a defective sewer. I could make one that would be free from such contingencies."

Doctor—"Yes; exactly. I thought there was a job in this affair."

Other man repudiated the insinuation.

Doctor—"Oh! if the cap don't fit you needn't put it on, but there's a job in this thing; that's sure."

Councilor Watson wished to know if the doctor was really serious about the dirtiest people being the most healthy, and was answered in the affirmative.

"Then," said the Councilor, "you would advise people to live in dirt in order to be healthy?"

This appeared to be a stumper; but the doctor crept out of the situation adroitly, and said he would explain that more fully another time.

Dr. Benedict laid it down as a direct proposition he was prepared to sustain that the cause of the great epidemic in this locality was by contagion and infection, the result of carelessness. The main necessity was a strict system of quarantine. To illustrate he cited an experience of Dr. Pike, who directly traced 22 cases of diphtheria as having sprung from one, the disease being communicated from one family to another by visiting.

After Dr. Benedict resumed his seat, Dr. Pike gave some very intelligent views on the subject on hand. He stated that while he was not prepared to go as far as Dr. Benedict on the dirt part of the question, he was sure that filth did not create the germs of poisonous diseases, yet he most hold that it formed a favorable condition for disease to flourish in.

Dr. Douglas entered the meeting and after explaining the cause of his detention said he presumed that the gentlemen who had addressed the audience had said all he would have expressed had he been there.

Mr. Raleigh said he apprehended the reverse, as the opposite of his views had been said.

The meeting adjourned till 7:30 o'clock next Saturday evening, when there will probably be an animated discussion.

Imposition and Superstition.—

This morning a young colored woman named Betsy Flewellyn, called at the police office and told a "terrible tale" of egyptic depravity. She states that two of that fortune-telling fraternity called at her room a few days ago, and one of them, described by her as having a dark complexion and piercing black eyes, offered to do some enchantment business for her for a consideration. The simple Betsy handed the female impostor ten dollars, and the latter told her there was a horned reptile in her bed, and if she did not remove it she would be fearfully afflicted. Before this feat was accomplished, however, it would be necessary for Betsy to hand over to her mysterious visitor some of her clothing and trinkets, so she gave her a dress, her little girl's earrings and a ring. The professional spell-breaker then resigned to search in the bed, and pretended to take from the mattress what the boys in this vicinity call a horny-toad, which caused the female who had been sleeping there to be afflicted with fright. She also asserted that there was somewhere located in the couch a phial containing black flies. Betsy said she would look for that herself, but the visitor said she must get it or a dreadful calamity could not be averted. The proprietor of the room perished, however, and after the fortune-teller left got a little boy to search for the phial, but the efforts of the juvenile explorer were unavailing.

Betsy was informed by a friend that she had been "dreadfully deceived," and advised her to apply to the police for redress.

COMMISSIONERS.

Acting-Governor A. L. Thomas has issued commissions to the following named persons elected at the August general election:

CACHE COUNTY. County Recorder—John A. McAllister.

TOOELE COUNTY. Alderman, Tooele City—Samuel F. Lee. Constable—Peter Clegg, Tooele Precinct.

SUMMIT COUNTY. Probate Judge—Alma Eldredge, Davis County.

Justice of the Peace—T. J. Steed, Farmington.

JOAN COUNTY. County Clerk—W. A. C. Bryan. Assessor and Collector—W. A. C. Bryan.

Constable—John Sidwell, Nephi Precinct.

BOX ELDER COUNTY. Surveyor—N. P. Anderson. Treasurer—Wm. Horsey. Selectman—Wm. Lowe. Assessor and Collector—O. G. Snow.

Selectman—Carl Jensen. Coroner—M. L. Easiga.

JUSTICES OF THE PEACE. Malad Precinct, W. A. Thompson; Willard Precinct, Thomas W. Brewster; Bear River Precinct, N. C. Mortensen; Box Elder Precinct, J. B. McMaster.

CONSTABLES. Mantua Precinct, M. C. Jensen; Malad Precinct, H. H. Smith.

Miss Thomas at Provo.—Our esteemed correspondent "Homespun" sends us this from Provo:

"Miss Julia Thomas, accompanied by Miss Emma White, came down, as advertised, and gave an entertainment last night at Cluff's Hall. A third house greeted the talented lady, but the few who were there were highly delighted with Miss Thomas' exquisite rendering of several recitations and readings. The lady's perfect manner and rich melodious voice were an excellent setting to the rare elocutionary talents she possesses."

Miss White's voice was very sweet and full, and she has evidently had it well cultivated. She sang charmingly one of two Scotch ballads. We were a little disappointed that she sang nothing of a more classical nature. But what shall I say for the lack of appreciation of Miss Thomas by the citizens of Provo? If it had been a negro minstrel show, the good people would have flocked eagerly to the doors.

Scrapes From Sandy.—Our Sandy correspondent "Sancho," sends this:

There is considerable sickness here at present, mostly typhoid fever. There were two deaths last week from that cause, one the child of Mr. and Mrs. Rideout, the other Mr. H. Mikeseil, section boss on the D. & R. R. K., between Sandy and Wasatch.

He leaves a wife and five children to mourn his loss.

Business here is quite lively at present, sampling mills are running to their full capacity, giving employment to 30 or 40 men. Ore-hauling is brisk from Butterfield. There are some improvements in the way of building dwelling houses. The Mingo is turning out the usual amount of bullion.

The taxpayers of school districts Nos. 41 and 50 held a meeting last Saturday evening, according to previous notice, to vote on the rate per cent of tax to be levied for the purpose of enlarging and improving the present school house of district No. 41. The amount determined on was one-half of one per cent. Districts 41 and 50 are consolidated.

We are to have a mission free school here this winter, under the supervision of the Rev. Mr. Leonard.

SPECIAL BUSINESS NOTICES.

Conference visitors and those wishing to purchase the best, most durable and cheapest Woolen Goods are invited to call on John C. Outler, Agent of Provo Mills, and examine his stock of New Goods, all made this season, consisting of new styles in Double, Single and Shoulder Shawls, Cloths, Blankets, Ties, Hosiery, all kinds of Dress and Shirts, Flannels, Colored and White Linsey and Flannel Sheetings, Woolen Socks and Stockings, etc., also lot of home-made Trousering, No. 34 and 38 East Temple Street, Salt Lake City.

WILLIAM'S MEDICAL SALVE.

The greatest medical wonder of the world. Warranted to speedily cure Burns, Bruises, Cuts, Ulcers, Salt Rheum, Fever Sores, Cancer, Erysipelas, Corns, Chapped Hands, and all skin eruptions, guaranteed to cure in every instance, or money returned. 50 cents per box. For sale by Z. C. M. I. Drug Store.

Established for the special treatment of Nose, Ear, Throat and Lung Diseases. Also, all Deformities of the Body, such as Spinal Curvature, Hip Disease, Crooked Legs, Weak Ankles, Club Feet, Ulcers, Tumors and Polyps. Also, all Medical and Surgical Diseases of Women.

Dr. Van Hummel, Principal Physician and Surgeon of this Infirmary has an office at 3rd house South of Valley House, on West Temple, Salt Lake, and at the urgent request of his many patients has decided to remain during the Fall months.

Dr. Van Hummel's success in these diseases stands unrivaled, and he openly defies the medical profession to produce a physician or institution that will equal him in showing as great a proportion of genuine living cures.

He has successfully treated more cases of these diseases than any other physician in the world.

His cures are scattered all over the United States, as his testimonials will show.

Dr. Van Hummel has been in Salt Lake but one month. To show how highly his professional skill is appreciated here, he refers to the following well known citizens who have some member of their families under his care:

Hon. Mayor Jennings. Judge U. J. Wenner, Attorney. Mr. Jas. C. McCaddon, Agt. D. & R. G. Express Co. Mr. Lewis Stigler, Leader Fort Douglas Band. Col. C. L. Stevenson. Mr. W. Bredemeyer, Mining Engineer, 43 Second South. Mr. Stephen Leyburn, First South and Second East Sts. Cured five years ago; remains well to-day. Dr. Schubar, State Road, tried all the prominent physicians in St. Louis and New York and went to Europe last year seeking relief. He received no benefit until he applied for treatment to Dr. Van Hummel. Mr. J. Fawson Smith, Civil and Mining Engineer. Mr. A. W. McDonald, Miner. Mr. Oscar Rogers, with Spencer Olafson. Mr. W. N. Williams, Furniture, corner of West and South Temple Streets. Capt. J. W. Plummer, Supt. Mammoth Mine, Tintic, Utah.

The above are the results of neglected and mistreated Catarrh. Below follow the results of Dr. Van Hummel's treatment of Nose, Ear, Throat and Lung Diseases.

The Doctor has taken an office on West Temple Street, third house South of Valley House, Salt Lake City.

Letter from Judge Wenner, Office over London Bank:

SALT LAKE CITY, UTAH, August 23, 1883.

Dr. Van Hummel: I take great pleasure in testifying to the efficacy of your treatment for Nose, Ear, Throat and Lung Diseases. I attribute my rapid restoration to what I consider permanent good health to the treatment I received at your hands in 1879, and I enthusiastically recommend your treatment to all afflicted with Catarrh, Throat or Lung Disease.

Very truly yours, U. J. WENNER.

Nasal Catarrh Cured.

Dear Doctor: I have been troubled with Chronic Nasal Catarrh for the past ten years. I am happy to state that your treatment was entirely successful in my case. If by publishing this you can influence others suffering with this dreadful disease to try your skill, you are at liberty to do so. Because the physicians who can cure this disease are very scarce, and when one is found skilled enough to cure it, I think the public should know it.

I remain yours, LYNDON W. CORNER First South and Third West.

From Mr. Warren Hussey, former banker of Salt Lake City, owner of Jay Gould Mine, Bullion, Idaho.

DENVER, COLO., August 2, 1878.

This is to certify that I have been for many years greatly suffering from nasal and bronchial catarrh, the pain from it in my head and eyes being at times almost unbearable. I have tried many doctors and remedies, with temporary relief from some, growing gradually worse, until last winter, when I had a very bad condition, I consulted Dr. Van Hummel and put myself under his treatment. From the first week my head and throat were relieved, have not had a headache since they were the bane of my life—since he began with me, and now I remain entirely well.

I write this for the benefit of like sufferers who may be seeking relief and urgently recommend them to give Dr. Van Hummel a trial. The benefit I had from his treatment is invaluable, and I know of many others he has treated equally successfully.

WALTER HOSBY.

The Cure is Permanent.

From a prominent capitalist, former owner of the Golden Tarn mine, Black Hills.

DENVER, COLO., March 6, 1879.

Dr. Van Hummel, Dear Sir: I am happy to inform you that the catarrh and throat trouble for which you treated me over a year ago has not returned. I consider the cure permanent.

Yours gratefully, J. W. BAILEY.

Dr. Van Hummel's professional qualifications are attested by one of the first men in America, Ex-Gov. T. A. Hendricks.

INDIANAPOLIS, Ind., Oct. 20, 1877.

Governor Irwin: Understanding that you will be called upon to fill a vacancy in the State Board of Health, I take pleasure in recommending Dr. Van Hummel for the position. Dr. Van Hummel was a long resident of this city, and a very near neighbor and friend of mine. He makes the treatment of Nose, Ear, Throat and Lung and other Chronic Diseases a specialty, and thereby has been very successful. He is also well learned in his profession generally. He is a gentleman of excellent habits and character, and would prove a valuable member of the Board. With great respect,

Yours, etc., T. A. HENDRICKS.

Letter from the right Rev. J. C. Talbot, Episcopal Bishop of Indiana.

INDIANAPOLIS, Ind., Feb. 19, 1874.

My Dear Doctor: You are entirely at liberty to use my name as one of your many references. Your skillful treatment of my wife, now nearly a year past, has entirely cured her of severe catarrh and cough, from which she suffered much for many years.

Jos. C. TALBOT, Bishop.

Consultations in person or by letter free and invited. Hours from 9 to 8 and 7 to 8 evenings, Sundays excepted.
