

A year ago the NEWS published the reproduction of a photograph of the first car of candy ever shipped out of the state of Utah. The enterprising firm who held the distinction of shipping this first car have now added thereto by shipping last week the second straight car to leave our state. Above cut should look good to all interested in the development of home industry. Startups' Candy has proven superiority to such an extent that practically all the dealers from Chicago west are handling their goods now. Their plant has been running night and day for many weeks. Startups' Candy is all made from Utah Sugar, and it pleases the people of the largest cities in the country it should certainly please those at home.

BERG & SON, UNDERTAKERS.

H. BERG & SON, the undertakers of Provo, are among the oldest and best known business men, having grown up with the people, therefore have the confidence and trust of the community. Besides being licensed embalmers, Berg & Son keep a full line of caskets, burial supplies, hearses, etc. The new and elegant parlors and ware rooms are located on east Center street, opposite the court house, where they have all the equipment necessary to a successful undertaking business throughout.

CHRISTMAS PRESENTS.

The giving of presents on Christmas day undoubtedly owes its origin to a general idea to carry into practice the biblical mandate, "Peace on earth; good will to men." At first the great lords made presents to their retainers, and the custom was marked by universal charity. By degrees the practice of Christmas giving spread until now everybody gives his or her friends presents.

WOMAN WHO ENDOWS COLLEGE IN MOUNTAINS OF KENTUCKY.

In the fastnesses of the Kentucky mountains, in the heart of Morgan county, there has just been erected a college in memory of Matthew T. Scott, of Bloomington. The project was suggested by Mrs. Scott, and met with favor by the Presbyterian synod of Kentucky. She was advised to select Morgan county, which is without any other educational enterprise of consequence. The site is near West Liberty, and is 15 miles from the nearest railroad, and can only be reached by a stage coach, and the route is very rough and circuitous. Mrs. Scott is widely known throughout the United States by reason of her prominence in the Daughters of American Revolution, having served as vice president general and in other positions in that society. The college was dedicated last week by Mrs. Scott's brother-in-law, Adlai E. Stevenson, former vice president of the United States. The enrollment upon the opening date was 115 students. Prof. J. W. Thurman, an educator well known, is the first president, and he has for assistants five teachers of ability.

SALT LAKE'S POSTOFFICE RANKS FIFTY-FIFTH IN UNITED STATES.

THE business as transacted by the Salt Lake postoffice for the current year, is epitomized below in tables which give a fair idea of the steady increase in the city's commercial interests. The official report of the department for the fiscal year ending June 30, shows the receipts from sales to have been for that period \$215,868.36, making this office the fifty-fifth in importance in the nation. The sales for the first 11 months of the current year show an increase of 22 per cent.

The official report shows further that the number of domestic money orders issued during the past fiscal year was 261,181, amounting in value to \$2,569,469.46; and the number of international

orders issued was 16,441, amounting to \$409,355.57. Moreover, the amounts deposited with the Salt Lake office as a depository for the offices out in the state, aggregated \$3,642,239.16. This last lends additional importance to the Salt Lake office as a central establishment. There are 15 small stations in the city at which money orders and stamps are sold and registered mail handled, while there are five full stations which do business the same as the main office.

The year is notable in that it has witnessed the transfer of the main office from the blocky block to the new federal building, where it has now a permanent home. An effort will be made the coming year, to increase the number of clerks and carriers, so that the business of the town will not suffer from any drawback through lack of mail facilities. The following are the figures of the office for the year:

Quarter Ending	Stamp Sales	2d Class Postage	Box Rents	Postal Deposits
1905, March 31	49,708.43	3,436.04	905.50	17,498.33

The following tables representing the business done by the money order department during the current year, shows a 10 per cent increase over the business of the year previous, and the figures of the total increase are very

gratifying. The statistics are estimated by the postoffice people as owing to the confusion attending moving, and the sudden rush of Christmas business the time could not be taken to compute week by week the actual figures.

MODEL MILLS OF SALT LAKE & JORDAN MILL & ELEVATOR CO.

Salt Lake & Jordan Mill and Elevator company, has two model mills one of 250 barrels daily capacity, situated in North Salt Lake. The other of 10 barrels capacity situated at South Jordan, Salt Lake county. This company will erect as soon as steel can be procured, steel elevators that will hold 50,000 bushels of wheat to provide fire proof storage. These elevators will be filled when wheat is plentiful and used when scarce.

During the year 1905 this company's mills have ground over 200,000 bushels of wheat. It has also run through its mills over 3,000,000 pounds of other grains.

The quality of Utah wheat is universally recognized and our mills are now placing upon the market flour and meals that are inferior to none.

The Salt Lake & Jordan Mill and Elevator company ranks among the most efficient and improved, maintaining plants that are in every respect modern. The firm manufactures all grades of fine Patent roller mill flour and meals which are deservedly given preference in not only Salt Lake but are shipped to neighboring towns, mining camps and cities. Our mills are among the largest of the state, having a daily capacity of 260 barrels and employing a large force of capable millers and workmen. The firm deals in all kinds of grain and mill stuffs, purchasing and selling the choicest cereals produced in the country, and has always a large supply on hand. Who has not heard of and learned to prefer above all other brands, White Fawn Flour and Germ of Wheat breakfast food? A more superior article has never been placed on the Utah market and no one appreciates this fact more than the housekeeper.

The officers of the Salt Lake & Jordan Mill and Elevator company are Thomas M. Munford, president; Louis A. Marks, vice president; R. M. Holt secretary, treasurer and manager, with C. B. Stewart and Joseph M. Holt which comprise the board of directors.

These gentlemen are all native sons of Utah and are well and favorably known by the people of Salt Lake and surrounding towns. They are progressive, reliable citizens, never letting pass an opportunity to do or say something for the advancement of Utah and her interests.
