SPEAKER CANNON AT WHITE HOUSE

Talks Over at Length, With the President, Various Legislative Matters.

AMENDMENT TO MEAT BILL.

New Proposition is to Give Secy. of Agriculture Full Control of Situation

Washington, June 17 .- Speaker Cannon spent some time at the White House tonight with President Roosevelt conferring on legislative matters. The speaker said, regarding the adjournment program, that he expects Congress will close up business and get away from Washington by the first of July.

Regarding the meat inspection legisintion, Mr. Cannon reiterated his opinion that safe and same legislation will he enacted, and that, notwithstanding differences on the matter of judicial review, everybody's constitutional rights will be protected. There are number of matters which are to be brought before the house under sus-pension of the rules, and Speaker Cansays that if three hours be de-d tomorrow for that purpose these can be disposed of. This in all probblity will be done, unless the house decides to immediately adjourn after convening, out of respect to the memory of Representative Lester of Georgia, who died yesterday. Members of the house committee on

agriculture including Representative eral officials of the department of ag-riculture, devoted some time today to discussion discussion di discussione di la discu of various features of the amendment proposed by the house which the president has pointed out his objections. There is to be a meeting of the full committee and an effort is being made to agree on some ground of modification

of the objectionable features, so as to facilitate action on the measure. Adams, who was at the White House Friday and was made acquaintpresident's views, exlamed them in detail to his colleagues

mmittee today. A suggested amendment, which Mr. Adznia says emanated from the deriment of agriculture officials, and tich it is said is favorably considered by the president, has been brought forward to eliminate the obections set forth by the president to the court review proposed by the amendment. This new proposition is designed to give the secretary of ag-riculture final control of the situation, a far as the question of the fitness f slaughtered animals for human food concerned, by the insertion of the lowing clause in the paragraph of the amendment relating to inspection and condemnation at the postmortem nation of such animals, "Which, judgment of the secretary of Healture, be unsound, unhealthful, wholesome and unfit for human d. This clause is suggested to take place of the words "found to be

sound, unhealthful," etc. is meet with opposition from the packa interests who object to delegating wealth or professional success.

NO REDUCTION

On Freight Rates on Building Material for San Francisco.

San Francisco, June 17 .- There will be no reductions on freight rates on building material to San Francisco and builders and property owners who have been hoping for some reduction in the rail rates on structural steel and other materials from the east will be destined to a serious disappoint-ment. It is announced on the authori-ty of the traffic department of the Southrn Pacific that no such reductions have been or will be considered by the transcontinental lines. It is explained that reductions in rates cannot be made to San Francisco without making them applicable to all other Pacific coast terminals. For this recent the coast terminals.
