## PROTECT OUR BREAD.

The machinery of the law cannot be put at work too speedily or too vigorously against the wholesale adulteration of the things we eat. Both the health and the pockets of the people demand protection.

There is no article of food in general use more wickedly adulterated than the lower grades of baking powder.

purest baking powder should be employed. The use of the ordinary cream of tartar, or of baking powders containing lime, alum and phosphates, carries deleterious ingredients into the food to the prejudice of the life and health of the consumer.

by statute in several localities. It will be in the interests of the public health when their sale is made a misdemeanor everywhere, and the penalties of the law are rigidly enforced.

The ordinary baking powder contains either lime, which, introduced into the system in too free quantities, causes serious disorders of the kidneys; alum, a corrosive poison, or lime phosphates, which are condemned by physicians as deleterious in their effect when taken under certain physical conditions. The Royal is the only baking powder on the market that is free from lime. alum and phosphates, and absolutely pure.
