spects to the President.

Washington, April 3.-Ex-Senators Thurgton, McBride and Lindsay, ex-Representatives Allen of Mississippi, and John F. Miller of Indiana, five members of the recontly appointed St. Louis Exposition commission, called upon the President today. Mr. Allen re-marked humorously after the interview that the commission had simply called to thank the President on behalf of the country for the wise selections he had made. Under the law the commission must organize at St. Louis under the direction of the secretary of state within thirty days after its appoint-ment. After leaving the White House the members of the committee saw

the state department and received their commissions. There was some discus sion as to the date upon which the committee would meet, but no agreement was reached, and it was left open until other members of the commission could be heard from.
