

EVENING NEWS.

Thursday, March 15, 1883.

FLOATING FRAGMENTS.

A house of three or four rooms wanted. See advt.

Another car load of oranges arrived last night. The wholesale price has advanced somewhat.

Read the advertisement, elsewhere in to-day's paper, of the Tabernacle Choir's excursion to Provo on Saturday 24th inst.

Why don't somebody, when he meets a friend, enter into conversation about the fine weather we are having for March. Changes are desirable.

The telegrams state that Jeremiah Sherwood, an old Californian, who landed on the coast in 1841, is dead. In the early days he was employed as clerk for Sam Brannon.

Yesterday was the 58th anniversary of the birthday of Brother Francis Platt, Counselor to Bishop Atwood, of the 13th Ward. In the evening, by arrangement of Mrs. Platt, the event was celebrated by a pleasant party, who partook of an excellent supper, engaged in a variety of musical and other pleasing exercises, passing a very agreeable time.

LOCAL AND OTHER MATTERS.

Coming Home.—A private dispatch from Omaha states that Hon. Geo. J. Cannon, Hon. T. C. Caine, wife, Fernand Little, Esq., and Geo. Romney Esq., were homeward bound, and would probably reach this city to-morrow night.

Rampant.—Yesterday Walter Forster, who becomes completely insane when he places himself on the exterior of intoxicants, was in that pitiable plight to-day. He became so violently furious and smashed the glass of a bay window of his house into fragments.

Going South.—We learn that our esteemed friend Brother J. H. Marquess, the well known surveyor, of Logan, purges making Arizona his future home. In this change Cache County loses an estimable citizen, while the new country to which he goes receives in him a valuable acquisition.

Concert.—There is to be a concert in the Twentieth Ward School-house, under the auspices of the Institute, for the financial benefit of that association. The date fixed for the affair is Wednesday the 21st inst. Some of the best local musical and histrionic talent will take part in the performances.

A Fatal Crash.—The other day, at Pine Bluffs, on the U. P. R. R., a brakeman named Harry Boper, was instantly killed while attempting to couple two cars, one of which had the Miller couple and the other the common bumper and pin. The Miller contrivance passed that of the old style, bringing the cars so close together that the unfortunate brakeman was flattened between the two.

A Terrible Story.—We publish to-day a thrilling story of the fearful fate of a portion of a party of prospectors who started from Utah about nine years ago. We have some recollection of intelligence being received here to the effect that such a party had perished, but cannot now call to mind any of the details. Going to the terrible tale having a local connection, it will doubtless be perused by our readers with more than ordinary interest.

Going to Provo.—The Salt Lake Tabernacle Choir have arranged to visit Provo City on Saturday, the 17th inst., leaving here on the 2 o'clock train, and giving a concert in the Provo Tabernacle that evening. Should the present fine weather continue, their numerous friends will doubtless take advantage of cheap railroad rates to accompany them on their trip to the garden city of Utah County. The terms appear in an advertisement in our columns to-day.

Shipping Potatoes.—We had a pleasant call to-day from Mr. Edwin Stratton, of Ogden. He reports business somewhat below par at the Junction City, but the usual amount of glowing anticipation in relation to the future of that prospective commercial head centre, is indulged in.

One branch of the produce business is moving in a lively way—the shipment of potatoes which bring 35 cents a bushel sacked, on the cars. The market for the superlative spuds, which are unusually abundant, is found to the eastward, notably in Denver. The Utah raisers of the tubers net about 27 cents a bushel on the product. The price is small, but any rate is better than having the article go to waste, to which condition large quantities would be doomed in the absence of an outlet.

Woolen Mills.—Some of the woolen mills adjacent to this city are announced as open for lease. We presume this is on account of the proprietors, because of other business, being unable to give this branch of manufacture the close attention which it requires. So far as the milk are concerned, however, it has been successfully demonstrated that they are capable of producing very excellent cloth, making it all the more regrettable that such useful institutions should, on any account, be idle. It is exceedingly doubtful that such mills can be successfully run by lessees, from the fact that the latter are more than likely to be parties of limited means. On this account they would be sure to be greatly cramped for the want of working capital for the purchase of wool and other materials. It appears clear, however, that those mills could be successfully operated on the co-operative plan, especially if the association of company engaging in it owned their own sheep, thus placing the affair substantially at least, if not completely above the perplexing complication of the wool market. The subject appears to be worthy the consideration of the Board of Trade.

Conference Rates.—The rates arranged by the Utah Central R. R. Co. for the coming Conference are as follows:

From the points named to Salt Lake City and return—Ogden, \$1.60; Summit, \$1.25; Kayce, \$1.60; Panguitch, \$1.60; Hatch, \$1.60; Tropic, \$1.60; Cannonville, \$1.60; Henrieville, \$1.60; Alton, \$1.60; Frisco, \$1.60; Milford, \$1.60; Dueset, \$1.60; Laramie, \$1.60; Jamb, \$1.60; Nephi, \$1.60; Mena, \$1.60; Santa Fe, \$1.60; Clayton, \$1.60; Spanish Fork, \$1.60; Springville, \$1.60; Provo, \$1.60; Lake View, \$1.60; Pleasant Grove, \$1.60; American Fork, \$1.60; Layton, \$1.60; North Junction, \$1.60; Draper, \$1.60; Sandy, \$1.60; Junction, \$1.60; Loveland, \$1.60; Germania, \$1.60; Franklyn, \$1.60; Morgan, \$1.60.

The trains from the north upon which the tickets will be good will commence running on April 4th, and those from the south on the 8th, and continue each day during Conference. The tickets will be good for return up to and including the 12th.

Corresponding reductions to the above will be made on the U. P. and U. & N. lines.

Reckless Shooting.—On the hills and bluffs near the mouth of City Creek, the reckless shooting done, especially on Sundays, is positively alarming. A few days ago a rifle bullet went crashing through the window of Brother George Opatshaw's house, near the waterworks. More recently a gentleman was riding along the highway on horseback, when a bullet whizzed past within an inch or two of his animal's throat and struck the ground beyond. A resident of the locality informs us that it is a common occurrence for bullets to whistle through the air over the house.

Unless a check is put upon this senseless and reckless shooting it will be the next thing to a miracle if somebody does not get seriously injured or killed. Parties in the Canyon have been on the lookout for the offending individuals, but thus far, before they could reach the spot from where the firing was done, the shooters had disappeared. If the practice is not discontinued it is to be hoped that those who exhibit such conspicuous indifference for the safety of human life and limb will be caught and adequately punished.

A Furor at Fetterman.—Fort Fetterman was in a fever over a circumstance that occurred there on Saturday night. A party of burglars entered the store of post trader J. W. Huges, about midnight. They made sufficient noise to awake a couple of clerks, and one of the counter-jumpers seized a revolver and emptied it at the intruders. The scare and hurry caused him to miss the objects of his sollecitude and they scampered and escaped, one of them leaving a rat-skin cap behind, the only clue to the bungling burglars. The head covering was such as is usually issued to the "boys in blue," so the string was thin. However, Captain Morton, the post commander, ordered all his men out on Monday, with the additional injunction that each produce his rat-skin cap. This caused a stampede after this particular headgear, there being consternation among parties who had lost theirs. Some being the possessors of two caps and accommodating dispositions, the matter was all arranged and each man appeared on special parade with his cap covered in accordance with the special order.

The "Utah Giant."—Mr. Harmon, known in some of the eastern cities as the "Utah Giant," is still around town. There has been a great deal of talk in the public journals about an intention on his part to enter upon the disreputable profession of prize fighter. He informed a representative of the News to-day that he had never entertained such an idea, as that pursuit was entirely contrary to his tastes. His appearance certainly bears out the truth of his statement, the contour and expression of his face, which is mild, indicating neither brutality nor marked combativeness. He says his friends and family are all in Utah, a portion of his relatives being at Mant and another at Holden, and he has returned to this Territory for the purpose of settling down. He is six feet eight inches high, wears a drab colored, broad-brimmed, soft felt hat and a black suit. He necessarily, on account of his unusual stature and correspondingly strong build, attracts attention wherever he appears.

Telephone Directory.—The Salt Lake Telephone Exchange Company are getting up a new list of subscribers, compiled in pamphlet form, and giving the number and location of their residences, besides describing the business of those engaged in mercantile and professional pursuits, combining a complete directory of all these who rent the telephones.

Treatment for the Scarlet Fever.—It is an unnecessary for a child to die of the scarlet fever as it is that it should be blind with a catarrh. Let us see. At any time before the body has finished its ineffectual struggle we are able to help it, not by wonderful medicines, but by the knowledge of anatomy and the application of common sense. We consult the sympathetic nerve, and do what it commands us to do. We cannot give this child salt when it wants it; we must give it acid when it has fever and anxiously craves it—not vinegar, but lemon juice, because the first congests the albumen, and the latter does not, on account of the surplus of oxygen which it contains. To imitate the soothing mucus in the intestines, which is now wanting, and to give some respiratory food at the same time, we add some gum arabic. To restore and relieve the injured nerve, we apply a warm catarrh. The practice we can follow all this with the following simple manipulations: Undress the child and bring it to bed at the very first sign of sickness. Give it if it has already fever, no thing but lemon juice. Warm it with some gum arabic in it. Then cover its abdomen with some dry flannel. Lay a well-soaked hot sheet and put it in the bed with water. Write it out dry by means of dry towels, and put this over the flannel on the child's abdomen. Then cover the whole, and wait. The hot cloth will, perhaps, require repeated washing to the body of the child.

one, and its stage of progress, perspiration will commence in the child in from ten minutes to two hours. The child is then saved; it soon falls asleep. Soon after the child awakes, it shows slight symptoms of returning inclination for food; help its bowels, if necessary, with injections of oil, soap and water, and its recovery will be as steady as the growth of a green-house plant, if well treated. Of course, if the child was already dying, nothing could save it, or if it has already expired in the lining of the heart or brain, it is much better that it should die. But if the above is applied in due time, under the eyes and direction of a competent physician, I will guarantee that not one in a hundred children will ever die of scarlet fever. I know this will satisfy some of my readers, especially those who have lost children already, but I shall go still farther. I maintain that a child will never get scarlet fever if properly treated. If a child is correctly nursed, it will not catch the disorder if put in bed with a sick child. This is still more startling, but nothing is easier of proof.—Good Health.

SPECIAL BUSINESS NOTICES.

THE MOST SUCCESSFUL REMEDY ever discovered, as it is certain in its effects and does not blister. And excellent for hemorrhoids. Beware of cheap imitations.

FROM COL. L. T. FOSTER, Youngstown, Ohio, May 10th, 1882.

Dr. R. J. KENDALL & Co., Gentles—I had a very bad hemorrhoid, which I tried to cure by various means, but failed. I was one day reading the advertisement of Kendall's Spavin Cure, and I got one of the bottles. I used it, and it cured me. I would give it to all my friends, and I would give it to all my enemies. I would give it to all my children, and I would give it to all my grandchildren. I would give it to all my friends, and I would give it to all my enemies. I would give it to all my children, and I would give it to all my grandchildren.

Kendall's Spavin Cure. Is sure to cure, mild in its action as it does not blister, yet it is powerful and powerful. It is a certain cure for hemorrhoids, and it is a certain cure for all other diseases of the rectum, and it is a certain cure for all other diseases of the rectum.

It is a certain cure for all other diseases of the rectum, and it is a certain cure for all other diseases of the rectum. It is a certain cure for all other diseases of the rectum, and it is a certain cure for all other diseases of the rectum.

It is a certain cure for all other diseases of the rectum, and it is a certain cure for all other diseases of the rectum. It is a certain cure for all other diseases of the rectum, and it is a certain cure for all other diseases of the rectum.

It is a certain cure for all other diseases of the rectum, and it is a certain cure for all other diseases of the rectum. It is a certain cure for all other diseases of the rectum, and it is a certain cure for all other diseases of the rectum.

It is a certain cure for all other diseases of the rectum, and it is a certain cure for all other diseases of the rectum. It is a certain cure for all other diseases of the rectum, and it is a certain cure for all other diseases of the rectum.

It is a certain cure for all other diseases of the rectum, and it is a certain cure for all other diseases of the rectum. It is a certain cure for all other diseases of the rectum, and it is a certain cure for all other diseases of the rectum.
