TO THE MUSICALLY INCLINED,

And to those desirous of

Learning Music!

Mrs. WHITE, of Rochester,

TEACHES Robbins' American Method for the

Piano-forte, which is so far superior to the

old method of teaching the Piano-forte, Melodeon or Organ that its full importance can

scarcely be estimated. It is a century ahead of

all other methods for the Piano—Pupils acquiring a knowledge of Music in an almost incredible short time.

References and letters of recommendations from the most eminent Professors of Music in the East.

Mrs. WHITE is stopping at the TOWNSEND

HOUSE for a limited time, where she can be

found, and full particulars learned. Private

tuition given.

d25-tr

FOUND.

A POCKET BOOK, with the name of Jordan

in it. Call at this office.

NOTICE.

AT a meeting of the proprietors of the Five

Acre Lots and City Blocks lying north of

the Church Pasture, the subject of levying up

the banks of the Jordan, and conducting the

waters of Canyon and Emigration Creeks direct to the Jordan River, was taken up and considered and a Committee, consisting of the following

persons, was elected: Bryant Stringam, R. T. Burton, R. J. Golding, J. W. Fox, Isaac Groo,

Royal Barney and Moses Thurston, to make an examination of the work required to accomplish this object, and estimate the cost to complete the same, and report at a meeting to be held at the 14th Ward School Room, on Saturday, February 15th, at 7 o'clock, P.M. All persons interested are requested to be present.

ABRAHAM HOAGLAND,

Chairman of said meeting.

Salt Lake City, Feb. 7, 1868.

d63-tr

President Heber C. Kimball understands that there are many in this city and in other places

adjacent, who have wool to card. He has put up a stove and has the place where his two double

carding machines work, in the 19th Ward, near

Pugaley's mill, and the Ward Meeting House, fitted up so that carding can be done occasionally

when the weather moderates. He also has David Le Baron to work them—a man whom

the people know to be honest, for he has been well known among them for many years. He

can cheerfully recommend Br. Le Baron as an

honorable man, who has always given satisfaction to his customers when running machines

for him. People bringing wool can have it done when they bring it, if there is enough at the

machines to run a day. Bring grease as usual, say one pound to seven.

If the people will not bring wool along to be

carded, the place will be closed.

Very respectfully, yours,

MATTHEW AND HYRUM GARDNER.

Correspondence.

Elder George A. Smith has courteously favored us with the following communication:—

ST. GEORGE, JAN. 21, 1868.

HON. GEORGE A. SMITH:

DEAR BRO.:—The principal events that I have to communicate out of the ordinary course are the appearance of

"Our Dixie Times," and the state of the weather. The early part of our winter

was warm and exceedingly rainy. The Clara and Virgin were higher than they

have been since the great flood in 1862, and about as high as they were then.

Our dams have been all washed away, and our ditches destroyed, in a manner,

as well as a portion of our best land. About three weeks ago we had a nine

inch snow fall, which has lain upon the ground until last night; but gentle rains

last night and the night previous have caused the most of it to disappear from

the valley. The hills and mountains around still retain a portion of their

mantle. Since the first snow a number of clouds have passed over us, leaving

other snow deposits, but these being warmer than that already on the ground,

served to lessen rather than increase the quantity after the lapse of a few hours.

I hear of cases of the whooping-cough and lung fever; William Lang is very

low with the latter disease.

Our roads are very muddy. We are remembering the honorable Legislative

Assembly with a few petitions of a local nature. Of course our "Dixie" Father's

will labor for their "Dixie" children's

weal.

Improvements are going on about as fast as our mechanics,—masons, carpenters and stone cutters can make them.

The body of a new school house has been put up in the third ward. The stone

cutters and masons are at work on the new Tabernacle. These are all the public

improvements now progressing, that I remember; the rest are individual

improvements.

JAMES D. MCCULLOUGH.

THE VOICE OF THE SHEPHERD.

SEVIER SIDE, Jan. 2, 1868.

Editor Deseret News:—Seeing an article in your paper a short time ago, on

sheep raising, I thought a few words from us would not be uninteresting.

We have got over 2,000 head of sheep in our charge, from Utah County. We

have herded them all last summer and up to the present time. We separated

the flock last spring, and herded the bucks by themselves, which, in my opinion, is the best way, for lambs coming

at this time of the year are not so good, even if they live. There are a few ewes

having lambs now, but the most of them will have their lambs in April and May.

The bucks were herded near Goshen settlement last summer, and got leave to

run in the field in the Fall, and now they are the poorest sheep in the herd, while

those which have been kept in the mountains all the time are fat and good.

Take them as a whole, the flock looks well; they are healthy and clean, and

disease has very nearly disappeared from amongst them. We are on the north

side of the Sevier river, on the sunny side of the hills. We move our camp

every two weeks. There is plenty of feed, with snow two inches deep. Concerning the quality of the wool and the

constitution of the sheep, etc., we will leave the future to speak for itself. But

we are of your opinion, and think we have as good a country for raising sheep

as anybody, and we cannot see any reason why we cannot have as good a quality

of wool.

Very respectfully, yours,

MATTHEW AND HYRUM GARDNER.

An eminent Dublin physician says:—

"If an end were put to the drinking of

port, punch, and porter, there would soon

be an end put to my worldly prosperity.

Physicians, surgeons, and apothecaries

would be ruined, and disease would be

comparatively rare, simple and manageable. Twenty years' experience has

convinced me that, were ten young

men, when of age, to commence and

continue daily drinking one glass of

ardent spirits, or a pint of port or sherry,

the lives of eight of them would be

abridged twelve or fifteen years."
