BIG CHAMPIONSHIP

Jeffries May be Greatly Surprised When He Faces the Miner This Week at San Francisco.

Camp Sheehan, Ocean Beach, Cal .-The arrival of Rid McCoy, with his regiment of cork screws, uppercuts and straight jabs, at the Munroe-McGrath camp, reminded me of the saying of Col. Henry T. Sumner of Oklahoma, when delivering the Decoration day oration at Guthrie in 1889, writes H. A. Caruthers, when he saw the G. A. R. yeterans on their march up the main street, he said: "When I saw them com ing no more joyfuller tears ever flowed." That expression is apropos, for the coming of McCoy was certainly a tonic Munroe camp. It also has given energy and interest in the great coming hatth

ergy and interest in the great coming ittle. When the puglistic history of e world was there ever two such gladi-ors as Jeff and Munroe? I can see thing but a fierce battle between the to most powerful men in the world, as contest certainly will place Jeffries the limelight, for he will be up against "sure enough" competitor, not egg ells that he has heretotore borne down on and crushed. Munroe is as big as it. I mean by that expression that it as far through and to his sensitive rever as it is to Jeff's. I can see now and will predict the line

a as far through and to his sensitive erves as it is to Jeff's. I can see now and will predict the line t battle the Kid bas laid and planned. I is the same line laid down in the 'id's campaign against Sharkey' the me he went down to defeat at the Len-X athletic club in New York in 1897, hat plan was a straight right to the alor's face and never a suce-step nor step-back. What was the result. The rst two rounds saw the sailor on his ack three times from the Kid's traight right. This the frail McCoy ept up until he had discharged his big albered frame.

callered fullets sent from his inductates collered frame. What a wonderful fighter McCoy would have been with 20 per cent of Jeffies ruggedness. To see him in action yes-terary was to compare him with a right pring charged with electricity beating on a solid granite wall and this granite wall was Murroe. The miner took three of four of the hardest blows I ever saw nelivered; any one of them was as hard as the blows that knocked Sharkey off has feet in his New York fight, altuded to above. These blows only brought forth from Munroe good natured smiles and a wondering look straight at the Kid, set much as to say; "Where does the kid's storehouse lay; and how far and m what direction from his lightning arms."

in what direction from the herman arms." Munroe can deliver a harder blow by using a straight right than dny man who ever hyed. This is a big-solunding sen-tence, but it is true. I believe Jeffries certainly was a stranger to such a blow every time he ever fought Sharkey, the only man who can be compared with Munroe who ever fought Jeffries. Jef-fries never used it in any of his fights, for the reason u is not in his repertoire. Every time Munroe used it on Sharkey, the sailor felt it and feit it thoroughly, Munroe is the best natured man in the he sailor felt it and felt it thoroughly. Munroe is the best natured man in the world. Now this is tantamount to fear-squess. This will be fully demonstrated he night of Aug. 26. One instruction ind one alone is all the Kid will have to be with in Munroe's corner the night of he fight, and that is a continuous boring in with straight rights by the miner. No smushes to the face, but with head hown and left up protecting the miner's stordown and left up protecting the miner's jaw with his gloved fist and his stom-ach with the elbow. No footwork. Be-cause a big, ponderous gun as Munroe is, has no license to attempt to unload with his feet in the air. It will be a fight by Munroe designated in law as "Possesio pedis." meaning possession of the mat by the foot. What will Jeffries, do with this super-human punching bag?. He must come to the miner and there the miner will stay until Jeff shows the world that he has-an "inspired" punch, for it will take one of them to put the miner to sleep. This notion of Jeff's friends saying he will go in and put the miner out in four founds or less don't look good to me. How is he going to do it? Has Jeff ever put anybody out in four rounds? Can he do it?

ing preparations for his go with Thompson McCarthy is at Boulder Springs. Nelson chatted pleasantiy yesterday about his coming fight with Herrera. He says he does not like to predict what he will do, but thinks he will be able to dispose of the Mexican in 15 rounds. Manager Murphy said: "We are going to beat Herrera at his ofti game, We will crouch when he does and meet him when he comes. Nelson knows enough about him to keep away from the punch. It will not be a case of either Broad or Yanger, Nelson will not ignore the punch and go in and take .""Nelson has a coment in aither hand

not ignore the punch and go in and take "Nelson has a punch in either hand. He knocked out both Canole and Han-lon with his left, and that shows there is a punch in 11. He cân stand more punishment than Herrera and is cer-tainly as clever, if not a great deal more so. I do not want to say too much and tulk as if I were boasting, but you cân remember thia we câm-here to win this tight. We have an old grindge to settle. That was when Her-rera knocked out, Sddie Santry after Santry had him whipped. I managed Santry and If one ef my boys is whipped, the victor has to do the trick for the entire stable."

TOMMY RYAN'S FUTURE.

Plans for Battles With O'Brien, Fitz and Kid MeCoy.

Tommy Ryan, the world's champlon middleweight puglisit, will return to the ring this rail, and, according to his pres-ent plans, high the three greatest bat-ties of his career. He will first meet jack O'Brien. O'-Brien has agreed to right him 20 rounds on the coast some time during the fail or winter.

the coast some time during the fail of winter. Ruby Bob Fitzs/mmons will be his next opponent. Ryan will challenge Fitz to fight him at the midaleweight himit for any number of rounds. If fitzsimmons endnot make the weight Ryan will take him on at catch weights.* The third battle planned by Ryan is with Kid McCoy. The entire pugnistic world knows that there is no love lost between Ryan and McCoy. Thay hates McCoy. This Ryan intends to make the last and most sensational mill of his life.

life, These three battles, if arranged, as Ryan has planned, will end the coam-plon's ring career. He means to re-enter the ring, startle the world by his new hold out life, liash for one season more as the greatest middleweight in the his-tory of the ring and then retire forever to his beautiful fruit larm near St. Je-seph, Mo., and spend the remainder of his days as a plain Missouri farmer.

try in the Lead. For Riley, Kan., Aug. 22.-The first day's firing in the team contest of the national match was completed at 5:30 p.m. today with the army infanitry team in the lead. The day was ideal in every respect. The heavy shower of the pre-ceding day cleared the atmosphere, and a low wind made it remarkably cool. Firing commenced at 7:45. with New York credit-ed with firing first. Today's program. firing at four ranges, was the longest of the match, so shooting was only discon-tinued at noon long enough for all to be served with a light lunch, which was served at the firing points. Major Gen-eral John C. Bates, commanding the northerm division, who arrived this after-moon, went directly to the range and re-mained until the firing was complete. He visited every team and inspected their scores.

"PENNY" GOSSIP.

The big battle for the heavyweight championship of the world takes place next Friday evening at San Francisco. Jeffries and Munroe are said to be in first class shape, and although the big fellow The first game between Salt Lake and Butte is scheduled for this afternoon at

Jeffries will enter the ring at 25 pounds, while Munroe will probably tip the scales at 210. The betting is now at 3 to 1 that Jeffries will win, and even money that the champion stops the Miner in by rounds. Manager Hengren of the saucer their will give Floyd Merarland a match ra-a with Billy Samuelson some time next week. McFarland is expected to arriv-here from New York on Thursday even-ing. He will probably not ride until the following Tuesday. Albert Champion, the French molor-paced toilower and motor-bleyele racha man, who competed here during the past retwy sears, has been doing well share his return to his native land. He has gone into sprint racing in France and has won the first two races in which he competed. sprint cycle racing without "team work" was tried at the Vallsburg cycle track last Sunday and indging from the eception by the 5.00 spectrators at the board track that day it is far more pop-uar than fracting in which teaming is allowed. With team work permitted the major portion of the prizes have been won by three or four riders, and unless a rider had a team make as god or pear-ly as good as himself he had little chance to figure in the list of winners. The managers of the tracks at Vallsburg and Manhattin Beach intend to run many more meets this year in which team work shall be barried, and they expect an increased interest in sprint rucing will cresult. One bad feature of team work which has been permitted only by the practessionals has been that some of the amateurs have made sub-rosa under-standings with their competitor and have practised team work, albeit it was not al-towed by the rules. lowed by the rules. The Hutte News says: Blatting Nelson came in last night from California and with his manager, Teddy Murphy, went at once to the Thornton hotel and registered. Nelson is an unassuming chap with a blonde top and laughing, blue eyes. He doesn't have much to say further than that he will train faithfully. It can literally be said that the woods are now full of the fighting clans. It is like it was a couple of years ago, when Gibbs and Clifford, and Herrera and oglesby were all training at different camps. Jerry McCarthy left this morn-ing for Boulder, where he will train for his battle with Lafontise. Mose will probably get into shape at Greg-son. Herrera will do his training at the Glympia brewery on the flats and Nelson has not yet decided on his training camp. Do you know that there are a lot of supposed exepris on the boxing game who really believe that Jack Munroe has a good chance of beating the present cham-plon in their contest next Friday night? Thowse who have watched the Butte miner trains say he has a frightful wal-lop and understands how to land it. Wouldn't there be a shake up if the min-er should win? Read what Jfm Corbett says about the coming fight: "I really think Munroe has a good chance of beating feffries," said Cor-bett. "My reasons for thinking this are: In the first place. I don't thick Jeffries will be in as good shape for the fight as be has been for his other championship battles, while Munroe, on the other hand, will be as thi as a fiddle Jeffries will mary too much weight, and I think it will make him slow. Munroe, I know, will be in the set of condition that will enable im to go a long distance with the big c'll have received letters from my broth. they're alright. fellow. "I have received letters from my broth-ers". Harry and Joe, who are in Sun Fran-clsco, telling me of the great shape Mun-roe is in, and how he has improved in his boxing since he fought Sharkey. Con-sidering this and the clever Kid McCoy teaching, during the fight, I believe that Munroe has a good chance of wrestiling the championship from Jeffries."

tow is he going to do it? Has Jeff ever put anybody out in four rounds? Can he do it? Where is his punch? Jeff is the world's great "bearing down champion." He don't stand there and mock a man's head off like he ought to. He wore Sharkey down by riding him around the ring and leaning on him. The can't ride Mumoe because Mumoe has the hardest stratght right punch extant today, while all Snarkey ever had was Dutch windmill swings. Jeff rode those swings like the buoy rides the waves of the sca, but in Mumoe's waves there is a sixteen-foot board that comes straight along with his stolld stand that if it lands Jeff will know it. If Jeff puts Mumroe out in six or eight rounds, then our time will never witness a fighter in Jeff's class and he should be retired by custom and common law of the prize time. You know the common law is a long custom of which the memory of man runneth not to the contrary Jeff can clain the championship of the world on the saif same custom if he disposes of Mumoe as he ought to, judging from the dope now at our hands. This dope says if it takes him ten or twelve rounds to lower a fast and shifty opponent he should measure the miner by about six rounds. Can he do it? It is worth com-ing 3,000 miles to see.
